Information contained in this publication was revised on September 4, 2020 but may be changed without notice.
Department of Counseling Psychology, Social Psychology and Counseling
Our department’s mission is to make a significant contribution to the fields of psychology and counseling through research, practice, service, and/or teaching, grounded in social justice and diversity paradigms tied to developmental, systems, holistic, and strength-based theories and strategies.

Philosophy of Training. We train students to become highly competent scientist-professionals in counseling, counseling psychology, and/or social psychology to conceptualize and assist persons in the context of their relationships, educational and organizational settings, communities, environments, and the larger world. Students are taught to address and advocate for the psychological, social, spiritual, vocational, educational, and physical well-being of individuals, families, groups, and organizations.

College of Health and Health Professions Building
Recognizing the evolving nature of our profession—as a health care profession training Health Service Psychologists—in 2016 our department joined Ball State’s newly launched College of Health (CoH). The mission of the CoH is to embrace an innovative, collaborative, and interprofessional environment for learning, discovery, and engagement. The learning environment is shaped by core content that enhances understanding of health and well-being throughout the life span. Discovery occurs across the health-related disciplines that comprise the college and readily engages students and faculty in a collaborative manner. Our commitment to interprofessional development and community engagement unites our faculty and students while strengthening our educational programs and serving the needs of the region, state, and nation. The CoH consists of the School of Nursing, School of Kinesiology, Department of Speech Pathology and Audiology, Department of Social Work, Department of Nutrition and Health Science, and Military Science. In Fall, 2019 a new Health Professions Building was completed and our department and training clinic has moved into this new building, equipped with state of the art training facilities.

Ranking of Department and University
The Department of Counseling Psychology, Social Psychology and Counseling (CPSY) was ranked 11th for scholarly productivity in four esteemed psychology journals, according to a study published in The Counseling Psychologist in 2005, and 8th in publications in The Counseling Psychologist in a study conducted in 2010. The American Psychological Association of Graduate Students recognized our Department as the 2005 Department of the Year. Three of our students were honored with the prestigious Ball State University Distinguished Doctoral Dissertation of the Year Award and one student has received an APA Minority Fellowship.

According to the U.S. News and World Report, Ball state University has three programs in its top 20 online programs. In 2016 Ball State received the Higher Education Excellence in Diversity award from “Insight Diversity” magazine for the campus commitment to diversity and inclusion. Additionally, Ball State was recently identified by College Magazine as the number one best college for students with physical disabilities. In 2006 and 2007, The Princeton Review named Ball State as one of the best universities in the Midwest. Muncie consistently ranks as one of the nation's most affordable college towns.

The Specialty of Counseling Psychology
As a recognized specialty within health service psychology, counseling psychology is a general practice and health service provider specialty in professional psychology. It focuses on how people function both personally and in their relationships at all ages. Counseling psychology addresses the emotional, social, work, school and physical health concerns people may have at different stages in their lives, focusing on typical life stresses and more severe issues with which people may struggle as individuals and as a part of families, groups and organizations. Counseling psychologists help people with physical, emotional and mental health issues improve their sense of well-being, alleviate feelings of distress and resolve crises.
They also provide assessment, diagnosis, and treatment of more severe psychological symptoms (CRSPPP, 2018)

Counseling psychologists focus on the following specialized knowledge, across all stages of development:

- Healthy aspects and strengths of clients (whether being seen as individuals, couples, families, groups or organizations).
- Environmental/situational influences (how cultural, gender and lifestyle issues shape people’s experiences and concerns).
- Issues of diversity and social justice (e.g., advocacy).
- The role of career and work in peoples’ lives. (CRSPPP, 2018)

**Ph.D. with a Major in Counseling Psychology**

**Program Aims and Competencies**

The Ball State University PhD program in counseling psychology aims to prepare students to acquire (a) the core knowledge of psychology and counseling psychology, (b) profession-wide competencies of the health service psychologist, and (c) the attitudes, values, and special competencies of counseling psychologists committed to multiculturally respectful and valid, social justice approaches.

The program prepares students to (a) create and disseminate scholarly research, (b) acquire knowledge and skills for competent assessment, prevention, intervention, supervision, consultation/interprofessional collaboration, and teaching, (c) use evidence-based practice, (d) and consider diversity and other contextual influences in all aspects of their work with special knowledge and experience in social justice.

Ball State graduates are prepared to function as health service providers, researchers, faculty, and private practitioners.

**Doctoral Program Profession Wide Competencies and Additional Curriculum Areas of Focus**

*Areas below marked with an asterisk indicate these are additional curriculum areas of focus in the Doctoral training program, but not program-specific competencies. Degree of training in these areas are variable by student interest and their individualized program of study. If the program’s name for a profession-wide competency varies from the the name of the competency in the Standards of Accreditation, the corresponding title is noted in parentheses.*

**Cluster #1 - PROFESSIONALISM**

A. Professional Identity*
B. Individual & Cultural Diversity
C. Ethics and Legal Standards and Policy (Ethical and Legal Standards)
D. Professional Values & Attitudes
E. Reflective Practice/Self-Assessment/Self-Care (Professional Values and Attitudes)

**Cluster #2: SCIENCE (RESEARCH)**

F. Scientific Knowledge and Methods (Research)
G. Research & Evaluation (Research)

**Cluster #3: RELATIONAL**

H. Relationships (Communication and Interpersonal Skills)
I. Interprofessional/Interdisciplinary Systems (Consultation and Interprofessional /interdisciplinary skills)
J. Consultation/Interprofessional Collaboration (Consultation and Interprofessional/Interdisciplinary Skills)
Cluster #4: APPLICATIONS – PROFESSIONAL FUNCTIONS

K. Intervention and Prevention (Intervention)
L. Assessment
M. Teaching*
N. Supervision

Cluster #5: SYSTEMS*

O. Social Justice*
P. Management/Leadership*

Faculty 2020-21: Research, Teaching Interests, and Awards

Sharon Bowman, Ph.D., HSPP, ABPP, LMHC (Southern Illinois University, 1989)
Research interests: diversity, including race/ethnicity, women, and LGBT; mentoring and supervision.
Teaching interests: supervision; multicultural counseling; and practicum. Bowman is the Department Chairperson and is a Fellow of the American Psychological Association.
Teaching interests: doctoral courses in supervision and advanced diversity, and master’s courses in mental health counseling and in practicum.

Dr. Bowman won the Section of the Advancement of Women’s (Division 17, APA) Foremother of the Year Award in 2020. The SAW Foremother is given to a person who has been a long-time contributor to the counseling psychology of women and has been extraordinarily supportive of the Section for the Advancement of Women and its mission.

Lina L. Burkhart, Ph.D., HSPP (University of Virginia, 2003)
Clinical interests: intervention and assessment services with children, adolescents, and families; parent-child relationships; parenting; emotional and behavioral disorders in children; integrated behavioral health. She has worked in a variety of settings, including primary care, hospitals, private practice, and schools. Dr. Burkhart is the Director of the Counseling Practicum Clinic and the External Practicum Coordinator for the PhD program. Please note that Dr. Burkhart does not chair/advise doctoral students.

Dr. Burkhart was selected to be a member of the BSU Antiracism and Intersectionality Faculty Learning Community (FLC) starting in the Fall of 2020. The FLC will create a toolkit of resources (readings, discussion prompts, hands-on activities, among others) that will include discipline-specific strategies. Through this collective commitment to antiracist and intersectional praxis within our classrooms and professional spheres, the FLC will contribute to realizing the university’s goal of institutional and inclusive excellence.

Jacob Yuichung Chan, Ph.D., HSPP, CRC (University of Wisconsin – Madison, 2009)
Research interests: vocational and psychosocial aspects of disability; positive psychology; therapist training; intersectionality; aggression and trauma. Teaching interests: research methods; practicum and internship supervision; psychosocial aspects of disability. Dr. Chan is the director of the master’s program in rehabilitation counseling.

Lawrence H. Gerstein, Ph.D. (University of Georgia, 1983)
Research interests: cross-cultural psychology; nonviolence; emotion recognition and regulation; sports for youth development; applications of social psychology. Teaching interests: research; social justice; cross-cultural and multicultural counseling. Dr. Gerstein is director of the Center for Peace and Conflict Studies, a George and Frances Ball Distinguished Professor, and Fellow of the American Psychological Association.
Dr. Gerstein won the 2019 APA Award for Distinguished Contributions to the International Advancement of Psychology. In 2020, Division 17 awarded him the Leona Tyler Award, an award in recognition of one’s enduring contributions to the field of counseling psychology. It is the highest award given by Division 17. He has published 100+ refereed journal articles, and four books including Theories of Counseling and Psychotherapy, International Handbook of Cross-Cultural Counseling, and Handbook for Social Justice in Counseling Psychology.

Ashley Hutchison, Ph.D. (Ball State University, 2013)
Research interests: international and multicultural issues, emotion expression, sexual violence prevention, and vocational psychology. Teaching interests: multicultural counseling, group counseling, supervision, research methods, theories, professional training issues. Dr. Hutchison is the Doctoral Training Director.

Mary E. Kite, Ph.D. (Purdue University, 1987)
Research Interests: Gender-based prejudice, ageism, anti-gay prejudice, scholarship of teaching and learning. Teaching interests: Psychology of prejudice and discrimination; social cognition; research methods; training for new course instructors. Dr. Kite is a Fellow of the American Psychological Association and the Association for Psychological Science.

Dr. Kite received a grant in 2020 through the APS Fund for Teaching and Public Understanding of Psychological Science for her proposal, “Breaking the Prejudice Habit: A Website Update.”

Kristin Perrone, Ph.D., HSPP, LMHC (Virginia Commonwealth University, 1998)
Research interests: social, cognitive, and affective neuroscience; EEG/Event Related Potentials; attachment relationships; emotion; giftedness/intelligence. Teaching interests: counseling skills and theories; research methods; group therapy. Dr. McGovern is a Fellow of the American Psychological Association.

Paul Spengler, Ph.D., HSPP (State University of New York at Albany, 1991)
Research interests: clinical judgment and decision-making; stereotyping and prejudice; psychotherapy processes; and emotionally focused couples therapy. Teaching interests: assessment; psychotherapy theory and research; family therapy; emotionally focused couples therapy; research methods; practicum training. Dr. Spengler is a Fellow of the American Psychological Association and director of the master’s internship program.

Alexander Tatum, Ph.D., HSPP, CST (Loyola University Chicago)
Research interests: health outcomes of sexual and gender minority (SGM) employees’ workplace environments, psychological outcomes of SGM minority stress processes such as internalized homogativity/transnegativity, and sexual health, broadly defined (e.g., sexual pleasure or lack thereof, kink/BDSM, internalized shame, HIV/AIDS). Teaching interests include vocational psychology, human sexuality/sex therapy, research methodologies, and practicum/internship.

Kelsey Thiem, Ph.D. (University of Iowa, 2016)
Research interests: stereotypes, intersectionality, diversity and inclusion in STEM, attitudes and persuasion. Teaching interests: social psychology, the psychology of stereotypes, prejudice and discrimination, social cognition, attitudes and persuasion.

Molly Tschopp, Ph.D., HSPP, CRC (University of Wisconsin – Madison, 2002)
Research interests: implications of chronic illness; attitudinal barriers to rehabilitation and recovery; empowerment and advocacy issues; mental health service provision. Teaching interests: rehabilitation counseling; medical and psychosocial aspects of disability; psychopathology.
Stefania Ægisdóttir, Ph.D., HSPP (Ball State University, 2000)
Research interests: psychological help-seeking; coping; test development; cross-cultural/international psychology; generalization of psychological concept across nations; psycho-education; community outreach; prevention; application of social psychology constructs to counseling. Teaching interests: research methodology; assessment; program development and evaluation, multicultural counseling; career issues/theories. Dr. Ægisdóttir is the director of the master’s program in Clinical Mental Health Counseling and a Fellow of the American Psychological Association.

University Facilities, Services, and Support
Facilities of Department of Counseling Psychology, Social Psychology and Counseling

The CPSY departmental offices are located on the 4th floor of the HPB. The department operates an in-house community mental health clinic, the Ball State University Counseling Practicum Clinic, which is located on the 1st floor of the HPB. The clinic has been established as a clinical training and research facility for graduate students in the CPSY department and allows for significant opportunities for the provision of intervention and prevention services, instruction, modeling, and supervision. Individuals from the Muncie and surrounding communities can receive low-cost counseling and psychological services for a variety of presenting concerns. The clinic serves children, adolescents, and adults through individual, group, couples, and family counseling modalities. The clients are counseled by the CPSY graduate students under the supervision of, and in consultation with, the faculty.

The clinic has a full-time director who is responsible for the overall administration and operation of the clinic, ensuring that the provision of services is consistent with professional ethical guidelines and standards, and state law. The clinic also has a full-time Clinic Coordinator, whose major responsibility is to manage the daily operation of the clinic. Lastly, there is a Clinic Training Advisory Committee (CTAC), which consists of the Clinic Director, Department Chair, Clinic Coordinator, Clinic Assistants, and faculty/professors who are involved in clinical training. This committee assists the Clinic Director in the overall administration and operation of the clinic and oversees training activities.

The Counseling Practicum Clinic has 20 counseling rooms, including a sand tray therapy room, play therapy rooms, family therapy rooms, and group therapy spaces. All counseling rooms are equipped with a state-of-the-art video recording system, which allows not only for recording but live observation. There is a large Interprofessional Work/Charting Room located on the 1st floor of the HPB, that is equipped with computers where students are able to complete clinical documentation in the electronic health-record system. This work area also consists of 12 private rooms which can be used for reviewing video-recordings of counseling sessions, engaging in supervision meetings, or working together with other students in small groups. The HPB has many other work areas for College of Health students, which includes a library and a large area specifically reserved for students with graduate assistantships.

University Student Services
Approximately 21,000 undergraduate and graduate students are enrolled at Ball State. Several university offices offer various kinds of support to help students who may need a variety of support. The Office of Scholarships and Financial Aid, (765-285-5600), has information about and applications for student loans. Admittance to the doctoral program includes a required doctoral assistantship described in detail later in this document.

The Student Health Center includes an outpatient clinic and infirmary providing care for acute illness and injuries. The Housing and Residence Life Office, (765-285-8000), has information about graduate residence halls, family housing, and off-campus housing. The Office of Disability Services is available to assist students with disabilities and ensure equitable access to campus resources and learning. The
Multicultural Center offer programs and events throughout the year that educate the Ball State community, support students of color, and celebrate faculty, staff, and students’ achievements, and the Center for International Programs offers activities and support for international students.

The Counseling Center (APA-accredited internship site) is available for free testing, study-skills assistance, and personal counseling. The Center offers practicum opportunities for graduate students to provide counseling and outreach services to clients served by the Center.

Recreational activities such as a symphony orchestra, concert and artist series, and fitness/sports facilities on campus are offered free or at reduced rates for students.

**Estimated 2020-21 Academic Year Costs for Graduate Students** *(from Ball State Graduate School website)*

*Please note that these fees are approximate and may differ at time of payment. Students receive tuition waivers as part of their assistantship assignments. Students are responsible for covering Student Services Fee each semester of enrollment and small portion of their semesterly tuition. See the below “Doctoral Assistantship and Residency” section for information about available funding for students.*

Additional expenses *(estimated, will vary widely by students)*: Books/supplies, $1,330; personal expenses/transportation, $3,200 to $3,800.

See the following website for additional information on tuition and student fees [https://www.bsu.edu/admissions/tuition-and-fees](https://www.bsu.edu/admissions/tuition-and-fees)

**Living in Muncie**

The university is located in Muncie, Indiana, a city of approximately 70,000 residents. Muncie is in east central Indiana, about 60 miles northeast of the state capital, Indianapolis. Other nearby cities include Fort Wayne (80 miles away), Cincinnati (120 miles away), and Chicago (200 miles away).

**Diversity Committee**

Ball State is committed to increasing the recruitment, enrollment, and retention of students from diverse cultural and ethnic backgrounds. The CPSY Department shares this commitment; a more diverse student body provides a better learning environment for all students. In 1988, the Department established a Multicultural Programming Committee (MPC), now called the Diversity Committee, to assist in recruitment and retention of diverse students. The Diversity Committee includes a mix of faculty and graduate students. One of the committee’s goals is to increase the number of applicants from cultural groups underrepresented in the profession, and to ensure that all applicants receive fair consideration.
The Diversity Committee’s second goal is to encourage a multicultural perspective in the coursework and training experiences of all students, regardless of cultural background.

Admission Requirements and Evaluation

Applicants must apply online through the Graduate School application. Following file review and an interview process, the faculty of the various graduate programs make recommendations for admission to the Dean of the Graduate School. Offers of admission are not official until approved by the Dean of the Graduate School. Official admission decisions are communicated to applicants by email from the Dean of the Graduate School.

We recommend that interested persons review application information at https://www.bsu.edu/academics/collegesanddepartments/cpspc/admissions-and-financial-aid/apply-to-doctoral-program for more detailed instructions. Prospective applicants may also contact the admissions coordinator, Barb Irvin, at cpsygrad@bsu.edu, or the director of training, Dr. Ashley Hutchison, at anhutchison@bsu.edu with additional questions.

General Background of Candidates Selected
The Department prefers candidates who have strong backgrounds in psychology and work experience related to counseling psychology. Candidates may hold a bachelor's or master's degree. In terms of bachelor's-level applicants, we prefer individuals who majored in psychology, but this is not required. Master’s-level applicants must have majored in counseling, counseling and guidance, psychology, educational or school psychology, clinical psychology, social work, or a related field. Successful applicants demonstrate a fit for the program and faculty in both research and clinical interest areas. Candidates admitted with only a bachelor's degree will first pursue a master's degree in counseling in our program and will be officially admitted into the doctoral program upon successful completion of their master's degree. Until this time, they will be conditionally admitted into the doctoral program.

Application Dates
All application materials must be submitted by December 1st. Application and materials are due on the specified dates by 11:59 p.m. Eastern time. We strongly recommend that all international materials be submitted by October 15th in order to be processed in time for the December 1st deadline.
Tentative Timetable:
Initial Screening is from mid to late December
Notification of admission status will be in late December to early January
Interviews date will be in January or Early February

*NOTE: For the 2020-2021 application cycle, all interviews will be conducted virtually/online due to the continuing COVID-19 pandemic.

Candidates begin the program and assistantships in August.

Background Required
Bachelor's candidates:
1. Bachelor’s degree from an accredited institution and have an overall bachelor’s GPA of at least 3.2 on a 4.0 scale.
2. Completed at least 15 semester or 24 quarter hours in undergraduate psychology classes with a GPA of 3.2 in such courses. Psychology majors are preferred, but this is not required.

Master's candidates
1. Master’s degree from an accredited institution and have an overall master’s GPA of at least 3.2 on a 4.0 scale.
2. Completed four graduate courses in counseling or counseling psychology, including Theories, Techniques, and Practicum. If Theories and Techniques are taken as one class, then Practicum and two other classes in counseling or counseling psychology are required in addition to the Theories/Techniques class. The Practicum experience must include direct counseling/therapy service provision.

Materials To Be Submitted for Application

International Applicants: International applicants are strongly encouraged to begin submitting all by October 15. The Department must have all application materials, including unofficial transcripts, WES, GRE, and/or TOEFL scores as relevant, in order to conduct an initial application review soon after the application deadline. Given it often takes 6 weeks or more to transfer scores, we recommend International applicants begin score transfer requests no later than October 15 or earlier. If your application is incomplete as of the application deadline of December 1, we will be unable to consider your application.

Materials required by the Department and the Graduate School before December 1st deadline:

1. Online Graduate School Application: Application found on the Graduate School Website: http://cms.bsu.edu/academics/collegesanddepartments/gradschool/admissions/application-process. Within the graduate school application, choose the “Counseling Psychology PhD” program. You will be prompted to answer program specific questions and upload the following additional materials: curriculum vitae (CV) and a brief autobiography (prompt provided in the online system) on your applicant status portal following submission of the application. After submitting your application, your application portal will open within 24-48 hours. Submit your supplemental department materials in the portal by the deadline of December 1 (international applicants, again we recommend completing materials earlier).
2. Three (3) Letters of Recommendation: Applicants must submit three letters of reference directly to the Graduate School online application. Letters should be provided by persons familiar with your academic and professional performance.
3. An Unofficial Transcript from Degree/Certificate Granting Institutions of Study. This includes transcripts from institutions granting degrees and institutions at which applicants wish to demonstrate prerequisite coursework. If offered an interview, students will be requested to provide official transcripts from institutions where they earned degrees, certificates, or institutions where they are currently enrolled. (If you are a student or graduate of Ball State, the Graduate School will obtain your transcripts that are already on file). Credentials earned at an institution outside the U.S. must be evaluated by International Admissions. Consult International Admissions for assistance on transcript requirements.
4. Graduate Record Examination Scores – *** For the Fall 2020 application cycle, the GRE score requirement will be waived. You are NOT required to submit GRE scores and GRE scores will not be evaluated during the application review.

Applicant Evaluation by the Department
The application review is a three-step process. Credentials submitted by applicants are reviewed by the Department at each step. Successful candidates will be those who reach Step 3.

Step 1.
1. Received by date of entry a bachelor's degree or master’s degree from an accredited institution.
2. An overall undergraduate (bachelor’s-level applicants) or graduate (master’s-level applicants) grade-point average of at least 3.2 on a 4.0 scale.

3. For applicants with a bachelor's degree, taken at least 15 semester or 24 quarter hours in undergraduate psychology classes with a GPA of 3.2 in such courses. Psychology majors are preferred, but this is not required. For applicants with a master's degree, taken four or more graduate courses in counseling or counseling psychology, including Theories, Techniques, and Practicum. **Consideration will be given to a master's degree applicant only if the person is currently enrolled in or has completed a beginning practicum or its equivalent.** If the applicant is presently enrolled in such a practicum, acceptance to the doctoral program will be contingent upon its successful completion (with a grade of B or better).

4. Submitted all required application materials by the deadline.

**Step 2.** If conditions of Step 1 are met, the following criteria as a whole are considered:

1. **Quality of Transcripts.** Preference will be given to applicants with broad training in psychology. The Graduate School minimum GPA is 3.2 on a 4.0 scale, but successful applicants to the program generally have undergraduate or graduate GPAs higher than 3.5.

2. **Types of Experience.** Applicants who have experience in counseling psychology or closely related subjects are preferred.

3. **Professional/Scholarly Activity.** Preference will be given to applicants who have completed a thesis, published professional articles, or have presented research, conducted workshops, or presented other material to professional societies, or assisted with research. Applications are also evaluated based on demonstrated fit for the program and respective faculty members.

4. **Letters of Reference.** Consideration will be given to the qualification ratings circled on the three recommendation forms as well as to the written comments.

5. **Applicant’s Autobiography, Professional Goals, Philosophy of Human Behavior and Counseling, Vita, Multicultural and Social Justice Experiences and Interests, and Matching Interest Form.** Preference will be given to applicants whose professional goals match the purposes of counseling psychology, the goals, philosophy, and values of the program, and fit with faculty. The autobiography will also serve as an example of the applicant’s writing skills.

**Step 3.** Faculty review each applicant’s file according to the listed criteria and rate each applicant individually. Composite ratings are then computed and ranked. Using these reviews, two groups of applicants are identified:

*Invited for interview.* Approximately 30 applicants are invited for a one-day, on-campus interview. Applicants meet with faculty and students, and are introduced to the Ball State campus. If an on-campus interview is not possible, alternate procedures will be arranged. **NOTE: For the 2020-2021 application cycle, all interviews will be conducted virtually/online due to the continuing COVID-19 pandemic.**

*Not invited for interview.* These persons are denied admission for the coming year.

Once interviews are completed, faculty’s final ratings are compiled and recommendations for admission offers are made based on these ratings and overall fit with the program and faculty members. Applicants who receive an offer have until April 15 to decide whether to accept the invitation to join the program.

**Applicant Pool**

80+ applications have been considered annually in recent years. Each year, up to eight students are admitted into program at the Masters degree level. Each year, up to two students are admitted into the program conditionally at the Bachelors degree level.
Attrition Rate

We accept only students who we believe will complete the program. Please see our Student Admissions, Outcomes, and Other Data document at the below page for the most up to date information on our program outcomes.

Acceptance of Offer for Admission to the Program

The Department supports the following statement adopted by the Council of Graduate Schools in the United States:

Resolution for Graduate Scholars, Fellows, Trainees, and Assistants

Acceptance of an offer of financial support (e.g., graduate scholarship, fellowship, traineeship, or assistantship) for the next academic year by a prospective or enrolled graduate student completes an agreement that both student and graduate school expect to honor. In that context, the conditions affecting such offers and their acceptance must be defined carefully and understood by all parties. Students are under no obligation to respond to offers of financial support prior to April 15; earlier deadlines for acceptance of such offers violate the intent of this Resolution. In instances where a student accepts an offer before April 15, and subsequently desires to withdraw that acceptance, s/he may submit in writing a resignation of the appointment at any time through April 15. However, an acceptance given or left in force after April 15 commits the student not to accept another offer without first obtaining a written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer. It is further agreed by the institutions and organizations subscribing to the above Resolution that a copy of this Resolution should accompany every scholarship, fellowship, traineeship, and assistantship offer.

Curriculum Requirements

Basic Requirements

Please note the following curriculum reflects the required coursework and experiences in our doctoral program. Applicants with only a bachelor's degree must also complete coursework and experiences required in one of our Department's master's programs in counseling. These programs include clinical mental health counseling, rehabilitation counseling, or a double major in social psychology and clinical mental health counseling.

Total hours. 105 (minimum) to 111 semester hours of graduate work beyond a bachelor’s degree are required for graduation.
Minimum Time On-Campus. Two full-time academic years after the master’s degree are the minimum time required. Most students are full-time, on campus for three years. In their fourth year, most students complete a full-time internship.

Major. The major must consist of a minimum of 73 semester hours of graduate work. Depending on the student’s background, students will have a 73-hour major with two 15-hour cognates (a total of 103 semester hours) or a 73-hour major with one 24-hour cognate (a total of 97 semester hours).

Transfer Course Work. Courses successfully completed during the student’s master’s program may be used to meet some course requirements, subject to approval of the course’s instructor, advisor, and director of the doctoral program. Students must complete at least 48 hours in the doctoral program at the Ball State campus.

Doctoral Assistantship and Residency. All students are required to complete at least 2 academic years in residence as full-time students in the program, after a master’s degree has been obtained. Although only 2 years are required, students are strongly encouraged to complete a third year on campus, during which the dissertation is proposed and completed, before beginning an internship. Bachelor’s-level students admitted to the doctoral program will be offered assistantships in the Department. The typical assignment for such persons will be work in the Practicum Clinic or CPSY Office. All first-year doctoral students entering with a master’s degree are required to accept the assistantship. However, one first-year student each year may decline the assistantship, with the permission of the Department. The request must be made in writing when the offer of admission is accepted; approval will be determined once the doctoral class is complete. Students may decline the assistantship after the first year. Summer monies are usually available. During the assistantship period, a full-time commitment to the program is required. The assistantship carries a stipend. For the 2020/21 Fall and Spring Semesters, our doctoral students will earn approximately $11,200.

For students on assistantship, tuition is waived for the entire calendar year; however, student fees and a small portion of the remaining tuition are paid by the student. On average, this is roughly $1500 each Fall and Spring semester, and $1100 each Summer semester. The assistantship training assignments constitute an integral part of the doctoral training program. Students must complete four training assignments during the course of their program whether or not the assistantship is accepted. These include teaching undergraduate courses, staffing the Department’s Practicum Clinic, serving as a research assistant, and supervising master's-level trainees. Most master’s-level students are able to graduate from the program in four to five years, including the internship year. Most bachelor’s-level students are able to graduate from the program in six years, including the internship year.

Dissertation. DISS 799, Doctor’s Dissertation, must be taken for a minimum of 10 hours. The dissertation must be psychological and scientific in content, method, and analyses.

Program of Study
During the doctoral program, each student must complete the following course work:

D. Cognates

A cognate at Ball State offers you the opportunity to develop special knowledge and skills in areas of interest. A cognate consists of either one, 24 or two, 15 credit hours of coursework and/or practicum. Consistent with APA’s CRSPPP Taxonomy (APA, 2012), the PhD in counseling psychology offers cognates that allow for either a major area of study or an emphasis in

- Rehabilitation Psychology
- Clinical Health Psychology
- Clinical Neuropsychology
- Family Psychology
- School Psychology

Cognates also allow for a focus in

- Anthropology
- Consultation

**Time to Completion**

Please see our Student Admissions, Outcomes, and Other Data document at the below page for the most up to date information on our program outcomes. 
https://www.bsu.edu/-
/media/www/departmentalcontent/counselingpsychology/pdfs/new%20website%202018/2019%20doc%20outcomes.pdf?la=en&hash=C8566BCC1D2A8FA753DDEDEDE515329D8299B283

**Doctoral Committee Formation**

Upon admission, students are assigned a faculty member as their Chair. During the Fall semester of the first year, students work with their Chair in selecting their committee. Students’ doctoral committee will consist of two faculty from the Department of Counseling Psychology, Social Psychology and Counseling (one of whom serves as the chairperson), one or two cognate representatives, and an at-large university member who is chosen by the student or appointed by the Graduate School. Committee selection is based on mutual agreement between the student and the faculty members selected. In general, each faculty member in the Counseling Psychology Department is limited to chairing three committees over a two-year period and serving as a member of two committees for each entering class.

**Examinations**

All doctoral students, including graduates of our master's program, must complete an APA ethics examination prior to seeing clients. A score of 80% on this examination is considered a pass. A practitioner’s skills examination, also required of all students, will normally be completed during the student’s second year and must be passed prior to applying for internship. Students complete comprehensive preliminary examinations (written and oral, see Graduate Catalog), normally after completing two years on campus in the program. Students must pass the examinations prior to applying for internship. Students must successfully defend their dissertation proposal by February 1 of the year in which they submit rankings for internship.

**Internship**

CPSY 799, Internship in Counseling Psychology (0 credit hours), must be taken for an academic year, full-time, or its equivalent over two years, for a minimum time of 1,500 hours. The recommendation is that students take a calendar year internship, or its equivalent over two years, for a minimum time of 2,000 hours in an APA-approved site. Sites not approved by APA must adhere to the department’s internship policy.
In general, our students have done extremely well in securing an excellent internship placement. Most have been placed in one of their top three ranked internship sites. Matched sites are diverse in nature, including sites such as university counseling centers, medical / hospital settings, the Veteran’s Administration, the Air Force, community mental health centers, corrections facilities, etc.

Information on internship match rates and outcomes can be found at the Student Admissions, Outcomes, and Other Data document at the below page.

Performance Requirements

Comprehensive Review of Practitioner Skills
A major objective of the program is that our students function as capable practitioners upon graduation. Our system for ensuring competence involves two evaluation procedures. The first consists of a series of faculty evaluations of practitioner skills. All doctoral students are required to see clients throughout their time on campus. Their activity with their clients is supervised and evaluated by the faculty through either group or individual supervision. Almost all regular faculty members are licensed psychologists with state certification or are license-eligible. Deficiencies in practice are determined and necessary corrections effected. Practitioner skills are developed through a variety of courses, each requiring direct client contact and formal supervision. During assistantship rotation, students are assigned to the Practicum Clinic office, where they have further client contact. In all of these activities, the student’s committee monitors the student’s development as a counseling psychologist.

The Comprehensive Review of Practitioner Skills or Portfolio Exam is an evaluation procedure modeled after the ABPP examinations. In this evaluation, students submit samples of their best work to a panel of the faculty for evaluation. It should be noted that any work appropriate to the role of a Counseling Psychologist (e.g., counseling, career development, workshop planning, teaching, research, psycho-education, consultation, social action) is acceptable. The description of this procedure follows.

Graduation
Formal application for graduation must be made through the Graduate School according to the deadlines established by that office. One of the several forms required by the Graduate School is an updated course-check sheet, which must be approved by the director of training. Over the years, our graduates have secured excellent positions in a host of settings, such as in academia/faculty positions, private practice, the VA, hospital/behavioral healthcare settings, university counseling centers, the military, corrections facilities, and others.
