ASTR 100: Introductory Astronomy: (30 A Study of the Solar System and Beyond (3) The course addresses the study of the physical nature of objects in the universe and the methods used by astronomers to understand them. It also provides an overview of the techniques used to acquire the knowledge of how we know what we know about the universe. Topics include history, basic laws of nature, the solar system, stars, nebulae, galaxies and cosmology.	$250 per course		Spring 2027	47085 11 am 47086 Noon	Indiana Academy
ASTR 120 The Sun and Stars (3) Introduction to the science underlying modern stellar astronomy. Topics include history of astronomy, practical astronomy, naked-eye cosmology, gravity and orbital motion, light and matter and properties of the sun and stars. Observational and experimental data are used to reveal natural physical laws which provide information about remote objects in space. Requisite: at least two years of high school algebra.	$250 course		fall 2026	N/A	Indiana Academy
ASTR 122 Stellar Evolution, Galaxies, and Cosmology (3) Introduction to the physical processes that govern the structure and evolution of galaxies and the Universe. Topics include stellar evolution, the Milky Way Galaxy, galaxies, quasars, active galactic nuclei (AGN), super massive black holes, large scale structure of the Universe and cosmology. Prerequisite or parallel: MATH 111 or MATH 112 or MATH 113 or permission of the instructor. Not open to students who have credit in ASTR 332.	$250 course		Spring 2027	47087	Indiana Academy

Ball State University Dual Credit Program - Onsite Courses (Taught at Approved High Schools)

University Course Catalog for AY 26-27 can be accessed at https://bsu.smartcatalogiq.com/2026-2027/Undergraduate-Catalog.

Blue highlighted courses have prerequisites.

Course Number: Course Title (credit hours) - Description (Lab Component Requirements)	Cost (if live taught in the classroom)	*Indiana Core Transfer Library	Term Course is offered	Spring 2025 Course Reference Number (CRN)	School(s) Offering Course
BIO 111: Principles of Biology 1 (4) This course serves as an introduction to the chemical, molecular, and cellular basis of life and its processes, as well as the process of scientific investigation. and evolution. Lecture and laboratory. *Prerequisite: one year of high school chemistry, or one semester of college chemistry/equivalent, or be concurrently enrolled in chemistry* Core Transfer Library (CTL) Category - Life and Physical/Natural Sciences Core Transfer Library (CTL) Name - Biology 1 & 2 w/lab (2 course sequence) Indianan College Core -Scientific Ways of Knowing	$250 per course	Y	Fall 2026	N/A	Indiana Academy
BIO 113 Microbiology for the Health Sciences (5) Introductory course for students in applied health curricula. Presents biomolecules of life, enzyme interaction, physiology and structure of representative microorganisms. Emphasizes bacteria, viruses, fungi, and protozoa of health significance and the host-parasite relationship. Microbiological techniques will be emphasized in laboratory. Core Transfer Library (CTL) Category Life and Physical/Natural Sciences Core Transfer Library (CTL) Name Microbiology for the Health Sciences Indiana College Core - Scientific Ways of Knowing	$250		Fall 2026	N/A	Indiana Academy
CHEM 100: People and Chemistry (3) Introductory treatment of fundamental concepts of chemistry, such as organization and language of chemistry, atomic structure, nature and classification of matter, radioactivity, and the relevancy of these topics to everyday living. Not open to students who have credit in CHEM 101, CHEM 111. Core Transfer Library (CTL) Category - Life and Physical/Natural Sciences Core Transfer Library (CTL) Name - Chemistry and Society Indiana College Core - Scientific Ways of Knowing	$250 per course	Y	Fall 2026 full -year	N/A	Indiana Academy
CHEM 111: General Chemistry 1 (4) Chemistry of the elements and their compounds with emphasis on basic principles. Atomic and molecular structure, chemical bonding, stoichiometry, properties of solutions, and nature of matter. Three hours of lecture and one three-hour recitation-laboratory period weekly. Core Transfer Library (CTL) Category - Life and Physical/Natural Sciences Core Transfer Library (CTL) Name - General Chemistry 1 & 2 w/lab (2 course sequence) Indianan College Core -Scientific Ways of Knowing	$250 per course	Y	Fall 2026	N/A	Indiana Academy

Ball State University Dual Credit Program - Onsite Courses (Taught at Approved High Schools)

University Course Catalog for AY 26-27 can be accessed at https://bsu.smartcatalogiq.com/2026-2027/Undergraduate-Catalog.

Blue highlighted courses have prerequisites.

Course Number: Course Title (credit hours) - Description (Lab Component Requirements)	Cost (if live taught in the classroom)	*Indiana Core Transfer Library	Term Course is offered	Spring 2025 Course Reference Number (CRN)	School(s) Offering Course
CHEM 112: General Chemistry 2 (4) Continuation and extension of CHEM 111, including chemical kinetics, electrochemistry, chemical equilibrium, chemistry of metals and nonmetals, and radioactivity. Three hours of lecture and one three-hour recitation-laboratory period weekly. *Course Prerequisite: CHEM 111 and MATH 108 or MATH 110 or MATH 111 or MATH 112 or MATH 113 or MATH 114 or MATH 161 or MATH 162 or MATH 165 or MATH 166 or equivalent math placement scores.* Core Transfer Library (CTL) Category - Life and Physical/Natural Sciences Core Transfer Library (CTL) Name - General Chemistry 1 & 2 w/lab (2 course sequence)	$250 per course	Y	Spring 2027	21561 noon 27622 2 pm	Indiana Academy
COMM 210: Public Speaking (3) Develops public speaking competence and confidence through practical experience; introduces fundamentals of effective listening, speech organization, audience adaptation, oral and nonverbal delivery, and argumentation; enhances skills needed for diverse speaking contexts that promote academic and professional success. Core Transfer Library (CTL) Category - Communication/English/Literature Core Transfer Library (CTL) Name - Public Speaking, Fundamentals of Indiana College Core - Speaking and Listening	$25 per credit hour (Priority Course)	Y	Spring 2-27	TBD	Indiana Academy
CS 120: Computer Science 1: Programming Fundamentals (4) Introduction to fundamental programming techniques. Different sections of this class may explore different programming contexts such as media computing or data science applications. Topics include control structures, built-in data structures, simple sorting and searching, and procedural abstraction. Hands-on lab exercises and programming assignments illustrate these topics and build problem-solving abilities. Students are expected to have basic knowledge of algebraic notation as expressed in high school mathematics.	$250 per course		Fall 2026	N/A	Indiana Academy
CS 121 Computer Science 2: Data Structures and Objects (4) Continuation of Computer Science 1. Strong emphasis on object-oriented paradigm and related problem-solving skills. Topics include recursion, dynamic data structures and related algorithms, efficient sorting and searching, file processing, and reusing standard libraries and packages in chosen object-oriented environment. Hands-on lab exercises and programming assignments illustrate these topics and build problem-solving abilities. Prerequisite: CS 120 with a minimum grade of C-.	$250 per course		Spring 2027	27628 2 pm	Indiana Academy
ENG 103: Rhetoric and Writing (3) Introduces students to principles of diverse rhetorics and writing processes, and to research processes and information literacy; provides practice analyzing how the processes and practices of language use vary across cultural and rhetorical situations; focuses on the creation of written and multi-modal texts. Core Transfer Library (CTL) Category: Communication/English/Literature Core Transfer Library (CTL) Name: English Composition 1 Indiana College Core - Written Communication	$25 per credit hour (Priority Course)	Y	Fall 2026 Spring 2027	N/A	Indiana Academy

Ball State University Dual Credit Program - Onsite Courses (Taught at Approved High Schools)

Course Number: Course Title (credit hours) - Description (Lab Component Requirements)	Cost (if live taught in the classroom)	*Indiana Core Transfer Library	Term Course is offered	Spring 2025 Course Reference Number (CRN)	School(s) Offering Course
ENG 208 : Composing Research (3) Applies principles of diverse rhetorical traditions to research processes, including understanding audience, purpose, and genre in disciplinary contexts; ethics and methods of research; the varieties of researched, multimodal writing; and planning and executing a research project. Prerequisites: ENG 103 with a minimum grade of C- or better or appropriate placement per Writing Program policy. Not open to students with credit in MGT 208 or HSC 208 Core Transfer Library (CTL) Category: Communication/English/Literature Core Transfer Library (CTL) Name: English Composition 8. Indiana College Core - Written Communication	$25 per credit hour (Priority Course)	Y	Spring 2027	49439 2 pm	Indiana Academy
FR 101: Beginning French 1 (3) A course designed to develop elementary interpersonal, interpretive and presentational communication skills in the French language in cultural contexts. Taught in French. Core Transfer Library (CTL) Category - Communication/English/Literature Core Transfer Library (CTL) Name - French Level 1 Indiana College Core - Humanistic Ways of Knowing	$25 per credit hour (Priority Course)	Y	Fall 2026	N/A	Indiana Academy
FR 102: Beginning French 2 (3) A course designed to further develop elementary interpersonal, interpretive and presentational communication skills in the French language in cultural contexts. Taught in French. *Course Prerequisite: FR 101 or its equivalent.* Core Transfer Library: World Languages (IWL 1902) Core Transfer Library (CTL) Category - Communication/English/Literature Core Transfer Library (CTL) Name - French Level 2 Indiana College Core - Humanistic Ways of Knowing	$25 per credit hour (Priority Course)	Y	Spring 2027	27455 10 am	Indiana Academy
FR 201: Intermediate French 2 (3) A course designed to further develop intermediate interpersonal, interpretive, and presentational communication skills in the French language in cultural contexts. Taught in French. *Course Prerequisite: FR 102 or its equivalent.* Core Transfer Library: World Languages (IWL 1903) Core Transfer Library (CTL) Category - Communication/English/Literature Core Transfer Library (CTL) Name - French Level 3 Indiana College Core - Humanistic Ways of Knowing	$25 per credit hour (Priority Course)	Y	Full year Register in Fall 2026	N/A	Indiana Academy
GER 101: Beginning German 1 (4) A course designed to develop elementary interpersonal, interpretive, and presentational communication skills in the German language in cultural contexts. Taught in German. Core Transfer Library (CTL) Category - Communication/English/ Core Transfer Library (CTL) Name - German Level 1 Indiana College Core - Humanistic Ways of Knowing	$25 per credit hour (Priority Course)	Y	Fall 2026	N/A	Indiana Academy

Ball State University Dual Credit Program - Onsite Courses (Taught at Approved High Schools)

GER 102: Beginning German 2 (3) A course designed to further develop elementary interpersonal, interpretive, and presentational communication skills in the German language in cultural contexts**. Taught in G**erman. Course Prerequisite: GER 101 or its equivalent. Core Transfer Library (CTL) Category - Communication/English/Literature Core Transfer Library (CTL) Name - German Level 2 Indiana College Core - Humanistic Ways of Knowing	$25 per credit hour (Priority Course)	Y	Spring 2027	27451 10 am	Indiana Academy
GER 201: Intermediate German 1 (3) A course designed to develop intermediate interpersonal, interpretive, and presentational communication skills in the German language in cultural contexts. Taught in German**.** *Course Prerequisites: GER 102 or its equivalent.* Core Transfer Library (CTL) Category - Communication/English/Literature Core Transfer Library (CTL) Name - German Level 3 Indiana College Core - Humanistic Ways of Knowing	$25 per credit hour (Priority Course)	Y	Full-year (with Fall 2026 registration)	N/A	Indiana Academy
GER 202: Intermediate German 2 (3) A course designed to further develop intermediate interpersonal, interpretive, and presentational communication skills in the German language in cultural contexts. Taught in German. Course Prerequisite: GER 201 or equivalent. Core Transfer Library (CTL) Category - Communication/English/Literature Core Transfer Library (CTL) Name - German Level 4 Indiana College Core - Humanistic Ways of Knowing	$25 per credit hour (Priority Course)	Y	Full-year (with Fall 2026 registration)	NA	Indiana Academy
HIST 150: The West in the World (3) This is a survey of the development of the West since its origins, with an emphasis on the period after 1500. The course examines the history of the West within a global context and explores how interactions and encounters with other civilizations shaped the West. The recurring themes of this course are social, economic, and political changes, intellectual and religious developments, population growth and migrations, breakthroughs in science and technology, international relations and globalization, and the changing relationship between humankind and the natural world.	$250 per course		Fall 2026 Spring 2027	48140 2 pm	Indiana Academy
HIST 201: American History, 1492-1876 (3) Survey of the political, diplomatic, economic, cultural, and sociological forces and adjustments that have affected the history of the United States to 1876. Core Transfer Library (CTL) Category - Social and Behavioral Sciences Core Transfer Library (CTL) Name - American History 1 Indiana College Core - Humanistic Ways of Knowing	$25 per credit hour (Priority Course)	Y	Fall 2026	N/A	Indiana Academy

Ball State University Dual Credit Program - Onsite Courses (Taught at Approved High Schools)

Course Number: Course Title (credit hours) - Description (Lab Component Requirements)	Cost (if live taught in the classroom)	*Indiana Core Transfer Library	Term Course is offered	Spring 2025 Course Reference Number (CRN)	School(s) Offering Course
MATH 181: Elementary Probability and Statistics (3) Algebra-based introduction to statistical applications through descriptive methods, probability, normal distributions, confidence intervals, hypotheses tests, regression, and correlation. Misuses of statistics and common probability misconceptions are discussed. Statistical experiments and simulations are conducted. Technology use is integrated throughout the course. Recommended background: Three years of college preparatory mathematics in high school or equivalent. Not open to students who have credit in MATH 221, MATH 320 or MATH 321. Indiana College Core - Quantitative Reasoning	$250 per course		Spring 2027	27307- 2 pm 27308 - 11 am	Indiana Academy
MATH 215 Discreet Systems (4) Topics from discrete mathematics, including formal logic, methods of proof, set theory, relations, recursion, combinatorics, and graph theory. A systematic development of number systems via equivalence classes is included as an application of these topics. Prerequisite: C- or better in MATH 162 or MATH 165, or permission of the department chairperson.	$250 per course		Fall 2026	N/A	Indiana Academy
MATH 217: Linear Algebra (4) Theory and application of systems of linear equations, vector equations, linear transformations, vector spaces, and inner product spaces. Includes the use of computer software. *Course Prerequisite: C- or better in MATH 162 or MATH 165, or permission of the department chairperson.*	$250 per course		Fall 2026	N/A	Indiana Academy
MATH 267 Calculus 3 (4) Multidimensional Calculus and Its Applications. Topics include three-dimensional vector calculus, Gauss's theorem, Green's theorem, and Stoke's theorem. Includes the use of graphing calculators and computer software. Prerequisite: C- or better in MATH 166 or permission of the department chairperson.	$250 per course		Spring 2027	40638 9 am	Indiana Academy
MATH 374 Differential Equations (3) Introduction to nth-order ordinary differential equations, equations of order one, elementary applications, linear equations with constant coefficients, nonhomogeneous equations, undetermined coefficients, variation of parameters, linear systems of equations, and the Laplace transform. Use of standard computer software. Prerequisite: C- or better in MATH 162 or MATH 166 or permission of the department chairperson.	$250 per course		Spring 2027	27304 - 8 am	Indiana Academy
NREM 101 Environment and Society (3) Study of human roles in resource management, environmental quality, and conservation. Effects of population and technology on environmental systems including air, energy, minerals, soil, vegetation, water, and wildlife. Environmental ethics, outdoor recreation, and economic development may also be covered. Laboratory and field activities. **Indiana College Core - Scientific Ways of Knowing.**	$250 per course		Spring 2027	27654 2 pm	Indiana Academy

Ball State University Dual Credit Program - Onsite Courses (Taught at Approved High Schools)
