The purpose of the Troyer Grant is to support student research. This support can come in three ways – 1) through financial support for travel to conferences or for research; 2) through financial support for study abroad/study away; and 3) through financial support for research with a faculty member. For all categories, please attach the requested information as well as a note indicating how this grant would help you achieve your educational goals.

1) For **conference travel**, provide the name of the conference, the dates, the title of your presentation, a letter indicating that your presentation has been accepted, and a budget for how funds will be used (mileage, airfare, hotel, conference registration, etc.).

2) For **research travel**, provide a brief summary of the project (maximum 500 words) and the need for travel, duration of travel, and a budget for how the funds will be used (mileage, participation fees, hotel, etc.)

3) For **study abroad/study away**, provide a brief summary of the program and how the program relates to anthropology.

4) For **research support requests**, provide a brief summary of the project (maximum 500 words). The summary should include the scope of work, including the primary research objectives and expected outcomes of the project. Also include the duration of the project. Provide a budget for how funds will be used (e.g. stipend, research supplies, participant support costs).

Note: Travel Authorizations must proceed all travel by 4 days minimum. No retroactive travel will be approved by the Dean’s Office and will not be reimbursed.
