

EFT Broadcast Viewing Methods:

SATELLITE

If you are lucky enough to have satellite capability at your school, you will need the following satellite coordinates. If you are asking your local PBS or Cable public access channel to carry the show, have the coordinates handy.

Ku-Band, AMC 03 DIG, Transponder 18-Ch 807, Orbital Slot 87° WL, Bandwidth 9 MHz, Downlink Frequency 12064 (V)—a 30-minute test period precedes the broadcast

C-Band: Galaxy 26C Transponder 05—Ch A, Orbital Slot 93° WL, Bandwidth 36MHz, Downlink Frequency 3800 (V) – a 30-minute test period precedes the broadcast

CABLE/PBS

Don't assume that your local cable access channel or PBS station is carrying the show. Call your local channel to check. Do this right away!

INTERNET WEB CAST

Watching the EFT via Internet webstreaming:

To broadcast the show to your students via the Internet, some equipment is necessary. You will need a computer with a high speed Internet connection, a projector, and a screen or television. You will also need the appropriate cables. Check with your school IT person or media center coordinator to make sure you have the proper equipment and know how to hook everything up.

Check your computer's capability. The webcast of the program is streamlined using Apple's Quick Time software. For best results, be sure your computer meets or exceeds the requirements for Quick Time software as set forth by Apple Computer.

MACINTOSH: 400Mhz Power PC G3 or faster computer, at least 128MN of RAM, Mac OS 9.2 or Mac OS 10.2.5 or later, the most up –to- date version of Apple's Quick Time Software, and a DSL, Cable or Institutional T1 or better Internet connection

WINDOWS: Pentium processor-based PC or compatible computer, at least 128MB of RAM, Windows 98/Me/2000/XP, the most up-to-date version of Apple's Quick Time software, and a DSL, Cable, or Institutional T1 or better Internet connection

Update your Quick Time software if necessary. Go to <http://www.apple.com/quicktime/download/> to download the free program.

Test your connection and software at <http://edcommunity.apple.com/ali/item.php?itemID=827>
