The following slides present our students' scores on the CPCE National Exam (2020-2023).

To pass this exam is a requirement to be eligible to graduate from the Clinical Mental Health Counseling and Dual Social Psychology and Clinical Mental Health Counseling programs.

On these slides, our students' scores are converted into Z-scores/standardized by using the scores of the national sample at each time of testing.

To interpret:

1. A mean score of zero indicates, on average, that our students are performing as well as the national sample of test takers
2. A mean score above zero means, on average, that our students are performing better than the national sample of test takers
3. A mean score below zero indicates, that on average, out students are performing worse than the national sample of test takers
