

# GATEWAY IDENTIFICATION FORM

(Additional Pages May Be Attached If Needed)

**Sector:** NE

(Please list as two digit abbreviation, e.g. RC = Regional Center)

**Proposal Number:** NE 6

(Please use the naming convention –Sector identifier plus an ascending numeral.)

## Location Of The Proposed Gateway Project:

Border of Washington & Center Townships; intersection of Fall Creek Parkway at 38<sup>th</sup> Street, with the Fall Creek Trail on the east side of the street, a prepared public art site on the northwest corner which is the southeast corner of the State Fairgrounds as well. The southwest corner is home to a new super BP gas and food station

## Significance/Rationale For The Gateway (Why Is This A Good Location? What Is Important About This Location?)

- Already under city street and infrastructure improvement with one of the highest traffic density reports in the entire community and the eastern linchpin to the Maple Road Redevelopment Project
- A convergence of symbolic historical, cultural, societal, environmental and tourist locations nestled in a residential/commercial environment bordered by greenspce with pedestrian and vehicular traffic to be coordinated

---

## Critical Issues (Adverse Or Positive Impacts To Infrastructure, Commercial Businesses, Neighbors, Future Development, Etc.)

- Already under city street and infrastructure improvement with one of the highest traffic density reports in the entire community and the eastern linchpin to the Maple Road Redevelopment Project – so many resources and changes are in the works that more new funds and plans need research for synergies
