1. Current state of the data - During the previous meeting the MIDAS team expressed some concern regarding the state of the data. The following is a list of recommendations to address the data integrity issues.
   a. Faculty Load and Compensation (FLAC) Module in Banner
   b. Consolidation of responsibilities
   c. Review integrations with relevant systems
   d. Business process evaluation (i.e. EAB engagement to review data entry and the effects it has on data integrity)

2. Update on the warehouse - Information Technology along with MIDAS is in the initial phases of building out a campus data warehouse.

3. Tableau Rapid Start - We are currently reviewing a statement of work for the Tableau Rapid Start to assist with the implementation of Tableau.

4. Current state of the dashboards
