Ball State University Department of Biology Standard of Conduct:

By participating in an internship program, you are a representative of the biology profession and Ball State University. Please leave a positive impression with everyone you encounter. You should display mature conduct and judgment at all times. A positive attitude, flexibility and cooperation will go a long way toward a very enjoyable and productive internship. Failure to abide by the University or employer guidelines may jeopardize your participation in the program. By signing below, I understand and acknowledge this standard of conduct.
