Asea Brown Boveri (Westinghouse) Records, 1955-1998

12 boxes; 15.5 cu. ft. and 1 oversize drawer

History

Westinghouse has been patenting and marketing electric equipment since the late 1800s with the development of the first light bulb. By the 1950s, Westinghouse had expanded to take on the project of building the most sophisticated and technologically advanced plant in Muncie, IN. The new plant would have the capability of producing the greatest transformers ever developed.

The location of the plant was particularly important; Westinghouse was looking for a well-educated work force to be employed at the plant, as well as a strategic location for receiving raw materials and shipping out completed transformers. With the help of research consultants and studies, Westinghouse chose site location #10 on Cowan Road in the southern part of Muncie over other sites in Muncie as well as those in Indianapolis and Fort Wayne, Indiana.

The Muncie community greeted the new industry and its job opportunities with gladness. The community was invited to attend the groundbreaking ceremony in 1959 and within two years, the more than 1 million square foot plant was finished. Westinghouse later sponsored open houses and family days. It donated money to Ball State University for the construction of Emens Auditorium and air-conditioners for Ball Memorial Hospital. The plant did very well economically in the 1960s and fairly well in the 1970s, producing the largest transformers in the world, not only in size but also in power. The Muncie Westinghouse plant received many visitors and also high rewards that were not just financial. The plant was named one of the world's top 10 manufacturing plants of 1962.

Westinghouse, like any other industry, was mostly concerned with economics, and was always concerned with taxes, competition, worker relations, and productivity. In the 1980s the company was hit hard by foreign competition though they tried to persuade the U.S. government to stop the flood of foreign-made transformers into the U.S. market. In 1988, Westinghouse planned to sell the Muncie plant to ABB (Asea Brown Boveri), a multinational corporation that also had interest in transformers. ABB took over in 1989 with restructuring the physical plant as well as the employment structure. The company continued in its success until 1998 when it left Muncie.

Scope and Content

The collection contains administrative records, plant construction records, news releases, newspaper clippings, and publications about the plant for the public, consumers, and the employees.

The OVB collection contains three scrapbooks and one book of Westinghouse newsletters.

The OVC collection contains maps, site locations, blueprints, drawings, newspapers, and plant layouts.

The P62 collection contains photos of people, the plant, aerial photos, transformers, and plant equipment.

F 32 is a film of the plant groundbreaking on November 5, 1959.

M. Long, Spring 1999

- 16 3 phase, KVA 100000, H.V. 230000, L.V. 120000
- 17 3 phase, KVA 360000, H.V. Y HV, L.V. ∈

Folder 3: **EMPLOYEE ORGANIZATION**

- 1 Chart, Manager to Workers, Stockman, Mechanic, and Typist
- 2 Plant Manager to Physician
- 3 Manufacturing Manager to Foremen
- 4 Manufacturing Staff Organization, 5-15-59
- 5 Administrative Organization, 5-15-59
- 6 Manager of Manufacturing to Supervisors, 8-10-60

Folder 4: **NEWSPAPER ARTICLES AND ADVERTISEMENTS**

- 1 Advertisement of Ground-breaking Program
- 2 Westinghouse Production
- 3 Section on Ground-breaking and Plant
- 4 Westinghouse Quality, Production, and Ground-breaking
- 5 Advertisement of "New Neighbor" - Westinghouse Plant
- 6 Article - Appreciation of Westinghouse

Folder 5: **PLANT LAY-OUT AND GROUND-BREAKING SET-UP LAY-OUT**

- 1 1 of 8 Model of Plant, Aisle 6 section
- 2 2 of 8 Bought Outside Stores Section
- 3 3 of 8 Annealing Lines Section
- 4 4 of 8 Machine Shop Section
- 5 5 of 8 Labels and Other Sections
- 6 6 of 8 Shell Type Coil Winding Section
- 7 7 of 8 Welding and Pre-Fabrication Section
- 8 8 of 8 Aisle 10 Section
- 2 Medical Department Lay-out

- 3 Drawing of Plant Lay-out
- 4 GE Co., Locomotive Truck Frame Fabrication
- 5 GM Co., Deck Plate Fabrication
- 6 Locomotive Assembly
- 7 Motor Assembly
- 8 Exhaust Valve Line
- 9 Diesel Engine Line
- 10 Harness Wiring Assembly and Control Panel
- 11 Ground-breaking Ceremony Seating Lay-out
- 12 Speakers Platform, Elevation "A"
- 13 Elevation "B"
- 14 Site # 10
- 15 Proposed Building Plot Plan
- 16 Kitchen and Cafeteria Lay-out
- 17 Manufacturing Plant Overlay
- 18 Proposed Sign and Location
- 19 Sketch of Permanent Partitions
- 20 Office Lay-out for Initial Operations, 1st Floor
- 21 2nd Floor
- 22 Proposed Rearrangement of Present Coil Winding Area
- 23 Sketch of Test Floor
- 24 Future Test Room, Section "BB" and "CC"
- 25 "AA"
- 26 American Bridge Lay-out of Steel Construction of Plant
- 27 Larger Drawing with Added Text
- 28 Property and Building Plan, 1966
- 29 Lighting Lay-out and Cost Comparison
- 30 General Lay-out of Building
- 31 Sketch of Building as an Aerial View

Folder 6: **SITE LAY-OUTS**

- 1 Site # 10
- 2 Site, North of 23rd Street
- 3 Site # 15
- 4 Industrial Site # 10
- 5 #19
- 6 Added Text
- 7 #10, Added Text
- 8 #16
- 9 #14
- 10 #19
- 11 #1
- 12 #10, Added Text
- 13 #10, Added Text

- 14 Railroad Track Proposal
- 15 Site #10, Added Text
- 16 Special Industrial Site
- 17 Plot Plan, East End Grading and Facilities
