Notes

All Macs are now Intel-based machines with MAC OS X 10.5.X (LEOPARD). One iBook G4 with Mac OS X 10.4 (Tiger) has been set aside for use with education software that can no longer run on the public Macs.

ADIUM is a multi-protocol instant messenger. While AIM, MSN and YAHOO! are still available on the Dock, ADIUM is recommended.

FINAL CUT EXPRESS: Version 3.5 is now available on all iMacs and MacBooks.

FINAL CUT STUDIO 2.0 is on the Mac Pros in the high performance section of Ed Res.

FINALE is music composition software available by request from the School of Music. It is available on the high-performance Mac Pros only.

FIREFOX comes with the UNIVERSITY LIBRARIES TOOLBAR 1.7.

IE:MAC and NETSCAPE 7 have been removed due to permanent loss of support.

KOMPOZER is a Web-page editor built on the Netscape Composer code base.

IWORKS (Pages, Keynote, Numbers) is currently not available on the UL Macs.

PHOTO BOOTH is active on MacBooks only (marked **Y**).

RAPIDWEAVER is a popular new Web-site editor built especially for Leopard. As it is available on all Macs and is easy to use, it is recommended over KompoZer.

SLIDE SCANNERS are on two iMac Alum computers (marked **Z**) are in Education Resources.

SOUNDSTUDIO is not available on the UL iMacs and MacBooks due to licensing issues. AUDACITY replaces it.
