### Definitions:

**Shortened Posting Period:** When a vacancy occurs and a candidate has not been identified, a reduced posting period may be utilized to collect possible candidates. The various types of positions have minimum posting requirements (Contract Faculty & Professional=14 days; Staff=10 days); therefore, a waiver is required to reduce the amount of time that a position is posted to the University webpage. A posting request must not be less than 5 calendar days. *Please note: Tenure-Track Faculty positions cannot be posted for less than 30 days.*
