## STATEMENT ON RIGHTS AND RESPONSIBILITIES

1. The Ball State University Board of Trustees reaffirms its commitment to the University Community and the citizens of Indiana to provide optimum educational opportunity for all students of the University. A vital part of such education is the assurance of academic freedom on the campus. The trustees recognize and accept their responsibility to preserve the right of all members of the University community to examine critically the University and the society of which it is a part. The trustees further call upon the faculty, students, and administrative officials of the University to share the responsibility for maintaining an academic atmosphere on the campus which is conducive to the exploration of all issues in a rational manner as befits an institution of higher learning.
2. In order to guarantee this academic climate including freedom of speech and peaceful assembly on the campus, the regular operation of the University must be maintained. The trustees expect the responsible University officials to take appropriate steps when any Ball State University student and/or any other person or persons engages in conduct which interferes with the freedom of movement of persons on the campus, disrupts or obstructs the work and activities of the University or the members of the University community, or engages in any conduct which includes intimidation, coercion, violence, or the threat of violence. ## DESCRIPTION OF THE UNIVERSITY

1. Ball State University is a comprehensive, publicly assisted institution of higher learning whose mission is to provide excellent education. It is located in Muncie, Indiana, a city of 70,000, fifty-six miles northeast of Indianapolis. Although its primary concern is for the citizens of Indiana, it offers programs with appeal to regional, national, and international audiences.
2. Ball State University offers a strong undergraduate liberal and professional education and selected graduate programs of high quality. Ball State students can choose from a comprehensive range of academic programs at the associate, baccalaureate, and master's levels, as well as doctoral programs in areas where the University has special competence. In addition to core academic programs in the arts, sciences, and humanities, the University offers more than 140 major and minor areas of study through its seven colleges: Applied Sciences and Technology; Architecture and Planning; Business; Communication, Information, and Media; Fine Arts; Sciences and Humanities; and Teachers College.
3. The University has a selective admissions policy; in some areas, such as architecture, the University is very selective. Exceptionally well-qualified undergraduate students may enroll in the Honors College for more intellectually demanding programs of study. Students who have not decided on a major or who may need to strengthen their learning skills can take advantage of the special academic assistance and intensive educational counseling offered by University College.
4. As part of Ball State's commitment to excellence in education, the University offers students a friendly, collegial atmosphere; a full range of out-of-class activities; and excellent, well-planned academic, residential, and recreational facilities. An impressive array of student support services contributes to the personal, social, and intellectual development of all students.
5. Although Ball State University is primarily a residential academic community, it also supports programs that reach students well beyond the immediate campus. Through interactive telecommunications, Internet courses, and on-site courses, Ball State distance learning students are able to take courses and entire degree programs. The University has a strong commitment to cultural diversity and international programs. It offers exchange programs with universities throughout the world and a wide variety of opportunities for students to study abroad.

## **DEFINITION OF: SCHOOL, DEPARTMENT, CENTER, AND INSTITUTE<sup>44</sup>**

1. **School - -**  
A school (excluding Graduate School and School of Extended Education) is a grouping of related academic areas served by an administrator plus the coordinators of the several related academic areas within the school. Three schools were historically created in this manner: namely the School of Music, School of Nursing, and School of Physical Education, Sport and Exercise Science. The administrator of the school coordinates the work and activities of the areas represented. The school grouping provides a common academic purpose and common curricula core, as well as a proximity of academic interests that can facilitate instruction, research, and service.
2. **Department - -**  
A department is the fundamental administrative unit for academic activities of the University. A department is composed of regular faculty assisted by persons holding contract appointments. A department is a basic unit in the University Senate structure. Faculty holding regular appointments have the right to vote for senators and be elected as senators according to the rules of the Senate. Courses for students originate in departments, are offered by departments, and are staffed by departments.
3. **Center and Institute - - <sup>45</sup>**  
Centers or Institutes may be self-contained academic units of the University that render service to other sectors of the University and extra-University agencies; they may be eclectic units which coordinate existing courses and services from departments or other University units into inter-departmental programs. Only self-contained academic centers/institutes may be engaged in research activities.
4. **Any new self-contained academic center/institute will be set up as specified in "Policy for the Reorganization of Academic Units," below. Any new eclectic center/institute, however, will be set up simply by the approval of the departmental chairpersons and dean(s) involved and of the Provost and Vice President for Academic Affairs.**

## **POLICY FOR THE REORGANIZATION OF ACADEMIC UNITS<sup>46</sup>**

1. **The reorganization of colleges, schools, or departments in established colleges is the province of the collegiate faculty and collegiate and University administration. Proposals for reorganization may originate from interested faculty and/or administrators.**
  - 1.1 All proposals for reorganization must be distributed in writing and discussed by the faculty of the college(s) in which they originate.
  - 1.2 All affected faculty will vote on the proposal. The dean(s) of the college(s) shall forward the result of the vote, the proposal for the reorganized unit, and his, her, or their recommendation(s) to the Provost and Vice President for Academic Affairs.
  - 1.3 If the proposed reorganization only involves units within a college, the final decision regarding reorganization will rest with the Provost and Vice President for Academic Affairs. The reorganization will be announced at the next regularly scheduled University Senate meeting that achieves a quorum.
  - 1.4 If the proposal involves reorganization across colleges, then the proposal, accompanied by supporting evidence, shall be presented to Provost and Vice President for Academic Affairs, and to the University Senate Agenda Committee to be made an item of business at the next University Senate meeting. The University Senate's recommendation will be advisory to the President, the Provost and Vice President for Academic Affairs, and the Board of Trustees.
2. **In the development of colleges, schools, centers, institutes, bureaus, and offices by administration and/or faculty which will not be included in an already established college/colleges, proposals may emanate from interested faculty and/or administrative officials.**
  - 2.1 If the new unit will offer courses and/or faculty rank, the Provost and Vice President for Academic Affairs will submit the proposal to the University Senate Agenda Committee which shall, through the council and committee system, in conjunction with the University administration, place the proposal for the academic unit on the Senate agenda for consideration.
  - 2.2 If the new unit will not offer courses and/or faculty rank, the President of the University will inform the Agenda Committee of the creation of the new unit.

3. The change of centers to departments, etc.
  - 3.1 The change of status if it involves faculty and/or courses within a college should follow the procedures outlined in (1) above.
  - 3.2 The change of status if it involves faculty and/or courses outside a single college should follow the procedures outlined in (2.1) above.
4. The change of an academic unit from one college to another college, or from a college to an administrative area outside of a college.
  - 4.1 If a unit wishes to change its college affiliation, the original request must be based on an election within the unit supervised by the Governance and Elections Committee. The electorate will consist of regular faculty members of the affected unit and, by invitation of a majority of the regular faculty, full-time special faculty members of that unit.<sup>47</sup>
  - 4.2 The college faculty and the college administration, from which the transfer will occur, will develop conditions and procedures for implementation. In the event of dispute over these procedures, the Provost and Vice President for Academic Affairs will resolve the dispute.
  - 4.3 After receiving such recommendations, the college faculty and dean of the college to which the department wishes to transfer must approve the transfer before it becomes effective.
  - 4.4 The Provost and Vice President for Academic Affairs must approve the transfer before it becomes effective.
  - 4.5 The Chairperson of the University Senate will announce to the University Senate that such transfer has taken place.

#### **TERMINATION OR PHASING OUT OF ACADEMIC UNITS<sup>48</sup>**

1. Should it become necessary to consider termination or phasing out of any academic unit (department, center, college, program, office, etc.), the President will first notify the administrative officers directly involved with that unit (e.g., Vice President, Dean, Head, Director, etc.) to inform them of this consideration.
2. Faculty members whose academic programs or positions may be adversely affected are to be informed early in the decision-making process. These persons are to have the opportunity to be heard by those who will make the final decision or recommendation.
3. A proposal to consider termination or phasing out of any academic unit, accompanied by supporting evidence, shall be presented to the University Senate Agenda Committee and made an item of University Senate business. This shall be accomplished prior to an administrative decision to terminate or phase out. The University Senate's conclusion will be advisory to the President and the Board of Trustees.

### 1.3 Other ranks

- 1.31 Lecturer – The title Lecturer may be used for persons employed as contract full-time or part-time faculty who are uniquely qualified to serve the University. The person recommended to be a lecturer must be approved by the academic department and recommended through the usual channels. Lecturers are not eligible for tenure or for membership in the Senate. This title should not be used for persons who qualify for employment as regular faculty personnel as defined in Section II, #1.
- 1.32 Lecturer Emeritus<sup>6</sup> - A department may recommend that the designation of Lecturer Emeritus be awarded to an outstanding person who has served the University for an extended period of time as a contract faculty member when that individual reaches the end of his or her assignment to Ball State University.

Such recommendation will proceed as follows: departmental committee and chairperson of the department; college committee and dean of the college; Provost and Vice President for Academic Affairs; President; and Board of Trustees.

- 1.33 Visiting Professor – The title Visiting Professor may be used for persons holding rank in another institution who are temporarily employed at this University. The person recommended to be a visiting professor must be approved by the academic department and recommended through the usual channels. Visiting professors are not eligible for tenure or for membership in the Senate.

- 1.34 Adjunct Professor – The title Adjunct Professor is used for persons who by their professional cooperation significantly assist the University in its academic programs, regardless of the fraction of load assigned and, in most cases, without remuneration. The person recommended to be an Adjunct Professor must be approved by the academic department and recommended through the usual channels. Adjunct faculty are not eligible for tenure or for membership in the University Senate.
- 1.35 Endowed Chair – The appointee to an endowed chair will be selected by observing the regular procedures of “unusual appointment” of faculty personnel. In addition, the appointee will be approved by a majority of the regular faculty on tenure of the department which will be served. The usual rules on tenure will apply to the individual.
- 1.36 Distinguished Professorship
- 1.361 To merit appointment as a distinguished professor, a person shall be one whose accomplishments are extraordinary in that area of competence; one who is generally recognized by members of the same discipline to be outstanding for teaching, writing, research, or meritorious achievement in appropriate fields of service. In any event, the individual shall have attained the distinguished reputation prior to appointment rather than simply to have shown promise of unusual success.
- 1.362 Current members of the University faculty may be eligible for appointment to the position of distinguished professor. Former distinguished professors may be eligible for regular faculty appointments.
- 1.363 The candidate for a distinguished professorship must be approved by a majority of the regular faculty on tenure of the department which will be served. Following such approval, the regular procedures for appointment of faculty personnel shall be observed, i.e., recommendations are channeled through the department chairperson, college dean, the Provost and Vice President for Academic Affairs, appropriate promotion and tenure committees, and the President of the University before being submitted to the Board of Trustees for action. A college may choose to recommend one distinguished professor for the entire academic year, or two distinguished professors on the basis of one each semester. Each college should set forth its own selection process with as much faculty participation as possible. Recommendations for the John R. Emens Distinguished Professorship award should be submitted by the Dean of the designated college to the Provost and Vice President for Academic Affairs. The Vice President will forward the recommendations to the President. It is assumed that the John R. Emens Distinguished Professorship implies a broadly defined teaching and research responsibility appropriately encompassing various faculty and student seminars, a number of public lectures, as well as conferences and discussions with interested faculty members and students. The salary of a distinguished professor is to be no more than 50% above the salary of the highest paid regular faculty member. Funds and/or accumulation of income from funds donated for the establishment and maintenance of a distinguished professorship shall normally pay at least one-third of the salary of the appointee to that position.

    - 2.3512 Contract full-time professional personnel who do not meet the criteria in Paragraph 2.3511 are not eligible for employee benefit programs as stated in the Benefits Handbook, except sick leave as stated in Other Leaves Policy (Faculty and Professional Personnel Handbook) and vacation for fiscal year professional personnel which is earned at the rate of two days for each month employed.

  - 2.362 Contract part-time professional personnel who do not meet the criteria in Paragraph 2.3511 are not eligible for employee benefit programs.

- 1. Ball State University is an equal opportunity employer. The appointment of faculty members and administrative officers is governed by professional consideration, not by political or other nonprofessional factors.

2. Academic employees are for the most part employed on a nine-month basis, for teaching in the fall and spring semesters -- the academic year -- and for teaching on-campus classes (some of which are evening classes and some Saturday classes) and extension (off-campus) classes.
3. Some assignments for the academic-year faculty will be made for teaching in the summer session, but summer employment is not guaranteed, nor is any faculty member required to teach in any summer session. Each department shall develop a statement of recommendation on summer employment, agreed on by a majority of the full-time regular faculty of the department. Such policy should be reviewed when a majority of the regular faculty members in a department request a review. Statements shall be filed in the office of the appropriate dean.<sup>9</sup> Summer session courses should, in general, be taught by those holding the appropriate terminal degree.
4. The terms of employment of faculty and professional personnel employed on other than academic year contracts are established annually within the contractual agreement between the employee and the University.
5. A faculty member must complete at least one semester of full-time service during any academic year in order to receive a full year's credit for purposes of tenure consideration.
6. Associate professorships and professorships are available to qualified persons who are being employed when circumstances and qualifications warrant such rank.<sup>10</sup> The form "Recommendations for Unusual Appointment"<sup>9</sup> must be submitted with the request to employ.

#### **Reassignments**

1. The University retains the right, through the appropriate dean, to reassign faculty members to other course, to research, or to other professional activities, should it become necessary to cancel offerings because of insufficient enrollment or other good and just causes.

#### **Contract and Salary Information**

1. Information about the academic salary plan and benefits may be obtained from the Office of the Associate Provost.
2. Contracts with University faculty members include an agreement that the faculty member is bound by the rules and regulations as printed in the Faculty and Professional Personnel Handbook and approved by the University Senate and/or the Board of Trustees.<sup>11</sup>

#### **Guidelines for Faculty Load Assignments and Reporting<sup>12</sup>**

1. Faculty Load Planning<sup>13</sup>
  - 1.1 Academic assignments are determined by the chairperson of the department and the college dean, Provost and Vice President for Academic Affairs, and the President. Academic assignments may include on-campus as well as off-campus classes, assigned time for research or writing, consultative services, or administrative duties. Academic assignments will vary from one faculty member to another. The academic workload for a University faculty member is 24 credit hours for the academic year, 6 credit hours for the summer term, and 12 credit hours for the summer semester.

By November 15 of the fall semester and April 1 of the spring semester, department chairpersons will forward to the college dean, Provost and Vice President for Academic Affairs, and President an actual academic load report for the appropriate semester using the same report format used to present the proposed academic load.

#### **3. Faculty Load --Assigned Time Scholarly and/or Creative Productivity**

- 3.11 Faculty who demonstrate scholarly and/or creative productivity may be assigned 3-4 credit hours each semester. Each college will determine its definition of scholarly and/or creative productivity within accepted collegiate guidelines of academic performance and achievement. This productivity must be current and ongoing to merit assigned time.

- 3.12 Department chairpersons will submit a report to the dean at the end of each semester summarizing the scholarly, research, and/or creative productivity of each faculty member given assigned time for research.
- 3.13 Faculty who receive assigned time for research will not receive paid overloads during the same semester in which the research time is granted.
- Departmental Administration
- 3.21 Department chairpersons may be assigned 6-8 hours each semester. Typically, chairpersons engaged in research and/or service activities will be teaching one class per semester. Administrative assistants/associate chairpersons/assistant chairpersons and directors of graduate programs may be assigned 3-4 hours each semester.
- Other Administrative Responsibilities
- 3.31 Assigned time for other administrative responsibilities must be approved in advance by the department chairperson and the dean.
- 3.4 Grants
- 3.41 Faculty engaged in externally funded projects and/or internally funded research may be assigned time as outlined in the proposal and with the approval of the department chairperson and the dean.
- 3.5 Service Activities
- 3.51 Faculty working on service projects and activities contributing to their professional development and significantly benefiting their subject matter discipline may be assigned 3-4 hours each semester.
- 3.52 All departmental requests for assigned time should be submitted to the dean's office when the semester schedule is completed. Additions to or modifications of this list should be submitted when they occur but always prior to the beginning of the semester. In all cases, the principles of flexibility and accountability should inform the decisions regarding assigned time.
4. Faculty Load—Other Guidelines<sup>14</sup>
- When computing academic workloads, the following guidelines should be considered.
- 4.11 Chairpersons may adjust teaching and research loads between semesters during the academic year (for example, assigning 6-8 hours of research time during one semester and no research time the other semester) if this is consistent with departmental requirements.
- 4.12 With the approval of the department chairperson and dean, a faculty member may be allowed additional load hours when a class size is exceptionally large.
- 4.13 Under normal circumstances, the direction of independent studies, master's theses, and doctoral dissertations shall be considered part of a faculty member's scholarly, creative, and teaching responsibilities during the academic year.
- 4.14 As a rule, contract faculty will be assigned to teaching and not to other responsibilities such as research, service, and administration. Contract faculty members whose assignments include responsibilities other than teaching will receive assigned time, additional salary, or other compensation to be determined by their department chairperson.
- 4.15 Summer terms are an integral component of Ball State's total instructional program. Consistent with University policy, faculty will be paid 15% of the academic year salary per full load per summer term. As defined by the Faculty and Professional Personnel Handbook, a full load is six (6) hours per summer term.

#### 5. Underenrolled Classes

The minimum class size shall be ten (10) for undergraduate and six (6) for graduate classes. For purpose of determining class size an undergraduate shall count 1/10<sup>th</sup>, a graduate 1/6<sup>th</sup>, and an auditor shall count 1/50<sup>th</sup> in an undergraduate class and 1/30<sup>th</sup> in a graduate class in such determinations.

Each department may offer one underenrolled class section per semester and for each five week summer term at its own absolute discretion and make its own determination of the justifiable minimum for an underenrolled class. Departments may offer other underenrolled classes with permission of the college dean. All underenrolled classes

must carry full teaching load credit for the faculty members involved. Faculty members teaching underenrolled classes will not be eligible for overload pay.

#### **Files<sup>15</sup>**

1. Personnel Files
  - 1.1 A personnel file is a file which contains documents or records that show that a personnel action has been taken (e.g., contract letters, P-3 forms) or which contains information upon which a personnel action has been based (e.g., letter of application, evidence in a disciplinary action). Some examples of personnel actions are recruiting, hiring, firing, transferring, promoting, granting tenure, and approving compensation.
  - 1.2 Materials in a personnel file may include, but are not limited to, application for appointment; letters of recommendation; official contract letters; forms concerning changes in appointment, salary, title, etc.; vita; salary information; formal evaluations by supervisors; teaching evaluations; information concerning scholarly productivity or creative endeavors; information concerning service in a professional capacity; information concerning any disciplinary actions taken; or information concerning the status of any formal charges against the employee.
  - 1.3 Materials that are not to be placed in a personnel file include information about the employee's gender, race, disability, national origin, religion, age, veteran status, citizenship, sexual orientation, or marital status. Any file that will be used by people other than the employee, such as a promotion and tenure committee, may not include this information.
  - 1.4 All this information shall be made available to the affected faculty or professional personnel member. When detrimental material is placed in his or her personnel file, the faculty or professional personnel member shall be notified in writing and given the right to place in the file materials that might rebut or explain the detrimental information. Anonymous letters will never be made part of any personnel file. Improper materials placed in a personnel file will be removed and destroyed by the chairperson, supervisor, or vice president and the affected faculty or professional personnel member.
  - 1.5 As a general rule, personnel files are located in the departmental or unit office, the dean's or vice president's office, and the Associate Provost's area.
2. Confidential Files
  - 2.1 Certain files are maintained in confidence due to the sensitive nature of the materials contained in these files. The primary example of this type of file is the investigative files maintained in the Office of University Compliance. The faculty or professional personnel member involved may not see the file because the identity of the complainant is kept confidential unless and until formal disciplinary action has been initiated. However, if a formal complaint is filed against a faculty or professional personnel member, that individual is informed of the complaint. Although the file itself and the complainant's identity are not available to the accused, he or she is given notice of the existence, substance, and details of the complaint. If formal disciplinary action is initiated, the accused is informed of the identity of the complainant.
  - 2.2 The files concerning allegations of discrimination in the Office of University Compliance are not available to anyone other than the Executive Director of University Compliance without his or her explicit permission.
  - 2.3 Personal notes and investigative records are considered to be confidential unless they are used to make a decision concerning someone's employment status or unless they provide a basis for disciplinary action.

#### **Appointment, Academic Freedom, and Tenure<sup>16</sup>**

1. Appointment  
The appointment of administrative officers and of faculty members and the determination of educational policies should be governed by professional consideration. Political factors should not be permitted to interfere with the efficiency of this University. The spirit of these principles should also be demonstrated in the internal administration of the University for the development and maintenance of the best type of faculty service and of student growth. It is presumed that administrative officers and faculty

members will be appointed on merit rather than for political or other nonprofessional considerations.

2. Statement of Principles<sup>17</sup>

- 2.1 The purpose of this statement is to promote public understanding and support of academic freedom and tenure and agreement upon procedure to assure them in this University. Institutions of higher learning are conducted for the common good and not to further the interest of either the individual teacher or the institution as a whole. The common good depends upon the free search for truth and its free exposition.
- 2.2 Academic freedom is essential to these purposes and applies to both teaching and research. Freedom in research is fundamental to the advancement of truth. Academic freedom in its teaching aspect is fundamental for the protection of the rights of the teacher in teaching and of the student to freedom in learning. It carries with it duties correlative with rights.
- 2.3 Tenure is a means to certain ends; specifically: (1) freedom of teaching and research, and of extramural activities and (2) a sufficient degree of economic security to make the profession attractive to men and women of ability. Freedom and economic security, hence tenure, are indispensable to the success of an institution in fulfilling its obligations to its students and to society.

3. Academic Freedom

The teacher is entitled to full freedom in research and in the publication of the results, subject to the adequate performance of other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the University.

The teacher is entitled to freedom in the classroom in discussing the appointed subject, but should be careful not to introduce a controversial matter which has no relation to the subject. Limitations of academic freedom because of the aims of the institution should be clearly stated in writing at the time of the appointment.

The University teacher is a citizen, a member of a learned profession, and an officer of an educational institution. When speaking or writing as a citizen, there should be freedom from institutional censorship or discipline, but a special position in the community imposes special obligations. As a person of learning and an educational officer, a teacher should remember that the public may judge his or her profession and this University by his or her utterances. Hence, he or she should at all times be accurate, should exercise appropriate restraint, should show respect for the opinion of others, and should make every effort to indicate that he or she is not an institutional spokesman.

(Adopted by State Teachers College Board, June 4, 1944)

## **EQUAL OPPORTUNITY AND AFFIRMATIVE ACTION POLICY<sup>18</sup>**

2. Ball State University provides equal opportunity to all employees and applicants for employment in its recruitment, hiring, retention, promotion, tenure, transfer layoff, return from layoff, training, and other employment decisions and in its compensation and benefits programs without regard to race, religion, color, sex (except where sex is a bona fide occupational qualification), sexual orientation, physical or mental disability, national origin, ancestry, age, or citizenship (for U.S. citizens and protected lawfully-admitted aliens).
3. The University also takes affirmative action to employ and advance minorities, women, qualified disabled persons, and qualified disabled veterans and veterans of the Vietnam era. Information concerning the University's affirmative action programs can be obtained from the Office of University Compliance, Ball State University, Muncie, IN 47306.
4. Each line administrator is responsible for ensuring that educational and employment decisions are made and implemented in accordance with the University's equal opportunity and affirmative action policy. All persons involved in the decision-making process, including members of faculty and other employee committees, shall act in a nondiscriminatory manner. The Office of University Compliance is responsible for developing, coordinating, and implementing policies and procedures for institutional compliance with all applicable federal and state equal opportunity laws and regulations and for preparing and monitoring compliance with required affirmative action programs.
5. Complaints regarding unlawful discrimination should be filed within 45 calendar days following the alleged act or incident giving rise to the complaint in the Office of University Compliance in accordance with the "Ball State University Equal Opportunity and Affirmative Action Complaint Investigation Procedure and Appeal Process." A copy of this document may be obtained by contacting the Office of University Compliance.
6. The President will review the University's equal opportunity and affirmative action policy and programs at least once each year, measure progress against the objectives stated in the affirmative action programs, and report findings and conclusions to the Board of Trustees.

## **AFFIRMATIVE ACTION PLAN FOR DISABLED INDIVIDUALS<sup>19</sup>**

1. Ball State University is subject to Sections 503 and 504 of the Rehabilitation Act of 1973 and, as such, takes affirmative action to employ and advance in employment qualified disabled individuals. Anyone having such a disability and wishing to be covered under the affirmative action program should contact the Office of University Compliance. Submission of this information is voluntary and refusal to provide it will not subject any individual to discharge or disciplinary treatment. Information obtained concerning individuals shall be kept confidential, except that 1) supervisors may be informed regarding restrictions on the work or duties of disabled individuals, and regarding necessary accommodations; 2) health personnel may be informed, when and to the extent appropriate, if the condition might require emergency treatment; and 3) government officials investigating compliance with the Act shall be informed.
2. If a disabled Ball State University employee needs a workplace accommodation, that employee should contact the Office of University Compliance immediately upon learning of the need for the accommodation. All disability accommodation requests will be reviewed in a timely manner through an interactive process typically involving the employee, the supervisor of the employee, and the Director of Equal Opportunity and Affirmative Action.<sup>20</sup>

## BALL STATE UNIVERSITY'S STATEMENT ON SEXUAL HARASSMENT<sup>20</sup>

1. Harassment on the basis of sex is a form of illegal sex discrimination. Sexual harassment in employment violates Title VII of the Civil Rights Act of 1964, as well as state law. Student-on-student sexual harassment and sexual harassment directed toward a student by a University employee violates Title IX of the Education Amendments of 1972.
2. Ball State University will not tolerate sexual harassment of students or employees by members of its faculty or staff, its students or by other agents of the University and will respond in a suitable manner to every complaint.
3. The University has adapted the Equal Employment Opportunity Commission (EEOC) definition of sexual harassment for our academic community: Sexual harassment is defined as any unwelcome sexual advance, request for sexual favor or other unwelcome verbal or physical conduct of a sexual nature, whether committed on or off campus, when:
  - submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual's employment or participation in a University-sponsored education program or activity;
  - submission to or rejection of such conduct by an individual is used as the basis or threatened to be used as the basis for employment decisions or academic decisions or assessments affecting an individual; or
  - such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile or offensive working or educational environment. Such conduct will typically be directed against a particular individual or individuals and will either be abusive or severely humiliating or will persist despite the objection of the person targeted by the speech or conduct.

Sexual harassment includes but is not limited to situations where one person has authority over another. In such situations, sexual harassment is particularly serious because it may unfairly exploit the power inherent in a faculty member's or supervisor's position.
4. Sexual harassment can be verbal, visual, physical or communicated in writing or electronically. Some conduct obviously constitutes sexual harassment—such as a threat that a grade or promotion will depend on submission to sexual advance. But whether particular conduct constitutes sexual harassment will often depend upon the specific context of the situation, including the participants' reasonable understanding of the situation, their past dealings with each other, the nature of their professional relationship (e.g., supervisor-subordinate, colleague, etc.) and the specific setting.

The inquiry can be particularly complex in an academic community, where the free and open exchange of ideas and viewpoints preserved by the concept of academic freedom may sometimes prove distasteful, disturbing or offensive to some. Sexual harassment must be distinguished from behavior which, even though unpleasant or disconcerting, is appropriate to the carrying out of instructional, advisory, or supervisory responsibilities. Instructional responsibilities, in particular, require appropriate latitude for pedagogical decisions concerning the topics discussed and methods used to draw students into discussion and full participation.
5. Examples of conduct which may constitute sexual harassment include but are not limited to:
  - request for sexual favors;
  - unwelcome physical contact such as hugging, rubbing, touching, patting, pinching or brushing another's body;
  - veiled suggestions of sexual activities;
  - requests for private meetings outside of class or business hours for other than legitimate academic or business-related purposes;
  - use in the classroom of sexual jokes, stories or images in no way germane to the subject of the class;
  - use in the workplace of sexual jokes, stories or images in no way germane to the subject of the work environment;
  - remarks about a person's body or sexual relationships, activities or experience that are in no way germane to the subject of the work or academic environment;
  - use of inappropriate body images to advertise events.

6. Members of the University community can expect to be free from sexual harassment and thus all members of the University community should guard against it. The fact that someone did not intend to sexually harass an individual is generally not considered a sufficient defense to a complaint of sexual harassment, although the reasonableness of the accused's perceptions may be considered. In most cases, it is the effect and characteristics of the behavior on the complainant and whether a reasonable person similarly situated would find the conduct offensive that determines whether the behavior constitutes sexual harassment.
7. The University will not tolerate retaliation or discrimination against persons who report or charge sexual harassment or against those who testify, assist or participate in any investigation, proceeding or hearing involved a complaint of sexual harassment. In this context, retaliation means speech or conduct that adversely affects another's terms or conditions of employment or education and is motivated by an intent to harm the targeted person because of his or her participation in the filing or investigation of an allegation of sexual harassment. Any such retaliation- or any encouragement of another to retaliate- is a serious violation of University policy and law, independent of whether the particular claim of sexual harassment is substantiated. Anyone who believes he or she has been subjected to retaliation in violation of this rule may use the procedures described in this policy to complain and seek redress.
8. Any member of the University community who believes he or she is being sexually harassed or is being retaliated against is encouraged to contact the Office of University Compliance and make a complaint. The complaint will be investigated in accordance with the Ball State University "Equal Opportunity and Affirmative Action Complaint Investigation Procedure and Appeal Process." A copy of this document may be obtained by contacting the Office of University Compliance.
9. The University can respond to specific instances and allegations of harassment only if it is aware of them. The University therefore encourages anyone who believes that he or she has experienced sexual harassment to come promptly forward (typically within 45 calendar days) with inquiries, reports or complaints and to seek assistance from the Office of University Compliance. In addition, any University employee who becomes aware of instances or allegations of sexual harassment by or against a person under his or her supervisory authority must report them to the Office of University Compliance. It shall be the responsibility of the Office of University Compliance to respond to allegations and reports of sexual harassment or refer them to other University officials for an appropriate response.
10. Any dean, chairperson, director of department head or other similar administrator who becomes aware of information indicating a significant likelihood of sexual harassment must report such information to the Office of University Compliance. These administrators must respond not only when they receive a specific complaint or report alleging improper activity, but also when such matters come to their attention informally. Unconfirmed or disputed allegations should be clearly labeled as such and reports should indicate any steps already taken to respond. Administrators should consult the Office of University Compliance prior to responding to any situation involving alleged harassment.
11. Possible sanctions for a person found engaging in behavior which is in violation of this policy include but are not limited to the following:
  - oral or written reprimand, placed in the personnel file;
  - required attendance at a sexual harassment sensitivity program;
  - an apology to the victim;
  - loss of salary or benefit, such as sabbatical or research or travel funding;
  - transfer or change of job, class or residential assignment or location (i.e., removing the person from being in a position to retaliate or further harass the victim);
  - demotion;
  - suspension, probation, termination, dismissal or expulsion.

While counseling is not considered a sanction, it may be offered or required in combination with sanctions. Where alcohol/drugs are involved in the sexual harassment, such counseling may include a substance abuse program.

If students or student groups are guilty of sexual harassment, any of the sanctions set forth in the “Code of Student Rights and Responsibilities” may also be invoked.

12. The University seeks to protect the rights of all persons, accusers and accused, to fair procedures. Accusations of sexual harassment frequently have injurious, far-reaching effects on the careers and lives of accused individuals. Allegations of sexual harassment must be made in good faith and not out of malice. Knowingly making a false or frivolous allegation of sexual harassment will be considered a serious violation of University policy.

#### **ANTI-HARASSMENT POLICY<sup>21</sup>**

1. Harassment of students or employees at Ball State University on the basis of race, color, national origin, ancestry, religion, creed, gender,\* sexual orientation, age or physical or mental disability is unacceptable and will not be tolerated. Such conduct is inconsistent with the University’s commitments to excellence and to respect for all individuals. This Policy is intended to complement the University’s Equal Opportunity and Affirmative Action Policy.
2. The University is also committed to protecting the academic freedom and freedom of expression of all members of the University community. This Policy will be construed, and applied in a manner that protects the academic freedom and freedom of expression of all parties to a complaint. Academic freedom and freedom of expression include but are not limited to the expression of ideas, philosophies, or religious beliefs, however controversial, in classroom or other academic settings.
3. The term “harassment” as used in Paragraph 1 of this Policy, refers to verbal, physical, graphic or written conduct that has the purpose or effect of creating a hostile or intimidating environment; i.e., conduct which is sufficiently severe, pervasive, or persistent that it interferes significantly with an individual’s employment, education, or living conditions. The conduct alleged to constitute harassment under this Policy will be evaluated from the perspective of a reasonable person similarly situated to the complainant and considering all of the facts and circumstances. Harassment must be distinguished from behavior which, even though unpleasant or disconcerting, is appropriate to the carrying out of instructional, advisory, or supervisory responsibilities. Instructional responsibilities, in particular, require appropriate latitude for pedagogical decisions concerning the topics discussed and methods used to draw students into discussion and full participation.
4. Members of the University community and others who believe they have been harassed in violation of this Policy by University employees or students, or by contractors or vendors serving the University, may contact the Office of University Compliance. Formal complaints must be filed in the Office of University Compliance within 45 calendar days following the occurrence of the act, incident, conduct, or pattern of conduct constituting the alleged violation. Such complaints will be processed under the “Ball State University Equal Opportunity and Affirmative Action Complaint Investigation Procedure and Appeal Process.” A copy of this document may be obtained by contacting the Office of University Compliance. Complaints involving students may instead be filed in the Office of the Vice President for Marketing, Communication and Enrollment Management, for handling under the procedures set forth in the Student Code.
5. Any University employee who becomes aware of conduct by another University employee, student, vendor or contractor which the employee reasonably believes constitutes harassment under this Policy shall report the conduct immediately to the Office of University Compliance; or, if the harassment involves students, the conduct may instead be reported to the Office of the Vice President for Marketing, Communication and Enrollment Management. To knowingly file a false or malicious complaint or report of harassment is a violation of this Policy.

- This Policy covers gender-based harassment that is non-sexual in nature. Sexual harassment is covered by a separate “Statement on Sexual Harassment.”

### **POLICY ON CONSENSUAL SEXUAL OR ROMANTIC RELATIONSHIPS**

1. Legal and ethical risks are inherent in any sexual or romantic relationship between a person with instructional responsibilities (full-time or part-time faculty, lecturer, visiting professor, graduate assistant, or tutor) and a student whose academic work is being supervised by the person with instructional responsibilities, even when the relationship seems to be consensual. The same is true of a sexual or romantic relationship between a person with non-instructional supervisory responsibilities (faculty, administrator, staff, or student) and someone over whom the person has supervisory responsibility. Individuals involved in a romantic relationship cannot be expected to be able to render an objective assessment of the performance of his or her partner in the relationship; the ability to render an objective assessment is crucial to the role of instructor or supervisor.
2. Because of these legal and ethical risks, it is the University’s policy that persons shall not have instructional or supervisory responsibilities over anyone with whom they have a sexual or romantic relationship. If such a relationship exists or develops, the person with instructional or supervisory responsibilities shall immediately make arrangements to terminate his or her instructional or supervisory responsibilities over the partner in the relationship. A member of the campus community who fails to withdraw from participation in decisions that may reward or penalize the party with whom he or she has or has had a sexual or romantic relationship will be deemed to have violated his or her ethical obligation to the University.
3. Violations of this policy may be reported to the Office of University Compliance or in the case of a student, he or she may report the conduct to the administrative head of Student Affairs. All such complaints and reports will be investigated in accordance with the “Equal Opportunity and Affirmative Action Complaint Investigation Procedure and Appeal Process.” To knowingly file a false or malicious complaint or report is a violation of this policy.

### **STATEMENT ON PROFESSIONAL ETHICS<sup>22</sup>**

\* (Adapted from the AAUP Statement)

1. The professors, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end they devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty. Although they may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.
2. As teachers, the professors encourage the free pursuit of learning in their students. They hold before them the best scholarly standards of their discipline. They demonstrate respect for the student as an individual and adhere to their proper role as intellectual guide and counselor. They make every reasonable effort to foster honest academic conduct and to assure that their evaluation of the students reflects their true merits. They respect the confidential nature of the relationship between professor and student. They avoid any exploitation of students for their private advantage and acknowledge significant assistance from them. They protect their academic freedom.
3. As colleagues, the professors have obligations that derive from common membership in the community of scholars. They respect and defend the free inquiry of their associates. In the exchange of criticism and ideas they show due respect for the opinions of others. They acknowledge their academic debts and strive to be objective in their professional judgment of colleagues. They accept their share of faculty responsibilities for the governance of their institution.

4. As members of their institution, the professors seek above all to be effective teachers and scholars. Although they observe the state regulations of the institution, provided they do not contravene academic freedom, they maintain their right to criticize and seek revision. They determine the amount and character of the work they do outside their institution with due regard to their paramount responsibilities within it. When considering the interruption or termination of their service, they recognize the effect of their decision upon the program of the institution and give notice of their intentions.
5. As members of their community, the professors have the rights and obligations of any citizen. They measure the urgency of these obligations in the light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons they avoid creating the impression that they speak or act for their college or University. As citizens engaged in a profession that depends upon freedom for its health and integrity, the professors have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

---

The Academic Freedom and Ethics Committee of the Faculty Council is responsible for discussing privately and confidentially with a faculty member the ethics of his or her behavior when the Committee concludes that the above ethical standards are being transgressed. Faculty and administrators may confidentially invite the attention of the Committee to the practices of a particular faculty member.

## Social Security Number Policy<sup>23</sup>

Ball State University recognizes that it collects and maintains confidential information relating to its students, employees, and individuals associated with the University and is dedicated to ensuring the privacy and proper handling of this information. This should be understood as the spirit of this policy statement.

This policy will be phased in, with a goal of Fall 2006 for full implementation. The language required in Section I.4 will be placed on all relevant forms and documents as soon as is reasonably practicable.

The primary purpose of this Social Security number policy is to establish the necessary procedures and awareness to ensure that University employees and students comply with both the letter and the spirit of the federal and state laws governing and restricting requests for and uses of Social Security numbers. The University is guided by the following objectives:

1. Broad awareness of the confidential nature of the Social Security number;
2. Reduced reliance upon the Social Security number for identification purposes;
3. A consistent policy towards and treatment of Social Security numbers throughout the University; and
4. Increased confidence by students and employees that Social Security numbers are handled in a confidential manner.

### I. POLICY/REGULATIONS

- I.1. A Ball State University ID Number (BSU ID) will be assigned to all students and employees. It will be uniquely associated with the individual to whom it is assigned. The BSU ID will be used in all future electronic and paper data systems to identify, track, and service individuals associated with the University, except in cases where use of the Social Security number is mandated by federal or state law.
  - I.1.1. The BSU ID will be considered the property of Ball State University, and its use and governance shall be at the discretion of the University, within the parameters of the law;
  - I.1.2. The BSU ID will be created and maintained by University Computing Services;
  - I.1.3. The BSU ID will be a component of a system that provides a mechanism for both the identification of individuals and a method of authentication.
- I.2. Grades and other pieces of personal information will not be publicly posted or displayed in a manner where use of all or part of the BSU ID or Social Security number (including use of the last few digits of the Social Security number) identifies the individual associated with the information.
- I.3. Social Security numbers will be electronically transmitted only through encrypted mechanisms.
- I.4. All University forms and documents that collect Social Security numbers will contain the appropriate language stating the reason for the request and whether the request is voluntary or mandatory. Refer to the guidelines document section (I.2) for more detailed information.
- I.5. Paper documents and electronic data containing Social Security numbers, when no longer needed by the University, will be destroyed or disposed of using a method designed to prevent or significantly inhibit their recovery or use thereafter by anyone.
- I.6. Except where the University is legally required to collect a Social Security number, individuals will not be required to provide their Social Security number, verbally or in writing, at any point of service, nor will they be denied access to those services should they refuse to provide a Social Security number. However, individuals may volunteer their Social Security number as an alternate means of locating a record.
- I.7. Social Security numbers will be released by the University to entities outside the University only
  - I.7.1. As allowed by law; **OR**
  - I.7.2. When permission is granted by the individual; **OR**
  - I.7.3. When the external entity is acting as the University's contractor or agent and adequate

security measures are in place to prevent unauthorized dissemination to third parties;

**OR**

I.7.4 When University Legal Counsel has approved the release.

- I.8. The Social Security number may continue to be stored as a confidential attribute associated with an individual. The Social Security number will be used as
- I.8.1. Allowed by law;
  - I.8.2. A key to identify individuals, such as University contractors and agents, for whom a BSU ID is not known or has not been assigned.
  - I.8.3. A key to identify historical records such as those in payroll/benefits and student records.
- I.9. This policy does not preclude Ball State University employees from using the Social Security number as needed during the execution of their duties, if a primary means of identification is unavailable. The other aspects of this policy statement restrict such usage.

## **II. ENFORCEMENT**

- II.1. The Ball State University ID Committee will work with the Executive Director of University Compliance to ensure compliance with this policy and to recommend changes if appropriate.
- II.2. Employees and students may be subject to disciplinary action, up to and including termination of employment or dismissal from the University for violating this policy, such as by breaching the confidentiality of Social Security numbers. Any such disciplinary action shall be governed by the regular University policies and procedures applicable to the situation.

## UNIVERSITY PROMOTION AND TENURE DOCUMENT<sup>24</sup>

### Preamble

Among the most important decisions of a university are those regarding tenure and promotion of its faculty. At a university such as Ball State, the diverse nature of colleges and departments must be respected in any document pertaining to the university as a whole. However, a degree of continuity across disciplines is necessary to ensure equitable decisions for individuals. Consequently, the purpose of this document is to provide a set of common policies and procedures governing all promotion and tenure decisions at Ball State University. Although the Promotion and Tenure Documents of all colleges and departments must be consistent with this document in both spirit and detail, it is expected that these documents may also need to contain a variety of additional elements not included here.

The promotion and tenure expectations for each faculty member are dependent on the individuals' particular assignment and are defined by university, college, and departmental documents. It is the responsibility of each faculty member to become familiar with all three applicable documents.

### I Guidelines for Promotion and Tenure

1. The evaluation of a faculty member's eligibility for promotion or tenure shall be conducted in light of the University Mission Statement and shall be based on evidence of a continuing pattern of achievement throughout the faculty member's professional career in the following areas:
  - 1.1 Teaching;
  - 1.2 Research, publication, creative endeavors, or other scholarly productivity;
  - 1.3 Service in a professional capacity.

### II Definitions

1. Department and departmental refer to schools, academic departments located within the seven colleges and those comparable units which have faculty and/or eligible professional personnel but are not located within colleges.
2. College and collegiate refer to the seven academic colleges and also to the Academic Affairs promotion and tenure unit.
3. Reconsideration refers to the initial action required when there is an adverse recommendation concerning promotion or tenure at the departmental level. Request for reconsideration by the department is the first step to be taken by the appellant.
4. Appeal refers to the action taken by the appellant when the outcome of the departmental reconsideration is the same as the original recommendation or when an adverse recommendation is made at the collegiate or Provost and Vice President for Academic Affairs level.
5. Working days are those days when Ball State University administrative offices are open.
6. Calendar days are the days which appear on a calendar, including Saturday, Sunday, and holidays. They do not relate to the Ball State academic schedule or calendar.
7. Eligible professional personnel are those individuals who hold academic rank and/or tenure or who are eligible for tenure.
8. Tenure is a means to certain ends; specifically: (1) freedom of teaching and research, and of extramural activities and (2) a sufficient degree of economic security to make the profession attractive to men and women of ability. (Faculty Handbook, Appointment, Academic Freedom, and Tenure 2.3). Freedom and economic security, hence, tenure, are indispensable to the success of an institution in fulfilling its obligations to its students and to society.

9. Tenure-track faculty are those who are currently in the seven-year probationary tenure period.
10. Tenured faculty are those faculty who have been granted tenure.

### III Policy Statements

1. Policy Statements for Promotion
  - 1.1 Faculty and eligible professional personnel shall be evaluated in the light of the University Mission Statement.
  - 1.2 Policies and criteria related to recommending promotions shall be clear, specific, and accessible to all personnel.
  - 1.3 Policies and criteria for promotions shall be subject to annual evaluation and review and to periodic revision.
  - 1.4 Any department member or eligible professional personnel member has the right to present herself or himself to the Department Promotion and Tenure Committee for consideration for promotion.
  - 1.5 Recommendations for promotion shall be initiated at the level where the candidate's qualifications can be best identified and evaluated. In most instances this would be the department.
    - 1.51 Each affected department, school, and college must have formal criteria, procedures, and policies for recommendations for promotions.
    - 1.52 Recommendations shall be supported by ample documentary evidence demonstrating that the candidate for promotion satisfies established criteria. Documentation shall include:
      - 1.521 Evaluation forms approved by the administrative unit concerned.
      - 1.522 In the case of a candidate seeking promotion to Professor, a minimum of two letters from reviewers external to the University shall be included. Such letters shall provide supplementary review of the candidate's scholarship, creative endeavors, and other scholarly productivity. These letters shall be acquired and presented in accordance with departmental and college policies and procedures. The candidate shall be fully involved in the selection of reviewers, with one-half of the contacted reviewers being from the candidate's list. Challenges to the list of reviewers will be handled according to department and college policies. All letters received from external reviewers will be available to evaluators in the promotion review process.
  - 1.6 Work accomplished before hiring at Ball State, as well as work accomplished while a faculty member at Ball State, will be considered in promotion deliberations. It is understood that greater attention and significance will be given to the work accomplished during the appointment at Ball State. The evidence must demonstrate a record of continuous activity.
  - 1.7 The departmental and collegiate policies and criteria for promotions must be approved by the University Promotion and Tenure Committee and must be on file with the University Promotion and Tenure Committee and the Office of the Provost and Vice President for Academic Affairs.
  - 1.8 All promotions to Associate Professor and Professor will be granted on the basis of the spring recommendations. Regular Instructors will be promoted to Assistant Professor in September on the basis of provisions made in appointment letters. Regular Instructors appointed in 1978 and thereafter must have appointment letters that specify conditions for promotion. Regular Instructors appointed prior to 1978 whose appointment letters do not specifically state such conditions will be considered for promotion each September in accordance with criteria contained in approved departmental promotion and tenure documents.
  - 1.9 No person may serve as a member of a College Promotion and Tenure Committee who is a candidate for promotion. An individual so elected who later becomes a candidate for promotion must resign from the committee.
  - 1.10 No person may serve as a member of a Department Promotion and Tenure Committee who is a candidate for promotion.
    - 1.101 An individual so elected who later becomes a candidate for promotion must resign from the committee.
    - 1.102 The one exception to these provisions involves the chairperson of the department when he or she is a candidate for promotion. In that circumstance, he or she shall not vote on any candidate, but may participate in all committee deliberations concerning promotions except those involving his or her own candidacy.
    - 1.103 No candidate shall be evaluated by a Promotion and Tenure Committee of fewer than three (3) eligible voting members. Departments which under these or any other conditions cannot form a Promotion and Tenure Committee of at least three

members shall develop specific provisions subject to the approval of the College and the University Promotion and Tenure Committees.

- 1.11 At any step in the promotion process (Department Promotion and Tenure Committee; department chairperson; College Promotion and Tenure Committee; academic dean; Provost and Vice President for Academic Affairs) the first committee or individual not recommending a faculty member favorably for promotion shall provide that faculty member with a written statement delineating his or her strengths and weaknesses in each of the areas of 1) teaching, 2) research, publication, creative endeavors, or other scholarly productivity, and 3) service in a professional capacity. The committee or individual may also suggest areas for improvement.
2. Policy Statements for Tenure
  - 2.1 Faculty and eligible professional personnel shall be evaluated in the light of the University Mission Statement.
  - 2.2 Policies and criteria related to recommending tenure shall be clear, specific, and accessible to all personnel.
  - 2.3 Policies and criteria for tenure shall be subject to annual evaluation and review and to periodic revision.
  - 2.4 The departmental and collegiate policies and criteria for tenure must be approved by the University Promotion and Tenure Committee and must be on file with the University Promotion and Tenure Committee and the Office of the Provost and Vice President for Academic Affairs.
  - 2.5 A faculty member must complete at least one semester of full-time service during any academic year in order to receive a full year's credit for purposes of tenure consideration.
  - 2.6 Tenure for those who hold academic rank is earned in an academic department and held in the University.
    - 2.61 For all individuals hired by the University after June 30, 1981, tenure may be granted only to those who hold academic rank in an academic department. When a candidate is hired, academic rank must be recommended by an academic department chairperson in conjunction with the Department Promotion and Tenure Committee or, if it is unavailable, another faculty committee, and subsequently approved by appropriate schools, colleges, administrators, and the Board of Trustees. Years granted toward tenure at the time of hiring must be recommended by an academic department chairperson in conjunction with the Department Promotion and Tenure Committee or, if it is unavailable, another faculty committee, and subsequently approved by appropriate schools, colleges, administrators, and the Board of Trustees.
  - 2.7 Work accomplished before hiring at Ball State, as well as work accomplished while a faculty member at Ball State, will be considered in tenure deliberations. It is understood that greater attention and significance will be given to the work accomplished during the appointment at Ball State. The evidence must demonstrate a record of continuous activity.
  - 2.8 When a faculty member is employed in a tenure-track position, a probationary period of seven years is ordinarily required before tenure is granted by the Board of Trustees. Generally, the probationary period will not exceed seven full-time years of tenure-creditable service as a faculty member at Ball State University. The exceptions are noted below.

When transferred from one academic or professional area to another, a tenure-track person, in addition to the normal probationary period, may request or may be required to complete an additional probationary period not to exceed two years. The length of the extension of time must be established and stated in writing at the time of the new appointment.

- 2.81 A faculty member may request that certain years (normally not to exceed two years total) not be counted as tenure-creditable years if any of the following pertain:
  - 2.811 The faculty member is seriously ill;
  - 2.812 The faculty member is the principal care-giver for a son/stepson or daughter/stepdaughter;
  - 2.813 The faculty member is the principal care-giver for a family member who is seriously ill;
  - 2.814 The faculty member will be on leave for at least one semester of the academic year.

A request that a year not be counted as tenure-creditable shall be made to the department chairperson prior to the beginning of the next academic year. The request shall include documentation of the circumstances involved. The request shall be given immediately by the department chairperson to the Department Promotion and Tenure Committee. The request requires approval of the Department Promotion and Tenure Committee, the department chairperson, the appropriate dean, and the Provost and Vice President for Academic Affairs.

- 2.82 In cases where the exceptional achievements of a candidate in teaching, research, publication, creative endeavors, scholarly productivity, and other meritorious activities resulted in appointment at the associate or full professor ranks, tenure may be recommended to the trustees as early as the completion of the third year, following a recommendation from the Department Promotion and Tenure Committee, and approval from the department chairperson, academic dean, and Provost and Vice President for Academic Affairs. The Board of Trustees may grant tenure in special cases to an individual who holds or will hold academic rank without any probationary period, or with a probationary period of fewer than three years, if all of the following conditions are fulfilled:

2.821 The Board obtains the prior positive recommendations of the Promotion and Tenure Committee of the academic department in which the candidate holds (or will hold) academic rank, department chairperson, the academic dean, the Provost and Vice President for Academic Affairs, and the President.

2.822 The Board concurs with the recommendation that the individual possesses superior academic and/or creative qualifications;

2.823 The Board concurs with the recommendation that waiver of the normal probationary period is necessary to induce the individual to accept an offer of employment or to continue his or her employment with the University.

- 2.9 Specific conditions of employment that must be fulfilled by a tenure-track faculty member (in addition to the general standards of performance) will be stated in writing by the University administration at the time of employment. In order to be eligible for a favorable tenure recommendation, the faculty member must meet these employment conditions unless he or she is released there from, in whole or in part, by means of a written departmental recommendation that is approved by the academic dean, the Provost and Vice President for Academic Affairs, and the President.

2.10 No later than February 15 of each academic year, each department will send a letter to the Provost and Vice President for Academic Affairs, via the academic dean, and the faculty member, setting forth the status of each tenure-track faculty member with respect to his or her fulfillment of the conditions of appointment and any matters pertaining to the quality of his or her performance. This letter will contain the recommendations of the department chairperson and the academic dean.

2.101 Before the end of each academic year, the Provost and Vice President for Academic Affairs will notify each tenure-track faculty member in writing as to the University's official assessment of his or her status with regard to progress toward tenure. The contents of the letter will reflect:

2.1011 The University's official record of the individual's status with respect to fulfillment of specific conditions of employment which were stated in the letter of employment; and

2.1012 The University's assessment of the individual's performance and progress toward tenure.

If the members of a department wish to recommend termination of the appointment of a tenure-track faculty member at the end of any academic year during the probationary period, a letter to that effect shall be filed in the Office of the Provost and Vice President for Academic Affairs at least two weeks in advance of the final date set forth in 2.14-2.143 below for giving written notice of non-reappointment or of intention not to recommend reappointment to the Board of Trustees. The letter must contain the recommendations of the academic dean.

- 2.11 A tenure recommendation will be made by the department, academic dean, and the Provost and Vice President for Academic Affairs at least one year prior to the end

of a faculty member's probationary period. That recommendation will be either a recommendation to grant tenure at the end of the following year or a recommendation to terminate the faculty member at the end of the following year.

- 2.111 If the recommendation is to grant tenure, then the tenure review in the seventh year will generally result in a reaffirmation of the favorable recommendation unless a substantial change in the level of the faculty member's performance has occurred or a specific condition of employment or tenure has not been met.
- 2.112 If the recommendation is to terminate the faculty member, then the faculty member's seventh year is the final one at the University.
- 2.113 If a faculty member is recommended for tenure at the end of the sixth year and there is evidence of substantial change in the level of the faculty member's performance in the seventh year or a specific condition of employment or tenure has not been met, then the faculty member may be recommended for termination at the end of the seventh year. In this case, the faculty member shall be granted an eighth and final year, as a contract faculty member, at the University.
- 2.12 The following are necessary prerequisites in order to be eligible for tenure:
  - 2.121 The faculty member must have satisfied any specific conditions of employment set forth in his or her letter of appointment;
  - 2.122 The faculty member must have received a positive tenure recommendation from his or her academic department; and
  - 2.123 There must be available significant evidence of excellent performance by the faculty member, and there must be the expectation for a continuance of such in the future.
- 2.13 Tenure may be attained only through official action by the Board of Trustees of the University. The Board will make its decision after receiving and reviewing the recommendations of the department, academic dean, Provost and Vice President for Academic Affairs, and the President, but the Board will not be bound to follow any of said recommendations.
- 2.14 Notice of non-reappointment, or of intention not to recommend reappointment to the Board of Trustees shall be given to the faculty member in writing in accordance with the following standards:
  - 2.141 Not later than March 1 of the first academic year of service, if the appointment is to expire on the day the spring semester closes; or, if a one-year appointment terminates during an academic year, at least three months in advance of its termination;
  - 2.142 Not later than December 15 of the second academic year of service, if the appointment is to expire on the day the spring semester closes; or, if an initial two-year appointment terminates during an academic year, at least six months in advance of its termination;
  - 2.143 At least twelve months before the expiration of an appointment after two or more years in the institution.
- 2.15 Contract full-time appointment service may be considered as part of the probationary period for those who are later placed on regular full-time faculty and professional personnel status.
- 2.16 Prior service at Ball State University may be counted toward tenure after the person has completed a one-year probationary period following the return.
- 2.17 Years of service remain with the individual when regular full-time faculty and professional personnel transfer from one academic or professional area to another.
- 2.18 Any tenure-track individual serving as a member of a Department or College Promotion and Tenure Committee must be absent from deliberations concerning his or her progress toward tenure.
- 2.19 Before the end of the academic year, the Department Promotion and Tenure Committee, after consultation with the department chairperson, shall provide each tenure-track faculty member in its department with a written assessment of that faculty member's work. This assessment shall include an evaluation of strengths and weaknesses in each of the areas of 1) teaching, 2) research, publication, creative endeavors, or other scholarly productivity, and 3) service in a professional capacity. The committee may also suggest areas for improvement.

At any other step in the tenure process (department chairperson if his or her recommendation is different from the Department Promotion and Tenure Committee; College Promotion and Tenure Committee; academic dean; Provost and Vice President for Academic Affairs) the first committee or individual not recommending satisfactory progress for a faculty member shall provide that faculty member with a written statement delineating his or her strengths and

weaknesses in each of the areas of 1) teaching, 2) research, publication, creative endeavors, or other scholarly productivity, and 3) service in a professional capacity. The committee or individual may also suggest areas for improvement.

### 3. Policy Statements for Materials Presented for Promotion and Tenure Purposes

#### 3.1 Promotion and Tenure Materials Presented by Faculty Members

Those materials shall contain a curriculum vitae and supporting documentation in accordance with guidelines established by departments and colleges for those materials.

As is the case with the entire personnel file, this Promotion and Tenure file shall be open to the faculty or professional personnel member concerned. Materials shall be placed in the file in a timely manner by the department chairperson.<sup>25</sup> A candidate's Promotion and Tenure file shall contain all materials and only those materials relevant to promotion and/or tenure. Such materials include, but are not limited to, vita; forms concerning changes in appointment; formal evaluations by supervisors; teaching evaluations; information concerning scholarly productivity or creative endeavors; information concerning service in a professional capacity; information concerning any disciplinary actions taken; information concerning the status of any formal charges against an employee; or signed letters from students, alumni, peers, supervisors, etc., concerning teaching, scholarly productivity or creative endeavors, or service in a professional capacity. Information about the individual's gender, race, disability, national origin, religion, age, veteran status, citizenship, sexual orientation, or marital status may not be included. As with all contents of the personnel file, when information detrimental to an individual is placed in the candidate's Promotion and Tenure file, it shall be brought to his or her attention in writing at once by his or her administrative head. The faculty or professional personnel member shall have the opportunity to place in the file materials which might rebut or explain the detrimental information. Detrimental material that has not been brought to the attention of the faculty or professional personnel member cannot be used in subsequent promotion and tenure deliberations. Anonymous letters shall not be made a part of this file.

**Supplemental External Review Letters for Promotion to Professor.** In the case of a candidate seeking promotion to Professor, a minimum of two letters from reviewers external to the University shall be included. Such letters shall provide supplementary review of the candidate's scholarship, creative endeavors, and other scholarly productivity. These letters shall be acquired and presented in accordance with departmental and college policies and procedures. The candidate shall be fully involved in the selection of reviewers, with one-half of the contacted reviewers being from the candidate's list. Challenges to the list of reviewers will be handled according to department and college policies. All letters received from external reviewers will be available to evaluators in the promotion review process. External review letters shall be inserted and retained in the candidate's Promotion and Tenure file for use by the departmental, collegiate, and in the case of an appeal, University Promotion and Tenure committees, and by the Provost in promotion deliberations for the current year. The candidate has the right to examine all external review letters received. For the examination of the letters by the candidate, anonymity of the external evaluators must be protected in accordance with procedures established by departments and colleges. The candidate has the right to respond to information contained in the letters. At the conclusion of these deliberations, the letters shall be retained in a confidential file in the Office of the Dean of the College. Once letters are placed in this separate confidential file, they cannot be reopened for purposes of subsequent promotion deliberations at any level of consideration unless requested by the candidate.

**Rank**

Associate Professor; and Professor. (After January 1991, no person will be hired into a tenure-track position at the rank of Instructor.)

Qualifications for rank are set by the individual colleges and must be approved by the University Promotion and Tenure Committee.

2. Advancement in rank is based on a continuing pattern of achievement throughout the faculty member's professional career in:
  - 2.1 Teaching;
  - 2.2 Research, publication, creative endeavors, or other scholarly productivity;
  - 2.3 Service in a professional capacity.
3. A terminal degree in the faculty member's specialty area is usually required for either hiring at or advancement to associate or full professor. However, certain kinds of expertise, experience and/or recognition may be accepted by individual colleges as appropriate qualifications for either rank, upon approval of the Provost and Vice President for Academic Affairs.
4. Academic Rank for Professional Personnel
  - 4.1 A non-teaching employee of the University may be granted academic rank only after the approval of the faculty of the department in which such rank is sought. The extent of the majority required and those faculty members participating in the vote shall be determined by the department in question. Any person with such rank who is not tenured or eligible for tenure shall not participate in tenure discussions or make recommendations concerning tenure as a member of either a Department or College Promotion and Tenure Committee.

**VI Procedures for Promotion and Tenure**

1. Procedures for Promotion
  - 1.1 Faculty Personnel--Regular

    - 1.13 Credentials of those candidates to be recommended favorably for promotion by the Departmental Committee shall be forwarded to the academic dean in an order to be specified by the faculty of each college. Included with the credentials will be the Department Promotion and Tenure Committee's evaluations and recommendations.
      - 1.131 If in presenting evaluations, the department chairperson has serious reservations concerning a faculty member's qualifications, the department chairperson shall inform the Department Committee of the bases of the reservations.   - 1.3 Faculty who do not hold rank in an academic department
    - 1.31 Policies and criteria established by the departments and administrative areas concerned with the promotion of faculty who hold rank but are not attached to academic departments of colleges must be approved by the Academic Affairs Promotion and Tenure Committee and the University Promotion and Tenure Committee and be on file with the ex officio member of those two bodies.

      - 1.331 If in presenting evaluations, the area director or departmental chairperson has serious reservations concerning a faculty member's qualifications, the area director or departmental chairperson shall inform the Department Committee of the bases of the reservations.   2. Procedures for Tenure
    - 2.1 Faculty Personnel--Regular

- 2.11 Departmental policies and criteria must be approved by the College Promotion and Tenure Committee and the University Promotion and Tenure Committee and shall be on file with the academic dean and the ex officio member of the University Promotion and Tenure Committee.
- 2.12 Each department shall have a specific evaluation form for rating a faculty member in relation to tenure. This form shall be used when a faculty member is being considered for tenure. This rating form must be kept on file with the chairperson of the department and must be approved by the College Promotion and Tenure Committee and the University Promotion and Tenure Committee.
- 2.13 Recommendations concerning tenure shall be initiated at the departmental level.

- 2.19 Specific conditions of appointment stated in writing at the time of appointment by the President shall be given in writing to the individual, the department, the school director or chairperson, the appropriate dean, the appropriate Vice President and the President.

## **VII Right of Appeal**

- 1. Appeals from Adverse Decisions
  - 1.1 Regular full-time faculty and regular professional personnel may appeal promotion and tenure decisions which adversely affect such individuals in accordance with provisions set forth in this Part VII.
- 2. Bases for Request for Reconsideration and/or Appeal
  - 2.1 There are three permissible reasons to request reconsideration or appeal:
    - 2.11 Allegation of violation of approved departmental, collegiate, and/or University policies, including those set forth in the Faculty and Professional Personnel Handbook;
    - 2.12 Allegation of unfair treatment on the part of the decision makers;
    - 2.13 Allegation of discriminatory treatment on the part of the decision makers.
  - 2.2 When an appellant alleges violation of approved departmental, collegiate, and/or University policies, including those set forth in the Faculty and Professional Personnel Handbook, then he or she must cite the specific policies which a committee or administrator failed to follow. When filing a request for reconsideration or appeal, the appellant must also provide a summary of the way(s) in which the policies were violated and how such violation(s) adversely affected the appellant.
  - 2.3 When an appellant alleges unfair treatment on the part of the decision makers, then he or she must cite the specific treatment engaged in by a committee or administrator. When filing a request for reconsideration or appeal, the appellant must also provide a summary of the reasons why the decision in question was clearly not merited by the evidence available to the decision makers and must also attach to the summary specific and detailed evidence in support of the reasons

- listed in the summary. Unfair treatment is defined as decisions which are arbitrary or capricious or which are clearly not supported by the evidence.
- 2.4 When an appellant alleges discriminatory treatment on the part of the decision makers, then he or she must cite the specific treatment engaged in by a committee or administrator. When filing a request for reconsideration or appeal, the appellant must also provide a summary of the constitutionally or statutorily prohibited reasons upon which he or she believes the decision was based and a detailed summary of the evidence which supports the appellant's allegation. Discriminatory treatment is defined as decisions based upon constitutionally or statutorily prohibited reasons, including unlawful discrimination.
  - 2.5 When a request for reconsideration or appeal is filed which alleges discriminatory treatment on the part of the decision makers, the University's Director of Equal Opportunity and Affirmative Action, or his or her designee, shall serve in an advisory capacity to the committee or hearing panel at each level of appeal. All appeals alleging discriminatory treatment in promotion and tenure decisions shall be pursued under the procedures set forth in this document rather than under the Ball State University "Equal Opportunity and Affirmative Action Complaint Investigation Procedure and Appeal Process."
  - 2.6 In all cases, the appellant has the burden of proving his or her allegations.
3. Appeals Which Begin at the Departmental Level
    - 3.1 If the initial adverse recommendation has been made by the Department Promotion and Tenure Committee, then the appellant must ask for a reconsideration of that recommendation by the Department Committee before he or she may proceed further.
      - 3.11 The appellant must ask, in writing, for the reconsideration within ten (10) calendar days following the date of the faculty member's receipt of the written recommendation adversely affecting him or her. For example, if a Department Promotion and Tenure Committee advises a faculty member in writing that it is recommending against awarding tenure to such member, the period to request reconsideration would run from the date of receipt of that communication, rather than from the date on which the Board of Trustees subsequently announces the names of faculty members who have been awarded tenure. Any request for reconsideration not filed within this time limit will be denied automatically, unless the academic dean determines that good cause has existed for the delay.
      - 3.12 The written request for reconsideration shall be filed in the office of the department chairperson. The request shall cite the basis or bases for the request for reconsideration. See "Bases for Request for Reconsideration and/or Appeal" VII, 2., for information on the bases for appeal and what should be included in the request for reconsideration.
      - 3.13 If the request for reconsideration cites discriminatory treatment on the part of the Department Promotion and Tenure Committee, then the University's Director of Equal Opportunity and Affirmative Action, or his or her designee, shall serve in an advisory capacity to the Department Committee.
    - 3.2 After receiving a request for reconsideration, the Department Committee must meet to reconsider its initial adverse recommendation. The Department Committee must meet with the appellant if he or she so requests. The Department Committee must then state in writing its position regarding each of the bases for appeal set forth by the appellant, and must furnish a copy of this statement to the appellant within fifteen (15) calendar days of its receipt of the request for reconsideration. The chairperson of the Department Committee may, with good cause, extend the fifteen day deadline.
      - 3.21 The appellant's materials for promotion and/or tenure shall be held in the departmental office and shall not be forwarded to the College Promotion and Tenure Committee until all requests for reconsideration or appeals have been exhausted.
    - 3.3 If the appellant is not satisfied with the response of the Department Committee, then he or she may appeal to the College Promotion and Tenure Committee. The request must be made within ten (10) calendar days following the appellant's receipt of the Department Committee's decision and must be filed in the office of the academic dean. See "Bases for Request for Reconsideration and/or Appeal" VII, 2., for information on the bases of appeal and what should be included in the request for a hearing. Any request that is not filed within this time limit will be denied automatically unless the Provost and Vice President for Academic Affairs determines that good cause has existed for the delay.

- 3.4 The academic dean is responsible for preparing an appeal file that will consist of (a) the formal request for hearing and any other materials submitted by the appellant; (b) the response and any other materials submitted by the Department Committee when it reconsidered its initial adverse recommendation. The appeal file will be forwarded to the chairperson of the hearing panel who will make certain that it is made available to all parties to the hearing.
- 3.41 The academic dean will assist the chairperson of the hearing panel in arranging the hearing at the collegiate level.
- 3.5 A formal hearing will take place.
- 3.51 Timing. The College Committee must hold the hearing within thirty (30) calendar days of its receipt of the request for hearing. Days outside the regular academic year will not be counted in the thirty day computation. The chairperson of the College Committee may, with good cause, extend the thirty day deadline.
- 3.52 Membership of the hearing panel. The College Promotion and Tenure Committee may serve as the hearing panel, or it may establish a separate hearing panel. The hearing panel shall consist of not fewer than five (5) faculty members, at least two (2) of whom must also be members of the Promotion and Tenure Committee establishing the panel. The chairperson of the College Promotion and Tenure Committee, or his or her designee, will serve as chairperson of the hearing panel.
- 3.521 If the appellant is a minority, at least one (1) member of the hearing panel shall be a minority. Also, at least one (1) member of the hearing panel shall be of the same gender as the appellant. If the College Promotion and Tenure Committee serves as the hearing panel, the Committee may (to meet the requirements of this paragraph) be required to add to the Committee faculty member(s) from within the college who shall participate fully in the appeal hearing. If the addition of faculty member(s) is required, the faculty member(s) selected must be approved by the dean. This paragraph shall not apply (a) if the college has no minority faculty members or faculty members of the required gender who are eligible to serve on the hearing panel, or (b) if all of the eligible minority faculty members or faculty members of the required gender either decline to serve or are disqualified from serving on the hearing panel due to their unavailability, conflict of interest, personal bias or other good and sufficient reason as determined by the College Promotion and Tenure Committee chairperson. For the purposes of this paragraph, "minority" refers to an individual who is a member of a minority classification recognized by the U.S. Equal Employment Opportunity Commission.
- 3.522 When an appeal is filed which alleges that a decision was the result of illegal discrimination, two (2) of the members of the hearing panel shall be appointed from among the full-time faculty and professional personnel serving on the Complaint Appeals Board of the Ball State University "Equal Opportunity and Affirmative Action Appeal Procedures." The appellant shall choose one (1) of such panelists and the responding party shall choose the other such panelist. If either the appellant or the responding party fails to make a selection, the University's Director of Equal Opportunity and Affirmative Action shall make that party's selection. The University's Director of Equal Opportunity and Affirmative Action, or his or her designee, shall serve in an advisory capacity to the hearing panel.
- 3.523 No one may serve to hear an appeal who has a demonstrated conflict of interest such as previous involvement with the case, assignment to the same academic department or administrative area as any of the principals in the case, business involvement, or relationship to any of the principals. Decisions regarding such conflicts shall be made by the committee chairperson.
- 3.53 Parties. Parties participating in the hearing are (a) the appellant; and (b) the department chairperson and the Department Promotion and Tenure Committee chairperson, who together shall serve as the responding party (unless the chairperson of the College Promotion and Tenure Committee appoints a different individual or individuals to serve as the responding party).

- 3.54 Notice of hearing. The parties shall be given at least ten (10) calendar days notice of the date, time, and place of the hearing, unless they waive that notice in writing. The hearing may be postponed or continued by the chairperson of the hearing panel whenever he or she may deem appropriate, or upon the request of either party for good cause shown.
- 3.55 Materials used in hearing. The parties must furnish the chairperson of the hearing panel with the following materials at least five (5) working days prior to the date of the hearings:
- 3.551 Copies of all documents upon which they intend to rely but which are not already a part of the appeal file;
- 3.552 A list of any witnesses whom they plan to call.

Copies of these materials must be distributed to all participants by the chairperson of the hearing panel at least three (3) working days prior to the date of the hearing. Additional materials and/or witnesses may not be utilized by either party at a hearing without the consent of the hearing panel.

- 3.56 Attendants at hearing. In addition to the hearing panel and the previously specified parties, the following persons may attend a hearing.
- 3.561 A full-time regular Ball State faculty or professional personnel member to serve as faculty colleague for the appellant.
- 3.562 Representative of the academic dean's office.
- 3.563 Other University-affiliated persons whose attendance is requested or approved by the chairperson of the hearing panel.
- 3.564 Any person designated by the chairperson of the hearing panel to record and to prepare a summary of the evidence presented at the hearing.
- 3.565 Witnesses called by either party. Such witnesses shall be present only while they are testifying.
- 3.566 A recording secretary designated by the appellant, if he or she desires. This person must be a full-time Ball State faculty, professional personnel, or staff member.

Failure, without good cause, of the appellant or the responding party to appear and proceed at the hearing may force the hearing panel to hear and respond to the appeal in the absence of the appellant or the responding party.

- 3.57 Quorum and challenges. A majority of the members of a hearing panel shall constitute a quorum. Either party may challenge a panel member on the grounds of personal bias. The decision whether to disqualify a challenged member shall be made by a majority vote of the remaining members, conducted by written ballot. If this vote results in a tie, the decision shall be made by the chairperson of the hearing panel.
- 3.58 Conduct of hearings. Hearings shall be conducted with a view toward providing the hearing panel with a complete understanding of the circumstances surrounding the decision which is being appealed. The chairperson of the hearing panel shall preside at the hearing and shall make all procedural rulings. These rulings may be reversed by a majority vote of the panel members present, including the chairperson.
- 3.59 Witnesses. Each party is responsible for ensuring the presence of his or her witnesses at a hearing. Written statements in lieu of the personal testimony of a witness shall not be permitted unless a majority of the panel members determines that a witness is unavailable to testify. All witnesses who testify may be questioned concerning any matter relevant to the hearing by any member of the hearing panel.
- 3.510 Hearing records. The hearing panel must arrange for minutes of the hearing to be taken. These minutes shall include a general summary of the major points made by the parties and participants at the hearing, any motions made or votes taken by the hearing panel. Copies of approved minutes shall be made available upon request to the appellant and/or respondent within twenty (20) calendar days of the conclusion of the hearing. Further use of these minutes by either party is restricted to appeals at higher levels of the procedures outlined here or in external legal proceedings. Recordings or tapes of a hearing shall not be permitted.
- 3.511 Decision by the hearing panel. After the conclusion of the hearing, the hearing panel shall meet to consider the evidence presented at the hearing, or evidence already presented in the hearing file. At this time, the hearing

panel may request an interview with the academic dean, or the academic dean may request an interview with the hearing panel. The hearing panel must determine whether the appeal should be upheld or denied, and it must set forth in writing a brief summary of the reasons for its decision. Copies of that decision are to be addressed to the academic dean and must be provided to all participants in the appeal within twenty (20) calendar days of the conclusion of the hearing.

3.5111 The decision of the hearing panel shall be deemed to be the decision of the College Promotion and Tenure Committee, without further action on the part of the committee.

3.51111 When a hearing panel votes to uphold an appeal, then it must specify a remedy for the situation or specify a recommended course of action to the appropriate parties (for example, a rehearing of a case by a previous committee or administrator or a recommendation for or against promotion or tenure of an appellant). If the responding party does not agree with this recommendation, that party may appeal to the University Promotion and Tenure Committee.

3.51112 When a hearing panel votes to deny an appeal, then the appellant has the right to appeal this decision to the University Promotion and Tenure Committee.

3.6 If an appellant or respondent wishes to appeal the decision of a collegiate hearing panel, either may request a hearing before the University Promotion and Tenure Committee. The request must be made within ten (10) calendar days following receipt by the appealing party of the collegiate hearing panel's decision and must be filed in the Office of the Provost and Vice President for Academic Affairs. See "Bases for Request for Reconsideration and/or Appeal" VII, 2., for information on the bases of appeal and what should be included in the request for a hearing. Any request not filed within this time limit shall be denied automatically unless the Provost and Vice President for Academic Affairs determines that good cause has existed for the delay.

3.7 The Provost and Vice President for Academic Affairs is responsible for preparing an appeal file that shall consist of (a) the formal request for hearing and any other materials submitted by the appellant; (b) the responses and any other materials submitted by the Department Committee when it reconsidered its initial adverse recommendation; (c) the responses and any other materials submitted by the College Committee when it considered the appeal. The appeal file shall be forwarded to the chairperson of the hearing panel who shall make certain that it is made available to all parties to the hearing.

3.71 The Provost and Vice President for Academic Affairs shall assist the chairperson of the hearing panel in arranging the hearing at the University level.

3.8 A formal hearing will take place.

3.81 Timing. The University Promotion and Tenure Committee must hold the hearing within thirty (30) calendar days of its receipt of the request for hearing. Days outside the regular academic year shall not be counted in the thirty day computation. The chairperson of the University Committee may, with good cause, extend the thirty day deadline.

3.82 Membership of the hearing panel. The University Promotion and Tenure Committee may serve as the hearing panel, or it may establish a separate hearing panel. The hearing panel shall consist of not fewer than five (5) faculty members, at least two (2) of whom must also be members of the Promotion and Tenure Committee establishing the panel. The chairperson of the University Promotion and Tenure Committee, or his or her designee, shall serve as chairperson of the hearing panel.

3.821 When an appeal is filed which alleges that a decision was the result of illegal discrimination, two (2) of the members of the hearing panel shall be appointed from among the full-time faculty and professional personnel then serving on the Complaint Appeals Board of the Ball State University "Equal Opportunity and Affirmative Action Appeal Procedures." The appellant shall choose one (1) of such panelists and the responding party shall choose the other such panelist. If either the appellant or the responding party fails to make a selection, the University's Director of Equal Opportunity and Affirmative Action, shall make

that party's selection. The University's Director of Equal Opportunity and Affirmative Action, or his or her designee, shall serve in an advisory capacity to the hearing panel.

- 3.822 No one may serve to hear an appeal who has a demonstrated conflict of interest such as previous involvement with the case, assignment to the same academic department or administrative area as any of the principals in the case, business involvement, or relationship to any of the principals. Decisions regarding such conflicts shall be made by the committee chairperson.
- 3.823 If the appellant is a minority, at least one (1) member of the hearing panel shall be a minority. Also, at least one (1) member of the hearing panel shall be of the same gender as the appellant. If the University Promotion and Tenure Committee serves as the hearing panel, the Committee may (to meet the requirements of this paragraph) be required to add to the Committee faculty member(s) who shall participate fully in the appeal hearing. If the addition of faculty member(s) is required, the faculty member(s) selected must be approved by the University Promotion and Tenure Committee chairperson. For the purposes of this paragraph, "minority" refers to an individual who is a member of a minority classification recognized by the U.S. Equal Employment Opportunity Commission.
- 3.83 Parties. The parties participating in the hearing are (a) the appellant; and (b) the administrator and the chairperson of the Promotion and Tenure Committee at the level of the initial adverse recommendation; and (c) if applicable, the dean and the chairperson of the College Promotion and Tenure Committee.
- 3.84 Notice of hearing. The parties shall be given at least ten (10) calendar days notice of the date, time, and place of the hearing, unless they waive that notice in writing. The hearing may be postponed or continued by the chairperson of the hearing panel whenever he or she may deem appropriate, or upon the request of either party for good cause shown.
- 3.85 Materials used in hearing. The parties must furnish the chairperson of the hearing panel with the following materials at least five (5) working days prior to the date of the hearings:
- 3.851 Copies of all documents, including records of the college hearing, upon which they intend to rely but which are not already a part of the appeal file;
- 3.852 A list of any witnesses whom they plan to call.
- Copies of these materials must be distributed to all participants by the chairperson of the hearing panel at least three (3) working days prior to the date of the hearing. Additional materials and/or witnesses may not be utilized by either party at a hearing without the consent of the hearing panel.
- 3.86 Attendants at hearing. In addition to the hearing panel and the previously specified parties, the following persons may attend a hearing.
- 3.861 A full-time regular Ball State faculty or professional personnel member to serve as faculty colleague for the appellant.
- 3.862 Representative of the Provost and Vice President for Academic Affairs' Office.
- 3.863 Other University-affiliated persons whose attendance is requested or approved by the chairperson of the hearing panel.
- 3.864 Any person designated by the chairperson of the hearing panel to record and to prepare a summary of the evidence presented at the hearing.
- 3.865 Witnesses called by either party. Such witnesses shall be present only while they are testifying.
- 3.866 A recording secretary designated by the appellant, if he or she desires. This person must be a full-time Ball State faculty, professional personnel, or staff member.

Failure, without good cause, of the appellant or the responding party to appear and proceed at the hearing may force the hearing panel to hear and respond to the appeal in the absence of the appellant or the responding party.

- 3.87 Quorum and challenges. A majority of the members of a hearing panel shall constitute a quorum. Either party may challenge a panel member on the grounds of personal bias. The decision whether to disqualify a challenged member shall be made by a majority vote of the remaining members, conducted by written ballot. If this vote results in a tie, the decision shall be made by the chairperson of the hearing panel.
- 3.88 Conduct of hearings. Hearings shall be conducted with a view towards providing the hearing panel with a complete understanding of the circumstances surrounding the decision which is being appealed. The chairperson of the hearing panel shall preside at the hearing and shall make all procedural rulings. These rulings may be reversed by a majority vote of the panel members present, including the chairperson.
- 3.89 Witnesses. Each party is responsible for ensuring the presence of his or her witnesses at a hearing. Written statements in lieu of the personal testimony of a witness shall not be permitted unless a majority of the panel members determines that a witness is unavailable to testify. All witnesses who testify may be questioned concerning any matter relevant to the hearing by any member of the hearing panel.
- 3.810 Hearing records. The hearing panel must arrange for minutes of the hearing to be taken. These minutes shall include a general summary of the major points made by the parties and participants at the hearing, any motions made or votes taken by the hearing panel. Copies of approved minutes shall be made available upon request to the appellant and/or respondent within twenty (20) calendar days of the conclusion of the hearing. Further use of these minutes by either party is restricted to appeals at higher levels of the procedures outlined here or in external legal proceedings. Recordings or tapes of a hearing shall not be permitted.
- 3.811 Decision by the hearing panel. After the conclusion of the hearing, the hearing panel shall meet to consider the evidence presented at the hearing, or evidence already presented in the hearing file. The hearing panel must determine whether the appeal should be upheld or denied, and it must set forth in writing a brief summary of the reasons for its decision. Copies of that decision are to be addressed to the Provost and Vice President for Academic Affairs, and must be provided to all participants in the appeal within twenty (20) calendar days of the conclusion of the hearing.
- 3.8111 The decision of the hearing panel shall be deemed to be the decision of the University Promotion and Tenure Committee, without further action on the part of the committee.
- 3.81111 When a hearing panel votes to uphold an appeal, then it must specify a remedy for the situation or specify a recommended course of action to the appropriate parties (for example, a rehearing of a case by a previous committee or administrator or a recommendation for or against promotion or tenure of an appellant). If the responding party does not agree with this recommendation, that party may appeal to the Provost and Vice President for Academic Affairs.
- 3.81112 When a hearing panel votes to deny an appeal, then the appellant has the right to appeal this decision to the Provost and Vice President for Academic Affairs.
- 3.9 If either the appellant or the respondent is not satisfied with the response of the University hearing panel, then either may request a conference with the Provost and Vice President for Academic Affairs. This request must be made within ten (10) calendar days following the requesting party's receipt of the University hearing panel's decision. Any appeal not filed within this time limit will be denied automatically unless the Provost and Vice President for Academic Affairs determines that good cause has existed for the delay. The Provost and Vice President for Academic Affairs must confer with the parties and then reply in writing to any bases for appeal set forth by the party requesting the conference, and must furnish a copy of this statement to the appellant and the responding parties within thirty (30) calendar days of receipt of the request for the conference. The Provost and Vice President for Academic Affairs may, with good cause, extend the thirty (30) day deadline.
- 3.10 The decision of the Provost and Vice President for Academic Affairs is final.

4. Appeals Which Begin at the College Level
  - 4.1 If the initial adverse recommendation has been made by the College Promotion and Tenure Committee or academic dean, then the appellant may request a hearing before the University Promotion and Tenure Committee.
  - 4.2 The procedures outlined above in 3.6-3.10 shall then be in effect.
5. Appeals Which Begin at the Provost and Vice President for Academic Affairs Level
  - 5.1 When the initial adverse recommendation has been made by the Provost and Vice President for Academic Affairs, then the appeal must be made to the President.
  - 5.2 The request for appeal must be made in writing within ten (10) calendar days following the appellant's receipt of written notice of the adverse decision on the part of the Provost and Vice President for Academic Affairs. Any appeal not filed within this limit will be denied automatically unless the President determines that good cause has existed for the delay. The President must confer with the parties and then reply in writing to any bases for appeal set forth by the appellant, and must furnish a copy of this statement to the appellant and the responding parties within thirty (30) calendar days of receipt of appeal. The President may, with good cause, extend the thirty (30) day deadline.
  - 5.3 The decision of the President is final.

The promotion and tenure guidelines for the College of Applied Sciences & Technology identify the organization of the College Promotion and Tenure Committee and specify policies and procedures used for promotion and tenure.

With the exception of Military Science each department/school/institute (hereafter referred to as department) within the college shall have a formal document for making promotion and tenure decisions.

All parties involved are encouraged to familiarize themselves with the rights, responsibilities, and procedures that are outlined in the University, College, and Department promotion and tenure documents. In cases where questions arise, these two documents take precedence over the departmental document.

#### I Guidelines for Promotion and Tenure

1. The evaluation of a faculty member's eligibility for promotion or tenure shall be based on evidence of a continuing pattern of achievement throughout the individual's professional career in the following areas:
  - 1.1 Teaching;
  - 1.2 Research, publication, creative endeavors, and/or other scholarly productivity;
  - 1.3 Service in a professional capacity.(From the Faculty and Professional Personnel Handbook, University Promotion and Tenure Document, Section I, Guidelines for Promotion and Tenure.)
2. The department promotion and tenure document shall weigh teaching, scholarly productivity, and professional service so that the weightings fall within the following limits:

<u>Teaching</u>	<u>Productivity</u>	<u>Service</u>
30% to 60%	30% to 50%	10% to 20%
3. Tenure and promotion decisions shall be based on these three factors as well as any employment conditions outlined in the contract.
4. The following criteria are to be used to evaluate creative activities (e.g., video productions, interactive computer projects, CD ROM programs, interior design works, consulting with outside organizations, proprietary research, etc.) during the promotion and tenure process in the College of Applied Sciences and Technology:
  - 4.1 The activity must be useful to others in the profession. There must be evidence that the end product is being used by others as opposed to just the creator.
  - 4.2 There must be a planned and disciplined approach to the activity's development, design and implementation. The activity must reflect contemporary content, strategies, design or media components.
  - 4.3 The completed activity must be publicly verifiable. The activity must be documented via product, pictures, programs, models or other appropriate means.
  - 4.4 The Promotion and Tenure Vita must indicate whether the activity is nonrefereed, refereed, juried, competitive, invited, etc.
5. Publications may be evaluated for promotion and tenure only after they have appeared in print. Creative activities may be evaluated for promotion or tenure only after they have been completed and are in use. (Exception: during the sixth year of tenure evaluation, publications "accepted" or "in press" and creative activities completed but not yet in use may be evaluated during tenure deliberations.)
6. For personnel decisions, each department must regularly conduct evaluations of teaching which include student ratings.
  - 6.1 Near the end of the semester, but not during final exam week, a rating form adopted by the department to evaluate teaching shall be administered to students enrolled in classes being taught during the semester.
  - 6.2 The instructor shall not be in the classroom when students are completing the rating form. The evaluation must be administered, and the forms collected and forwarded to Examination Services by someone other than the faculty member responsible for the class.

- 6.3 Instructions for Student Rating of Teaching, as listed in Appendix A, must be followed by the person distributing the form.
  - 6.4 When Examination Services has completed its analysis, the forms and summary sheets are delivered to the department chairperson's office. One copy of the summary sheet will be retained by the department chairperson; the second copy of the summary sheet and the forms will be given to the faculty member to be included in promotion and tenure materials.
  - 6.5 Student ratings for courses being taught through distance education may use alternate procedures. These procedures must be approved by the department and college promotion and tenure committees prior to their implementation.
- 7. In addition to mandatory student ratings, each faculty member's teaching must be evaluated by at least one of the following methods: peer review of teaching, chairperson review of teaching, or peer and chairperson review of the teaching portfolio.
    - 7.1 Each department must choose at least one of the above methods to evaluate faculty for personnel decisions.
    - 7.2 Each department may decide whether only one, all, or a combination of the above methods will be used to evaluate faculty for personnel decisions.
    - 7.3 Each department must devise forms to assist in the review method(s) chosen.

This assessment shall include an evaluation of strengths and weaknesses in each of the areas of 1) teaching, 2) research, publication, creative endeavors, or other scholarly productivity, 3) service in a professional capacity. This assessment may also suggest areas for improvement. This assessment shall be provided within ten (10) working days and shall constitute the written notice referred to in Section VII.311 of the University Promotion and Tenure Document.
- 2. Promotion
  - 2.1 Each candidate for promotion shall be reviewed by the departmental promotion and tenure committee using procedures and criteria which are clear, specific, and familiar to all faculty. Said materials shall be forwarded in the form in which they were submitted by the candidate to the departmental promotion and tenure committee.

  - 2.2 The department chairperson shall, for each candidate put forward for promotion, deliver the following to the Dean for forwarding to the College Promotion and Tenure Committee:
    - 2.21 The promotion documentation referred to above in section III.3, which may not be changed from the form in which it was originally submitted by the candidate;
    - 2.22 A letter of recommendation, written by the department chairperson, summarizing the candidate's qualifications.
  - 2.3 A candidate for promotion to Professor must include external review letters addressing his or her scholarship. Those external review letters will be obtained according to procedures outlined in the Appendix, Procedures for External Review Letters for Candidates for Promotion to Professor.
  - 2.4 The list of candidates recommended for promotion shall be determined by the collective judgment of the individual College of Promotion and Tenure Committee members.
    - 2.41 The College Promotion and Tenure Committee chairperson shall make available in a central location the promotion documentation for each

- candidate for review by each College Promotion and Tenure Committee member at least five (5) working days prior to the Committee's meeting.

  - 2.43 The College Promotion and Tenure Committee members shall independently evaluate each candidate on Form B, "Member's Rating Form," according to the criteria listed in section III.1 above. The committee will compile information on Form C, "Composite Rating and Weighting Form," using the information from Form B.   - 2.44 Based on all information, both that developed by the College Promotion and Tenure Committee and that submitted to the committee from the department, the Committee shall vote, by written ballot, to recommend or not recommend each candidate for promotion.
  - 2.45 The chairperson of the College Promotion and Tenure Committee shall immediately inform each candidate of the Committee's final recommendation and of the right of appeal. This shall be done orally, if possible, and in writing.

## **VII Reconsideration**

1. The candidate must ask, in writing, for the reconsideration within ten (10) calendar days following the date of the faculty member's receipt of the written recommendation adversely affecting him or her. For example, if a Department Promotion and Tenure Committee advises a faculty member in writing that it is recommending against awarding tenure to such member, the period to request reconsideration would run from the date of receipt of that communication, rather than from the date on which the Board of Trustees subsequently announces the names of faculty members who have been awarded tenure. Any request for reconsideration not filed within this time limit will be denied automatically, unless the academic dean determines that good cause has existed for the delay.
2. Tenure-track and tenured faculty may appeal promotion and tenure decisions in accordance with the provisions set forth in Section VII – "Right of Appeal" of the University Promotion and Tenure Document. The faculty member requesting reconsideration and the Committee members should thoroughly review the University Promotion and Tenure document, Section VII prior to the initiation of the reconsideration process.

- 2.1 When a Departmental reconsideration is requested, the Committee will meet without the faculty member (hereinafter referred to as the candidate), to discuss the request.
- 2.2 A meeting will be scheduled with the candidate. The candidate may be accompanied by a faculty colleague in accordance with University policy. The candidate and/or faculty colleague shall have a maximum of thirty (30) minutes for his/her presentation. The Committee shall have no more than thirty (30) minutes to ask questions of the candidate.
- 2.3 After deliberations the Chair of the Promotion and Tenure Committee shall communicate the conclusions of the Committee to the candidate orally, if possible, and in writing within five working days, with a copy placed in the personnel file.

#### IV Policy Statements

1. Tenure
  - 1.1 Faculty and eligible professional personnel shall be evaluated in the light of the University Mission Statement.
  - 1.2 A tenure recommendation will be made by the department, academic dean, and the Provost and Vice President for Academic Affairs at least one year prior to the end of a faculty member's probationary period. That recommendation will be either a recommendation to grant tenure at the end of the following year or a recommendation to terminate the faculty member at the end of the following year.
  - 1.3 Policies and criteria related to recommended tenure shall be clear, specific, and familiar to all personnel.
  - 1.4 Policies and criteria for tenure shall be subject to annual evaluation and review and to periodic revision.
  - 1.5 The departmental and collegiate policies and criteria for tenure must be approved by the University Promotion and Tenure Committee and must be on file with the University Promotion and Tenure Committee and the Office of the Provost and Vice President for Academic Affairs.
  - 1.6 A faculty member must complete at least one semester of full-time service during any academic year in order to receive a full year's credit for purposes of tenure consideration.
  - 1.7 Tenure for those who hold academic rank is earned in an academic department and held in the University.
    - 1.71 For all individuals hired by the University after June 30, 1981, tenure may be granted only to those who hold academic rank in an academic department. When a candidate is hired, academic rank must be recommended by an academic department chairperson in conjunction with the Department/School Promotion and Tenure Committee, approved by the Dean of the College of Fine Arts, and subsequently approved by appropriate administrators, and the Board of Trustees. Years granted toward tenure at the time of hiring must be recommended by an academic department chairperson in conjunction with the Department/School Promotion and Tenure Committee, approved by the Dean of the College of Fine Arts, and subsequently approved by appropriate schools, colleges, administrators, and the Board of Trustees.
  - 1.8 Work accomplished before hiring at Ball State, as well as work accomplished while a faculty member at Ball State, will be considered in tenure deliberations. It is understood that greater attention and significance will be given to the work accomplished during the appointment at Ball State. The evidence must demonstrate a record of continuous activity.
  - 1.9 When a faculty member is employed in a tenure-track position, a probationary period of seven years is ordinarily required before tenure is granted by the Board of Trustees. Generally, the probationary period will not exceed seven full-time years of tenure-creditable service as a faculty member at Ball State University.

When transferred from one academic or professional area to another, a tenure-track person may, in addition to the normal probationary period, be required to complete an additional probationary period not to exceed two years. The length of the

extension time must be established and stated in writing at the time of the new appointment.

- 1.91 A faculty member may request that certain years (normally not to exceed two years total) not be counted as tenure-creditable years if any of the following pertain:
  - 1.911 The faculty member is seriously ill;
  - 1.912 The faculty member is the principal care-giver for a son/stepson or daughter/stepdaughter;
  - 1.913 The faculty member is the principal care-giver for a family member who is seriously ill;
  - 1.914 The faculty member will be on leave for at least one semester of the academic year.

A request that a year not be counted as tenure-creditable shall be made to the department chairperson prior to the beginning of the next academic year. The request shall include documentation of the circumstances involved. The request shall be given immediately by the department chairperson to the Department Promotion and Tenure Committee. The request requires approval of the Department Promotion and Tenure Committee, the department chairperson, the appropriate dean, and the Provost and Vice President for Academic Affairs.

- 1.92 In cases where the exceptional achievements of a candidate in teaching, research, publication, creative endeavors, scholarly productivity, and other meritorious activities resulted in appointment at the associate or full professor ranks, tenure may be recommended to the trustees as early as the completion of the third year, following a recommendation from the Department Promotion and Tenure Committee, and the approval from the department chairperson, academic dean, and the Provost and Vice President for Academic Affairs. The Board of Trustees may grant tenure in special cases to an individual who holds academic rank without any probationary period, or with a probationary period of fewer than three years, if all of the following conditions are fulfilled.

- 1.921 The Board obtains the prior positive recommendations of the Promotion and Tenure Committee of the academic department in which the candidate holds (or will hold) academic rank, department chairperson, the academic dean, the Provost and Vice President for Academic Affairs, and the President.

- 1.922 The Board concurs with the recommendation that the individual possesses superior academic and/or creative qualifications.

- 1.923 The Board concurs with the recommendation that waiver of the normal probationary period is necessary to induce the individual to accept an offer of employment or to continue his or her employment with the University, and

- 1.10 Specific conditions of employment that must be fulfilled by a tenure-track faculty member (in addition to the general standards of performance) will be stated in writing by the University administration at the time of employment. In order to be eligible for a favorable tenure recommendation, the faculty member must meet these employment conditions unless he or she is released therefrom, in whole or in part, by means of a written departmental recommendation that is approved by the academic dean, the Provost and Vice President for Academic Affairs, and the President.

- 1.11 No later than February 15 of each academic year, each department will send a letter to the Provost and Vice President for Academic Affairs, via the academic dean, and the faculty member, setting forth the status of each tenure-track faculty member with respect to his or her fulfillment of the conditions of appointments and any matters pertaining to the quality of his or her performance. This letter will contain the recommendations of the department chairperson and the academic dean.

- 1.111 Before the end of each academic year, the Provost and Vice President for Academic Affairs will notify each tenure-track faculty member in writing as to the University's official assessment of his or her status with regard to progress toward tenure. The contents of the letter will reflect:

- 1.1111 The University's official record of the individual's status with respect to fulfillment of specific conditions of employment which were stated in the letter of employment; and

- 1.1112 The University's assessment of the individual's performance and progress toward tenure.

If the members of a department wish to recommend termination of the appointment of a tenure-track faculty member at the end of any academic year during the probationary period, a letter to that effect shall be filed in the Office of the Provost and Vice President for Academic Affairs at least two weeks in advance of the final date set forth not later than March 1 of the first academic year of service, if the appointment is to expire on the day the spring semester closes; or if a one-year appointment terminates during an academic year, at least three months in advance of its termination; or

- 1.1113 Notice of non-reappointment, or of intention not to recommend reappointment to the Board of Trustees shall be given to the faculty member in writing in accordance with the following standards:
  - 1.11131 Not later than March 1 of the first academic year of service, if the appointment is to expire on the day the spring semester closes; or if a one-year appointment terminates during an academic year, at least three months in advance of its termination.
  - 1.11132 Not later than December 15 of the second academic year of service, if the appointment is to expire on the day the spring semester closes; or, if an initial two-year appointment terminates during an academic year, at least six months in advance of its terminations; or
  - 1.11133 At least twelve months before the expiration of an appointment after two or more years in the institution for giving written, notice of non-reappointment or of intention, not to recommend reappointment to the Board of Trustees. The letter must contain the recommendations of the academic dean.
- 1.12 A tenure recommendation will be made by the department, academic dean and the Provost and Vice President for Academic Affairs at least one year prior to the end of a faculty member's probationary period. That recommendation will either be a recommendation to grant tenure at the end of the following year or a recommendation to terminate the faculty member at the end of the following year.
  - 1.121 If the recommendation is to grant tenure, then the tenure review in the seventh year will usually be less comprehensive and will generally result in an affirmation of the favorable recommendation unless a substantial change in the level of the faculty member's performance has occurred or a specific condition of employment or tenure has not been met.
  - 1.122 If the recommendation is not to grant tenure, then the faculty member's seventh year is the final one at the University.
  - 1.123 If a faculty member is recommended for tenure at the end of the sixth year and there is evidence of substantial change in the level of the faculty member's performance in the seventh year or a specific condition of employment or tenure has not been met, then the faculty member may be recommended for termination at the end of the seventh year. In this case, the faculty member shall be granted an eighth and final year, as a contract faculty member, at the University.
- 1.13 The following are necessary prerequisites in order to be eligible for tenure:
  - 1.131 The faculty member must have satisfied any specific conditions of employment set forth in his or her letter of appointment;
  - 1.132 The faculty member must have received a positive tenure recommendation from his or her academic department; and
  - 1.133 There must be available significant evidence of excellent performance by the faculty member, and there must be the expectation for a continuance of such in the future.
- 1.14 Tenure may be attained only through official action by the Board of Trustees of the University. The Board will make its decision after receiving and reviewing the recommendations of the department, academic dean, Provost and Vice President for Academic Affairs, and the President, but the Board will not be bound to follow any of said recommendations.
- 1.15 Notice of non-reappointment, or of intention not to recommend reappointment to the Board of Trustees shall be given to the faculty member in writing in accordance with the following standards:

- 1.151 Not later than March 1 of the first academic year of service, if the appointment is to expire on the day the spring semester closes; or, if a one-year appointment terminates during the academic year, at least three months in advance of its termination;
- 1.152 Not later than December 15 of the second academic year of service, if the appointment is to expire on the day the spring semester closes, or, if an initial two-year appointment terminates during an academic year, at least six months in advance of its termination;
- 1.153 At least twelve months before the expiration of an appointment after two or more years in the institution.
- 1.16 Contract full-time appointment service may be considered as part of the probationary period for those who are later placed on regular full-time faculty and professional personnel status.
- 1.17 Prior service at Ball State University may be counted toward tenure after the person has completed a one-year probationary period following the return.
- 1.18 Years of service remain with the individual when regular full-time faculty and professional personnel transfer from one academic or professional area to another.
- 1.19 Any tenure-track individual serving as a member of a Department/School or the College of Fine Arts Promotion and Tenure Committee must excuse himself from deliberations concerning his or her progress toward tenure.
- 1.110 Before the end of the academic year, the Department/School Promotion and Tenure Committee, after consultation with the department chairperson/director of school, shall provide each tenure-track faculty member with a written assessment of that faculty's work. This assessment shall include an evaluation of strengths and weakness in each of the areas of 1) teaching, 2) research, publication, creative endeavors, or other scholarly productivity, and 3) service in a professional capacity. The committee may also suggest areas for improvement.

At any other step in the tenure process, the first committee or individual (department chairperson/director of school if his or her recommendation is different from the Department/School Promotion and Tenure Committee; the College of Fine Arts Promotion and Tenure Committee; the Dean of the College of Fine Arts; the Provost and Vice President for Academic Affairs) not recommending satisfactory progress for a faculty member shall provide that member with a written statement in the form of a letter indicating the negative decision and delineating candidate strengths and weaknesses in each of the areas of 1) teaching, 2) research, publication, creative endeavors, or other scholarly productivity, and 3) service in a professional capacity. The committee or individual may also suggest areas for improvement.

## 2. Promotion

- 2.1 Faculty and eligible professional personnel shall be evaluated in the light of the University Mission Statement.
- 2.2 Any department member or eligible professional personnel member has the right to present herself or himself to the Department Promotion and Tenure Committee for consideration for promotion.

- 2.4 Policies and criteria for promotions shall be subject to annual evaluation and review and to periodic revision.
- 2.5 Recommendations for promotion shall be initiated at the level where the candidate's qualifications can be best identified and evaluated. In most instances this would be the department/school.
- 2.6 Work accomplished before hiring at Ball State, as well as work accomplished while a faculty member at Ball State, will be considered in promotion deliberations. It is understood that greater attention and significance will be given to the work accomplished during the appointment at Ball State. The evidence must demonstrate a record of continuous activity.
- 2.7 The departmental and collegiate policies and criteria for promotions must be approved by the University Promotion and Tenure Committee and must be on file with the University Promotion and Tenure Committee and the Office of the Provost and Vice President for Academic Affairs.
- 2.8 All promotions to Associate Professor and Professor will be granted on the basis of the spring recommendations. Regular Instructors will be promoted to Assistant Professor in September on the basis of provisions made in appointment letters. Regular Instructors appointed in 1978 and thereafter must have appointment letters that specify conditions for promotion. Regular Instructors appointed prior to 1978

whose appointment letters do not specifically state such conditions will be considered for promotion each September in accordance with criteria contained in approved departmental promotion and tenure documents.

- 2.9 At any step in the promotion process (Department/School Promotion and Tenure Committee; department chairperson/director of school; Provost and Vice President for Academic Affairs) the first committee or individual not recommending a faculty member favorably for promotion shall provide that faculty member with a written statement in the form of a letter indicating that negative decision and delineating his or her strengths and weaknesses in each of the areas of 1) teaching, 2) research, publication, creative endeavors, or other scholarly productivity, and 3) service in a professional capacity. The committee or individual may also suggest areas for improvement.
3. Policy Statements for Materials to be Presented for Promotion and Tenure Purposes
  - 3.1 Materials shall be presented to the Department/School Promotion and Tenure Committees by individual faculty members according to guidelines established by department/school and the College of Fine Arts.
  - 3.2 A file shall be kept in the department chairperson/director of school for every individual faculty member who is eligible to be considered for promotion and/or tenure. This file shall be open to the faculty member concerned and will contain all information which, in the judgment of the department chairperson/director of school, is relevant to promotion and/or tenure. Materials shall be placed in the file by the department chairperson/director of school either at his or her own discretion or at the request of the candidate.

When any information relevant to promotion or receipt of tenure of an individual is to be placed in the file, it shall be brought to his or her attention in writing at once by his or her administrative head. The faculty member shall have the opportunity to place in the file materials which might rebut or explain any information which he or she considers detrimental. Any material that has not been brought to the attention of the faculty member and/or has not been placed in the file cannot be used in subsequent promotion and tenure deliberations. Anonymous letters shall not be made a part of this file.

This file shall be examined by the Department/School Promotion and Tenure Committees during promotion and tenure deliberations. Materials used by the Department/School Promotion and Tenure Committees as a basis for recommendations shall be made available to the College of Fine Arts Promotion and Tenure Committee, the Dean of the College of Fine Arts, the Provost and Vice President for Academic Affairs, and the President upon request.

- 3.3 In the case of a candidate seeking promotion to Professor, a minimum of two letters from reviewers external to the University shall be included. Such letters shall provide supplementary review of the candidate's scholarship, creative endeavors, and other scholarly productivity. These letters shall be acquired and presented in accordance with departmental/school and college policies and procedures. The candidate shall be fully involved in the selection of reviewers, with one-half of the contacted reviewers being from the candidate's list. Challenges to the list of reviewers will be handled according to departmental/school and college policies. All letters received from external reviewers will be available to reviewers in the promotion review process.

The college will uphold the department and school policies and procedures specific to Supplemental External Review Letters.

External review letters shall be inserted and retained in the candidate's Promotion and Tenure file for use by departmental/school, collegiate, and, in the case of an appeal, University Promotion and Tenure Committees, and by the Provost in promotion deliberations for the current year. This set of letters shall be referred to as the redacted file. The candidate may respond in writing to information included in the redacted file for inclusion in the promotion file. Any written responses and all copies in the redacted file

It is recommended that if any reasonable doubt exists as to satisfactory progress toward tenure that an unsatisfactory progress toward tenure letter be given as early as the first year of employment.
- 5.32 It is mandatory that departments record the nature of any problems along with the dates and the names of those present in meetings in which these problems related to tenure were discussed with the candidates and retain these notes in the department files. The names of regular faculty who are to be dismissed in the first year of their employment are to be sent to the Dean of the College by February 1 and those to be dismissed at the end of their second year by November 15. For those employed two or more years, notice of non-reappointment, or intention not to recommend reappointment, shall be given in writing at least twelve months before the expiration of the appointment.

The Dean will make available to the members of the Committee other documentation that has been submitted with the recommendation for promotion.

- 5.431 Will request additional evidence to support recommendations if needed;
- 5.432 Will meet with department promotion and tenure committees in those instances when in its judgment policies and/or procedures have not been adhered to or some other question exists and request that alterations in recommendations be made;

- 5.433 May hold interviews with recommending officers or take whatever action is needed to discharge its above review function;
- 5.434 Will rank the candidates for promotion. In cases where department rankings have been violated and the College Committee does not feel simple modification of the ranking is warranted, the Committee will consult with the Department Committee to effect reconciliation.
- 5.44 The College Committee is responsible for submitting two ranked lists, one for promotion to Associate Professor and one for promotion to Professor, to the Dean for forwarding to the Provost and Vice President for Academic Affairs. Each list must respect the department rankings originally submitted or those that may have been adjusted after consultation between the College Committee and respective Department Promotion & Tenure Committee(s).  
Any recommendation from the College Committee not receiving approval by the Dean of the College shall be returned to the College Committee with reasons for the disapproval. A two-thirds vote of the College Committee shall be required to override the disapproval after which the Dean must forward the recommendation. The Dean of the College is instructed to mail letters to all persons whose names have been submitted for promotion by their department informing them of the committee's recommendations.

For those persons not being recommended favorably for promotion by the College Committee and/or the College Dean, the letter must include written statements delineating the person's strengths and weaknesses in each of the areas of 1) teaching, 2) research, publication, creative endeavors, or other scholarly productivity, and 3) service in a professional capacity.     - 1.61 For all individuals hired by the University after June 30, 1991, tenure may be granted only to those who hold academic rank in an academic department. When a candidate is hired, academic rank must be recommended by an academic department chairperson in conjunction with the Department Promotion and Tenure Committee, approved by the Dean of Teachers College, and subsequently approved by appropriate administrators, and the Board of Trustees. Years granted toward tenure at the time of hiring must be recommended by an academic department chairperson in conjunction with the Department Promotion and Tenure Committee, approved by the Dean of Teachers College, and subsequently approved by appropriate schools, colleges, administrators, and the Board of Trustees.
  - 1.7 Work accomplished before hiring at Ball State, as well as work accomplished while a faculty member at Ball State, will be considered in tenure deliberations. It is understood that greater attention and significance will be given to the work accomplished during the appointment at Ball State. The evidence must demonstrate a record of continuous activity.

- 1.8 When a faculty member is employed in a tenure-track position, a probationary period of seven years is ordinarily required before tenure is granted by the Board of Trustees. Generally, the probationary period will not exceed seven full-time years of tenure-creditable service as a faculty member at Ball State University.

When transferred from one academic or professional area to another, a tenure-track person may, in addition to the normal probationary period, be required to complete an additional probationary period not to exceed two years. The length of the extension of time must be established and stated in writing at the time of the new appointment.

- 1.81 A faculty member may request that certain years (normally not to exceed two years total) not be counted as tenure-creditable years if any of the following pertain:
- 1.811 The faculty member is seriously ill;
  - 1.812 The faculty member is the principal care-giver for a son/stepson or daughter/ stepdaughter;
  - 1.813 The faculty member is the principal care-giver for a family member who is seriously ill;
  - 1.814 The faculty member will be on leave for at least one semester of the academic year.

A request that a year not be counted as tenure-creditable shall be made to the Department Chairperson prior to the beginning of the next academic year. The request shall include documentation of the circumstances involved. The request shall be given immediately by the Department Chairperson to the Department Promotion and Tenure Committee. The request requires approval of the Department Promotion and Tenure Committee, the Department Chairperson, the appropriate Dean, and the Provost and Vice President for Academic Affairs.

- 1.82 In cases where the exceptional achievements of a candidate in teaching, research, publication, creative endeavors, scholarly productivity, and other meritorious activities resulted in appointment at the associate or full professor ranks, tenure may be recommended to the trustees as early as the completion of the third year, following a recommendation from the Department Promotion and Tenure Committee, and approval from the Department Chairperson, Academic Dean, and Provost and Vice President for Academic Affairs. The Board of Trustees may grant tenure in special cases to an individual who holds or will hold academic rank without any probationary period, or with a probationary period of fewer than three years, if all of the following conditions are fulfilled:

- 1.821 The Board obtains the prior positive recommendations of the Promotion and Tenure Committee of the academic department in which the candidate holds (or will hold) academic rank, Department Chairperson, the Academic Dean, the Provost and Vice President for Academic Affairs, and the President.
- 1.822 The Board concurs with the recommendation that the individual possesses superior academic and/or creative qualifications;
- 1.823 The Board concurs with the recommendation that waiver of the normal probationary period is necessary to induce the individual to accept an offer of employment or to continue his or her employment with the University.

- 1.9 Specific conditions of employment that must be fulfilled by a tenure-track faculty member (in addition to the general standards of performance) will be stated in writing by the University administration at the time of employment. In order to be eligible for a favorable tenure recommendation, the faculty member must meet these employment conditions unless he or she is released therefrom, in whole or in part, by means of a written departmental recommendation that is approved by the Academic Dean, the Provost and Vice President for Academic Affairs, and the President.
- 1.10 No later than February 15 of each academic year, each department will send a letter to the Provost and Vice President for Academic Affairs, via the Academic Dean, and the faculty member, setting forth the status of each tenure-track faculty member with respect to his or her fulfillment of the

conditions of appointment and any matter pertaining to the quality of his or her performance. This letter will contain the recommendations of the Department Chairperson and the Academic Dean.

- 1.101 Before the end of each academic year, the Provost and Vice President for Academic Affairs will notify each tenure-track faculty member in writing as to the University's official assessment of his or her status with regard to progress toward tenure. The contents of the letter will reflect:
  - 1.1011 The University's official record of the individual's status with respect to fulfillment of specific conditions of employment which were stated in the letter of employment; and
  - 1.1012 The University's assessment of the individual's performance and progress toward tenure. If the members of a department wish to recommend termination of the appointment of a tenure-track faculty member at the end of any academic year during the probationary period, a letter to that effect shall be filed in the Office of the Provost and Vice President for Academic Affairs at least two weeks in advance of the final date set forth in 1.14-1.143 below for giving written notice of non-reappointment or of intention not to recommend reappointment to the Board of Trustees. The letter must contain the recommendation of the Academic Dean.
- 1.11 A tenure recommendation will be made by the department, Academic Dean, and the Provost and Vice President for Academic Affairs at least one year prior to the end of a faculty member's probationary period. That recommendation will be either a recommendation to grant tenure at the end of the following year or a recommendation to terminate the faculty member at the end of the following year.
  - 1.111 If the recommendation is to grant tenure, then the tenure review in the seventh year will usually be less comprehensive and will generally result in a reaffirmation of the favorable recommendation unless a substantial change in the level of the faculty member's performance has occurred or a specific condition of employment or tenure has not been met.
  - 1.112 If the recommendation is not to grant tenure, then the faculty member's seventh year is the final one at the University.
  - 1.113 If a faculty member is recommended for tenure at the end of the sixth year and there is evidence of substantial change in the level of the faculty member's performance in the seventh year or a specific condition of employment or tenure has not been met, then the faculty member may be recommended for termination at the end of the seventh year. In this case, the faculty member shall be granted an eighth and final year, as a contract faculty member, at the University.
- 1.12 The following are necessary prerequisites in order to be eligible for tenure:
  - 1.121 The faculty member must have satisfied any specific conditions of employment set forth in his or her letter of appointment;
  - 1.122 The faculty member must have received a positive tenure recommendation from his or her academic department; and
  - 1.123 There must be available significant evidence of excellent performance by the faculty member, and there must be the expectation for a continuance of such in the future.
- 1.13 Tenure may be attained only through official action by the Board of Trustees of the University. The Board will make its decision after receiving and reviewing the recommendations of the department, Academic Dean, Provost and Vice President for Academic Affairs, and the President, but the Board will not be bound to follow any of said recommendations.
- 1.14 Notice of non-reappointment, or of intention not to recommend reappointment to the Board of Trustees, shall be given to the faculty member in writing in accordance with the following standards:
  - 1.141 Not later than March 1 of the first academic year of service, if the appointment is to expire on the day the spring semester closes; or, if a one-year appointment terminates during an academic year, at least three months in advance of its termination;
  - 1.142 Not later than December 15 of the second academic year of service, if the appointment is to expire on the day the spring semester closes; or, if an

initial two-year appointment terminates during an academic year, at least six months in advance of its termination;

- 1.143 At least twelve months before the expiration of an appointment after two or more years in the institution.
- 1.15 Contract full-time appointment service may be considered as part of the probationary period for those who are later placed on regular full-time faculty and professional personnel status.
- 1.16 Prior service at Ball State University may be counted toward tenure after the person has completed a one-year probationary period following the return.
- 1.17 Years of service remain with the individual when regular full-time faculty and professional personnel transfer from one academic or professional area to another.
- 1.18 Any tenure-track individual serving as a member of a Department or College Promotion and Tenure Committee must be absent from deliberations concerning his or her progress toward tenure.
- 1.19 Before the end of the academic year, the Department Promotion and Tenure Committee, after consultation with the Department Chairperson, shall provide each tenure-track faculty member in its department with a written assessment of that faculty member's work. This assessment shall include an evaluation of strengths and weaknesses in each of the areas of 1) teaching; 2) research, publication, creative endeavors, or other scholarly productivity; and 3) service in a professional capacity. The committee may also suggest areas for improvement.

At any other step in the tenure process, the first committee or individual (Department Chairperson if his or her recommendation is different from the Department Promotion and Tenure Committee; College Promotion and Tenure Committee; Academic Dean; Provost and Vice President for Academic Affairs) not recommending satisfactory progress for a faculty member shall provide that faculty member with a written statement delineating his or her strengths and weaknesses in each of the areas of 1) teaching; 2) research, publication, creative endeavors, or other scholarly productivity; and 3) service in a professional capacity. The committee or individual may also suggest areas for improvement.

## 2. Promotion

- 2.1 Faculty and eligible professional personnel shall be evaluated in light of the University Mission Statement.
- 2.2 Departmental policies and criteria related to recommending promotions shall be clear, specific, and familiar to all personnel.
- 2.3 Policies and criteria for promotions shall be subject to annual evaluation and review and to periodic revision.
- 2.4 Any department member or eligible professional personnel member has the right to present herself or himself to the Department Promotion and Tenure Committee for consideration for promotion.
- 2.5 Recommendations for promotion shall be initiated at the level where the candidate's qualifications can be best identified and evaluated. In most instances this would be the department.
  - 2.51 Each affected department, school, and college must have formal criteria, procedures, and policies for recommendations for promotions.
  - 2.52 Recommendations shall be supported by ample documentary evidence demonstrating that the candidate for promotion satisfies established criteria. Documentation shall include evaluation forms approved by the administrative unit concerned.
- 2.6 Work accomplished before hiring at Ball State, as well as work accomplished while a faculty member at Ball State, will be considered in promotion deliberations. It is understood that greater attention and significance will be given to the work accomplished during the appointment at Ball State. The evidence must demonstrate a record of continuous activity.
- 2.7 The department and collegiate policies and criteria for promotions must be approved by the University Promotion and Tenure Committee and must be on file with the University Promotion and Tenure Committee and the Office of the Provost and Vice President for Academic Affairs.
- 2.8 All promotions to Associate Professor and Professor will be granted on the basis of the spring recommendations. Regular Instructors will be promoted to Assistant Professor in September on the basis of provisions made in appointment letters. Regular Instructors appointed in 1978 and thereafter must have appointment letters that specify conditions for promotion. Regular Instructors appointed prior to 1978 whose appointment letters do not specifically state such conditions will be

considered for promotion each September in accordance with criteria contained in approved departmental promotion and tenure documents.

- 2.9 No person may serve as a member of a Department Promotion and Tenure Committee who is a candidate for promotion.
  - 2.91 An individual so elected who later becomes a candidate for promotion must resign from the committee.
  - 2.92 The one exception to these provisions involves the Chairperson of the Department when he or she is a candidate for promotion. In that circumstance, he or she shall not vote on any candidate, but may participate in all committee deliberations concerning promotions except those involving his or her own candidacy.
  - 2.93 Departments which under these or any other conditions cannot form a Promotion and Tenure Committee of at least three members may develop specific provisions subject to the approval of the College and the University Promotion and Tenure Committees.
- 2.10 At any step in the promotion process (Department Promotion and Tenure Committee; Department Chairperson; College Promotion and Tenure Committee; Academic Dean; Provost and Vice President for Academic Affairs) the first committee or individual not recommending a faculty member favorably for promotion shall provide that faculty member with a written statement delineating his or her strengths and weaknesses in each of the areas of 1) teaching; 2) research, publications, creative endeavors, or other scholarly productivity; and 3) service in a professional capacity. The Committee or individual may also suggest areas for improvement.
3. Materials to be Presented for Promotion and Tenure
  - 3.1 Materials shall be presented to the Department Promotion and Tenure Committee by individual faculty members according to guidelines listed below.
  - 3.2 A personnel file for every faculty member shall be kept in the Department Chairperson's Office. A promotion and tenure file will be part of the personnel file. This promotion and tenure file shall be open to the faculty member concerned and will contain information relevant to promotion and/or tenure. Appropriate materials shall be placed in the personnel file by the Department Chairperson in a timely manner.

All information placed in an individual's personnel file shall immediately be brought to his or her attention in writing by the Department Chairperson. The faculty member shall have the opportunity to place materials in the file which may rebut or explain any detrimental information. Detrimental information that has not been brought to the attention of the faculty member cannot be used in promotion or tenure deliberations. Anonymous letters shall not be made a part of this file. An individual's promotion and tenure file shall be examined by the Department Promotion and Tenure Committee during promotion and tenure deliberations. All materials used by the Department Promotion and Tenure Committee shall be made available to the College Promotion and Tenure Committee, Dean, Provost and Vice President for Academic Affairs, and President, upon request.
  - 3.3 For tenure, credentials will take the form of a professional vitae for the tenurable year or the year in which progress toward tenure is being considered. In addition, a comprehensive professional vitae (including work completed prior to employment at Ball State University) must be submitted. A letter, signed by the Chairperson of the Committee and by the Chairperson of the Department, must accompany the credentials. The letter must indicate tenure or progress toward tenure, warning, or dismissal. In the case of a warning letter or a dismissal letter, specific causes for the recommendations must be stipulated.
  - 3.4 For promotion, credentials will take the form of a Notebook of Professional Evidence, submitted to the Chairperson of the Departmental Committee. Once the notebook is submitted, no additional material may be added to it.
    - 3.41 A three-ring notebook shall be used to organize the professional evidence.
    - 3.42 Dividers shall be used to classify and structure the evidence submitted for teaching; research, publication, creative endeavors, or other scholarly productivity; and service in a professional capacity.
    - 3.43 Evidence presented should emphasize the overall competence of the candidate and offer a context for evaluation. Introductory summaries highlighting contributions to innovative teaching practices, the integration of scholarly activity into teaching/service and the research's impact on the field of study, and the total scope of service to the profession and the

university should be included. Materials specific to each section should include: Teaching – a summary page of student evaluation ratings, peer and chair evaluations, and any documents speaking to novel teaching practices/techniques; Research – an average of one refereed publication (e.g., journal article) per year for a significant time period prior to application for promotion is the minimum level considered; other supplemental scholarly productivity (such as presentations, reviews, curricular materials) may provide additional evidence; Service – a summary of activities emphasizing the contributions the candidate makes to committees, professional organizations, and community agencies that enhance professional development.

- 3.44 Each department shall evaluate each candidate, using a rating scale approved by the Departmental and College Promotion and Tenure Committees. This rating shall be available to the candidate and shall become a part of the candidate's cumulative record.
- 3.45 Names of candidates recommended for promotion will be forwarded in alphabetical order to the Academic Dean.
- 3.5 The Department Promotion and Tenure Committee shall forward the credentials of those candidates being recommended favorably for promotion, with written recommendations, to the Academic Dean. ## **POLICIES FOR ANNUAL SALARY ADJUSTMENTS FACULTY AND PROFESSIONAL PERSONNEL<sup>36</sup>**

1. Statement of Policy
  - 1.1 The general purposes of the salary program at Ball State University are to attract, retain, and reward faculty and other professional personnel who enable the University to realize its mission. The salary program should contribute positively to the morale of the faculty and professional personnel and provide both incentive and reward for achievement. The salary program at Ball State University is designed to recognize the differences in performance and characteristics among faculty and professional personnel. The salary program rewards meritorious performance and exceptional achievement and also takes into account other factors, such as marketability, that affect the University's ability to pursue excellence.
  - 1.2 The President of the University is responsible for developing salary programs consistent with the mission of the academic and administrative units of the University in accordance with this Statement of Policy.
2. Definitions
  - 2.1 Definition of Faculty and Professional Personnel.

University salary administration guidelines for faculty and professional personnel apply to all continuing professional personnel employees and those currently tenured or on tenure-track or continuing contract<sup>37</sup> appointment classified as follows:

    - 2.11 Faculty employed on academic or fiscal year contract;
    - 2.12 Professional personnel employed on academic or fiscal year contract (including professional personnel holding rank in academic departments);
    - 2.13 Faculty and professional personnel returning from approved leave of absence during present or next fiscal year.
  - 2.2 Definition of Salary Units.

The units covered by these guidelines are each of the colleges headed by a Dean and the non-collegiate units headed by the Vice Presidents or President.
  - 2.3 Definition of Salary Subunits.<sup>38</sup>

Subunits are those academic and non-academic (e.g., centers, departments, institutes, museums, schools, special programs) entities which are under the administrative supervision of the respective salary unit.
3. Promotions in Academic Rank
  - 3.1 The value of the promotions in academic rank shall be determined by the salary unit and be charged against the salary increment funds allocated to the salary unit.
4. General Salary Increases
  - 4.1 Each year funding for continuing professional employees' salary increases will be allocated to each salary unit.
  - 4.2 Salary increment funds to each salary unit will be equal to the previous year's base salaries for all continuing employees multiplied by eighty-five percent (85%) of the maximum percentage attainable for salary increases. Money not allocated to the salary units will be distributed by the President or appropriate Vice President for reasons such as:
    - 4.21 to allow the University, as necessary, to meet offers received by faculty and professional personnel from competing employers when such action is recommended by the salary subunit; the decision to distribute money shall be accompanied by appropriate documentation;
    - 4.22 to recognize differential merit or market circumstances between and among salary units and salary subunits; differential market decisions shall be accompanied by appropriate documentation;
    - 4.23 to deal with inequitable salary circumstances in which an individual by virtue of initial salary inequity is paid demonstrably less than comparable colleagues;
    - 4.24 to fund appeals that have been approved by the head of the salary unit. (Salary units will be expected to repay funds needed for appeals from their next year's salary allotment.);
    - 4.25 to fund legally required salary adjustments.
  - 4.3 Although incremental money distributed for market purposes will become part of the faculty member's salary base, annual University reviews will be conducted by the University Salary and Benefits Committee to assess changing market conditions and to make appropriate recommendations for adjustments.

- 4.4 Any funds committed for purposes designated in 4.2 but eventually not so used, must be returned to the total University salary increment pool for distribution the next fiscal year.
- 4.5 Total remaining compensation adjustment dollars available for continuing personnel each year will be distributed in ways established by majority vote of the continuing professional employees within each salary unit, except for promotion money to be distributed in accordance with 3.1.

All subunits must, however, award no less than fifteen percent (15%) of their total increment funds for meritorious service in accordance with the subunit criteria. These "merit" funds cannot be distributed on an "across the board" basis. Meritorious service must be determined annually.

- 4.6 Criteria and processes shall be developed within each salary unit for salary administration and approved by written ballot by a majority of a quorum of the members of each such unit who are eligible to vote. Subunits must develop criteria consistent with their unit's criteria. These criteria and processes shall be reviewed and approved annually by the appropriate subunit head (e.g., chairperson, director, coordinator)<sup>39</sup> and unit head (Dean, Vice President, Provost and Vice President for Academic Affairs, President). The President or Provost and Vice President for Academic Affairs and the University Salary and Benefits Committee must approve all criteria and processes for all units. The criteria and processes shall be made known in advance of salary administration implementation. Discretionary awards need not be given to every individual. To be eligible for a salary increment, an individual's performance must be deemed to be satisfactory by the salary subunit. However, a faculty member's failure to receive a "satisfactory progress" recommendation in the tenure review process is not necessarily a determination that his or her performance is unsatisfactory for salary purposes.<sup>40</sup>

Salary units or subunits that do not develop approved criteria and processes may have all merit and discretionary dollars withheld from them.

- 4.7 Personnel on joint appointments between colleges or between a college and a non-collegiate unit shall be evaluated for purpose of discretionary awards in proportion to their full-time equivalent appointments in the unit. These personnel must be apprised of criteria and procedures used in all units to which they are appointed.
- 4.8 Each individual shall be informed in writing by the department chairperson or equivalent administrator at the first level of recommendation prior to forwarding the recommendation. Any changes at subsequent levels of review within the University shall be communicated to the initial administrator for purposes of informing the affected individual.
- 4.9 Salary grievance procedures shall be developed within the salary unit and it is expected that salary grievances will be resolved within the salary unit. All recommended salary adjustments based upon grievances or appeals must be approved by the head of the salary unit, appropriate University officer and the President. Any salary adjustment based on a grievance shall be made as soon as possible and no later than the beginning of the next academic year.

## 5. Implementation and Amendment Procedures

- 5.1 The President or the Provost and Vice President for Academic Affairs, working with the Salary and Benefits Committee of the Faculty Council, will review annually salary administration guidelines to assure compliance.
- 5.2 Recommendations for improvements in the salary process, with rationale, may be made to the Salary and Benefits Committee of the Faculty Council. Such recommendations should be submitted in writing as early as possible each year to allow any revisions to be implemented in the salary administration process.
- 5.3 The timetable for the salary administration process and any changes in University guidelines shall be announced prior to the start of the salary administration process each year.
- 5.4 Once approved by the Board of Trustees, changes in these guidelines will be recommended by the President after obtaining the assistance and consultation of the University community.

## SUMMER SESSION SALARY POLICIES<sup>41</sup>

### Introduction

The summer session salary policies at Ball State University will complement the overriding goals of course and program scheduling. These goals are serving identified student needs with appropriately qualified faculty in a cost-efficient manner and attracting students not ordinarily attending the University.

The University will consider and implement experimental strategies such as out-of-state tuition waivers, acquisition and use of lists of prospective summer school students, and increased advertising. Departments and colleges are encouraged to develop new course offerings or programming in order to attract new student clientele. For example, workshops, especially those that attract out-of-state students, are possibilities. Programs such as START are included in this category. Non-credit bearing activities must also be considered.

1. The rate of compensation for faculty who are assigned load hours during the summer session will be as follows:
  - 1.1 The summer salary shall be calculated as fifteen percent of the faculty member's previous academic year salary for each six load hours (regardless of whether the load occurs during the intersession, a five-week session, or across the ten-week summer session);
  - 1.2 For assignments other than six load hours, salary will be computed on a proportional basis (examples: an individual who is assigned five load hours during a five-week session will receive five-sixths of fifteen percent of his or her previous academic year salary as compensation; an individual who is assigned nine load hours during a five-week session will receive nine-sixths of fifteen percent of his or her previous academic year salary as compensation);
  - 1.3 With consent of the faculty member and approval of the college dean, a department chairperson may assign classes with enrollment below minimum standard class size. In such instances, compensation will be determined as outlined in subsections 4.2 and 4.3 below.
2. Summer activities not assigned specific load hours for faculty or professional personnel will be compensated on a negotiated basis. Such negotiable compensation must be mutually agreed upon and approved via the usual process (department chairperson, college dean, Provost and Vice President for Academic Affairs, President).
3. A salary plan may be developed by a non-teaching salary unit consistent with the following:
  - 3.1 The rate of compensation will be one-seventh of the individual's previous academic year salary for a full load;
  - 3.2 The plan will specify the measure to be used in computing a full load. Assignments other than a full load will be compensated on a proportionate basis.
4. Any salary plan that is developed by a teaching salary unit must be consistent with the preceding items 1 and 2 as well as the following:
  - 4.1 Minimum class sizes for graduate and undergraduate courses University-wide will be:
    - graduate - 6 and undergraduate - 10.Class sections shall not be split to add additional sections unless enrollment exceeds the section limits set for the academic year. Multiple class sections may be scheduled with approval of the department head and dean.
  - 4.2 Any class which does not meet the established minimum size may be taught without reduction in compensation if approved by the Dean on the basis of programmatic considerations.
  - 4.3 Partial compensation may be paid a faculty member for teaching a class which does not meet the established minimum size. Exceptions are noted in 4.2 above.
  - 4.4 The summer program budget will make available salary dollars to fund classes which meet the criteria as stated in 4.1, 4.2, and 4.3 above.
5. Each salary unit plan must be approved by a majority of the members of the salary unit, the head of the salary unit, the Provost and Vice President for Academic Affairs and the Salary and Benefits Committee of the Faculty Council.
6. The Summer Session Salary Policies Statement supercedes conflicting departmental, collegiate and/or University summer salary policies.

## POLICY ON CONFLICT OF INTEREST AND CONFLICT OF COMMITMENT<sup>42</sup>

### I Preamble

1. Ball State University is committed to providing quality teaching, research, and service. Often, this mission is served by the active participation of its employees in activities outside the University. Interaction with business, government, not-for-profit groups, professional societies, academic institutions, and private individuals or organizations contributes to the professional growth of employees and to the enrichment of University programs. University employees are therefore encouraged to share their professional knowledge and expertise through outside activities that do not interfere with their University responsibilities.
2. While such interaction is encouraged, an employee's professional or other activities outside the University may result in a real or perceived conflict of interest or conflict of commitment. These conflicts may affect the way in which the employee carries out his or her University responsibilities. Conflicts of interest or conflicts of commitment may also adversely impact the University's mission, and they may undermine public confidence in the University. It is therefore necessary to assess and to eliminate or manage conflicts of interest and conflicts of commitment, so that the integrity and the interests of the University, as well as those of its employees, are protected.
3. The purpose of this policy is to provide guidance for recognizing and dealing with actual or potential conflicts of interest and conflicts of commitment. It sets forth University-wide procedures for disclosing and resolving such conflicts. Colleges, departments and other administrative units may adopt additional policies and procedures covering conflicts of interest and conflicts of commitment provided they are consistent with the provisions of this policy. All such policies and procedures must be approved by the President, following review by the policy coordinator for consistency with this policy. In no way should this policy be interpreted or implemented so as to infringe upon matters of academic freedom, freedom of speech or political expression (Bill of Rights and Responsibilities for Faculty, Professional Personnel, and Staff of Ball State University, page ix, Faculty and Professional Personnel Handbook).
4. The Appendix to this Policy lists other University policies that deal with related issues.

### II Definitions

1. Definitions Related to Conflicts of Interest:
  - 1.1 A "conflict of interest" exists when a University employee is in a position to influence, either directly or indirectly, University business, research or other decisions in matters in which the employee or a dependent of the employee has a significant financial interest.
  - 1.2 A "significant financial interest" means anything of monetary value, including but not limited to, salary or other payments for services (e.g., consulting fees or honoraria); equity interests (e.g., stocks, stock options or other ownership interests); and intellectual property rights (e.g., patents, copyrights and royalties from such rights). The term does not include:
    - 1.21 salary, royalties or other remuneration from the University;
    - 1.22 income from seminars, lectures or teaching engagements sponsored by public or nonprofit entities;
    - 1.23 income from service on advisory committees or review panels for public or nonprofit entities;
    - 1.24 an equity interest that, when aggregated for the employee and the employee's dependents, meets both of the following tests: (a) it does not exceed \$10,000 in value as determined through reference to public prices or other reasonable measures of fair market value; and (b) it does not represent more than a five percent ownership interest in any single entity;
    - 1.25 salary, royalties or other payments that, when aggregated for the employee and the employee's dependents over the next twelve months, are not reasonably expected to exceed \$10,000; or
    - 1.26 any financial interest arising solely by means of investment in a mutual, pension, or other institutional investment fund over the management and investments of which the employee does not exercise control.

Note that this definition of "significant financial interest" differs from the definition of "pecuniary interest" under the Indiana Conflicts of Interest Law.

2. Definitions Related to Conflicts of Commitment:

- 2.1 A "conflict of commitment" arises when a University employee's activities outside of the University affect--or appear reasonably likely to affect--the manner or extent to which the employee carries out his or her University responsibilities.
- 2.2 "University responsibilities" are the responsibilities of a University employee to perform University activities as defined by a University or administrative unit policy or contract.
- 2.3 "Activities outside of the University" and "outside activities" are activities not directly related to the research, teaching and service mission of the University.
- 2.4 "University activities," by contrast, are activities directly related to the research, teaching and service mission of the University.

Note: the line separating "University activities" and "activities outside of the University" for faculty is imprecise at best and may differ among disciplines and professions. One useful guideline for faculty is the question: is this an activity a faculty member would list on his or her annual faculty report for which he or she would expect to receive credit during the tenure, promotion, and/or salary-setting processes?

- 2.5 "Professional activities" are activities related to the research, teaching and service mission of the University or to an employee's discipline, profession or craft, irrespective of whether those activities are compensated or constitute University activities.
3. Other Definitions:
  - 3.1 A "dependent" of an employee includes: (a) the employee's spouse; (b) a child, stepchild, or adoptee of the employee who is unemancipated and less than eighteen years of age; and (c) any person, whether or not related to the employee, who receives more than one-half of his or her annual support from the employee.
  - 3.2 The "disclosure form" is the Statement of Disclosure of a Conflict of Interest and/or Conflict of Commitment form.
  - 3.3 An "employee" is any person employed by the University, whether full- or part-time; except that the term does not include student employees other than graduate assistants.
  - 3.4 The "policy coordinator" is the Coordinator of Research Compliance, in the University's Office of Academic Research and Sponsored Programs. The policy coordinator will coordinate the implementation and administration of this Policy, maintain appropriate records, and provide expertise for the identification, disclosure and resolution or management of conflicts of interest and conflicts of commitment.
  - 3.5 The "University" refers to Ball State University.

### **III Conflicts of Commitment; Principles Applicable to Outside Activities**

1. Right to Engage in Activities Outside of the University. A University employee may engage in activities outside of the University, provided that those activities do not interfere with the employee's performance of his or her University responsibilities or otherwise constitute a conflict of interest.
2. Use of University Resources. No employee shall use University resources in the performance of outside activities without the permission of his or her dean or administrative unit head and without reimbursing the University.
3. Outside Professional Activities of Full-time Faculty. Full-time faculty shall be permitted to spend an average of up to one day a week on professional activities other than University activities, provided that those activities do not otherwise constitute a conflict of interest.
4. Income From Outside Activities Not a Factor. An employee's compliance with this Section III or with any other University or administrative unit policy on conflicts of commitment shall not be determined on the basis of income earned from outside activities or the percentage of the employee's University compensation that such income constitutes, unless required by law.
5. This Section III sets forth four basic principles applicable to all outside activities:
  - 5.1 University employees are permitted and encouraged to engage in those activities to the extent that they do not interfere with the employees' University responsibilities.

- 5.2 Employees may not use University resources in the performance of outside activities without reimbursing the University and obtaining appropriate permission.
- 5.3 Issues relating to these activities should be resolved within the lowest administrative unit whenever possible.
- 5.4 The limits on collegiate, departmental and other administrative unit policies are: (a) they may not interfere with the University's policy permitting full-time faculty to spend an average of up to one day each week on professional, but not necessarily University, activities; and (b) they may not substitute a 20% of compensation rule for the one-day-per-week policy or add such a rule to the policy.

6. The reference in Section III(3) to "full-time" faculty reflects the conclusion that University policy need not provide that part-time faculty be permitted at least one day each week to engage in professional activities outside of the University, because University policy does not, and should not, place any limit on the time that part-time faculty spend on outside activities. Part-time faculty, however, are subject to Sections III(1) and (2) and the other sections of this Policy.

**IV Obligation to Identify and Avoid or Manage Conflicts**

1. University employees share an obligation to conduct their professional activities in a manner consistent with the University's mission and to conduct their relationships with each other and with the University with candor and integrity. Pursuant to that obligation, employees have a responsibility to identify and, when possible, avoid conflicts of interest and conflicts of commitment. When they cannot be avoided, employees must disclose conflicts of interest and conflicts of commitment, and they must work with University officials to manage or resolve those conflicts.

**V Procedures for Disclosing and Managing Conflicts**

1. Obligation to Disclose Conflicts of Interest and Conflicts of Commitment: It is the responsibility of each employee to promptly and prospectively disclose a conflict of interest or a conflict of commitment involving the affairs or activities of that employee.

Examples of activities that may, depending on the facts and circumstances, constitute such a conflict are: (i) activities of the employee which advance his or her own financial, professional, or other interests, or those of a dependent, to the detriment of the University; (ii) teaching by a full-time faculty member at another educational institution, including teaching through the Internet; (iii) utilizing University students, employees, facilities or materials in the pursuit of outside activities from which the University will derive no benefit; and (iv) engaging in research or consulting activities that interfere or compromise the employee's execution of his or her University responsibilities.

2. Procedure for disclosing conflicts: To disclose a conflict of interest or conflict of commitment, the employee must complete and file the disclosure form with his or her department head or other supervisor. If the employee is uncertain about his or her disclosure obligation, the employee should review the circumstances with his or her department head or other supervisor prior to making a formal disclosure. In such cases, the department head or other supervisor should then discuss the situation with the policy coordinator. If the department head or other supervisor and the policy coordinator agree that no conflict of interest or conflict of commitment exists, then no formal disclosure is required; however, the policy coordinator should maintain a record of the substance of his or her discussion with the department head or other supervisor. In all other cases, the employee should complete the disclosure form and submit it to his or her department head or other supervisor.

Notwithstanding the above, any University employee who is unsure whether he or she has a disclosure obligation or who has other questions about the policy's application may request advice directly from the policy coordinator without being required to disclose his or her name or identifying details concerning a potential conflict of interest or conflict of commitment. A college, department or other administrative unit may also request advice from the policy coordinator about a potential conflict of interest or conflict of commitment, providing no more identifying information than is necessary for such purpose except as required by law or University policy.

3. Procedure for assessing, eliminating or managing conflicts: The department head or other supervisor, after consulting with the employee, should: (i) sign the disclosure form and, where possible, include written recommendations of conditions or restrictions

which might be used to manage, reduce or eliminate the actual or perceived conflict, and (ii) forward the disclosure form to the dean or appropriate official for written endorsement and/or comment.

Examples of measures that, depending on the facts and circumstances, might be used to manage or resolve conflicts include: (i) monitoring of the outside activity by an independent reviewer; (ii) disqualifying the employee from participating in decisions that might affect the employee's financial interests; (iii) divestiture of the financial interest which creates the conflict; and (iv) severance of any relationships that create the actual or potential conflict.

The disclosure form, along with the recommendations of how the conflict can be managed, reduced or eliminated, should then be submitted to the policy coordinator. If the policy coordinator determines that the proposed resolution or management of the conflict is consistent with applicable University policies, including additional college, department, or other administrative unit policies, if any, the policy coordinator will add his or her written endorsement and/or comments and forward the disclosure form to the President for final approval.

4. Procedure for resolving disagreements: If agreement for managing or resolving the conflict is not obtained among all of the parties participating in the procedures under Section V(3), the policy coordinator will convene an ad hoc advisory committee to review the facts and circumstances and recommend a solution. This committee will consist of a representative appointed by the dean or comparable official, a representative appointed by the chairperson of the Academic Freedom and Ethics Committee, and a third member appointed by the Provost and Vice President for Academic Affairs who will act as chairperson. The policy coordinator will serve as a non-voting ex officio member. The employee has the right to appear before the committee, and/or to provide additional information. Also, the committee may request additional information from the employee and others to aid it in making its findings and recommendations. The written findings and recommendations of the committee will be forwarded to the President who will make the final decision on the matter.
5. Administration and record-keeping: The policy coordinator will administer this policy and maintain records of all filed disclosure forms and associated documents, including, but not limited to, documentation of actions taken by University administrators and committees to eliminate, reduce and/or manage conflicts of interest or conflicts of commitment. All such records will be retained for a period of three years following completion or termination of the activity that prompted the filing of the disclosure form. All employees who file disclosure forms under this policy shall update the information promptly if the circumstances that caused the filing of the disclosure change and shall notify the policy coordinator within thirty days following the cessation of the activity.
6. Enforcement: Employees who violate this policy by either: (i) failing to make a required disclosure of a conflict of interest or a conflict of commitment, or (ii) failing to comply with conditions or restrictions imposed by the University on their outside activities or affairs for the purpose of eliminating, reducing or managing a conflict of interest or a conflict of commitment, may be subject to disciplinary action and appropriate sanctions in accordance with the provisions of the Faculty and Professional Personnel Handbook. If the violation involves a government-funded sponsored program or project, the University may be obligated under federal, state, or local law to report any corrective action taken.

NOTE: The Appendix and Attachments to the policy are available in the departmental offices or the Office of Academic Research and Sponsored Programs.

## **EMPLOYEE BENEFITS**

Employee benefits other than salary are explained in the Benefits Handbook.

**PROCEDURES FOR COLLECTING DELINQUENT ACCOUNTS  
OWED THE UNIVERSITY BY ITS FACULTY/PROFESSIONAL  
PERSONNEL<sup>43</sup>**

1. This policy applies to the collection of delinquent accounts owed the University by its faculty/professional personnel; accounts may include but are not limited to unpaid charges for:
  - 1.1 Fines (such as traffic and library fines) and penalties;
  - 1.2 Charges for lost or damaged books and other materials; personal telephone calls; use of University facilities; printing, duplicating, and other services rendered by the University;
  - 1.3 Unpaid student fees and related charges;
  - 1.4 Processing charges for checks returned by banks.
2. Definitions
  - 2.1 A "delinquent account" is an account recorded on the University accounts receivable system that contains any charges, not library related, that remain unpaid for a period of 60 calendar days, 97 calendar days if only library related charges, after appropriate hearings and other appeals procedures, if any, have been concluded.
  - 2.2 A "paid account" is an account recorded on the University accounts receivable system that has been liquidated.
  - 2.3 The "date paid" is the date that final payment, permanently liquidating the account on the University accounts receivable system, is received at the Bursar and Loan Administration's Office.
3. Procedures--Employees Who Have Delinquent Accounts and Who Fail to Pay Them
  - 3.1 Withholding employee privileges:
    - 3.11 The following privileges are to be suspended until the debt is liquidated unless such privileges are already under suspension as a result of previous action: parking privileges when unpaid parking charges are involved; waiving of fees for dependents and for the employee; special assigned leave with pay; assigned leave with pay; leave without pay for study or for government arranged leave.
  - 3.2 Recording in personnel files:

A record of the failure to pay the debt is to be made in the personnel file, and this information shall be considered in future employment decisions regarding the employee.
  - 3.3 Withholding salary increases:
    - 3.31 No general pay increases (those generally given annually at the start of the fiscal or academic year) are to be granted and promotions and/or upgrading of positions are to be withheld.
    - 3.32 If an employee subsequently pays the delinquent account, the salary increase in question, if awarded, will be effective the date that day classes begin for the academic semester or summer sessions next following the date the account is liquidated. The proposed salary increase will be applicable only to the remainder of the contract year and will be prorated accordingly. Likewise, the effective date of the promotion or upgrading will be the date that day classes begin for the academic semester or summer sessions next following the date the account is liquidated.
  - 3.4 Prior to registration for classes (employee or dependent) the employee must pay all charges (delinquent or otherwise) except those charges being appealed.
  - 3.5 Ten calendar days prior to initiating the foregoing actions a final notice will be delivered personally or mailed (certified mail) to the employee advising of the actions to be taken unless the debt is paid.
  - 3.6 To defray the cost of pursuing collection and impose a penalty charge for the account not being paid when due, a delinquency processing and late payment fee in the amount of \$25 is to be assessed and included in the balance owed the University when the account becomes delinquent.
  - 3.7 Voluntary Payroll Deduction Loan Program
    - 3.71 Employees may elect to pay their delinquent account in full by executing a Voluntary Payroll Deduction Loan Program promissory note and payroll deduction authorization to the University within ten calendar days after the date of the final notice. The proceeds of the promissory note will be applied to the delinquent account as of the date executed. The employee will then be subject to the terms of the promissory note. However, should the employee subsequently default in repaying the promissory note,

- delinquent account collection procedures may be resumed, at the option of the University, as though the delinquent account had not been paid.
- 3.72 Interest is to accrue on the unpaid principal balance, until paid, at the Ball State Federal Credit Union one year note loan rate in effect on the date the loan is made plus one percent. A \$10 document processing fee is to be paid to defray the costs of processing the loan and may be included in the loan.
  - 3.73 The minimum payroll deduction amount is to be \$22 monthly (\$10 biweekly) or .0017 monthly (.000785 biweekly) times gross annual salary/wages rounded up to the nearest dollar, whichever is greater.
- 3.8 At the option of the University, delinquent accounts may be referred to collection agencies or pursued in court.
4. Reports to Board of Trustees  
Reports of delinquent employee accounts receivable are to be submitted annually to the Board of Trustees setting forth the employee's name and all amounts owed the University including the delinquent portion.
  5. Responsibility for Administration  
It shall be the responsibility of the Vice President for Business Affairs and Treasurer or the Vice President's designee to pursue with due diligence the collection of delinquent employee accounts.
  6. Procedures for collecting delinquent accounts owed the University by its employees as amended effective August 30, 1988, are hereby superseded, only as they pertain to Faculty/Professional Personnel, effective January 28, 1994.

**PROCEDURES IN CASES WHERE TERMINATION OF A TENURED FACULTY OR TENURED PROFESSIONAL PERSONNEL MEMBER'S APPOINTMENT IS PROPOSED<sup>44</sup>**

**I Informal Proceedings**

When specific written allegations are made and signed by the complainant with respect to a tenured faculty or tenured professional personnel member which may provide cause for terminating his or her permanent appointment, the matter will be brought to the attention of the faculty or professional personnel member's department Chairperson and College Dean,\* who will discuss the subject with the faculty or professional personnel member in a private conference. The faculty or professional personnel member may have a supporting faculty or professional personnel member present if he or she so desires.

If, as a result of this initial conference, an appropriate solution is found which satisfies the faculty or professional personnel member, the department Chairperson, and the Dean, the matter will be closed and the solution will be implemented. If no solution is found, within thirty (30) working days, the Dean: will (1) if he or she determines that the allegations are clearly unsupported, drop the matter; (2) if he or she determines that the allegations are supported but that formal proceedings for termination of the appointment are not warranted, submit all information concerning the case to the Academic Freedom and Ethics Committee and subsequent proceedings will be governed by the "Procedures for Disciplinary Actions Other Than Termination"; or (3) if he or she determines that formal proceedings should be initiated, draw up the written statement specified under II-1 below. The Dean will discuss the matter with the department Chairperson before deciding which action to take.

The Dean will provide a written record of the conclusions reached in the informal proceedings to the Provost and Vice President for Academic Affairs, the President, the faculty or professional personnel member, and other University personnel determined by the Dean to have a direct interest.

\* See section IV-1 Definitions.

## II Formal Proceedings

1. **Initiation of Formal Proceedings.**  
If the College Dean determines that formal proceedings to terminate the appointment of a tenured faculty or professional personnel member should be initiated, a written statement setting forth the specific cause or causes for terminating the appointment must be submitted to the Provost and Vice President for Academic Affairs and to the individual involved. The statement must be specific enough to provide the faculty or professional personnel member with adequate notice of the charges against him or her. The Provost and Vice President for Academic Affairs will forward all information and a request for formal proceedings to the Chairperson of the University Senate.
2. **Non-disciplinary Suspension of Faculty or Professional Personnel Member.**  
The Provost and Vice President for Academic Affairs may recommend to the President that a faculty or professional personnel member be suspended from his or her duties if the Provost and Vice President for Academic Affairs feels that immediate harm might result to the faculty or professional personnel member or to others by his or her continued presence on campus or in the classroom. Such suspensions must be approved by the President and will be with pay.
3. **Formation of Hearing Committee.<sup>45</sup>**  
Upon receipt of a request for formal proceedings, the Chairperson of the University Senate will select a five person Hearing Committee from the membership of the University Senate Judicial Committee. No one may be selected who has had previous involvement with the case or who is a member of the department in which the faculty or professional personnel member is employed. If the faculty or professional personnel member is tenured, the Hearing Committee must be composed entirely of tenured faculty and/or tenured professional personnel members.

Each party involved in the hearing--the faculty or professional personnel member and the representative of the University--will have the right to challenge no more than two members of the Hearing Committee. The Chairperson of the University Senate will replace any potential member of the Hearing Committee who is challenged with another member from the Judicial Committee. If five members cannot be selected from the University Senate Judicial Committee after challenges are made, the University Senate will be asked to elect additional members from among whom the Chairperson of the University Senate will select suitable replacements for the challenged members of the Hearing Committee.

The Hearing Committee will elect its own Chairperson. Five members of the Hearing Committee will constitute a quorum.

When the Hearing Committee is formally constituted, the Chairperson of the University Senate will notify each party of the Committee membership.

4. **Response to Written Statement.**  
Within ten (10) working days after receiving notice of the Hearing Committee membership, the faculty or professional personnel member will deliver to the Chairperson of the Hearing Committee a written response to the charges, setting forth the faculty or professional personnel member's position with respect to each charge. The Chairperson will provide copies of the written response to the President, Provost and Vice President for Academic Affairs, the representative of the University, the Dean, the department Chairperson, and the Chairperson of the University Senate. Along with the written response, the faculty or professional personnel member will advise the Chairperson of the Hearing Committee in writing whether he or she desires a hearing. If the faculty or professional personnel member does not desire a hearing, the Hearing Committee will decide the case on the basis of the evidence already in the Committee's file (which will include all information relating to the case previously submitted during the informal proceedings) and other relevant evidence available to the Committee.
5. **Hearing Committee's Prerogative to Discontinue Formal Proceedings.** If at any time during the formal proceedings prior to a hearing the Hearing Committee determines that termination of the faculty or professional personnel member's appointment is clearly not warranted based upon the information already in the Committee's file, the Committee may discontinue the formal proceedings.

In such event, the Chairperson of the Hearing Committee will provide conclusions and the Committee's rationale in writing to the appropriate College Dean, the Provost and Vice President for Academic Affairs, the President, the faculty or professional personnel member, and other University personnel determined by the Hearing Committee Chairperson to have a direct interest. If the Hearing Committee decides that the charges against the faculty or professional personnel member are clearly unsupported, and no disciplinary action is taken, the Committee may direct that all references to the charges be deleted from the individual's personnel record, if the individual agrees. If the Hearing Committee decides that the charges are supported but that termination of the faculty or professional personnel member's appointment is clearly not warranted, the Committee may refer the matter to the Academic Freedom and Ethics Committee for disposition in the manner provided under the informal proceeding described above.

6. Establishment of Hearing Date.

If there is to be a hearing, the Hearing Committee will establish a time, date, and place for the hearing, after consulting with the faculty or professional personnel member and the University representative. The hearing will be scheduled at such time as to allow the parties sufficient time to prepare their case. However, the hearing will be held within twenty (20) working days after receipt of the request for a hearing, unless the Hearing Committee determines that good cause exists for an extension. All parties will be advised of the procedures to be followed at the hearing, as set forth below.

7. Hearing Procedures.

7.1 The hearing will be private. Individuals permitted to be present throughout the hearing include: the members of the Hearing Committee, the Dean, the department Chairperson, the representative of the University, the faculty or professional personnel member, an advisor chosen by the faculty or professional personnel member (who may be an attorney), the Provost and Vice President for Academic Affairs, the President and/or his or her designee(s), the Chairperson of the University Senate, and a recorder chosen by the Hearing Committee. Witnesses, other than the above, may be present only when they are testifying.

If requested by the Hearing Committee, University counsel will meet with the Hearing Committee and/or attend the hearing to advise the Committee on procedural matters. In addition, the representative of the University who presents the case for termination of the appointment of the faculty or professional personnel member may be assisted at the hearing by an advisor (who may be an attorney if the faculty or professional personnel member's advisor is an attorney).

7.2 The Chairperson of the Hearing Committee will rule on all procedural matters. Any such ruling will be final unless it is overturned by a majority vote of the Committee members present. In such event the decision of the majority of the Committee will be final.

7.3 The parties must present copies of all documents on which they intend to rely (if not already a part of the Committee's file), and a list of the witnesses they intend to call, to the Chairperson of the Hearing Committee no later than five working days prior to the scheduled hearing date. The Chairperson will distribute copies of all documents presented and the witness lists to the members of the Hearing Committee and to the other party. No other documents or other witnesses may be presented at the hearing by either party without the approval of the Hearing Committee, which approval will only be given for good cause (e.g., the document or witness was not previously known to the party through no fault of the party, or the document or witness is needed for direct rebuttal of evidence submitted by the other party).

All witnesses will be expected to testify personally, if reasonably available. If they are not available, the party offering the witness will furnish a copy of the witness' notarized statement to the Chairperson of the Hearing Committee and to the other party with his or her witness list if possible, and if not, at the hearing. Parties will be responsible for securing the attendance of their own witnesses at the hearing but upon the request of a party, the Hearing Committee will provide reasonable assistance in securing the attendance of a witness.

7.4 The representative of the University will present his or her witnesses, documents, and arguments first, followed by the faculty or professional personnel member. Then the parties may present their rebuttal evidence, if any, and the Hearing Committee may call any additional witnesses or obtain any additional documents which it feels are necessary or helpful for a complete understanding of the matter.

After all documents have been presented and all witnesses have testified, each party will be allowed time for a brief final summation.

The Hearing Committee will ordinarily establish time limits for the presentation of evidence, with a view towards completing the hearing as efficiently as possible, taking into consideration its obligation to hear all relevant and non-repetitive evidence which either party desires to present. The Committee will establish the time limits, if any, after conferring with the parties, and will inform the parties of the time limits promptly after they are established.

- 7.5 All statements and remarks made by the parties or by witnesses will be directed to the Hearing Committee. Each party will be given the opportunity to ask questions of the other party or of the witnesses presented by the other party, but all such questions will be directed to the Chairperson, who will then direct the question to the intended party or witness. The Hearing Committee may vary these procedures for asking questions if it so desires.

The Chairperson will screen questions to avoid repetition and eliminate clearly irrelevant matters. None of the parties may interrupt the proceedings, but may gain the attention of the Chairperson by raising a hand. Any person accompanying a party as an advisor may participate fully in the proceedings.

- 7.6 A verbatim record of the hearing will be made by the recorder and a copy of the transcript of the hearing record will be sent to the faculty or professional personnel member, and to the Provost and Vice President for Academic Affairs as soon as it is available. The Hearing Committee will keep an official file, which will include the transcript of hearing record, all documents, statements and exhibits presented at the hearing (identified for convenient reference), and all information relating to the case previously submitted in either the informal or formal proceedings. The official file may be reviewed by any member of the Hearing Committee, by the parties and their advisors, and by any other person approved by the Provost and Vice President for Academic Affairs and the Chairperson of the Hearing Committee.

## 8. Findings and Conclusions.

- 8.1 The Hearing Committee's confidential deliberations may commence immediately after the conclusion of the hearing, or may be postponed by the Hearing Committee to a later time or date. All decisions of the Hearing Committee must be by a majority vote. The Hearing Committee must make explicit findings with respect to each of the charges contained in the written statement referenced in II-1 above, and it must also make recommendations with respect to the actions, if any, to be taken against the faculty or professional personnel member. If actions are recommended, they may include terminating the appointment of the faculty or professional personnel member or appropriate disciplinary action. The findings and recommendations will be communicated in writing to (1) the faculty or professional personnel member; (2) the immediate administrative superiors; (3) the Provost and Vice President for Academic Affairs; (4) the President; and, (5) the representative of the University, no later than ten (10) working days after the conclusion of the hearing, unless the Hearing Committee informs the President that it needs additional time.

- 8.2 The Provost and Vice President for Academic Affairs, upon receiving the findings and recommendations of the Hearing Committee, will review those findings and recommendations, along with the procedures followed in all of the activities relating to the charges and the hearing. The Provost and Vice President for Academic Affairs is charged with ensuring that appropriate procedures were followed. If the Provost and Vice President for Academic Affairs determines that appropriate procedures were not followed, then he or she may remand the case back to the Hearing Committee along with instructions for rehearing and/or specific remedial action.

- 8.3 Upon being satisfied with the procedures followed by the Hearing Committee, the Provost and Vice President for Academic Affairs will forward the findings and recommendations of the Hearing Committee to the President, along with any comments or recommendations that he or she might wish to append.

- 8.4 The President, upon receiving the report of the Provost and Vice President for Academic Affairs, may ask for additional information and/or may interview any individual connected with the charges and the hearing. Upon being satisfied with the Provost and Vice President for Academic Affairs' report, the President will append any comments or recommendations of his or her own and send the report, along with the official file, to the Board of Trustees. In most circumstances, the

time period following the President's receipt of the Provost and Vice President for Academic Affairs' report, until he or she sends it to the Board of Trustees, should not exceed thirty (30) working days.

If the recommendation is to terminate the appointment of the faculty or professional personnel member, the Board must review the case; if the recommendation is not to terminate the appointment, the Board has the prerogative of reviewing the case. If a review is held, it will be based solely on the information and materials in the official file and the reports of the Provost and Vice President for Academic Affairs and the President. The Board may, if it desires, extend to the parties (and/or their designated advisors) the opportunity to present arguments in support of their respective positions, but no new evidence will be presented except in unusual circumstances where the Board determines that such evidence was not available to the party presenting it at the time of the hearing through no fault of the party.

- 8.5 If, after review, the Board decides to sustain the findings and recommendations of the Hearing Committee, it will officially adopt such findings and recommendations and arrange for their implementation. If the Board questions one or more of the findings and recommendations, it will confer with the Hearing Committee in executive session, after which it will decide whether to overrule all or part of the findings and recommendations. In either event, the final decision regarding terminating the appointment of the faculty or professional personnel member, or taking other appropriate disciplinary or administrative actions, rests with the Board of Trustees and must be delivered within sixty-five (65) days of receipt of the file from the President. If the Board of Trustees decides that the charges against the faculty or professional personnel member were unsupported by the evidence, the Board may direct that all references to the charges be deleted from the individual's personnel record if the individual so desires.

### **III Cause for Termination**

Cause for Terminating the Appointment of a Faculty Member or Professional Personnel Member on Tenure<sup>46</sup>

The appointment of a faculty member or professional personnel member on tenure may be terminated, in the manner specified above, only for adequate cause related to the fitness of the member in his or her professional capacity. Adequate cause may include, but is not limited to, one or more of the following: (1) incompetence; (2) dishonesty; (3) substantial and manifest neglect of duty; (4) willful disobedience of University rules and regulations.

### **IV Miscellaneous**

#### **1. Definitions.**

1.1 If a faculty or professional personnel member is not assigned to an academic unit when action is taken under these procedures, the faculty or professional personnel member's "department chairperson" refers to his or her immediate supervisor, and the faculty or professional personnel member's "College Dean" refers to the appropriate University officer (the Executive Assistant to the President or the University Vice President superior to the person whose conduct is in question). In such cases, the Provost and Vice President for Academic Affairs' responsibilities under Subsections 1, 2, 8.2, and 8.3 of the Formal Proceedings (Section II) will be carried out by the President instead of the Provost and Vice President for Academic Affairs.

1.2 The term "working days" refers to days in which the University is in session (i.e., formally scheduled class days), excluding Saturdays, Sundays, and holidays officially recognized by the University.

1.3 The term "representative of the University" refers to the person appointed by the Provost and Vice President for Academic Affairs to present the case against the faculty or professional personnel member.

#### **2. Confidentiality.**

All actions, hearings, evidence, files, and records from these proceedings will be private and confidential unless otherwise provided by law, or unless otherwise required by a final court order or in the written opinion of University counsel. Access will be limited to the parties and their advisors, the Hearing Committee, and other persons with a legitimate interest as approved by the Provost and Vice President for Academic Affairs and the Chairperson of the Hearing Committee. Final action by the Board of Trustees or a Committee of the Board will be taken at a public meeting.

#### **3. Other Cases to Which Procedures Apply.**

The procedures described in I and II above will also apply in any case (1) where the

University proposes to release a non-tenured regular full-time faculty or professional personnel member during the probationary period with less advance notice than that specified in the Faculty and Professional Personnel Handbook, under "Policy Statements for Tenure," or (2) where the University proposes to dismiss a faculty or professional personnel member (whether in a regular or a special assignment) during the term of his or her contract.

4. Cases to Which Procedures Do Not Apply.  
The procedures described in I and II above will not apply in any cases (1) involving termination of the appointment of a non-tenured faculty or professional personnel member, except as provided in IV.3 above, (2) involving a reduction in force when the University declares a state of exigency, (3) involving termination of the appointment of a tenured or non-tenured faculty or professional personnel member for medical reasons, or (4) involving the mandatory retirement of a faculty or professional personnel member on account of age. The University may adopt separate procedures applicable to such cases.
5. Time Limitations.  
Time limitations for actions to be taken under I and II above will not apply where precluded by legal action.

### **PROCEDURES FOR DISCIPLINARY ACTIONS OTHER THAN TERMINATION<sup>47</sup>**

#### **I Functions**

The Academic Freedom and Ethics Committee (AF&E) of the Faculty Council (FC) will serve two basic functions.

1. It will develop and review guidelines and policies for academic freedom and ethics issues for the University.
2. It will review cases involving allegations of (a) violations of ethical standards; (b) interference with academic freedom; (c) other inappropriate behavior by faculty or professional personnel members.\*

#### **II Procedures for Handling Cases**

1. Processing Cases
  - 1.1 Cases within the jurisdiction of the committee may be brought to the Committee's attention by any faculty member or professional personnel member.
  - 1.2 Allegations must be submitted in writing to the Chairperson of the Faculty Council and must contain specific documentation supporting each of the allegations.
  - 1.3 The Chairperson of the Faculty Council will forward a copy of the allegations and supporting documentation to the Chairperson of the Academic Freedom and Ethics Committee and to the person whose behavior is in question. These documents shall be delivered within 10 working days following their receipt by the Chairperson of the Faculty Council.
  - 1.4 After completing its review of a case, and prior to submitting its written report to the Chairperson of the Faculty Council, the Academic Freedom and Ethics Committee may arbitrate the differences between the person(s) who initiated the matter and the person(s) whose behavior is in question (the involved parties). If agreement is reached, the written report to the Chairperson of the Faculty Council shall set forth the terms of the agreement.
  - 1.5 The findings and recommendations of the Academic Freedom and Ethics Committee will be submitted in writing to the Chairperson of the Faculty Council, the involved parties, the appropriate University officer\*\* and other University personnel determined by the Academic Freedom and Ethics Committee to have a direct interest. This report will be forwarded within 10 working days of its approval by the Academic Freedom and Ethics Committee.

\* Examples of inappropriate behavior include, but are not limited to: moral turpitude, neglect of duty, insubordination, and violation of institutional rules.

\*\* The phrase "appropriate University officer" used in these procedures refers to the Executive Assistant to the President or the University Vice President superior to the person whose conduct is in question, unless that Officer is an involved party. If the Vice President or Executive Assistant to the President is an involved party, then the President is considered to be the "appropriate University officer."

2. Procedures
  - 2.1 The Academic Freedom and Ethics Committee will examine the documentation and other information it deems pertinent to the case. The Academic Freedom and Ethics Committee will do this by receiving statements from the involved parties and anyone else the committee believes may be able to provide relevant information.
  - 2.2 The involved parties shall have the right to be accompanied during any appearance before the committee by an observer who is a full-time (regular or contract)<sup>48</sup> faculty or professional personnel member. An involved party will be given at least 10 working days advance written notice by the Chairperson of the Academic Freedom and Ethics Committee of the date, time, and place of any meeting of the committee which the party is requested to attend. Within 5 working days after receiving this notice, the party will submit to the Chairperson of the Academic Freedom and Ethics Committee in writing the name of the observer, if any, who will accompany the party. The party may consult with the observer during the meeting, but the observer will not actively participate in the proceedings.
  - 2.3 The Academic Freedom and Ethics Committee's review of the case will be conducted in an informal manner. All participants shall maintain the confidentiality of the proceedings. All actions, evidence, files, and records from the proceedings will be private and confidential, unless otherwise provided by law, as interpreted in writing by University counsel, or unless otherwise required by a final court order. Because the matters under consideration by the committee may be extremely sensitive to the persons involved, only persons invited by the Academic Freedom and Ethics Committee may attend its meetings. For the same reasons, recording devices will not be allowed.
  - 2.4 Minutes of all meetings will be kept.<sup>49</sup> All minutes and documentary evidence submitted to the committee will be open to inspection by the involved parties, the Academic Freedom and Ethics Committee members, and the appropriate University officer. The minutes and documentary evidence will be kept by the appropriate University officer for at least one year from the close of the case by the Academic Freedom and Ethics Committee or until appeals and/or sanctions are completed (whichever is longer).
  - 2.5 Upon completion of the deliberations, the Academic Freedom and Ethics Committee will formulate a report containing its findings and recommendations (see 1.5 above).
  - 2.6 All personal notes taken by individual Academic Freedom and Ethics Committee members will be kept confidential by the Chairperson and destroyed after approval of the final report by the Academic Freedom and Ethics Committee.<sup>50</sup>

### **III Recommended Dispositions**

1. The Academic Freedom and Ethics Committee may recommend to the appropriate University officer the exoneration of the faculty or professional personnel member whose behavior is in question.
2. The Academic Freedom and Ethics Committee may find that the person did engage in inappropriate behavior and may recommend to the appropriate University officer:
  - 2.1 No sanctions be imposed;
  - 2.2 A written reprimand;
  - 2.3 A fine (not exceeding 5 percent of the person's annual contract base salary);
  - 2.4 Probation (not exceeding one year). Probation is defined as the conditional withholding of a more severe sanction. The Academic Freedom and Ethics Committee will recommend the length and terms of probation and the monitoring officer(s). If a person is believed by the designated monitoring officer(s) to have violated the terms of probation, the officer(s) may recommend to the appropriate University officer that the withheld sanction be imposed and, in appropriate cases, that formal proceedings for dismissal be instituted;
  - 2.5 Suspension without pay, or with partial pay (not exceeding one year);
  - 2.6 Institution of formal proceedings for dismissal.
3. Combinations of sanctions may be recommended where appropriate. When a sanction other than 2.6 is recommended, the terms may include a recommendation that the person take reasonable action to remedy or to make restitution for a situation created by his or her behavior.

4. The Academic Freedom and Ethics Committee may find the allegation(s) submitted by the person(s) who initiated the matter to be baseless and appear to have been made in bad faith. In these cases the Academic Freedom and Ethics Committee may recommend to the appropriate University officer that he or she institute an investigation in relation to this matter.

#### **IV Finding and Conclusions**

The appropriate University officer will review the findings and recommendations of the Academic Freedom and Ethics Committee along with the procedures followed in all of the activities relating to the charges. He or she is charged with ensuring that appropriate procedures were followed. If he or she determines that appropriate procedures were not followed, then he or she may remand the case back to the committee along with instructions for specific remedial action. If the affected faculty or professional personnel member believes that prescribed procedures have not been followed or does not feel the findings and recommendations of the Academic Freedom and Ethics Committee are appropriate, he or she may, within 10 working days of receipt of the written findings and recommendations of the Academic Freedom and Ethics Committee, request a conference with the appropriate University officer. Upon receiving such a request, the officer will meet with the affected faculty or professional personnel member, and the officer will not take any disciplinary action against the faculty or professional personnel member prior to such meeting. The faculty or professional personnel member may have a supporting faculty or professional personnel member present if he or she so desires. The decision regarding the action, if any, to be taken rests with the appropriate University officer. The decision of the appropriate University officer will be communicated to the faculty member or professional personnel member in writing with copies of action taken being sent to the following persons: Department Chairperson or Unit Head, College Dean (if appropriate), and the Provost and Vice President for Academic Affairs. The Office of the Provost and Vice President for Academic Affairs would serve as the repository for the Academic Freedom and Ethics Committee on all completed proceedings pertaining to disciplinary action other than termination. No disciplinary action will be taken until all possible appeals have been completed.

#### **V Appeals**

1. If the decision of the appropriate University officer is that formal proceedings for dismissal should be instituted (sanction 2.6), the case will thereafter be subject to the "Procedures in Cases Where Termination of a Tenured Faculty or Professional Personnel Member's Appointment is Proposed," Section II (Formal Proceedings).
2. If the decision of the appropriate University officer is that disciplinary action other than formal proceedings for dismissal should be taken, the faculty or professional personnel member may appeal that decision to the President (unless the appropriate University officer is the President, in which event no further appeal will lie). Such appeals must be filed in writing by the faculty or professional personnel member within 10 working days of receipt of the written decision of the appropriate University officer, setting forth the reasons(s) why the decision should be overturned. In all such cases the President will make the final decision and no further appeals will be permitted.

#### **POLICY FOR THE EVALUATION OF TEACHING<sup>51</sup>**

1. Ball State University recognizes the importance of its teaching mission. Evaluation of teaching plays a primary role in providing students with the best possible educational experience and in allowing faculty to develop to their full potential as teachers. Therefore faculty must annually evaluate their teaching by a variety of means.
2. In addition to its primary role in improving teaching, evaluation of teaching plays a role in personnel decisions such as promotion, tenure, and merit pay. Because the evaluation of teaching for personnel decisions must be fair and systematic, the University establishes the following policy.
  - 2.1 Each department shall devise procedures, to be approved by its college, for regularly conducted evaluation of teaching, including student ratings. Ratings by students shall be conducted each year on a regular schedule that meets departmentally approved standards, suitably administered, summarized, and available for review during personnel decisions. When the faculty member's assignment includes teaching, these ratings shall be done in at least one class per year. In appropriate circumstances, the College Dean may waive this requirement.

- 2.2 In addition, each faculty member's teaching shall be evaluated by at least one of the following means, and all of the following means shall be available to the individual faculty member:
  - 2.21 Peer review of teaching, such as classroom visitation, evaluation of syllabi, examinations and other classroom materials;
  - 2.22 Chairperson review of teaching, such as classroom visitation, evaluation of syllabi, or evaluation of examinations;
  - 2.23 Peer and chairperson review of the teaching portfolio.
- 2.3 Colleges and departments are encouraged to use as many other means of evaluation as they see fit. Examples may include evidence of significant involvement in curriculum development; significant contribution to the pedagogy of the field; personal statement describing teaching goals.
- 2.4 Annually, each department chairperson must make each faculty member aware of the departmentally approved methods that will be used for the evaluation of teaching.

### **GUIDELINES TO BE FOLLOWED IN EVALUATION OF TEACHING<sup>52</sup>**

To facilitate the fair and systematic evaluation of teaching, the University has developed the following requirements.

1. Student ratings are to be used for two purposes: first the improvement of teaching and second, when used as part of the evidence upon which decisions are based, for personnel matters.
  - 1.1 Improvement of Teaching
 

During the term, student feedback may be solicited to assist in making improvements in a current course or subsequent offerings. A variety of methods can be used, such as formal surveys, open-ended questionnaires, or informal essays, but any student statistical ratings are to be anonymous. Departments, with the approval of colleges, shall make provisions to assure that no student is penalized for expressing his or her opinion. This student feedback, designed to improve teaching, is not appropriate for making personnel decisions.
  - 1.2 Personnel Decisions
 

Near the end of the semester, but not during final exam week, a rating form adopted by departments to evaluate teaching shall be administered to students enrolled in classes currently taught within the department. This rating form can include formal surveys, open-ended questionnaires and/or informal essays. Every reasonable effort will be made to protect the anonymity of student responses. Departments, with the approval of colleges, shall make provisions to assure that no student is penalized for expressing his or her opinion.

The statistical data gathered from student ratings will be summarized by a designated University office. Departments, with the approval of colleges, shall make provision to ensure the confidentiality and integrity of the data. Pooled data, without any traceable reference to the instructor, may be maintained for norming and research. The individual rating forms, or transcripts thereof, at the discretion of the department, are considered property of the faculty member and must be given back to the faculty member when the tabulation of results is complete.
  - 1.3 Implementation of Policy
 

Policies for selection of courses, frequency of evaluation, timing of administration/completion, adjustment for exceptional circumstances, and reporting of results will be developed by departments and approved by appropriate college committee(s).
  - 1.4 Methodological and Statistical Considerations
 

Sound methods and statistical procedures are to be followed. Among these are the following:
 
    - 1.41 Statistical summary of information from classes with enrollment of ten (10) or fewer should be avoided. Other methods of evaluation are recommended in this case.
    - 1.42 Information derived from teaching rating forms shall not be disseminated to or received by a professor's peers, department chairperson, any Promotion and Tenure committees, or anyone else unless it is accompanied by a copy of the evaluation form used and copies of any instructions provided to those filling out the forms.

- 1.43 Information relating to any individual faculty member and derived from different evaluation forms which include different items and configurations of items shall never be averaged nor co-mingled.
2. Administration of Student Ratings Used for Personnel Decisions

Discretion for handling cases not specifically mentioned in this policy will rest with the appropriate University officer and the president.

This policy also applies to persons whose employment precedes the adoption of this policy with the following exception: persons who directly supervise another person related by family or marriage upon the effective date of the adoption of this policy shall not be subject to the provisions of this policy in regard to that supervisory relationship as long as the administrative supervisor and the relative being supervised remain in their current positions.

#### **POSITION VACANCY**

In the event of a professional personnel or faculty vacancy, the administrative and/or academic unit must re-establish the justification for filling that position. The procedure to be followed shall be identical with that utilized in establishing the need for a new position.<sup>69</sup>

#### **GRADUATE FACULTY POLICY<sup>70</sup>**

As a member of the Council of Graduate Schools, Ball State University subscribes to the view that every University should have a recognizable graduate faculty that includes individuals who have a commitment to graduate education, whose scholarly activities are appropriate to the direction of advanced degree programs, and who collectively assume responsibility for equivalence of value across degree programs. Ball State also recognizes that definitions of scholarship vary among the academic disciplines, and we acknowledge that the use of a single criterion to define members of the graduate faculty discounts the diversity that characterizes scholarly and artistic competence, intellectual leadership, and experience with graduate education.

The purpose of the following policy is to outline the two classifications of graduate faculty, the responsibilities and prerogatives, the terms of membership, the articulation of departmental criteria, and the routing of appeals. Tenure track or tenured faculty are eligible for Regular Membership only. Full-time contract faculty may be eligible for Regular or Associate Membership.

## 1. Regular Member

### 1.1 Criteria

- 1.11 In judging the qualifications of an applicant for the Graduate Faculty, the primary consideration is whether the faculty member is an active and productive scholar and an effective teacher at the graduate level.
- 1.12 In general, graduate faculty are expected to demonstrate:
  - 1.121 Scholarly competence, which is usually reflected by possession of the highest earned degree in the candidate's field or an exceptionally meritorious record as a scholar in lieu of the highest earned degree; and
  - 1.122 Intellectual leadership, which typically connotes active participation in contributing to the discipline at various levels, e.g., state, regional, national, and international. Successful applicants are recognized by scholars in the field for their intellectual attainments and creative contributions, and they may be sought out for their expertise to serve in positions of scholarly leadership such as membership on editorial boards and professional reviewing for scholarly journals and presses; and
  - 1.123 Potential to direct the research of graduate students, to teach graduate courses effectively, to plan and direct graduate programs, and to direct research/creative projects and theses.

### 1.2 Responsibilities and Prerogatives

- 1.21 Graduate faculty are eligible to:
  - 1.211 Teach all levels of graduate course work within their academic, artistic, or clinical competence;
  - 1.212 Serve on doctoral committees;
  - 1.213 Direct Ed.S. and master's theses or creative projects and to chair Ed.S. and master's committees;
  - 1.214 Serve on Ed.S. and master's thesis or creative project committees;
  - 1.215 Develop graduate programs and courses;
  - 1.216 Serve as members of the Graduate Education Committee;
  - 1.217 Vote on graduate faculty issues.

### 1.3 The Doctoral Committee Chair Endorsement

- 1.31 Applicants who qualify for regular graduate faculty membership may apply for an endorsement to chair doctoral committees and direct doctoral dissertations.
- 1.32 In addition to meeting the criteria listed above, applicants must have the earned doctorate and demonstrate a high level of competence in directing research/writing.

## 2. Associate Member

### 2.1 Criteria

- 2.11 Prospective associate members of the graduate faculty are expected:
  - 2.111 To have developed a high level of competence in an area of special need not covered by a regular member of the graduate faculty;
  - 2.112 To provide reasonable assurance that their service will be available throughout the period of the special need.
- 2.12 Each full-time contract faculty member may be eligible to serve as either associate or regular graduate faculty.
- 2.13 Part-time faculty may only be designated associate members of the graduate faculty.

- 2.14 Members may also be drawn from across departmental and collegiate lines, from professionals, and others within the community, faculty emeriti, faculty who have moved to other institutions, or from any source which is reasonably convenient.
- 2.2 Prerogatives and Responsibilities
  - 2.21 Members may teach all levels of graduate course work within their academic, artistic, or clinical competence;
  - 2.22 Directors of dissertations, theses, research papers, and creative projects who retire or who move to other institutions may be retained as directors when such arrangements are advantageous to the student and convenient to the former faculty member and Ball State University.
  - 2.23 Members drawn from outside the University may serve as committee members but not as chairpersons.
  - 2.24 Members inside the University may chair master's theses or research project committees.
3. Terms of Membership
  - 3.1 Regular members of the graduate faculty are appointed for a period of six years.
  - 3.2 Associate members are appointed normally for one year; appointments longer than one year may be made for the period of special need as specified in the application.
  - 3.3 Reappointments are subject to the same criteria and conditions as the original appointment;
    - 3.31 Faculty who fail to qualify for reappointment to the graduate faculty may complete their ongoing obligations; however, except under special circumstances, they may not take on new obligations that are specifically reserved for the graduate faculty;
    - 3.32 Faculty who fail to qualify for the endorsement may complete their obligations as doctoral committee chairs or dissertations directors; however, except under special circumstances, they may not take on new obligations as doctoral committee chairs or dissertation directors.
4. Departmental Guidelines and Procedures
  - 4.1 An appropriate departmental committee, e.g., the Graduate Faculty Committee or the Salary-Merit Committee, takes the primary role in defining the criteria for appointment and reappointment of its graduate faculty, in accordance with the general principles listed in this policy. New or revised criteria will be forwarded to the departmental faculty for approval.
  - 4.2 These criteria for graduate faculty membership and the doctoral committee chair endorsement will be submitted every six years via the College Dean to the Graduate Dean for review and approval.
  - 4.3 Approval of an applicant's graduate faculty status is determined by the Dean of the Graduate School, upon the joint recommendation of the applicant's department and College Dean. Exceptions to these policies are made on a case-by-case basis; occasionally, individuals may be authorized to perform specific graduate faculty duties with the approval of the Dean of the College and the Dean of the Graduate School.
  - 4.4 The application will consist of the candidate's curriculum vitae together with a cover letter prepared by the department that includes the classification sought and an overview of significant professional activity.
5. Appeals

Appeals from an adverse departmental decision should be made to the Dean of the College; appeals from an adverse college decision should be made to the Dean of the Graduate School; appeals from an adverse decision of the Dean of the Graduate School should be made to the Faculty Affairs Committee of the Graduate Education Committee, though in all cases the final decision will be made by the Dean of the Graduate School.

**INDEMNIFICATION OF UNIVERSITY PERSONNEL**

Pursuant to the authority granted to the Ball State University Board of Trustees by Indiana Code 20-12-1-4 for the defense of University officers, faculty, employees, consultants, counsel and Trustees in any suit arising out of the good faith performance of that person's duties for, or employment with Ball State University, and for saving any such person or member harmless from any liability, cost or damage in connection therewith except where such liability, cost or damage is predicated on, or arises out of the bad faith of such person or member, or is based on that person's malfeasance in office or employment, BE IT RESOLVED, that:

1. General. Subject to the provisions of Paragraph 2.1, any person against whom any action is brought or threatened by reason of the fact that such person is or was a trustee, officer, agent or employee of Ball State University, or is or was serving at the request of Ball State University as a trustee, director, officer, agent or employee of any corporation,

partnership, trust or other entity or enterprise, shall be indemnified by Ball State University for:

- 1.1 Reasonable cost and expenses, including reasonable attorneys' fees, actually paid or incurred by such persons in connection with proceedings related to the defense or settlement of such action;
  - 1.2 Any amount for which such person becomes liable by reason of any judgment in such action; and
  - 1.3 Reasonable costs and expenses, including reasonable attorneys' fees, actually paid or incurred in any action, to enforce his or her rights under this resolution, which results in a final judgment in favor of such person.
2. 2.1 Favorable Judgment on Merits. The indemnification provided for by Paragraph 1 shall be made in connection with any action which results in a final judgment on the merits in favor of such person.
  - 2.2 Settlement, Adverse Judgment or Judgment Other Than on Merits. In case of settlement of such action, final judgment against such person or final judgment in favor of such person, other than on the merits, the indemnification provided for in Paragraph 1 shall be made only if it is determined that such person was acting:
    - 2.21 In good faith;
    - 2.22 Within what he or she was reasonably entitled to believe under the circumstances was the scope of his or her employment or authority;
    - 2.23 For a purpose which he or she was reasonably entitled to believe under the circumstances was in or not opposed to the best interests of Ball State University;
    - 2.24 In a manner which he or she was reasonably entitled to believe under the circumstances was lawful and not in violation of the Constitution or the laws of the United States or of the state of Indiana.
3. The termination of any action by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent, does not of itself create a presumption that the person did not meet the foregoing standards of conduct.
  4. Provided, however, that no indemnification shall be made on account of any action brought by or on behalf of Ball State University to procure a judgment in its favor, or by or on behalf of the state of Indiana to procure a judgment in its favor, against any such trustee, director, officer, agent or employee in which such person shall have been adjudged to be liable for malfeasance in office or employment, unless and only to the extent that the court in which such action was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity and such expenses which the court shall deem proper.
  5. The determination required by Paragraph 2.2 shall be made by the Ball State University Board of Trustees unless one or more members of the Trustees are parties to such action, in which case the determination shall be made by independent legal counsel in a written opinion.
  6. Payment of Expenses. If the Ball State University Board of Trustees determines in connection with any action that any person ultimately may become entitled to indemnification under this Resolution, it may authorize the payment of reasonable costs and expenses which may include attorneys' fees, in connection with the defense or settlement of such action. Before any such costs or expenses are paid, the person in question shall enter into an agreement with the Ball State University Board of Trustees agreeing to repay such costs and expenses if he or she is ultimately determined not to be entitled to indemnification as authorized in this Resolution.
  7. Definitions. As used in this Resolution:

Through discussion with the academic administrator, it will be established whether external candidates might be considered. When external candidates might be considered, the faculty electorate as defined in Item 2 below will determine by a simple majority vote whether the position will be open only to candidates already holding positions within the unit or also to candidates external to the unit. Subsequent to that decision, the faculty electorate will determine, through discussion, the qualifications required and the term of appointment to be recommended. The term of appointment shall be no more than five (5) years, with an incumbent eligible for re-election if the unit so chooses.

A simple majority of the voting membership is required for a candidate to be recommended. Procedures for achieving a majority vote will be determined by the electorate in advance of the election.

The results of the election shall be announced immediately to the electorate in the affected unit. The name of the recommended Chairperson/Director shall be immediately forwarded to the appropriate academic administrator and communicated to the Provost and Vice President for Academic Affairs and the President of the University. The President will determine the appointment after receiving and reviewing the recommendations of the department, academic administrator, and Provost and Vice President for Academic Affairs.

2. The results of the evaluation shall be reported to the individual evaluated, the Provost and Vice President for Academic Affairs, and the President of the University.

#### **REVIEW OF AN ACADEMIC UNIT BY ITS OWN ORGANIZATION<sup>75</sup>**

If a department, center, institute, or other academic unit wishes, it may review its organization through initiation of a petition by one-third of the regular faculty or by the chairperson of the department concerned to the dean of the appropriate college. In any event, no fewer than three regular faculty members may call for a review. When such a review is requested, the dean of the college will then notify the department of the time of the review, which should be no earlier than the spring of the third year under the same leadership. The results of the review should be recorded by the dean of the college concerned who will then take such action as determined necessary and consistent with University policy on departmental reorganization. If such a review is called, a subsequent review may not be called for sooner than twelve months following it. In the case when the department chairperson's term is less than three years, the review of that chairperson will be in the autumn of the second year.

means a living individual about whom an investigator (whether an employee of the University or a student) conducting research obtains: data, either through intervention or interaction with the individual, or identifiable private information.

1.1 "Intervention": includes both physical procedures by which data are gathered and manipulations of the subject or the subject's environment that are performed for research purposes.

1.2 "Interaction": includes communication or interpersonal contact between investigator and subject.

1.3 "Private Information": includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public. Private information must be individually identifiable to an investigator through name or code in order for obtaining that information to constitute research involving human subjects.

#### **2. "Legally Authorized Representative":**

means an individual, judicial, or other body authorized under applicable law to consent on behalf of a prospective subject to the subject's participation in the procedures involved in the research.

#### **3. "Minimal Risk":**

means that the risks of harm anticipated in the proposed research are not greater, considering probability and magnitude, than those ordinarily encountered in daily life or during the performance of routine physical or psychological examinations or tests.

#### **4. "Research":**

means a systematic investigation designed to develop or contribute to generalizable knowledge.

5. "Research Involving Human Subjects Under the Auspices of the University": means for purposes of this policy, research involving human subjects shall be "under the auspices of the University" when:
  - 5.1 The research is funded externally by way of grant, contract, or similar agreement between the sponsor (public or private) and the University;
  - 5.2 The research is funded internally by the University by way of grant, contract, or similar agreement;
  - 5.3 The research is conducted upon assignment by the University; or
  - 5.4 The research is actively assisted by the use of University facilities, resources, supplies, equipment, or personnel.
  
6. "Consent to Participate in Research":
  - 6.1 General Requirement  
 Except as otherwise permitted by this policy (See Section IV- 4.3), no investigator may involve a human subject in research covered by this policy unless the investigator has obtained the informed consent of the subject or the subject's legally authorized representative. The prospective subject or representative must have sufficient opportunity to consider whether or not to participate and there must be a minimal possibility of coercion or undue influence. The information that is given to the subject or representative shall be in language understandable to the subject or representative. No consent, whether oral or written, may include any exculpatory language through which the subject or representative is made to waive or to appear to waive any of the subject's legal rights, or to release the investigator, the sponsor, the University, or its agents from liability for negligence.
  - 6.2 Elements of Consent
    - 6.21 Except as provided in Section III-6.4 of this policy and in the Federal Regulations 45 CFR 46.116, the following basic elements of information shall be provided to the subject:
      - 6.211 A statement that the study involves research, a fair explanation of the purposes of the research and the expected duration of the subject's participation, a description of the procedures to be followed and identification of any procedures which are experimental;
      - 6.212 A description of any reasonably foreseeable discomforts and risks to the subject;
      - 6.213 A description of any benefits to the subjects or to others which reasonably may be expected as a result of doing the study;
      - 6.214 A disclosure of any appropriate alternative procedures or course of treatment which might be advantageous for the subject;
      - 6.215 A statement describing the extent to which confidentiality of records identifying the subject will be maintained;
      - 6.216 For research involving more than minimal risk, an explanation as to whether any compensation and/or any medical treatments are available if injury occurs, and if so, what they consist of, or where further information may be obtained. This information must be in the exact wording approved in advance by the Provost and Vice President for Academic Affairs, or his or her designee;
      - 6.217 An explanation of whom to contact for answers to pertinent questions about the research, procedures and research subject's rights, and whom to contact in the event of a research-related injury; and
      - 6.218 A statement that participation is voluntary and that the subject is free to withdraw his or her consent and to discontinue participation in the project at any time without penalty or loss of benefits.
    - 6.22 When determined to be appropriate by the investigator or the Institutional Review Board, one or more of the following optional elements of information shall also be provided to the subject:
      - 6.221 A statement that the particular treatment or procedure may involve risks to the subject (or to the embryo or fetus, if the subject is or may become pregnant) which are currently unforeseeable;
      - 6.222 Anticipated circumstances under which the subject's participation may be terminated by the investigator without regard to the subject's consent:

- 6.223 Any additional costs to the subject that may result from participation in the research;
- 6.224 The consequences of a subject's decision to withdraw from the research, and procedures for orderly termination of participation by the subject;
- 6.225 A statement that the researcher will communicate to the subject significant new findings developed during the course of research which may affect the subject's willingness to continue participation; and
- 6.226 The approximate number of subjects involved in the study.

### 6.3 Documentation of Informed Consent

Except as provided below, consent shall be documented by use of a written consent form approved by the Institutional Review Board and conforming to the then current requirements of the United States Department of Health and Human Services. The consent form shall be signed by the subject or the subject's legally authorized representative and a copy shall be given to the person signing the form.

Since the original document is a University record, it is to be kept in a secure department or unit file. Copies of the proposed consent form shall accompany the protocol submitted by the investigator to the Institutional Review Board.

The principal investigator must be properly identified with a signature and the consent form must include the investigator's name, affiliation with the University and with a department or unit of Ball State University.

Except as provided below, the consent form may be either of the following as determined by the Institutional Review Board:

- 6.31 A written consent document that embodies the elements of informed consent in accordance with the provisions of Section III-6. This document may be read to the subject or his or her legally authorized representative, but in any event, the investigator shall give either the subject or his or her representative adequate opportunity to read it before it is signed. This document shall be signed by the subject or his or her legally authorized representative; or
- 6.32 A "short form" written consent document stating that the elements of informed consent have been presented orally to the subject or the subject's legally authorized representative. When this method is used, there shall be a witness to the oral presentation. Also, the Institutional Review Board shall approve a written summary of what is to be said to the subject or the representative. Only the short form itself is to be signed by the subject or the representative. However, the witness shall sign both the short form and a copy of the summary, and the person actually obtaining consent shall sign a copy of the summary. Copies of the summary and short form shall be given to the subject or the representative.

### 6.4 Waiver or Alteration of Consent Elements: Waiver of Consent

The Institutional Review Board may approve a consent procedure which waives or alters some or all of the above elements of consent provided the Institutional Review Board finds and documents any of the following:

- 6.41 The research is to be conducted for the purpose of demonstrating or evaluating:
  - 6.411 Federal, state, or local benefit or service programs which are not themselves research programs;
  - 6.412 Procedures for obtaining benefits or services under these programs; or
  - 6.413 Possible changes in or alternatives to these programs or procedures;
 and, the research could not practicably be carried out without the waiver or alteration;
- 6.42 The only record linking the subject and the research would be the consent document and the principal risk would be the potential harm resulting from a breach of confidentiality. Each subject

- shall be asked whether he or she wants documentation linking himself or herself with the research and the subject's wishes will govern; or
- 6.43 The research involves no more than minimal risk to the subjects; involves no procedures for which written consent is normally required outside the research context; the waiver or alteration will not adversely affect the rights and welfare of the subjects; the research could not practicably be carried out without waiver or alteration and, wherever appropriate, the subjects will be provided with additional pertinent information after participation.

When, for purposes of meeting the objectives of research, any degree of deception of subjects exists, the Institutional Review Board will ensure that all subjects shall have the right to withdraw their data after debriefing.

#### **IV Institutional Review Board**

1. General  
The Institutional Review Board is responsible for the review and approval or modifications for approval or disapproval of all research subject to this policy. In applying for approval of their projects, investigators' written protocols must be presented to the Institutional Review Board; the format for the protocols will be supplied by the Institutional Review Board.

2. Membership  
The Institutional Review Board shall be composed of eleven individuals, including eight faculty or professional personnel members, one student, an ex-officio member with voting privileges, and one member who is not otherwise affiliated with the University and who is not part of the immediate family of a person affiliated with the University. The Institutional Review Board shall include at least one member whose primary concerns are in a non-scientific area.

Members shall have varying backgrounds to promote complete and adequate review of research activities commonly conducted under the auspices of the University. The Institutional Review Board shall be sufficiently qualified through the experience and expertise of its members and the diversity of the members' backgrounds (including consideration of their sex, race, culture, and sensitivity to such issues as community attitudes) to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review specific research activities, the Institutional Review Board shall be able to ascertain the acceptability of proposed research in terms of University commitments and regulations, applicable law and standards of professional conduct and practice. The Institutional Review Board shall, therefore, include persons knowledgeable in these areas.

All members will be appointed by the President of the University for terms of no more than three (3) years. Membership of the Institutional Review Board shall be staggered so that the terms of no more than four members will expire in any given year. Except for the ex-officio member, members may be reappointed for no more than one additional consecutive term. In addition, the President will appoint one or more alternate members whose primary concerns are in a non-science area.

No member who has a conflicting interest in particular research may participate in the Institutional Review Board's initial or continuing review of that research except to provide information requested by the Institutional Review Board.

The Institutional Review Board, at its discretion, may invite individuals with competence in special areas to assist in the review of complex issues which require expertise beyond, or in addition to that available on the Institutional Review Board. These individuals may not vote with the Institutional Review Board. If the individual is not an employee of the University, such an invitation may be extended only with the approval of the Provost and Vice President for Academic Affairs, or his or her designee.

- 2.1 Procedures for Appointment of Board Members  
The procedures for the selection, nomination, and appointment of members shall be:
- 2.11 The Institutional Review Board members will recommend one or more potential nominee(s) for each vacancy. These names will be forwarded in writing by the Chairperson to the Assistant Vice President for Research in

the Office of Academic Research and Sponsored Programs no later than February 15;

2.12 The Assistant Vice President for Research in the Office of Academic Research and Sponsored Programs will forward his or her recommendations to the President of the University for appointment no later than March 15.

2.2 **Officers of the Institutional Review Board and Elections**

2.21 The officers of the Institutional Review Board shall consist of a Chairperson and a Secretary.

2.22 Members of the Institutional Review Board will elect a Chairperson and Secretary no later than April 15 of the year preceding the beginning of their term (July 1 to June 30).

3. **Responsibilities and Functions of the Institutional Review Board**

3.1 The Institutional Review Board shall develop and follow written procedures for:

3.11 Conducting its initial and continuing review of research and for reporting its findings and actions to the investigator and the University;

3.12 Determining which projects require review more often than annually and which projects need verification, from sources other than the investigators, that no material changes have occurred since previous Institutional Review Board review;

3.13 Assuring prompt reporting to the Institutional Review Board of proposed changes in research activity;

3.14 Assuring that changes in proposed research, during the period for which approval has been given, may not be initiated without Institutional Review Board review and approval except where necessary to eliminate apparent immediate hazards to the subjects;

3.15 Assuring prompt reporting to the Institutional Review Board of unanticipated problems involving risks to subjects or others; and

3.16 Assuring compliance with then current protections for vulnerable categories of subjects (e.g., Children, 45 CFR, Part 46, Subpart D).

Functions of the Institutional Review Board

3.21 Be responsible for the Full, Expedited, or Exempt Review (See Section IV-4) of proposed research protocols, involving human subjects, according to this policy. In order for the research protocol to be approved, it shall receive the approval of a majority of those members reviewing the protocol.

3.22 Review and have authority to approve, require modifications in, or disapprove all research covered by this policy.

3.23 Require that information given to subjects as part of consent is in accordance with this policy and applicable law. The Institutional Review Board may require that information, in addition to that specifically mentioned in Section III-6 of this policy, be given to subjects when in the Institutional Review Board's judgment the information would meaningfully add to the protection of the rights and welfare of the subject.

3.24 Require documentation of informed consent or waive documentation in accordance with this policy.

3.25 Notify investigators and the Provost and Vice President for Academic Affairs, or his or her designee, in writing of its decision to approve or disapprove the proposed research, or of modifications required to secure Institutional Review Board approval. If the Institutional Review Board decides to disapprove a research activity, it shall include in its written notification a statement of the reasons for its decision and give the investigator an opportunity to respond in person or in writing.

3.26 Be responsible for reporting to the Provost and Vice President for Academic Affairs, or his or her designee, and to any appropriate government agency, any serious or continuing non-compliance by investigators with the requirements and determinations of the Institutional Review Board.

3.27 Conduct continuing review of research covered by this policy at intervals appropriate to the degree of risk, but not less than once per year, and shall have authority to observe or have a third party observe the consent process and the research.

4. **Types of Research Reviews by the Institutional Review Board**

There are three types of review of proposed research protocols which investigators can submit to the Institutional Review Board: 1) Full Review which requires review by the

Institutional Review Board at a convened meeting, 2) Expedited Review where the review is conducted by a Subcommittee of the Institutional Review Board, and 3) Exempt Review where the investigator submits a modified protocol under the exempt category which is then treated as an expedited review.

4.1 Full Review

Any member of the Institutional Review Board may request a Full Review of a research protocol. The review must be conducted by a majority of the members present at a convened meeting. Research protocols or activities may be disapproved only after a Full Review.

4.2 Expedited Review

The Institutional Review Board, with the approval of the Provost and Vice President for Academic Affairs, or his or her designee, may permit expedited review for:

- 4.21 Some or all of the categories of research then currently established by federal regulations as being eligible for an expedited review procedure if the research involves no more than minimal risk (e.g., 45 CFR 46, Subpart A 46.110);
- 4.22 Minor changes in previously approved research during the period for which approval is authorized; or
- 4.23 Determination of whether research involving human subjects is exempt from this policy.

Under the Expedited Review procedure, the review may be carried out by the Institutional Review Board Chairperson, Secretary, ex officio, and a rotating regular member(s) who will comprise a Subcommittee of the Institutional Review Board. The reviewer(s) of the Subcommittee may exercise all of the authorities of the Institutional Review Board except they may not disapprove the research.

The Institutional Review Board shall adopt a method for keeping all members advised of research protocols which are pending, have been approved, or determined to be exempt under this expedited procedure.

4.3 Exempt Review

An investigator may submit a research protocol to the Institutional Review Board for Exempt Review if the research involving human subjects will be in one or more of the following exempt categories:

- 4.31 Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as
  - 4.311 Research on regular and special education instructional strategies, or
  - 4.312 Research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.
- 4.32 Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless:
  - 4.321 Information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and
  - 4.322 Any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation.
- 4.33 Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures, or observation of public behavior that is not exempt under paragraph 4.32 of this section, if:
  - 4.331 The human subjects are elected or appointed public officials or candidates for public office; or
  - 4.332 Federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.
- 4.34 Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in such a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

- 4.35 Research and demonstration projects which are conducted by or subject to the approval of Department or Agency heads, and which are designed to study, evaluate, or otherwise examine:
  - 4.351 Public benefit or service programs;
  - 4.352 Procedures for obtaining benefits or services under those programs;
  - 4.353 Possible changes in or alternatives to those programs or procedures; or
  - 4.354 Possible changes in methods or levels of payment for benefits or services under those programs.
- 4.36 Taste and food quality evaluation and consumer acceptance studies:
  - 4.361 If wholesome foods without additives are consumed; or
  - 4.362 If a food is consumed that contains a food ingredient at or below the level and for use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.
- 4.37 Any other category specifically added to this list by the Department of Health and Human Services and published in the Federal Register.

Except as may be provided by law (e.g., research funded by the United States Department of Health and Human Services), the Institutional Review Board has final authority to determine whether particular research is subject to this policy or exempt under one of the categories stated above. An investigator who believes his or her research is exempt under one of the stated categories shall submit his or her written protocol to the Institutional Review Board together with a statement that he or she believes it to be exempt and the reasons for his or her belief; the format of the protocol will be supplied by the Institutional Review Board. The determination of exempt status shall be made by means of the expedited review set forth in Section IV-4.2 of this policy.

#### 5. Criteria for Approval of Research

In order to approve research covered by this policy, the Institutional Review Board shall determine that all of the following requirements are satisfied:

- 5.1 Risks to subjects are minimized: 1) by using procedures which have sound research design and which do not unnecessarily expose subjects to risk, and 2) whenever appropriate, by using procedures already being performed on the subjects for diagnostic or treatment purposes;
- 5.2 Risks to subjects are reasonable in relation to anticipated benefits (e.g., importance of the knowledge that may result);
- 5.3 Selection of subjects is equitable. In making this assessment the Institutional Review Board should take into account the purposes of the research and the setting in which the research will be conducted;
- 5.4 Informed consent will be sought from each prospective subject or the subject's legally authorized representative, in accordance with, and to the extent required by this policy;
- 5.5 Informed consent will be appropriately documented, in accordance with, and to the extent required by this policy;
- 5.6 Where appropriate, the research plan makes adequate provision of monitoring the data collected to insure the safety of subjects;
- 5.7 Where appropriate, there are adequate provisions to protect the privacy of subjects and to maintain the confidentiality of data;
- 5.8 Where some or all of the subjects are likely to be vulnerable to coercion or undue influence, such as persons with acute or severe physical or mental illness, or persons who are economically or educationally disadvantaged, appropriate additional safeguards have been included in the study to protect the rights and welfare of these subjects;
- 5.9 If the research involves the fetus, pregnant women, in vitro fertilization, abortoses, prisoners or other special classes of subjects which may be in the future identified by federal regulations, the Institutional Review Board's review shall be in accordance with any such regulations and shall determine that the requirements of any such regulations have been met (e.g., 45 CFR 46 Subpart D, Additional Protections for Children as Subjects in Research).

6. Suspension or Termination of Approval  
The Institutional Review Board shall have authority to suspend or terminate approval of research that is not being conducted in accordance with the Institutional Review Board's requirements or that has been associated with unexpected, serious harm to subjects. Any suspension or termination of approval shall include a statement of the reasons for the Institutional Review Board's action and shall be reported promptly to the investigator, the Provost and Vice President for Academic Affairs, or his or her designee, and if the research is externally funded, to the sponsor.
7. The Institutional Review Board shall prepare and maintain documentation of its activities, including the following:
  - 7.1 Copies of all research protocols reviewed, scientific evaluations, if any, that accompany the protocols, approved sample consent documents, progress reports submitted by investigators, and reports of injuries to subjects;
  - 7.2 Minutes of Institutional Review Board meetings which shall be in sufficient detail to show attendance at the meetings; actions taken by the Institutional Review Board; the vote on these actions including the number of members voting for, against, and abstaining; the basis for requiring changes in or disapproving research; and a written summary of the discussion of controverted issues and their resolution;
  - 7.3 Records of continuing review activities;
  - 7.4 Copies of all correspondence between the Institutional Review Board and the investigators;
  - 7.5 A list of Institutional Review Board members as required by the United States Department of Health and Human Services;
  - 7.6 Written procedures for the Institutional Review Board as required by paragraph IV-3.1 of this policy;
  - 7.7 Statements of significant new findings provided to subjects, as required by Section III-6 of this policy.

The records required by this policy shall be retained in the Office of Academic Research and Sponsored Programs for at least six years after completion of the research.

8. Role of University Officials  
Institutional Review Board approvals, actions, and recommendations are subject to review and to disapproval or further restrictions by the Provost and Vice President for Academic Affairs, or his or her designee. Such disapprovals or further restrictions shall then be returned to the Institutional Review Board for consultation among the Institutional Review Board, the investigator and the Provost and Vice President for Academic Affairs, or his or her designee. However, Institutional Review Board disapprovals, restrictions or conditions cannot be rescinded or removed except by further action of the Institutional Review Board, or in the case of federally funded research, by appeal to the Department of Health and Human Services or other federal agency with appropriate jurisdiction.

**V Cooperative Research** In the event of research in which the University and another institution(s) or party cooperate in the conduct of some or all of the research, the investigator shall comply with this policy. To avoid duplications of effort, the Institutional Review Board with the concurrence of the Provost and Vice President for Academic Affairs, or his or her designee, may use joint review, or reliance upon the review of another qualified Institutional Review Board.

**VI Interpretation** The provisions of the policy shall be interpreted in all respects to be consistent with the provisions of any law applicable to the research involved; in the event there should be any conflict or difference between this policy and the provisions of applicable law, the provisions of the applicable law shall control.

Because the provisions of this policy establish a high quality and standard of review for research involving human subjects, no provision of the policy shall be interpreted as establishing a minimum standard for safety, protection or due care which legally may be owed by an investigator, a member of the Institutional Review Board, the University or any University employee or agent, to a human subject.

Nothing in this policy prevents prior review by any subunit of the University of research proposals originating within that subunit, or proposing research to be conducted within that

subunit. If approved by the subunit, such proposals must be forwarded to the Institutional Review Board for review. However, as provided in the last paragraph of Section IV-4.3 of this policy, the Institutional Review Board has final authority to determine whether particular research is subject to this policy and to approve, require modifications for approval or disapprove it.

## **POLICY FOR ANIMAL CARE AND USE<sup>81</sup>**

### **I Introduction**

1. The assurance of humane treatment and care for experimental animals is a professional and ethical responsibility recognized by the scientific community at Ball State University. Guidelines adopted by many scientific societies and institutions and applicable federal, state, and local laws, regulations, and policies reflect this commitment to the humane care and use of animals involved in research and experimentation.
2. To provide for the welfare of laboratory animals, as well as to improve the quality of such animals, comfortable and satisfactory animal housing must be provided. As stated by the National Research Council, "a good husbandry program provides a system of housing and care that permits animals to grow, mature, reproduce, and maintain good health."
3. Both the University and the individual investigator must bear responsibility for the humane treatment and care of animals. The need exists for flexibility and variety in the nature of the facilities provided for animals and the implementation of animal care programs. Although the necessary scientific control of particular experiments may justify modification of the recommendations made by a given agency, suitable animal-husbandry practices are requisite for obtaining useful data from research. This policy is in no way intended to limit the investigator's obligation and freedom to plan and conduct animal experiments in accordance with accepted humane and scientific practices.
5. The animal care and use policy at Ball State University shall be consistent with the Guide for the Care and Use of Laboratory Animals, U.S. Department of Health and Human Services, Public Health Service, National Institutes of Health, Public Health Service Policy on Humane Care and Use of Laboratory Animals (revised September 1986), and other applicable federal, state, and local laws, regulations, and policies. The Office of Academic Research and Sponsored Programs at Ball State University will provide a copy of the NIH Guide for the Care and Use of Laboratory Animals and all other appropriate documents to all animal users.

### **II Applicability**

This policy is applicable to all activities involving animals at Ball State University. For purposes of this policy, "animal" shall mean "any live, warm or cold blooded, vertebrate animal used or intended for use in education, research, research training, experimentation, or biological testing, or for related purposes."

### **III The Animal Care and Use Committee**

1. Purpose

- 4.6 Review and approve, require modifications in (to secure approval), or withhold approval of experimental protocols for the care and use of animals for research and teaching;
- 4.7 Review and approve, require modifications in (to secure approval), or withhold approval of proposed significant changes regarding the use of animals in ongoing activities;
- 4.8 Be authorized to suspend an activity involving animals if it determines that the activity is not being conducted in accordance with applicable provisions of the Animal Welfare Act, the NIH Guide for the Care and Use of Laboratory Animals, or other applicable federal, state, and local laws, regulations, and policies.

5. Recordkeeping

- 5.1 The Committee shall prepare and maintain minutes of its meetings, including records of attendance, activities of the Committee, and Committee deliberations.

# POLICY FOR RESEARCH INVOLVING RECOMBINANT DNA MOLECULES AND RESEARCH INVOLVING INFECTIOUS MATERIALS<sup>82</sup>

## I Introduction

Ball State University, recognizing its responsibility to provide effective biological safety programs, requires that all research projects involving recombinant DNA molecules or organisms/viruses containing recombinant DNA molecules will be reviewed by the Institutional Biosafety Committee. This review will be completed prior to the initiation of the research. The University also requires that researchers file, with the Institutional Biosafety Committee, information about all infectious materials to be used in research projects, prior to initiating such research. Herein, reference to “research” includes procedures performed in laboratory classes, as well as in research labs, and the term “investigators” includes course directors for such laboratory classes, as well as researchers.

## II Policy

### 1. Rationale

- 1.1 The Institutional Biosafety Committee shall assume its responsibility for meeting the conditions required by the NIH Guidelines for Research Involving Recombinant DNA Molecules published in the Federal Register, Vol. 51, No. 88, Wednesday, May 7, 1986, or subsequent guidelines which may supersede earlier versions. The Institutional Biosafety Committee will also assume its responsibility for other biosafety concerns by making recommendations to investigators regarding appropriate safety practices as outlined in Biosafety in Microbiological and Biomedical Laboratories, current edition, U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control, Atlanta, GA 30333, and National Institutes of Health, Bethesda, MD 20892. The directives presented in this policy document are in part based on the NIH Guidelines for Research Involving Recombinant DNA Molecules. A copy of these directives shall be provided to all investigators performing research involving either recombinant DNA or infectious materials and may be obtained from the Office of Academic Research and Sponsored Programs.
- 1.2 University policy entrusts the investigator with primary responsibility for the protection of individuals using recombinant DNA technology and/or working with infectious materials.
- 1.3 Investigators applying for grants involving recombinant DNA research subject to NIH Guidelines for Research Involving Recombinant DNA Molecules will be required to submit an abstract of the proposed research to the Institutional Biosafety Committee and to complete a form which will provide information for review and approval of the recombinant DNA aspects of the proposal. Prior to application to the Institutional Biosafety Committee for research approval, the investigator should consult the regulations for recombinant DNA research which are specified in the NIH Guidelines for Research Involving Recombinant DNA Molecules and/or determine the biosafety level from the Biosafety in Microbiological and Biomedical Laboratories (both are available at the Office of Academic Research and Sponsored Programs).
- 1.4 Investigators anticipating use of any infectious agent or materials will be required to complete and submit to the Institutional Biosafety Committee a registration form for each infectious agent, or closely related group of agents. In anticipation of working with a particular infectious material, the investigator should consult the Biosafety in Microbiological and Biomedical Laboratories to determine the biosafety level and recommended practices. If the investigator intends to significantly alter or modify the way a previous registered infectious agent is used, a new registration form should be completed and submitted.
- 1.5 These policies, the NIH Guidelines for Research Involving Recombinant DNA Molecules, and the Biosafety in Microbiological and Biomedical Laboratories are intended to help the Institutional Biosafety Committee and the Principal Investigator determine the safeguards that should be implemented. Therefore, it is the responsibility of the institution and those associated with it to adhere to the intent of the guidelines in both of these documents, as well as to their specifics.
- 1.6 In assuming its responsibility, the Institutional Biosafety Committee and the University intends to encourage the conduct of biological research while protecting the rights and welfare of those participating in the research, the University, and the community. University faculty, staff, and students conducting research involving recombinant DNA or infectious materials under this policy are responsible for compliance with all federal regulations.

2. Administration
    - 2.1 Executive functions to be performed by the University include the development of policy; the continuing education of personnel with respect to policy; the modification of the policy to maintain its conformity with laws and regulations; and the provision for appropriate administrative support and legal assistance for the Institutional Biosafety Committee. The University official responsible for carrying out or delegating these functions is the Provost and Vice President for Academic Affairs.
  3. Applicability
    - 3.1 This policy is applicable to all research involving recombinant DNA molecules or organisms/viruses containing DNA, and to all research involving any infectious material, which is conducted under the auspices of the University.
- III Definitions of Terms and Phrases**
1. "Recombinant DNA" or recombinant DNA molecules means either (i) molecules which are constructed outside living cells by joining natural or synthetic DNA segments to DNA molecules that can replicate in a living cell, or (ii) DNA molecules which result from the replication of a molecule described in (i) above. If the joined or synthetic DNA is not expressed *in vivo* as a biologically active polynucleotide or polypeptide product, it is exempt from the guidelines.
  2. "Research involving recombinant DNA technology and/or infectious material under the auspices of the University" means for the purposes of this policy, research involving recombinant DNA molecules, recombinant organisms/viruses, or infectious materials shall be "under the auspices of the University" when
    - 2.1 The research is funded externally by way of a grant, contract, or similar agreement between the sponsor (public or private) and the University;
    - 2.2 The research is funded internally by the University by way of a grant, contract, or similar agreement;
    - 2.3 The research is conducted upon assignment by the University; or
    - 2.4 The research is actively assisted by the use of University facilities, resources, supplies, equipment, or personnel.
- IV Biosafety Levels and Containment**
1. Effective biological safety programs rely upon mechanisms that can be divided into categories: (i) a set of standard practices that are generally used in microbiological laboratories, and (ii) special procedures, equipment, and laboratory installations and/or animal facilities that will provide physical barriers which are applied in varying degrees according to the estimated biohazard.
  2. Experiments on recombinant DNAs also require the application of specific biological barriers which limit either (i) the infectivity of a vector or vehicle (plasmid or virus) for specific hosts or (ii) its dissemination and survival in the environment. The vectors that provide the means for replication of the recombinant DNAs and/or the host cells in which they replicate can be genetically designed to decrease by many orders of magnitude the probability of dissemination of recombinant DNAs outside the laboratory.
  3. There are four biosafety levels which consist of combinations of laboratory practices and techniques, safety equipment, and laboratory facilities appropriate for the operations performed and the hazard posed by agents and for the laboratory function and activity. The four biosafety levels (BL1-4) are described in detail in the Biosafety in Microbiological and Biomedical Laboratories.
- V Institutional Biosafety Committee**
1. Membership
    - 1.1 A roster of the members of the Institutional Biosafety Committee, who are appointed by the University president, including the names, addresses, occupations, qualifications, and curriculum vitae of the chairperson and members of the committee, shall be submitted to the National Institutes of Health Office of Biotechnology Activities. The Office of Biotechnology Activities will review the membership of the Institutional Biosafety Committee and, where it finds the Institutional Biosafety Committee in compliance with the requirements set forth in the current NIH Guidelines for Research Involving Recombinant DNA Molecules, will give its approval to the Institutional Biosafety Committee membership. Updated roster information will be submitted to the Office of Biotechnology Activities annually, and if interim changes in the membership of

the Institutional Biosafety Committee occur, a revised roster will be submitted to the Office of Biotechnology Activities promptly.

- 1.2 The Institutional Biosafety Committee shall comprise no fewer than five members so selected that they collectively have experience and expertise in recombinant DNA technology and microbiology, and the capability to assess the safety of recombinant DNA research experiments and work with infectious agents and any potential risk to the public health or environment. At least two members shall not be affiliated with the institution and shall represent the interest of the surrounding community with respect to health and protection of the environment.
  - 1.3 The term of appointment for each member shall be for three years and all members and officers shall be eligible for re-election and re-appointment. Beginning July 1, 1992, terms of members will be staggered.
  - 1.4 The responsibilities of the Institutional Biosafety Committee are covered in detail in the NIH Guidelines for Research Involving Recombinant DNA Molecules in Section IV-B.
2. Responsibilities and functions of the Institutional Biosafety Committee
    - 2.1 General
      - 2.11 The Institutional Biosafety Committee shall develop and follow written procedures for reviewing recombinant DNA and infectious materials research.       - 2.23 Assuring prompt reporting to the Institutional Biosafety Committee of proposed changes in research activity;
      - 2.24 Assuring that changes in proposed research, during the period for which approval has been given, may not be initiated without Institutional Biosafety Committee review and approval;
      - 2.25 Assuring prompt reporting to the Institutional Biosafety Committee of unanticipated problems involving risks;
      - 2.26 Assuring compliance with the NIH Guidelines for Research Involving Recombinant DNA Molecules.
  3. For reviewing research using infectious materials, the Institutional Biosafety Committee will develop and follow written procedures for
    - 3.1 Conducting review of information provided by the investigator about each infectious agent or material to be used and making necessary recommendations to the investigator regarding biosafety practices;
    - 3.2 Assuring prompt reporting to the Institutional Biosafety Committee when new infectious agents will be used in research;
    - 3.3 Assuring adequate application of biosafety principles in work involving infectious agents.
  4. For research involving recombinant DNA, the Institutional Biosafety Committee shall
    - 4.1 Be responsible for the review of proposed research protocols involving recombinant DNA technology according to this policy at convened meetings. In order for the research protocol to be approved, it shall receive the approval of a majority of those members present;
    - 4.2 Review and have authority to approve/require modifications in all research covered by this policy;
    - 4.3 Be responsible for reporting to the Provost and Vice President for Academic Affairs, or his or her designee, and to any appropriate government agency, any serious or continuing non-compliance by investigators with the requirements and determinations of the Institutional Biosafety Committee;
  5. For research involving infectious agents the Institutional Biosafety Committee shall
    - 5.1 Be responsible for gathering information about the use of infectious materials in research and reviewing the agents which will be used;
    - 5.2 Give the investigator recommendations for further measures which the committee

determines will be necessary to ensure safety in work with the particular infectious agent.

## **VI Responsibilities of the Principal Investigator**

1. On behalf of the University, the Principal Investigator conducting recombinant DNA research shall be responsible for complying fully with Institutional Biosafety Committee policies and NIH Guidelines for Research Involving Recombinant DNA Molecules by
  - 1.1 Seeking prior approval by the Institutional Biosafety Committee before initiating or modifying recombinant DNA research. The research project must be reviewed at least every three years;
  - 1.2 Determining which biosafety level is required by the research and ascertain that the experiments are covered by the NIH Guidelines for Research Involving Recombinant DNA Molecules. Determination of biosafety level classification of research microorganisms on the basis of hazard is described in Appendix B of the NIH Guidelines for Research Involving Recombinant DNA Molecules. The Principal Investigator will provide the Institutional Biosafety Committee with this information;
  - 1.3 Reporting within 30 days to the Institutional Biosafety Committee and the National Institutes of Health Office of Biotechnology Activities all significant problems with and violations of the NIH Guidelines for Research Involving Recombinant DNA Molecules and all significant research-related accidents and illnesses;
  - 1.4 Being adequately trained in good microbiological techniques. Standard practices of training and physical containment as described in Appendices G (Physical Containment) and I (Biological Containment) of the NIH Guidelines for Research Involving Recombinant DNA Molecules must be adhered to;
  - 1.5 Adhering to Institutional Biosafety Committee approved emergency plans for dealing with accidental spills and personnel contamination;
  - 1.6 Complying with shipping requirements for recombinant DNA molecules. Information on packaging and labeling of etiologic agents is covered in detail in the NIH Guidelines for Research Involving Recombinant DNA Molecules.
  - 1.7 Providing the Institutional Biosafety Committee the title of the project, the proposed beginning and ending dates, and the funding sources.
2. On behalf of the University, the Principal Investigator conducting research with infectious materials shall be responsible for
  - 2.1 Informing the Institutional Biosafety Committee of each infectious agent or material that will be used in any of his or her research;
  - 2.2 Determination of which biosafety level is appropriate for working with the infectious agent or material, according to the Biosafety in Microbiological and Biomedical Laboratories;
  - 2.3 Ensuring that laboratory and animal facilities are adequate for appropriate containment practices;
  - 2.4 Notifying all personnel involved in the work of the level of biohazard and training them in appropriate biosafety practices;
  - 2.5 Adherence to recommended biosafety standards and shipping regulations described in the Biosafety in Microbiological and Biomedical Laboratories.

## **VII Types of Review by the Institutional Biosafety Committee**

1. Review of Research Involving Recombinant DNA
  - 1.1 Full Review
    - 1.11 Full Review requires review by the Institutional Biosafety Committee membership, and approval of a protocol requires a simple majority vote of the Institutional Biosafety Committee membership by signature or at a convened meeting. Any member of the Institutional Biosafety Committee may request a Full Review of a research protocol at a convened meeting. Research protocols or activities may be disapproved only after a Full Review.
  - 1.2 Expedited Review
    - 1.21 Expedited Review is conducted by a Subcommittee of the Institutional Biosafety Committee at a convened meeting if the investigator submits a modified protocol, with minor changes in previously approved research during the period for which approval is authorized. Under the Expedited Review procedure, the review may be carried out by the Institutional Biosafety Committee chairperson, the ex officio, and a rotating regular member who will comprise the Subcommittee of the Institutional Biosafety Committee. The reviewers of the Subcommittee may exercise all of the authorities of the Institutional Biosafety Committee, except they

may not disapprove the research or approve an entirely new research project.

2. Review of Research Involving Infectious Materials
  - 2.1 Review of research using infectious agents or materials will be conducted by the Institutional Biosafety Committee membership, allowing each member input for recommendations to be forwarded to the investigator with an authorized signature. These recommendations will be based on the biosafety practices as described in the Biosafety in Microbiological and Biomedical Laboratories.

**VIII Suspension or Termination of Approval for Recombinant DNA Projects**

The Institutional Biosafety Committee shall have authority to suspend or terminate approval of research that is not being conducted in accordance with the Institutional Biosafety Committee's requirements or that has been associated with unexpected risk to the investigators, the University, or the community. Any suspension or termination of approval shall include a statement of the reasons for the Institutional Biosafety Committee's action and shall be reported promptly to the investigator, the Provost and the Vice President for Academic Affairs, and if the research is externally funded, to the sponsor.

**IX Documentation of Institutional Biosafety Committee Activities**

1. The Institutional Biosafety Committee, in cooperation with the Office of Academic Research and Sponsored Programs, shall prepare and maintain documentation of its activities, including the following:
  - 1.1 Copies of all completed forms and research protocols reviewed, scientific evaluations that accompany the protocols, any documents submitted by the investigators, and reports of research related accidents/spills/contamination;
  - 1.2 Minutes of Institutional Biosafety Committee meetings which shall be in sufficient detail to show attendance at meetings, actions taken by the Institutional Biosafety Committee, the vote on actions, the basis for requiring changes in or disapproving research, and a summary of the discussion of controverted issues and their resolution;
  - 1.3 Records of continuing review activities;
  - 1.4 Copies of all correspondence between the Institutional Biosafety Committee and the investigators;
  - 1.5 A list of Institutional Biosafety Committee members as required by the NIH Guidelines for Research Involving Recombinant DNA Molecules.
2. The records required by this policy shall be retained in the Office of Academic Research and Sponsored Programs for at least five years after completion of the research.

**X Cooperative Research**

In the event of research in which the University and another institution(s) or party cooperate in the conduct of some or all of the research, the investigator shall comply with this policy. To avoid duplications of effort, the Institutional Biosafety Committee with the concurrence of the Provost and Vice President for Academic Affairs may use joint review or reliance upon the review of another qualified Institutional Biosafety Committee.

**ON PREVENTING CONFLICTS OF INTEREST IN GOVERNMENT-SPONSORED RESEARCH AT UNIVERSITIES<sup>83</sup>**

A Joint Statement of the Council of the American Association of University Professors and the American Council on Education

The increasingly necessary and complex relationships among universities, Government, and industry call for more intensive attention to standards of procedure and conduct in Government-sponsored research. The clarification and application of such standards must be designed to serve the purposes and needs of the projects and the public interest involved in them and to protect the integrity of the cooperating institutions as agencies of higher education.

The Government and institutions of higher education, as the contracting parties, have an obligation to see that adequate standards and procedures are developed and applied; to inform one another of their respective requirements; and to assure that all individuals

participating in their respective behalfs are informed of and apply the standards and procedures so developed.

1. Favoring of outside interests. When a University staff member (administrator, faculty member, professional personnel member, or employee) undertaking or engaging in Government-sponsored work has a significant financial interest in, or a consulting arrangement with, a private business concern, it is important to avoid actual or apparent conflicts of interest between the Government-sponsored University research obligations and outside interests and other obligations. Situations in or from which conflicts of interest may arise are the
  - 1.1 Undertaking or orientation of the staff member's University research to serve the research or other needs of the private firm without disclosure of such undertaking or orientation to the University and to the sponsoring agency;
  - 1.2 Purchase of major equipment, instruments, materials, or other items for University research from the private firm in which the staff member has the interest without disclosure of such interest;
  - 1.3 Transmission to the private firm or other use for personal gain of Government-sponsored work products, results, materials, records, or information that are not made generally available (This would not necessarily preclude appropriate licensing arrangements for invention, or consulting on the basis of Government-sponsored research results where there is significant additional work by the staff member independent of the Government-sponsored research.);
  - 1.4 Use for personal gain or other unauthorized use of privileged information acquired in connection with the staff member's Government-sponsored activities (The term "privileged information" includes, but is not limited to medical, personnel, or security records of individuals; anticipated material requirements or price actions; possible new sites for Government operations; and knowledge of forthcoming programs or of selection of contractors or subcontractors in advance of official announcements.);
  - 1.5 Negotiation or influence upon the negotiation of contracts relating to the staff member's Government-sponsored research between the University and private organizations with which there are consulting or other significant relationships;
  - 1.6 Acceptance of gratuities or special favors from private organizations with which the University does or may conduct business in connection with a Government-sponsored research project, or extension of gratuities or special favors to employees of the sponsoring Government agency, under circumstances which might reasonably be interpreted as an attempt to influence the recipients in the conduct of their duties.
2. Distribution of effort. There are competing demands on the energies of a faculty member (for example, research, teaching, committee work, outside consulting). The way in which effort is divided among these various functions does not raise ethical questions unless the Government agency supporting the research is misled in its understanding of the amount of intellectual effort being devoted to the research in question. A system of precise time accounting is incompatible with the inherent character of the work of a faculty member, since the various functions performed are closely interrelated and do not conform to any meaningful division of a standard work week. On the other hand, if the research agreement contemplates that a staff member will devote a certain fraction of effort to the Government-sponsored research, or agrees to assume responsibility in relation to such research, a demonstrable relationship between the indicated effort or responsibility and the actual extent of involvement that is to be expected. Each University, therefore, should--through joint consultation of administration and faculty--develop procedures to assure that proposals are responsibly made and complied with.
3. Consulting for Government agencies or their contractors. When staff members are engaged in Government-sponsored research and also serve as a consultant to a Federal agency, their conduct is subject to the provisions of the Conflict of Interest Statutes (18 U.S.C. 201 Et.seq.) and the President's memorandum of May 2, 1963, Preventing Conflicts of Interest on the Part of Special Government Employees. When there is consultation for one or more Government contractors, or prospective contractors, in the same technical field as the research project, care must be taken to avoid giving advice that may be of questionable objectivity because of its possible bearing on other interests of the researcher. In undertaking and performing consulting services, the member should make full disclosure of such interests to the University and to the contractor insofar as they may appear to relate to the work at the University or for the contractor. Conflict of interest problems could arise, for example, in the participating of a staff member of the

University in an evaluation for the Government agency or its contractor of some technical aspect of the work of another organization with which there is a consulting or employment relationship or a significant financial interest, or in an evaluation of a competitor to such other organization.

## **University Responsibility**

Each University participating in Government-sponsored research should make known to the sponsoring Government agencies:

1. The steps it is taking to assure an understanding on the part of the University administration and staff members of the possible conflicts of interest or other problems that may develop in the foregoing types of situations.
2. The organizational and administrative actions it has taken or is taking to avoid such problems, including:
  - 2.1 Accounting procedures to be used to assure that Government funds are expended for the purposes for which they have been provided, and that all services which are required in return for these funds are supplied;
  - 2.2 Procedures that enable it to be aware of the outside professional work of staff members participating in Government-sponsored research, if such outside work relates in any way to the Government-sponsored research;
  - 2.3 The formulation of standards to guide the individual University staff members in governing their conduct in relation to outside interests that might raise questions of conflicts of interest; and
  - 2.4 The provision within the University of an informed source of advice and guidance to its staff members for advance consultation on questions they wish to raise concerning the problems that may or do develop as a result of their outside financial or consulting interests, as they relate to their participation in Government-sponsored University research. The University may wish to discuss such problems with the contracting officer or other appropriate Government official in those cases that appear to raise questions regarding conflicts of interest.

The above process of disclosure and consultation is the obligation assumed by the University when it accepts Government funds for research. The process must, of course, be carried out in a manner that does not infringe on the legitimate freedoms and flexibility of action of the University and its staff members that have traditionally characterized a University. It is desirable that standards and procedures of the kind discussed be formulated and administered by members of the University community themselves, through their joint initiative and responsibility, for it is they who are the best judges of the conditions which can most effectively stimulate the search for knowledge and preserve the requirements of academic freedom. Experience indicates that such standards and procedures should be developed and specified by joint administrative-faculty action.

## **PATENT AND COPYRIGHT COMMITTEE<sup>84</sup>**

The President of the University shall establish an eight member Patent and Copyright Committee. There shall be two ex officio members with voting privileges, appointed by the President, one of whom shall be that person assigned to administer the University Patent and Copyright Policies and the procedures of sponsors. Four faculty members shall be appointed by the President for terms of up to three years each, upon recommendation of the University Senate. One professional personnel representative from a service unit of the University shall be appointed by the President for a term of up to three years, upon recommendation of the University Senate. The terms of the Senate-recommended members shall be staggered to provide that at least one new member per year will be appointed to the Committee. One student shall be appointed for a term of one year by the President upon recommendation of the Student Government Association. Members of the Committee will be charged with reviewing in confidence patent and copyright disclosures referred to it, performing other duties assigned to the Committee by either the Patent Policy or the Copyright Policy, and making recommendations to the President of actions to be taken in the best interests of the University and author or inventors.

## **UNIVERSITY PATENT POLICY<sup>85</sup>**

Research is an integral and inseparable part of the life at Ball State University. This concept is clearly delineated in the mission statement of the University. In conducting research, often improved or new devices, product designs or processes are developed. Just as Ball State

recognizes its responsibility to encourage research among its faculty, professional personnel, other employees, and students, it also recognizes its responsibility to protect the interests of these people, the interests of the University, and those of the general public in all matters pertaining to inventions and discoveries. The University, furthermore, is responsible for fulfilling the terms of contracts and grants with external funding agencies and for increasing the University's research facilities by means of its portion of the income derived from such inventions. As conceived by this policy, the term "invention" shall be deemed to include all inventions, discoveries, computer programs, processes, machines, methods, uses, manufacturers, compositions of matter, plants or designs, whether or not patented or patentable at any time under the Federal Patent Act as now existing or hereafter amended.

1. Disclosure: Whenever a faculty member, professional personnel or other employee, or student creates a work that may be patentable and is, or may be, owned by the University, he or she shall disclose the existence of the work in writing to the University's Assistant Vice President for Research in the Office of Academic Research and Sponsored Programs. The written disclosure should be made as soon as practical, but shall be made not more than thirty (30) calendar days after the work is completed.
2. Administrative Action: After receipt of the written disclosure, the Assistant Vice President for Research in the Office of Academic Research and Sponsored Programs may take one or more of the following actions:
  - 2.1 Refer any questions concerning patent ownership, patent assignment, or royalties to the University Patent and Copyright Committee.
  - 2.2 In due course, register the patent with the United States Patent Office, if applicable.
  - 2.3 Inform appropriate third parties (e.g., external funding agencies) of the creation of the patentable work.
  - 2.4 Recommend to the University, after consultation with the Patent and Copyright Committee, other University action concerning the patentable work.
3. After review by the Patent and Copyright Committee, if it is determined that the University has a substantial interest in such invention or thing with patent potential, the inventor shall be required by the terms of the patent agreement to assign all rights to the invention or thing with patent potential to Ball State University or to some external granting agency if acceptance of that agency's support carried with it the obligation to assign all rights to said agency. In those instances where University funds, facilities, assigned time, or materials are used by a member to facilitate the contrivance of an invention or any other thing with patent potential, the University will be deemed to have an interest in the invention or thing with patent potential. For the purpose of this policy, University funds will be considered to include monies from state appropriations and all other such sources.
4. When an invention or other thing with patent potential has been determined to result from individual effort not involving use of University funds, assigned time, or materials and not resulting from any research program involving University funds, facilities, the invention or other thing with patent potential shall be the sole property of the inventor. For such cases, the name of Ball State University shall not be used in connection with the invention or its marketing.
5. It is a policy of Ball State University that the inventor share in any proceeds from the invention, even though it arises from a University-administered program of research. In arranging for the development of an invention, the University will protect the rights of the inventor to share in income derived from the invention.
6. When the administration of a patent in which Ball State University has an interest results in the accrual of income, the nature and amount of the share of the income shall be evaluated by the Patent and Copyright Committee which shall recommend to the President of the University a proposed royalty allocation; provided, however, the first fifteen hundred dollars (\$1,500) of income shall be paid to the inventor. After payment of the first fifteen hundred dollars (\$1,500) to the inventor, the University shall have the right to recover all of its direct costs and expenses (e.g., production and development costs, marketing expenses, commissions, legal fees) for the invention before sharing any additional income with the inventor. After the University has recouped its expenses, any further revenues generated by the inventor or faculty or professional personnel, other employees, and students who originated the patentable invention shall receive a minimum of 50% of any additional revenues or may negotiate for a higher percentage. If there is more than one inventor for the patented work, the fifteen hundred dollars

(\$1,500) and other share of income shall be divided between or among them as they may agree in writing. In the absence of such a written agreement, the inventors shall attempt to reach agreement among themselves as to the fair and equitable allocation of royalties among them based upon their relative contributions to the invention. If they fail to reach agreement, any one of the inventors may request that the Patent and Copyright Committee evaluate the relative contributions of the inventors and propose an appropriate royalty allocation. Upon a proper request from an inventor, the Patent and Copyright Committee shall select a meeting date to consider the relative contributions of the inventors and the appropriate royalty allocation. Each inventor involved shall be notified in writing of the meeting date and time and shall be given the opportunity to attend the meeting and to present evidence concerning his or her contribution to the invention. Based upon the evidence presented, the Patent and Copyright Committee shall then recommend a proposed royalty allocation to the President. Within five (5) days of this recommendation by the Patent and Copyright Committee, any of the inventors may appeal the recommendation to the Provost and Vice President for Academic Affairs. The Provost and Vice President for Academic Affairs shall then review the recommendation of the Patent and Copyright Committee and all supporting evidence. The Provost and Vice President for Academic Affairs may also request that the inventors provide any other evidence deemed useful or appropriate. The Provost and Vice President for Academic Affairs shall render his or her decision regarding the recommendation within ten (10) days of the inventors' request for appeal.<sup>86</sup>

7. The University shall have the right, on recommendation of the Patent and Copyright Committee, to enter into exclusive or non-exclusive agreements with not-for-profit organizations specializing in patent assistance to universities.
8. Inventions resulting from research by faculty, professional personnel, other employees, or students (see paragraph 4) may be offered to the University. In the event that the University accepts and administers an invention, it will be in accordance with University Patent Policy. The inventor shall receive such income as may be set forth in a written agreement.
9. All University faculty, professional personnel, other employees, or students are required to execute promptly all legal documents necessary to invest in the University, or its assignees, any or all rights to carry out the provisions of this patent policy.
10. Interpretation of this patent policy or disputes on patent matters which cannot be resolved between the Patent and Copyright Committee and the inventor shall be referred to the President of the University for determination. Appeals from the determination of the President may be made by any interested party to the Ball State University Board of Trustees.
11. This policy may be amended subject to the approval of the University Senate, the President of the University, and the Ball State University Board of Trustees.
12. This policy, as amended from time to time, shall be deemed to be part of the conditions of employment of every employee of the University and a part of the conditions of enrollment and attendance of every student of the University.

## **BALL STATE UNIVERSITY COPYRIGHT POLICY<sup>87</sup>**

### **I Introduction**

Ball State University encourages the creation of copyrightable materials by its employees and students. The University is committed to the dissemination of knowledge and creative work for the public good through open communication and publication. If the University receives income from copyrightable materials it owns, it is committed to sharing this income with the authors of the materials and, when applicable, with those whose support has made the creation of the materials possible.

The law governing copyright is contained in the United States Copyright Act of 1976, as amended, 17 U.S.C. section 101 *et seq.* The Act provides that "works made for hire" include copyrightable materials prepared by employees "within the scope of their employment" and that the employer is the owner of the copyright of such materials unless both the employer and the employee have signed a written agreement to the contrary. One of the purposes of Ball State University's policy is to maintain the historic, but unwritten, practice of the University that employees and student authors own the copyrights associated with their creative or scholarly materials when they are not considered to have been created within the

scope of their employment by the University, while at the same time protecting the University's, and any sponsor's, interest in copyrightable materials of which its employees or students are the authors.

This copyright policy addresses three issues: (1) ownership of copyrightable materials created by University employees and students; (2) use of such materials by the University, and (3) the sharing of royalties. Compliance with this policy as amended from time to time shall be a condition of the employment of every employee of the University and of the enrollment and attendance of every student at the University.

## II Definitions of Terms as Used in This Policy

1. Author. A person who creates copyrightable material in any form; a copyrightable work may have more than one author.
2. Copyright. The exclusive right to reproduce, distribute to the public (by sale, rental, or other method), publicly display, revise, prepare a derivative work from the product of artistic or intellectual effort, or to authorize another to perform any of these actions; also, as a verb, to carry out the procedure by which one legally secures this right.
3. Copyright assignment. The transfer of one or more of the ownership rights in a work from the copyright owner to another person.
4. Copyright license. Written permission to use copyrighted material; it is usually limited to a particular period of time or a specific use.
5. Copyrightable material. Anything which, under the United States Copyright Act, may be copyrighted, including (but not necessarily limited to) written work; lectures and other works prepared for oral delivery; musical and dramatic works; motion pictures; photographs, drawings, and other pictorial representations; sound recordings; computer programs, instructions, and other software. Copyright protection does not extend to ideas, procedures, processes, systems, methods of operations, concepts, principles or discoveries, even if presented in a copyrightable form.
6. Create. To fix copyrightable material in a tangible medium of expression for the first time. If copyrightable material is prepared over a period of time, the portion of it that has been fixed at any particular time constitutes the copyrightable material at that time; if copyrightable material has been prepared in a different version, each version constitutes separate copyrightable material.
7. Faculty and faculty member. For purposes of this policy only, any employee of the University who
  - 7.1 holds one of the basic academic ranks of instructor, assistant professor, associate professor, or professor in an academic department and whose primary responsibilities as an employee are within that department;
  - 7.2 holds one of the other ranks of lecturer, visiting professor, or adjunct professor in an academic department and whose primary responsibilities as an employee are within that department; or
  - 7.3 is a post doctoral fellow.
8. Fair use. A use of copyrighted material for purposes of criticism, comment, news reporting, teaching (including multiple copies for classroom use), scholarship, or research, which is not an infringement of copyright. Demonstration of such purpose is not sufficient to sustain a claim that the use is "fair" the specific facts of the case must be considered in terms of the following: (1) the purpose and character of the use, including whether or not it is of a commercial nature or is for nonprofit educational purposes; (2) the nature of the copyrighted work; (3) the amount and substantiality of the portion used in relation to the work as a whole; and (4) the effect of the use upon the potential market for or value of the work.
9. In the public domain. Outside copyright protection; copyrightable material is said to be "in the public domain" if it is available for use by anyone at any time without explicit authorization.
10. Publication. The public distribution of copies of a work (including the original) by sale or other transfer of ownership, or by rental, lease or lending. Although public performance or display of a work does not of itself constitute publication, the offer to distribute copies to a group of people for purposes of further distribution, public performance, or public display does constitute publication.

11. Royalty. A payment made to the owner of a copyright for the use of any of the exclusive rights of copyright ownership.
12. University resources. University-controlled funds, staff, equipment, and facilities--especially those of technical production units, such as University publications, radio, television, recording facilities, computing services, audiovisual, photocopying, and media services.
13. Work made for hire. Copyrightable material prepared by an employee within the scope of his or her employment; or a specially ordered or commissioned work that the parties concerned expressly agree in a written and signed instrument to be a work made for hire.

### III Ownership of Copyright

1. Ownership. Ownership of the copyright of copyrightable materials created by employees or students of the University shall be determined according to the following provisions.
  - 1.1 Employees. (a) If the copyrightable material is created by an employee pursuant to an agreement between the University and a third party (e.g., a government agency or a publisher), copyright ownership shall be governed by the provisions of that agreement. (b) If the copyrightable material is created by an employee within the scope of employment duties; or as the result of a specific assignment; or as the result of a special project funded, in whole or in part, by the University; or if the University subsequently decides to fund the publication of the material, the University will own the copyright. For purposes of this copyright policy (and only for these purposes), a faculty member's general obligation to produce scholarly works is not considered to be "within the scope of his or her employment." (c) Copyright in copyrightable materials created by an employee but not subject to (a) or (b), above, shall be owned by the author. For example, copyrightable materials produced outside the scope of his or her employment and without the use of any University resources shall be owned by the employee.
  - 1.2 Students. (a) If the copyrightable material is created by a student pursuant to an agreement between the University and a third party (e.g., a government agency or a publisher), copyright ownership shall be governed by the provisions of that agreement. (b) If the copyrightable material is created by a student who is an employee of the University, e.g., a graduate assistant, ownership of copyright in the material shall be determined by the provisions of (1), above, as for other employees. (c) Copyright in copyrightable materials created by a student, but not subject to (a) or (b), above, shall be owned by the author. For example, copyrightable materials outside the scope of his or her employment and without the use of any University resources shall be owned by the student.
2. Variations from Policy. Copyright ownership may be changed from that established by this policy provided that: (1) the University and author sign a written instrument establishing the change; and (2) the written instrument is signed before the material is created. Such instruments may be signed on behalf of the University by the president (or by such person or persons as the president may designate from time to time in writing). The author may initiate this process by consulting his or her immediate supervisor.
3. Assignment of Copyright. This policy does not preclude an employee or student copyright owner from assigning any or all of his or her rights in copyrightable materials to the University if both parties believe that such action is to their benefit. Similarly, this policy does not preclude the University from assigning any or all of its rights in a copyrightable work to the author if both parties believe that such action is to their benefit, nor does it preclude the copyright owner from assigning any ownership rights to another party.

### IV Disclosure by Author; Subsequent Administrative Action

1. Disclosure. Whenever an employee or student of the University creates copyrightable material that is, or may be, owned by the University or a third party under Section III of this policy, the employee or student shall disclose the existence of the material in writing to the University's Assistant Vice President for Research in the Office of Academic Research and Sponsored Programs. The written disclosure should be made as soon as practical after the author knows the material is to be created, but shall be made not more than thirty (30) calendar days after any portion of the material has been created.

2. Administrative Action. After receipt of the written disclosure, the Assistant Vice President for Research in the Office of Academic Research and Sponsored Programs may take one or more of the following actions:
  - 2.1 Refer any questions concerning copyright ownership, copyright assignment, or royalties to the Patent and Copyright Committee;
  - 2.2 In due course, register the copyright with the United States Copyright Office;
  - 2.3 Inform appropriate third parties (e.g., funding agencies) of the creation of the copyrightable materials;
  - 2.4 Recommend to the president, after consultation with the Patent and Copyright Committee, other University action concerning the copyrightable material.

**V Use and Sale by the University; Royalties**

1. Use and Sale. When the University owns the copyright of materials created by a University employee or student, the University shall have the sole right to:
  - 1.1 Determine whether or not to register its copyright ownership with the United States Copyright Office, to take other appropriate action to protect its interests in the material, or to place the material in the public domain;
  - 1.2 Determine the manner in which the material is to be distributed or used by others, if at all, and the charges, if any, to be imposed for such distribution or use.

The University shall provide for the disclosure of appropriate credits and shall consider the wishes of the author of the material concerning presentation, distribution, revision, and updating of the material.

2. Royalties. Although the University does not need to require the payment of royalties or other monetary consideration for use of the material or the University's granting of any of its ownership rights to any other person or organization, if the University does receive royalties or other monetary consideration for copyrighted materials created by its employees or students, it is the policy of the University that the author of the material will share in the income the University receives as a result of its copyright ownership of the materials.

If the University chooses to protect its ownership rights in copyrightable material through a means other than copyright (e.g., confidential disclosure and licensing of a computer program), it is the policy of the University that the author of the material will share in the income the University receives as a result of its use of the other means of protection.

The nature and amount of the share of the income to be paid to the author shall be evaluated by the Patent and Copyright Committee. Based upon recommendation of the committee, the President of the University shall determine a royalty allocation; provided, however, that the first fifteen hundred dollars (\$1,500) of income received by the University shall be paid to the author. After payment of the first fifteen hundred dollars (\$1,500) of income to the author, the University shall have the right to recover all of its direct costs and expenses (e.g., production and development costs, marketing expenses, commissions, legal fees) for the material before sharing any additional income with the author. If there is more than one author of the copyrighted materials, the fifteen hundred dollars (\$1,500) and other share of income shall be divided among them as they may agree in writing. In the absence of such a written agreement, the authors shall attempt to reach agreement among themselves as to the fair and equitable allocation of royalties among them based upon their relative contributions to the material. If they fail to reach agreement, any one of the authors may request that the Patent and Copyright Committee determine the relative contributions of the authors and the appropriate royalty allocation. Upon a proper request from authors, the Patent and Copyright Committee shall select a meeting date to consider the relative contributions of the authors and propose an appropriate royalty allocation. Each author involved shall be notified in writing of the meeting date and time and shall be given the opportunity to attend the meeting and to present evidence concerning his or her contribution to the material. Based upon the evidence presented, the Patent and Copyright Committee shall then recommend a proposed royalty allocation to the President. Within five (5) days of this recommendation by the Patent and Copyright Committee, any of the authors may appeal the recommendation to the Provost and Vice President for Academic Affairs. The Provost and Vice President for Academic Affairs shall then review the recommendation of the Patent and Copyright Committee and all supporting evidence. The Provost and Vice President for Academic Affairs may also request that the authors provide any other evidence deemed useful or appropriate. The Provost and Vice President for Academic Affairs shall render his or her decision regarding the recommendation within ten (10) days of the authors' request for appeal.<sup>88</sup>

- VI Use and Sale of Materials Owned by Authors** When the author owns the copyright he or she is free to assign, license, sell, or otherwise transfer or use any of his or her rights in the materials on such terms as the author believes to be beneficial to him or her.
- VII Use of University Resources** Even if the author will own the copyright under this policy, reasonable use of University resources in the creation of the materials still may be appropriate. Such use should not be excessive or interfere with normal University activities. Before using the resources, the author should consult with his or her immediate supervisor or the person responsible for the resources involved, or both, about the limit of reasonable use of the University resources involved. Differences of opinion concerning reasonable use of University resources should be referred to the Assistant Vice President for Research in the Office of Academic Research and Sponsored Programs for referral to the Patent and Copyright Committee; the final decision concerning use of the resource shall then be made by the president of the University after receiving the advice and recommendations of that committee.
- VIII Originality** Employees and students of the University who create copyrightable materials are responsible for assuring that the material they create is original and that no material copyrighted by others has been or will be knowingly included in the material they create unless (1) the use of the material copyrighted by others constitutes "fair use" within the meaning of the United States Copyright Act; or (2) the written consent of the copyright owner of such material has been obtained.

#### **PRIVILEGES AND RESPONSIBILITIES OF TECHNOLOGY USERS<sup>89</sup>**

Members of the University community must conduct themselves in accordance with high ethical standards related to use of technology. This policy applies to all forms of current and future technology capable of originating, storing, receiving or sending alphanumeric data and photographic or other images. Faculty may limit the use of technology in their classrooms and laboratories. In addition to maintaining a high level of ethical behavior, each member of the University community agrees to abide by particular policies published elsewhere in this document, including the Student Academic Ethics Policy and the "Computer Users' Privileges and Responsibilities" document published on the University web site. These policies are periodically reviewed and updated by the Campus Council, the Faculty Council, and the University Senate.

#### **GRADUATE ASSISTANTS IN TEACHING ROLES<sup>90</sup>**

1. Graduate assistantships are awarded by Ball State University to persons considered outstanding in the various disciplines. Assistantships should be structured to be educationally beneficial to the student as well as professionally helpful to the institution.
2. While the nature of duties assigned to graduate assistants may vary greatly, depending upon special talents, experience and professional goals of the students, these duties should not ordinarily include the full teaching responsibility for a University class.
3. In special instances where departments deem it necessary or desirable to have graduate assistants assume teaching roles, it will be the department's responsibility to supervise such teaching to insure consistency of purpose and quality of instruction.

#### **GUIDELINES FOR GRADUATE ASSISTANTSHIPS<sup>91</sup>**

1. Assistantships shall be academically and professionally valuable experiences, and each graduate assistant shall be supervised by a faculty or staff member.
2. Departments and other units granting assistantships shall develop policy related to work load, role and responsibilities, and professional conduct for graduate assistantships consistent with principle #1. These policies shall be reviewed by the college dean or

other appropriate administrator and the graduate dean and be included in public documents describing graduate programs.

## SECTION III

### PROFESSIONAL AND RELATED OPPORTUNITIES

- I Faculty and Professional Personnel Development Opportunities** Faculty and Professional Personnel Development is the general responsibility of the Associate Provost who monitors a variety of programs and activities contributing to the professional growth of the faculty. Among these are retraining and refocusing of faculty and professional personnel; special leaves with pay where replacement of the faculty or professional personnel member is unnecessary; attendance at short courses and workshops; and supplemental support of professional travel. A complete description of these programs can be found in the pamphlet Professional Development Opportunities for Faculty at Ball State University available from the Associate Provost's Office.
- II Faculty Publications**
1. The Publications and Intellectual Properties Committee will consider and recommend to the Provost and Vice President for Academic Affairs for University publication original unpublished faculty manuscripts.
  2. The Office of Academic Research and Sponsored Programs will consider requests for support of journal page costs and the subvention of monograph publication.
- III Reprints of Faculty Publications**
1. Faculty who have published scholarly articles may request that the University purchase a limited number of offprints in those cases where the journal does not provide them free of charge. Requests for purchase should be submitted to the Office of Academic Research and Sponsored Programs.
  2. When offprints are purchased, one copy will be retained by the Office of Academic Research and Sponsored Programs, one copy will be placed in the Library, and the remainder will become the property of the author.
- IV Faculty Research Grants** Full-time faculty may apply to the Research Committee for financial support of their research activities.
- V Creative Teaching Grants** Full-time faculty may apply to the Creative Teaching Committee for support of creativity and experimentation in instructional activity.
- VI Creative Arts Grants** Full-time faculty may apply to the Creative Arts Committee for financial support of their creative activity.
- VII Educational Assistance Program<sup>1</sup>**
1. The Educational Assistance Program is intended to provide employees (all regular full-time employees, temporary full-time faculty employed for a full academic year, temporary full-time professional personnel employed for a full fiscal year, temporary full-time staff personnel and service personnel employed for a full fiscal year) with an opportunity to enroll in undergraduate or graduate course work for credit at the University and reduce the cost to the employee.
  2. Employees who meet the normal admission requirements of the University will be entitled to a remission of fees, exclusive of special fees, equal to the greater of (a) 50% of total fees or (b) for on-campus instruction, the contingent portion of general fees and graduate course fees.
  3. Fee remission under this program is limited as follows:
    - 3.1 Professional personnel and other employees--six (6) credit hours per semester or six (6) credit hours during any combination of summer sessions;
    - 3.2 Any of the aforementioned employees on leave for study--seventeen (17) credit hours per semester or eleven (11) credit hours per summer term applies.
  4. The following conditions apply to persons interested in participating in the program:
    - 4.1 Prior to registering each semester or summer term, the employee must submit to the appropriate administrative head an Educational Assistance Program Class Attendance Request (HR-95) listing the course(s) to be taken, the purpose, and how the work schedule is to be adjusted to cover the employee's absence (if any) from his or her work assignment. This request, if approved by the administrative head, is forwarded to University Human Resource Services for review and clearance.

- 4.2 Full-time faculty and professional personnel should refer to Section IV of the Faculty and Professional Personnel Handbook for further information relative to enrollment in graduate work.
  - 4.3 The course(s): (a) must be taken outside scheduled working hours, or (b) an equivalent adjustment must be made in the employee's work schedule, or (c) the time away from work must be deducted from the employee's posted vacation balance, or (d) an equivalent adjustment must be made in the employee's pay. The appropriate administrative head will specify if option a, b, c, or d is applicable.
  - 4.4 When an employee is requested by the appropriate administrative head to enroll in a course(s) which is/are directly related to the employee's assigned University responsibilities, the time away from work to attend class(es) shall be considered part of the employee's regular work schedule. Employees will not be permitted to register for more than four (4) credit hours during his or her regular work schedule.
  - 4.5 Class attendance shall not take priority over the work to be performed except as outlined in the preceding paragraph.
  - 4.6 Employees may enroll as auditors in credit course(s) by following the procedure outlined in the Ball State University Undergraduate and Graduate Catalogs. The auditor's fee is not assessed University employees who meet the service requirements listed above. Approval to audit a course(s) must be obtained in accordance with the provisions of the above program.
  - 4.7 If an employee who is actively employed leaves the University through resignation or other termination during the semester or summer term when the plan is being used, he or she will be responsible for the cost of the course(s) on a prorated basis. In the event an employee on leave for study fails to return as agreed, the employee will be responsible for the cost of courses taken while on that leave.
5. The following procedures should be followed by those interested in participating in the program:
    - 5.1 The employee must discuss with and obtain approval of the appropriate administrative head to enroll in class work;
    - 5.2 The employee must file an application with the University Admissions Office and be accepted as a student;
    - 5.3 The employee must complete an HR-95, "Employee's Class Attendance Request," obtain approval from the supervisor (if during regular working hours) and the appropriate administrative head, and forward all copies to University Human Resource Services. Copies of the approved HF-95 will be sent to the employee and his or her appropriate administrative head. The employee will present one of his or her copies to the cashier in the Bursar and Loan Administration Office at the time of registration so the special reduction in fees may be applied.
    - 5.4 The employee must proceed in the regular manner through registration.
    - 5.5 The employee must, if unable to register for the course(s) as indicated, notify University Human Resource Services and the appropriate administrative head. Copies of "Class Attendance Request" forms (HR-95) are available from University Human Resource Services.

## VIII Enrolling in Graduate Work<sup>2</sup>

1. Full-time faculty and professional personnel who do not hold appropriate terminal degrees are encouraged to pursue such degrees. The primary responsibility of such individuals, however, is to their duties in the University. Study on advanced degree programs at Ball State University by full-time faculty and professional personnel shall be approved by the appropriate department chairperson or administrative head, Academic Dean(s) and the Provost and Vice President for Academic Affairs. Full-time faculty and professional personnel may apply for study leave to meet residence requirements.
2. Faculty members and professional personnel may take graduate courses at Ball State University. If the courses taken at Ball State University, or elsewhere, are to be considered for professional advancement at the University, these courses should be appropriate to one of the following:
  - 2.1 The member's discipline with the approval of the appropriate administrative head;
  - 2.2 The member's position in the University with approval of the appropriate administrative head;
  - 2.3 A related discipline to the member's position in the University or his or her discipline with the approval of the appropriate administrative head;
  - 2.4 The pursuit of a degree different from the one already earned.

3. Faculty and professional personnel may take a 1, 2, 3, 4, or 5 semester-hour course each semester during the academic year. Members desiring to take a combination of courses totaling more than 5 semester-hours credit will need the approval of the appropriate department chairperson or administrative head, Academic Dean(s) and the Provost and Vice President for Academic Affairs. Documentation of graduate courses taken shall be processed and placed in the faculty member's file folder in the appropriate offices. Unless eligible for the University Educational Assistance Program, faculty members and professional personnel pay the same fees that students are required to pay, except that the nonresident fee does not apply; they may enroll for auditing at no cost.

**IX Fee  
Remission<sup>3</sup>**

1. There are currently four programs at Ball State University which provide for a partial remission of fees.
  - 1.1 Fee remission for persons age 60 or older.
  - 1.2 Fee remission for graduate assistants and doctoral fellows.
  - 1.3 Fee remission for regular full-time faculty/professional personnel, continuing contract professional personnel, and contract full-time faculty/professional personnel.
  - 1.4 Fee remission for spouses and dependent children of regular full-time faculty/professional personnel and continuing contract professional personnel with at least one year of continuous service and contract full-time faculty/professional personnel with at least two years of continuous service. (For further information contact the office of the Controller.)
2. For purposes of these programs, the terms fee remission, fee reduction, and fee waiver are used interchangeably. Furthermore, it is intended that there will be no duplication of benefits, i.e., an individual will receive a fee remission under only one of the programs even though that person may be eligible under two or more programs. If an individual is eligible for benefits under two or more programs, the fee remission will be calculated under each program, but only the benefit under the program offering the individual the largest reduction of fees will be applicable.

## SECTION IV

### ACADEMIC POLICIES AND PROCEDURES

#### POSTING OF COURSES AND CURRICULA<sup>1</sup>

1. Each college within the University will establish a College Curriculum Committee, efficient in size and representative of included areas. The dean of each college will serve as executive secretary of the committee of that college.
2. New Courses and Course Changes
  - 2.1 Responsibility for introducing and approving a new course or a revision of an existing course shall rest with the academic unit and the college involved. The proposal shall not become a matter of University-wide concern unless the new or revised course duplicates or encroaches upon a course offered in another college, unless introduction of the course leads to establishment of a new curriculum or unless the new or changed course affects programs administered by other units or colleges.
  - 2.2 A proposal for a new course or a change in an existing course shall be referred by the initiating unit to the relevant College Curriculum Committee for preliminary approval. Following such preliminary approval, the office of the dean will distribute the proposal for a ten school day posting period in the administrative units of the college. Such posting is to acquaint all faculty within that college with the proposed new course or change in an existing course. If no demurrer is received within ten school days by the dean of the college in which the proposal or change is initiated, the dean will certify the course or change as approved and forward copies to the Provost and Vice President for Academic Affairs.
  - 2.3 Internal structure for resolution of demurrers within a college will be developed by the college and implemented by the office of the dean. After submittal to the Provost and Vice President for Academic Affairs, demurrer action from administrative units or members of the initiating college will not be honored.
  - 2.4 Every two weeks the Office of Academic Systems will compile a combined list of proposals for new and changed courses submitted by colleges and distribute it to all University academic deans, department chairpersons, and secretaries of educational policies councils. If no demurrers are received in that office within ten school days, the Provost and Vice President for Academic Affairs or his or her designate will certify the courses or changes for implementation by appropriate administrative offices.
  - 2.5 During the time of institutional posting the chairperson of any department or other administrative unit in the University outside the initiating college who feels that a proposal for a new or changed course may involve substantive overlap or encroachment on the department's or unit's area of responsibility, or that it affects disadvantageously programs offered by the unit, may demur. Such demurrer shall be submitted in writing to the dean of the college initiating the proposal and shall request a conference with the initiating administrative chairperson. This demurrer is to be sent within ten school days from distribution of the published combined list; otherwise, the right to raise objection will be regarded as forfeited. The conditions on which the action was based will be stated in the demurrer. A copy will be sent to the Provost and Vice President for Academic Affairs.
  - 2.6 Upon receiving a demurrer, the college dean will record the date of its receipt and notify the head of the unit initiating the proposal, whose responsibility it will be to respond to the request for a conference. If the issue is resolved to the satisfaction of the demurring administrative head, a note withdrawing the demurrer will be submitted to the affected college dean with a copy to the Provost and Vice President for Academic Affairs.
  - 2.7 If the issue is not resolved to the mutual satisfaction of both parties, (a) the initiating administrative head may withdraw the proposal or (b) either party involved in the demurrer may request a hearing to resolve the issue. In the latter event, the Provost and Vice President for Academic Affairs will, within ten school days, assemble the deans of the two involved colleges and one representative from each of the Curriculum Committees of the two colleges involved, with both contesting administrative heads invited to review the issues. If resolution cannot be achieved by this means, the Provost and Vice President for Academic Affairs will advise the appropriate educational policies council to place the matter on its agenda. The decision of this body will be binding on all parties, under conditions cited in 4 and 5 below.

3. New and Revised Programs and Curricula
  - 3.1 Proposals for new and revised programs and curricula must be approved by the dean of the college from which they originate and the appropriate educational policies council or councils of the University Senate. Upon approval by the council or councils, the proposal shall be sent to the Provost and Vice President for Academic Affairs. His or her designate shall distribute copies on a bi-weekly posting schedule to (1) all members of the Agenda Committee of the Senate, (2) all academic unit heads and academic deans of the University, and (3) chairpersons and secretaries of the University Senate educational policies council or councils. An individual or unit wishing to present a demurrer to the Provost and Vice President for Academic Affairs should initiate such action through the office of the college dean within ten school days of the date on which the proposal was posted. If none is filed within this ten-day period, the Provost and Vice President for Academic Affairs may 1) disapprove the proposal or 2) approve the proposal and notify the University Senate Agenda Committee.<sup>2</sup>
  - 3.2 A demurrer shall state explicitly the reasons for such action. The procedure for resolution is for the Provost and Vice President for Academic Affairs to arrange a conference of the interested parties for the purpose of clarifying or resolving the issues. If resolution cannot be achieved at this conference, the Provost and Vice President for Academic Affairs shall refer the matter to the appropriate educational policies council for resolution. If an action of this council is unacceptable to either of the contending parties, the dissatisfied party may take the issue to the Agenda Committee of the Senate, which shall place the item on the agenda for the following meeting for consideration by the Senate.
  - 3.3 The above process will not rule out informal attempts by contending parties to reach agreement at any point in the process. If such negotiations are successful, the Provost and Vice President for Academic Affairs shall be so notified.
4. Should procedures for resolution of demurrers affecting items 2 or 3 above extend beyond two months from the date demurring action was filed, either or both of the contending parties may request that the matter be placed immediately on the agenda of the appropriate educational policies council (as determined by consultation with the Provost and Vice President for Academic Affairs). This council shall act upon the matter within a month from receipt of such a request.\*
5. All council proceedings are subject to review by the Agenda Committee of the Senate. Individuals may request the Agenda Committee to place any matter on the agenda of the University Senate. Any demurrer placed on the agenda of the University Senate will receive action by that body within one month from the date it appears on the agenda the first time.

### **PROCESS FOR ANNUAL COURSE REVIEW<sup>3</sup>**

Departments will annually review course offerings and recommend revisions of course listings by adding or deleting courses or modifying course descriptions and prerequisites. Particular attention should be paid to courses which have not been taught during a current catalog cycle.

During spring semester of the first year of a catalog cycle, a list of courses not taught for either the current or previous catalog cycle will be forwarded by the Office of Academic Assessment and Institutional Research to each College Curriculum Committee. The College Curriculum Committee shall recommend that respective departments review those courses which have not been taught for two catalog cycles. Departments will either recommend that a course be dropped or will justify continued listing of the course. Based upon response from the department, the College Curriculum Committee will decide which courses warrant continued catalog listing, recommending to the Office of Academic Systems those courses which should be dropped from subsequent catalogs. Courses recommended by the colleges shall continue to be listed.

When proposing program changes which create new courses, departments should carefully consider the possibility of dropping courses which will not be taught in the near future. Departments are encouraged to use Special Topics course numbers and descriptions to offer experimental or trial courses (299x or other), and those courses which will not be offered on a regular basis.

\* It is understood that the summer hiatus in council and senate activities may delay such action until beginning of the following academic year.

## **POLICIES AND PROCEDURES FOR GRADUATE CERTIFICATE PROGRAMS<sup>4</sup>**

### Introduction

1. Graduate certificate programs may be created within the structure of the Graduate School.
2. Students may be awarded these certificates upon completion of a well-defined program of coursework.
3. The graduate certificate is not defined as a degree by the Graduate School; rather, it is a focused collection of courses that, when completed, affords the student some record of coherent academic accomplishment in a given discipline or set of related disciplines. Certificate programs should have published descriptions and marketing materials that will make this distinction clear to possible applicants.
4. Addressing the criteria and procedure below will provide a rationale for the educational needs and objectives to be fulfilled by the certificate program.

### *A. Development of New Graduate Certificate Programs*

1. Programs are initiated by individual department(s) and college(s) and approved according to a college's New Course/Program Approval process.
2. Once a program has been approved by department(s) and college(s), a conditional "fast Track" approval may be granted by the Dean of the Graduate School and when appropriate, the Dean of Extended Education. Following the "fast track" approval, the program is submitted to the Graduate Education Committee for review and approval.
3. Programs are to be distinguished from professional certification programs offered by professional associations or other organizations. Programs should include the certification title, program descriptions to be published, and marketing materials that reflect the distinction between the program and certifications offered by professional associations. These materials must make it clear to potential applicants that the certification program being offered will not lead to a certification by a professional association.
4. A program may or may not contain the word certificate, depending on the tradition in the discipline(s) proposing the program.
5. The proposed sequence of coursework for a program must offer a clear and appropriate educational objective at the post-baccalaureate level.
6. The costs of a program will be absorbed by department(s) or funded by College Dean(s) and/or Extended Education.
7. Programs may or may not be listed in the Graduate Catalog.

### *B. Criteria for Program Administration*

1. The programs may be either freestanding or as add-ons to existing degree programs.
2. The program proposal will address the question of the impact of the graduate certificate program on any related degree programs. Programs should incorporate existing courses whenever possible.
3. For consideration by the Graduate School, proposed new graduate certificate programs must contain the following information:
  - a. A statement of the educational objectives of the program
  - b. A statement of the proposed course sequence associated with the certificate
  - c. A statement of how the proposed course sequences associated with the certificate will meet the stated educational objectives
  - d. A statement outlining who will administer the program

### C. *Curriculum Criteria*

1. Graduate certificate programs must be at the post-baccalaureate, the post-master's or the post-doctoral level.
2. The number of graduate credits must be at least 12 semester hours and no more than one-half of the credits necessary for a related degree from the Graduate School.
3. No transfer credit will be allowed, but departments could substitute courses to eliminate overlap.
4. All certificate requirements must be met within five years unless the graduate dean on the recommendation of the chairperson of the department offering the certificate approves an extension of time.
5. Programs may be delivered by distance learning where appropriate.
6. Interdisciplinary certificate programs are encouraged.
7. Requirements of the program that are in addition to coursework, including but not limited to laboratories, practica, internships, projects or theses, must be clearly identified.
8. Courses included in the certificate program are to be taught by Graduate Faculty.
9. Students may apply credit from certificate programs to a Master's, Specialist, or Doctorate degree at Ball State University.
10. Students must achieve at least a 3.0 GPA in the certificate program to receive a certificate.
11. No course with a grade below a 2.0 can be counted toward a graduate certificate.
12. The student's official transcript shall contain not only the listing of courses taken in this program, but will also indicate successful completion of the program.
13. Students will receive a printed certificate acknowledging their completion of the program.

### D. *Admission Requirements*

1. Applicant's pursuing only a certificate program will be admitted as non-degree students. Students who complete a certificate, however, can apply these hours to a degree-granting program upon receiving department approval.
2. Admission requirements for certificate programs must meet the minimum requirement for the Graduate School master's degree programs.
3. Students who are currently enrolled in the Graduate School and who wish to pursue approved graduate certificate programs must apply for admission to such programs before one-half of the required credits are completed.
4. Graduate students enrolled only in a certificate program may not hold a Graduate Assistantship.
5. Students may be enrolled full- or part-time in a certificate program.
6. Students who are currently enrolled in a graduate program of study leading to a degree who wish to pursue a simultaneous graduate certificate within the Graduate School must inform the certificate program coordinator and the Graduate School of their intent to seek the graduate certificate.
7. Completion of a graduate certificate does not guarantee admission into a graduate degree program.

## **GUIDELINES FOR ASSESSMENT OF STUDENT LEARNING IN UNDERGRADUATE PROGRAMS<sup>5</sup>**

### **I Policy**

1. Assessment of student learning within the University's undergraduate academic programs is an essential means of identifying areas for growth and improvement in those programs. Therefore, the colleges, departments, and schools of the University will engage in programmatic assessment.
2. Processes and documents generated for professional accrediting, Indiana Commission for Higher Education reviews, and similar purposes may satisfy this assessment policy.
3. This policy does not apply to assessment of the University Core Curriculum.
4. Results of assessments conducted under this policy shall not be used for evaluation of individual faculty members.

### **II Definitions**

1. Academic program assessment is designed to improve student learning through the systematic collection and review of information about academic programs. Direct and indirect measures of learning are used to examine how well students have acquired the knowledge, skills, and abilities that the program was designed to foster. Ultimately, it seeks to identify ways of improving the program's ability to meet its academic goals.
2. Direct measures of learning explicitly demonstrate how well students have acquired the knowledge, skills, and abilities identified as goals of the program. Direct measures of learning include, but are not limited to, comprehensive examinations; standardized tests; licensing examinations; evaluations of student portfolios and performances; and evaluations of students made by practicum, internship, or clinical supervisors.
3. Indirect measures of learning ask students to reflect on what they have learned and experienced. Rather than directly demonstrating students' knowledge, skills, and abilities, indirect measures provide proxy information about student learning. These measures include student ratings of program quality and student self-assessment. Focus groups, questionnaires, and interviews also can be used to collect this information.

### **III Responsibilities**

1. Departments and Schools will
  - 1.1 Identify the knowledge, skills, and abilities that their programs are designed to instill in students.
  - 1.2 Determine assessment measures, collect assessment data, examine data, report assessment results to their respective colleges, and take action on the results.
  - 1.3 While each department and school will determine how its assessment program will be conducted, each assessment program must include at least one direct measure of student learning.
2. Colleges will work in conjunction with departments to
  - 2.1 Establish procedures to monitor the assessment activities of their departments and schools.
  - 2.2 Establish reporting requirements and timetables for the submission of department and school assessment reports recognizing that these may differ by department.
  - 2.3 Assess the effectiveness of the college and its units on the basis of the departmental and school reports, report the results of that assessment to the Provost and Vice President for Academic Affairs, and take action on the results of that assessment.
3. The Provost and Vice President for Academic Affairs will
  - 3.1 Provide general oversight of the University's assessment program.
  - 3.2 Review reports submitted by the colleges according to their respective deadlines.
4. The Office of Academic Assessment and Institutional Research will consult and assist departments, schools, and colleges in establishing and maintaining their assessment programs. For further reference, please refer to the "Assessment Philosophy" available from the Office of Academic Assessment and Institutional Research.

## ACADEMIC INTERSESSION<sup>6</sup>

Academic Intersessions of variable length between Spring and Summer sessions and Summer and Fall sessions have been approved as a modification of the University calendar.

## SCHEDULING OF CLASSES<sup>7</sup>

1. At the appropriate time the chairperson of each academic department submits a master schedule for the next academic year. The schedule is updated by the departments, under the direction of the Office of Academic Systems, to produce the Annual Master Schedule (AMS).
2. After the above procedure is completed, Academic Systems sends the semester master schedule to all departments for review and update. Any necessary change to the semester schedule is initiated by the department chairperson through the department's administrative coordinator. Changes are electronically forwarded to the dean of the college for approval.
3. A faculty member who has a problem relating to classroom assignment, hour of instruction, or other possible change in the schedule will confer with the chairperson of the department. If the department chairperson considers the suggested change desirable, the chairperson will then process the change if the space is available. Otherwise, the schedule is to be followed as established. Rooms are closely scheduled for classes and other uses. A record of classroom utilization is maintained in the Office of Academic Systems for use in avoiding conflicts in room assignments, locating classes and individuals assigned them, and for analytical studies of academic space utilization.

## BACCALAUREATE CURRICULUM CLASSIFICATIONS AND POLICIES ON THE SCOPE OF MAJORS AND CURRICULAR PATTERNS<sup>8</sup>

### I Definitions

1. A curriculum is a pattern of studies leading to a baccalaureate degree and is characterized by three primary components--general education, specialization, (which may include area(s) of concentration and professional education), and electives. Distinction in curricula is based on the degree of explicitness of vocational orientation, sizes of major and minor concentrations, and the suggested use of elective courses.
2. A major is composed of courses in a single subject or several related fields. The major denotes the student's specialization within one of the several broadly defined curricula. The description of the major in the catalog must include all college-level prerequisites, but would not include those prerequisite courses normally taken on the high school level.
3. A minor is a lesser concentration in a subject field. A minor comprises 15 semester hours and usually bears sufficient relationship to the major so that a student may readily convert it to a major or pursue advanced work in the area. The description of the minor in the catalog must include all college-level prerequisites, but would not include those prerequisite courses normally taken on the high school level.
4. Electives are classified as either free or directed.
  - 4.1 Free electives are those courses chosen by the student from the full range of University offerings. Their primary use would be made by the student to bring a total undergraduate program to the overall minimum of credit hours required for the degree.
  - 4.2 Directed electives are those to be taken from a specific series of courses or from selected disciplines. Their primary use will be in defining the scope of a major, minor, option or in the selection of sequences to meet university core curriculum requirements.

**III Posthumous Baccalaureate Degrees and Certificates of Recognition<sup>9</sup>**

- 1. At the recommendation of the appropriate college or department and approval of appropriate administrators:
  - 1.1 The Posthumous Baccalaureate Degree may be awarded to a student who had reached the senior level (Class Status 4) and was in good standing with the University at the time of death.
  - 1.2 A Certificate of Recognition may be awarded to a student at the freshman, sophomore, or junior level who was in good standing with the University at the time of death. The wording of the certificate shall be the responsibility of the nominating college or department.
  - 1.3 A Certificate of Recognition may be awarded to a student at any class level in good standing with the University who becomes permanently disabled due to illness or accident and is unlikely to be able to finish the degree.

**ENROLLING OF STUDENTS**

- 1. Students of the academic year are expected to register in the semester preceding the semester for which they are registering and at specified preregistration periods for the summer terms. The Semester Schedule of Classes carries instructions regarding registration and, in the Calendar, shows the dates of the various steps in the registration procedure. This preregistration program makes it possible to start classes promptly.
- 2. Some individuals who were not enrolled in the preceding semester or term register immediately preceding the beginning of classes, and there are always some who have special permission to register in the late registration period (see the Catalog) after the beginning of classes. The penalties for late registration keep the number of latecomers low.

**CHANGE OF COURSE<sup>10</sup>**

- 1. Students are encouraged to modify their schedules prior to the start of the semester or term. Students are permitted some changes of course (see the Calendar and Catalog statement) at the beginning of the semesters and terms. Students may change their schedules through the first five days of a semester and the first three days of a summer term. Schedule changes may be processed by web at [www.bsu.edu/studentsservices](http://www.bsu.edu/studentsservices), or in person, at the Office of Registration and Academic Progress.
- 2. In addition, the chairperson of an academic department may transfer students from one section of a class to another section of the same class. Such transfers are presented to the Office of Registration and Academic Progress on the Transfer of Students form. (Available on the web under BSU@Work-Formfinder, Registrar.)
- 3. After the change-of-course period and the late registration period have ended, official class lists are made and issued by the Office of Registration and Academic Progress through the office of the chairperson of the department to instructors of classes. Lists should be checked by the instructor against student attendance for completeness and accuracy. It is returned, signed in ink, to the Office of Registration and Academic Progress, where it is verified against enrollment

information. It is IMPORTANT that no student be permitted to remain in class whose name is not on the class list. Students who are not on the list should be sent to the Office of Registration and Academic Progress.

4. Shortly before the close of the semester or term, the final class list is sent by the Office of Registration and Academic Progress to department chairpersons for distribution to the instructors. On the class list the entries are made in pencil for an optical scanner. The signature of the instructor in ink at the bottom of each form is required. Once grades have been marked, the class lists are returned to the office of the department chairperson by the deadline printed at the bottom of the form. Specific and detailed announcements will come directly from the Office of Registration and Academic Progress.

### **TYPES OF CREDIT**

1. The student who enrolls for graduate credit will have a designation of "G" on the class list. "C-NC" is used to indicate that a student is registered under the Credit-No-Credit status. Students who desire to take courses without expectation of credit to apply on a degree (auditors) sign a waiver for the respective course or courses. No credit will be earned, and the transcript entry will be recorded with a grade of AU.
2. Should a student desire to change from audit to credit, graduate to undergraduate, or vice versa, the student must apply to the curricular advisors for such change during the change-of-course period. If approval is given, the instructor will be notified. This change can be made only during the official change-of-course period at the beginning of the semester or term.

### **CREDIT/NO-CREDIT POLICY<sup>11</sup>**

1. Students may choose to earn up to fifteen credits under the credit/no-credit option. If a course is offered only for credit/no-credit, it will not be counted in the fifteen-credit allowance. Students who have taken a course for a grade cannot take it again on a credit/no-credit basis. Courses taken on a credit/no-credit basis will not count toward the academic major, minor, or any university core curriculum requirements, except for student teaching, internships, and courses offered only for credit/no-credit. If a student has taken courses in a particular subject for credit/no-credit and then decides to major or minor in that subject, not more than two of the courses will count toward the major or minor requirements. Students on academic probation may not use the credit/no-credit option. Apart from these exceptions, departments must allow students to take courses for credit/no-credit.
2. The credit/no-credit option may be applied to required Physical Education courses, student teaching and internships, and to elective courses outside a student's major or minor areas of concentration and outside the university core curriculum courses in the professional sequence for teachers. This option may not be denied by a department.
3. A department, with the approval of its College Dean, may accept the credit/no-credit option from any student for any course. A faculty member, with the approval of the department offering the course and of the appropriate dean, may initiate a credit/no-credit policy for a particular section of the course.
4. Credit given under this system, with the appropriate "credit" or "no-credit" designation, will appear on the student's permanent academic record but will not be counted as part of the student's grade-point ratio. "Credit" will be given when the grade is C- or higher. "No-credit" will be given when the grade is below C-.
5. Students enrolled under the credit/no-credit option are not exempt from any requirements in the course.
6. Registration for credit/no-credit will follow regular University procedures. Regular fees are applicable.

## **CREDIT OTHER THAN BY REGULAR ENROLLMENT IN UNIVERSITY CLASSES<sup>12</sup>**

1. The following are ways in which the student may receive credit other than by regular enrollment in University classes:
  - 1.1 Advance Placement Program
  - 1.2 College Level Examination Program (CLEP)
  - 1.3 Credit by Departmental Examination
  - 1.4 Credit by Departmental Authorization
  - 1.5 Credit Earned for Military Service
  - 1.6 Credit Earned While in Military Service

See the Catalog for more complete information.

## **TELEVISION NETWORK COURSES<sup>13</sup>**

1. Undergraduate and graduate residence credit may be earned when that instruction is conducted via the Indiana Higher Education Telecommunications System. Courses must be approved and offered under the jurisdiction of an academic department or center of Ball State University.
2. The Miller College of Business offers both the MBA and M.S. in Accounting degrees by TV at sites throughout Indiana. This program uses the Indiana Higher Education Telecommunications System to broadcast classes live to students off-campus. Off-campus students contribute to on-campus classes by telephone. All rules of admission, prerequisites, and grade-point average required of Ball State's on-campus programs apply to students completing degrees by TV. Professors use the same rigorous standards of grading and course requirements at all classroom locations.

## **RESIDENCE CREDIT<sup>14</sup>**

Any course except correspondence offered by Ball State University shall be granted residence or campus credit.

## **CONTINUING EDUCATION UNIT<sup>15</sup>**

The School of Extended Education supports the Continuing Education Unit (CEU) plan adopted by Ball State University as a means of recording and accounting for non-credit courses, programs, and activities. One Continuing Education Unit (CEU) is defined as ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction.

## **WITHDRAWAL FROM A COURSE<sup>16</sup>**

1. Change of Course Period  
Students may drop/add a course through the fifth day of classes of a semester (fall, spring, and summer), and third day of classes of a summer session. Courses dropped through this period are not recorded in the student's permanent record.
2. Course Withdrawal Period  
From the sixth to the forty-fifth day of classes in a semester, sixth to the thirtieth day of classes of a summer semester, and fourth to the fifteenth day of classes of a summer session. Saturday is not considered a class day for these purposes.
  - 2.1 All student-initiated withdrawals will be accepted and recorded as "W" during this period.
  - 2.2 Students wishing to withdraw from a course during this period
    - 2.21 Should see the instructor and discuss the withdrawal;
    - 2.22 Must take the initiative to obtain the withdrawal form with instructions (paper or on-line), and
    - 2.23 Must submit the completed withdrawal form to the Office of Registration and Academic Progress by the close of business hours on the last day of the withdrawal period.

- 2.3 Discontinuance of enrollment or abandonment of a course or courses without having properly followed the procedure as indicated above will normally result in the issuance of an “F” grade.
3. Withdrawal After the Course Withdrawal Period Because of Verifiable Extenuating Circumstances  
If there are verifiable extenuating circumstances which make withdrawal from a course academically justified after the withdrawal period ends, the college dean (or designate) may grant an exception to the above withdrawal policy. The faculty member is responsible for determining the grade to be assigned, W or F.

### **WITHDRAWAL FROM ALL COURSES<sup>17</sup>**

Students who find it necessary to withdraw from all courses during a semester or summer session must report immediately to the Office of the Vice President for Student Affairs and Dean of Students to complete an application for withdrawal. All withdrawals from all courses at any time on or after the first day of classes must be requested on the required form and filed in this office.

1. Course Withdrawal Period  
From the first to the forty-fifth day of classes in a semester, first to the thirtieth day of classes of a summer semester, and first to the fifteenth day of classes of a summer session.
  - 1.1 The grade of "W" is automatically given for each course in which a student is registered when withdrawal from all courses is accomplished during this period.
  - 1.2 Abandonment of a course or courses without having properly followed the procedure as indicated above will normally result in the issuance of an “F” grade.
  - 1.3 When a student withdraws from all courses, each faculty member is notified on the Withdrawal Notice form. The faculty member in whose course the student is registered will record the last date of attendance and a grade of “W”.
2. Withdrawal After the Course Withdrawal Period Because of Verifiable Extenuating Circumstances.
  - 2.1 If there are verifiable extenuating circumstances that make withdrawal from all courses necessary and academically justified after the withdrawal period, the Office of the Vice President for Student Affairs and Dean of Students (or designate) may grant an exception to the above withdrawal policy. Each faculty member is responsible for determining the grade to be assigned, W or F.

### **UNDERGRADUATE COURSE REPETITION**

1. An undergraduate student may repeat a course once in order to replace a grade of C or below. The original and second grade will remain on the student's academic record, but the second grade the student receives will be used in figuring the student's G.P.A. A "W" will not replace a previous grade.
2. If it is necessary to take a course to meet program requirements, the student may do so as many times as necessary. However, all grades, except the first one received in any course the student repeated, will be used in computing the student's G.P.A.
3. A student's academic record and transcript will show all grades that the student received, but a notation will appear if courses are repeated. The credits for the course will count only once toward the student's graduation requirements.
4. Colleges may limit course repetitions even further. Students should become familiar with college policies.
5. The University is not obligated to offer courses so that a student can repeat them.

## **GRADUATE COURSE REPETITION<sup>18</sup>**

A graduate student may not repeat more than one time a course for which a grade has been given. The repetition of a course does not remove the previous grades from the student's official academic record. The last grade in a course will be used in computing the scholastic ratio. The credit hours will count only once toward meeting minimum hourly requirements for graduation.

## **SYLLABI OF COURSES<sup>19</sup>**

1. A syllabus for each course taught in each department should be on file. (The syllabus is not a course outline but can be used by faculty to develop individual course outlines.) The syllabus is a course guide and should include a general, rather than a specific, description of the following constructs:
  - 1.1 Course description
  - 1.2 Course objectives
  - 1.3 Course rationale
  - 1.4 Course content, format, and bibliography
2. All course syllabi should be on file with the appropriate college dean. The syllabus for any university core curriculum course should be on file with the Office of University Core Curriculum and Academic Programs.

## **DOUBLE-NUMBERED TAUGHT/WITH COURSES<sup>20</sup>**

1. Ball State University offers graduate programs that provide advanced education and training in several fields. In order to maintain the integrity and promote the quality of these advanced programs, certain distinctions are made between them and the University's undergraduate programs. Because of these distinctions, certain graduate classes are inappropriate for undergraduate enrollment due to their emphasis upon research and prior educational experiences. The purpose of this policy is to help determine those courses which can and cannot be double numbered.
2. It is recognized that some double-numbered courses are educationally desirable and may be conveniently taught as taught/with classes--e.g., certain courses in the sciences which, by universal practice, serve both undergraduate and graduate degree programs; music ensembles, art studio courses, and certain foundation courses. These courses must be identified and approved by the appropriate college dean and the Dean of the Graduate School.
3. Double-numbered courses which exist purely to meet minimum class sizes or staffing problems diminish the quality of graduate education and should be eliminated or reduced in number in an orderly fashion by such means as: 1) a reduction in the total number of courses offered; 2) offering courses less often; or 3) by changes in the curriculum.
4. The following regulatory devices are intended to provide a degree of uniformity in purpose and control over reduction of double-numbered courses:

- 4.1 Departments shall provide to the Graduate Education Committee for its review data supporting how they use taught/with courses for credit toward graduate degrees. Continued use of such courses will be subject to approval by the Graduate Education Committee.
- 4.2 When taught/with courses are offered, faculty must differentiate between graduate and undergraduate students by such means as: 1) differences in course requirements, 2) standards of grading, 3) separate weekly seminars, 4) independent research papers, and 5) individual conferences.
- 4.3 It is recognized that the use of graduate-only courses will necessitate the offering of some classes with low enrollment. This need should be met by eliminating minimum class sizes and placing course management entirely in the hands of department chairpersons but subject to an annual review by the college dean.

#### **FIELD TRIPS**

1. Field trips consistent with the purpose of the course should be planned at the beginning of the semester for which they are contemplated, and the college dean should receive three copies of the notice of the project at that time. No field trips or travel involving absence from class on the part of any of the participants shall be scheduled during the first week of a semester. Whenever possible, the trip should be scheduled for a weekend.
2. No field trips, travel, or other events involving students shall be scheduled during the first week or during the last two weeks of a semester. Exceptions will be granted only after consultation with and approval of the Provost and Vice President for Academic Affairs and the Vice President for Marketing, Communication and Enrollment Management.
3. A field trip is voluntary for the student, although failure to go on a planned and announced field trip may be penalized by grading if the student offers no adequate make-up as assigned.
4. The instructor who finds it necessary to take students on a field trip which will involve loss of time in other classes will give three copies of the notice of the trip to the college dean on a field trip notice form which will originate in the office of the department chairperson. The notice is to be given at least three class days before the start of the trip. All the information called for on the form must be given, for this information is the basis for notification to arranged absences for the students. The student is given one copy of the field trip notice which is taken to each instructor whose class will be missed so that the instructor can make a note of the intended absence from class. For information about chartering a University bus, call the Transportation Office; for information about chartering a commercial bus, call Purchasing.

#### **INTERNSHIPS AND PRACTICA<sup>21</sup>**

The university encourages student internships and practica. Internships and practica are defined as supervised practical experience in a student's field of study. To be recorded on students' academic transcripts, these internships and practica must have an academic component. Academic supervision must be conducted by faculty in the student's major or minor course of study in collaboration with a supervisor at the internship or practicum site. Academic internships and practica must be approved by the department chairperson or a designated representative of the student's major or minor course of study.

## **RESEARCH PAPER<sup>22</sup>**

1. The paper must be accompanied by a cosigned form including the signatures of the student's departmental advisor and the department chairperson.
2. If the departmental advisor and the department chairperson are the same person, another member of the Ball State graduate faculty within the department of the student's major must also sign the form indicating his or her familiarity with the paper and knowledge of the student's work.

## **CREATIVE RESEARCH PROJECT PLAN<sup>23</sup>**

1. The project must be accompanied by a cosigned form including the signatures of the student's departmental advisor and the department chairperson.
2. If the departmental advisor and the department chairperson are the same person, another member of the Ball State graduate faculty within the department of the student's major must also sign the form indicating his or her familiarity with the project and knowledge of the student's work.

## **GRADUATE STUDENT RESEARCH<sup>24</sup>**

1. The financial support of research conducted by graduate students is an acknowledged and legitimate academic cost for departments. The University recognizes that departments may budget funds to support graduate student research.
2. A fund will be established and administered by the Dean of the Graduate School for use in supporting graduate research papers, creative projects, theses, and dissertations for which students have enrolled. This University fund will allow contributors to the Ball State University Foundation to earmark financial contributions for use in supporting graduate research. The fund, administered by the Dean of the Graduate School, will be used to supplement departmental support of graduate research. The decisions of the Dean of the Graduate School will be reviewed yearly by a joint committee composed of members drawn from the University Research Committee and Graduate Education Committee. This review will be used for the generation of future policy and procedure for furthering support of graduate research.

## **POSTHUMOUS GRADUATE DEGREES AND CERTIFICATES OF RECOGNITION<sup>25</sup>**

1. At the recommendation of the appropriate academic unit and college, the Graduate Dean, and the Graduate Education Committee and the approval of appropriate administrators:
  - 1.1 The Posthumous Graduate Degree may be awarded to a student, who at the time of death:
    - 1.11 Was in good academic standing with the University;
    - 1.12 Had completed substantially all course work, i.e., had completed or was enrolled in the last semester of classes;
    - 1.13 Had progressed on any required dissertation, thesis, research paper, creative project, and/or internship to a point where the student's committee (or advisor) feels confident that the project and/or internship would have been completed successfully.
  - 1.2 A Certificate of Recognition may be awarded to a student enrolled in a graduate program at any level and in good academic standing with the University at the time of death. The wording of the certificate shall be the responsibility of the nominating academic unit.
  - 1.3 A Certificate of Recognition may be awarded to a student enrolled in a graduate program and in good academic standing with the University who becomes permanently disabled due to illness or accident and is unlikely to be able to finish the degree. The wording of the certificate shall be the responsibility of the nominating college of academic unit.
2. The Provost or designee will have final approval.

## STUDENT ATTENDANCE<sup>26</sup>

1. At Ball State University student attendance at class meetings is expected. Faculty shall establish attendance policies for their courses. Such attendance policies must be communicated to students by faculty through course syllabi or outlines.
2. Absence caused by field trips or activities in which the student is representing Ball State University at state, regional, or national events shall be announced in advance to instructors of the other course(s) in which the student is enrolled. A notice will originate in the office of the department chairperson and be brought to the instructor(s) by the student at least three (3) days before the field trip. All trips should be scheduled after the first week or before the last two weeks of a semester (last two weeks—including the examination period). Exceptions to these periods will be granted only after consultation with and approval by the Provost and Vice President for Academic Affairs and the Vice President for Marketing, Communication and Enrollment Management. Faculty are expected to allow students to make up all missed course activities during their absence including, but not limited to, class activities, assignments, examinations, and final examinations. Students should not be penalized for their absence while representing the University. When possible, students are expected to complete these activities before their absences.
3. Detailed information regarding requirements for Veterans' attendance may be obtained from the Office of Scholarships and Financial Aid. This information is kept current by directives received from the Administrator of the Veterans Administration, VACO, Washington, D.C.

## CLASS VISITATION

The Provost and Vice President for Academic Affairs and the college dean may visit teaching faculty in the classroom, hoping thereby to stimulate a high quality of teaching.

## POLICY ON GRADES<sup>27</sup>

### RESPONSIBILITY OF INSTRUCTOR: RIGHT OF STUDENT<sup>28</sup>

#### I Responsibility of the Instructor

It is the responsibility of the instructor:

1. To grade students in accordance with the following grading system.
  - 1.1 The record of student performance in courses of undergraduate level in Ball State University is indicated by the following system of letters: A, B, C, D, and F.
  - 1.2 "A" represents work of excellent quality and is recorded for students who do outstanding work.
  - 1.3 "B" represents work of good quality and is recorded for those who do work which is clearly above the average.
  - 1.4 "C" represents work of average quality and is recorded for students who do average work.
  - 1.5 "D" represents work which is below average, but above failure.
  - 1.6 "F" represents work that is not of an acceptable quality. It is recorded (1) when a student fails a course and (2) when a student drops a course after the twenty-third day of a semester or the seventh day of classes in a summer session unless, in the judgment of the instructor, the reasons for dropping the course are such that the student should have a "W." Students who discontinue attending a class for which they are registered will receive an "F" unless they officially (by appropriate signatures) withdraw from the course.

A plus or minus may be appended to the above scale, with the exception of "A+," "F+," and "F-." A plus or minus indicator after the grade indicates quality earned slightly above or below the grading scale.

2. To keep a record of grades for a minimum of one calendar year.
3. To inform the class, very early in the course, the basis on which grades are to be determined.

4. To have information available to a student concerning academic progress throughout the course, insofar as possible.
5. To provide a student with the opportunity to examine and discuss all of the student's work which has been evaluated by the instructor-- tests, papers, reports, special projects, etc.

## **II Right of the Student**

1. To know, very early in the course, the bases on which grades are to be determined.
2. To receive upon request information concerning the student's academic progress throughout the course, insofar as possible.
3. To receive upon request information concerning the instructor's evaluation of all work done by the student in the course--tests, papers, reports, special projects, etc.--which will contribute to the final grade.
4. To know why a grade has been received, including the final grade for the course.

## **III Grades<sup>29</sup>**

1. Near the close of each session of the University, faculty members will be notified from the Office of Registration and Academic Progress of the time when grades for the current session are due. After grades have been submitted, in person, to the office of the chairperson of the department, they will be processed through the Office of Registration and Academic Progress and will be made available for student viewing on the web, and used at once for determining the student's eligibility to attend the next semester or term, to continue in sequential courses, to be recommended for graduation and often recommended for teaching certificate, for transcript of record to be sent elsewhere, and for other purposes. A grade of "NR" will be recorded automatically by the Office of Registration and Academic Progress for any grade not properly reported. Notification of an "NR" grade is sent by the Office of Registration and Academic Progress to the department and to the instructor. If an "NR" grade is not removed by the fifth week of the following (Academic Year) term, the Office of Registration and Academic Progress will automatically change the grade to an F if it is a graded course or NC if it is a credit/no-credit course. The minimum of time has been allowed for all grade processing, and staff often work throughout the night. Should any one faculty member fail to report all relevant grades by the hour they are due, the resulting situation is one of widespread inconvenience. Therefore, it is essential that the faculty submit all grades in the period in which they are due. It is essential that the grades be recorded on the Final Grade Reporting Form or through the web in the proper format. Failure to submit the Final Grade Reporting Form to the Office of Registration and Academic Progress by the specified due date will result in the instructor submitting grades on the Change of Grade Form for each student to the Office of Registration and Academic Progress. Specific and detailed instructions will come directly from the Office of Registration and Academic Progress to all departmental secretaries/administrative coordinators.
2. Students are graded in accordance with the system described in the Catalog. The student's work in a course is to be regarded as finished by the close of the semester or term. Except that graduate students have six years from the beginning of graduate study for the completion of courses RES 697, Research; THES 698, Thesis; DISS 799, Dissertation; and if the work is not completed by the close of the semester or term, the student can be given an "I" until the work is completed or until the six-year period is ended. A student whose work at the close of the semester or term is incomplete because of illness or some circumstances beyond the control of the student may be given an "I" and privileges of completing the work at a later time. Students who withdraw from a course under the terms specified for the mark of "W" may be given "W."
3. The granting of an "I" must be approved at the end of the semester by the department head or chairperson, who retains one copy and sends a copy to the student.
4. It is most important that the conditions for removing the "I" be as specific as possible. Removal of an "I" should be limited to as short a period as possible. If an "I" grade is not removed within the time agreed upon, it automatically becomes an "F." The maximum time permitted for the completion of an "I" grade is twelve calendar months.

After twelve calendar months, an "I" becomes an "F." An exception is made when an "I" grade is given for RES 697, THES 698, DISS 799, or for a graduate or undergraduate course recommended by a department chairperson and approved by the appropriate dean.

#### IV Change of Grade

1. Grades are given by faculty members, and a change of grade can be given only by the faculty member who gave the original grade. Students who feel they have earned a grade different from the one given are referred to the course instructor. If that instructor concludes that the officially recorded final grade should be changed, the instructor will make corrections on the Change of Grade Form which is available in the departmental office. After the instructor signs the Form, the department chairperson signs and forwards the Form to the dean of the college. The dean signs it and forwards the original and all copies to the Office of Registration and Academic Progress. Once the change has been made on the students academic transcript, the student will be notified and all copies of the Form are sent to the appropriate individuals.

#### FINAL EXAMINATION GUIDELINES<sup>30</sup>

1. Each class shall meet during the final examination period except in cases when university electronic exam services are used or where the department chairperson has agreed in writing that such a meeting is not necessary. Faculty using electronic testing services for their final examinations will notify their chairpersons.
2. In cases where instructors are using any university electronic testing service, the exam may be scheduled for any length of time during final exam week but must include the regularly scheduled examination period.
3. Summer School and Intersession final examinations are to be administered on the last regularly scheduled class meeting day.
4. No final examination (the last examination of the term) shall be given prior to the start of the designated Final Examination Period except with written permission of the department/school chairperson and the college dean.
5. Examinations administered during the designated Final Examination Period must be given on the day and at the time listed on the official Final Examination Schedule, unless written permission is obtained in advance from the Director of Academic Systems or when university electronic exam services are used.
6. The time/day for an examination is determined by the first "non-lab" contact of the week listed on the course master schedule.
7. No student will be required to take more than two (2) final examinations in one day. In cases where a student has difficulties in solving this problem, the Provost and Vice President for Academic Affairs or his or her designee shall make the necessary adjustment(s).
8. Requests for GROUP final examinations must be submitted and approved by the Director of Academic Systems, at least seven (7) weeks prior to the publishing of the "Schedule of Classes."
9. If a conflict arises between a GROUP examination time and a regularly scheduled examination time, the regularly scheduled examination takes precedence.
10. The OPEN time slots are primarily reserved for necessary one credit hour course final examinations, for make-up examinations, for arranged classes examinations, and for examination time/day conflicts. Time/day conflicts are to be adjusted in the FALL SEMESTER by the course whose department abbreviation is nearest the beginning of the alphabet and in the SPRING SEMESTER by the course whose department abbreviation is nearest the ending of the alphabet. Other uses of these time slots must be approved by the Director of Academic Systems.
11. Courses meeting for fewer than fifteen (15) weeks must arrange for an "early" final examination or utilize one of the OPEN time slots.

12. With the exception of GROUP and OPEN time slot examinations, all final examinations are to be administered in the room in which the course is scheduled except when university electronic exam services are used. Other exceptions may be granted and conflicts resolved by the Director of Academic Systems.
13. Examinations will begin and end promptly within the scheduled time period.

#### **DISCONTINUANCE OF GRADUATE COURSES<sup>31</sup>**

1. Each college will establish procedures to have each department
  - 1.1 During the spring semester of each academic year identify those graduate courses which (a) have been listed in the Graduate Catalog during all of the immediate preceding six years, and (b) have not been taught during any of this same period;
  - 1.2 Provide a statement for each major so identified recommending either (a) that the course be dropped, or (b) that the course be retained and provide a rationale for the retention.
2. The college approves or disapproves the recommendations from each department. The college dean will then prepare a list of all courses from the college that are to be dropped. The list is sent to the Dean of the Graduate School, not later than the last day of the spring semester. The courses on the "drop" lists will be deleted from the next edition of the Graduate Catalog.
3. If the Dean of the Graduate School questions the retention of a graduate course, the matter is to be discussed with the appropriate college dean. The college dean will refer the questions back to the appropriate department for additional study and justification. If not resolved, the question will be referred to the Graduate Education Committee.

#### **DISCONTINUANCE OF GRADUATE DEGREE MAJORS AND PROGRAMS<sup>32</sup>**

1. Each college will establish procedures to have each department
  - 1.1 During the fall semester of each academic year identify those graduate majors which have not produced a graduate during the last six year period (the Graduate Dean will provide the department chairpersons with such information);
  - 1.2 Provide a statement for each major so identified recommending either (a) that the major be dropped, or (b) that the major be retained and provide a rationale for the retention.
2. The college curriculum committee will consider the recommendations from each department and decide whether the recommendation will be approved or disapproved. The college dean will then prepare a list of all majors from the college that are to be dropped. The list is sent to the Dean of the Graduate School, not later than the last day of the fall semester. The majors on the "drop" lists will then be recommended for dropping by the appropriate department.
3. If the Dean of the Graduate School questions the retention of a graduate major, the matter is to be discussed with the appropriate college dean. The college dean will refer the question back to the appropriate department for additional study and justification. If not resolved, the question will be referred to the Graduate Education Committee. If the Graduate Education Committee decides that a major should be dropped, the appropriate department will be directed to request that majors be discontinued through regular posting.

#### **SELECTION AND PRESENTATION OF LECTURERS OR SPEAKERS BY STUDENT ORGANIZATIONS<sup>33</sup>**

1. Pursuant with policies stated in the Joint Statement by the Faculty Advisory Council, the Ball State Chapter of the American Association of University Professors, the President of the University, and the President of the Ball State University Board of Trustees, adopted in the Spring of 1962, on the selection and presentation of lecturers or speakers appearing on campus under University auspices, the University reaffirms that

- 1.1 Recognized Ball State University student organizations have the privilege of inviting speakers to the campus, subject only to the following provisions.
  - 1.11 The speaker shall refrain from urging the audience to take action which is prohibited by the rules of Ball State University, or which is illegal under federal or Indiana law. Advocating or urging the modification of the government of the United States or of the state of Indiana by violence or sabotage is specifically prohibited.
  - 1.12 The student organization sponsoring the speaker has the responsibility of
    - 1.121 Informing the speaker of provision "1" above;
    - 1.122 Arranging for reservation of space in the Office of the Director of Space Studies and Utilization;
    - 1.123 Completing the form furnished by the Vice President for Marketing, Communication and Enrollment Management listing the subject to be discussed, the names of the speakers, and the time and place of the meeting; the form to be certified by the signature of the appropriate officer of the student organization and the faculty advisor.
    - 1.124 Assisting in insuring that any meeting held on this campus is conducted in an orderly fashion and that any speaker invited to this campus as a guest of the University shall be accorded a courteous hearing and shall not be subjected to unseemly action on the part of those in attendance.
2. It is the responsibility of the Associate Vice President for Student Life, acting in coordination with the Director of Student Organizations and Activities, to certify that all of the above provisions have been complied with by the sponsoring student organization before the event is officially scheduled. In the event an invited speaker fails to comply with "1" above and/or advocates action deemed to be illegal, any action to be taken must be left to regular civilian authorities which administer federal and state laws. In the event the sponsoring student organization violates the provisions listed above, it is subject to the procedures and penalties applicable to students and student organizations which violate other Ball State University rules.

#### **POLICY STATEMENT ON SELECTION OF CAMPUS SPEAKERS<sup>34</sup>**

Ball State University, as an institution dedicated by the people of Indiana to higher education in the truest sense, reaffirms and follows these policies in the selection and presentation of lectures or speakers appearing on campus under University auspices.

1. Persons whose achievements in specific fields of intellectual endeavor have equipped them as recognized authorities in these fields will be brought to the campus for lectures as a planned effort to expand and enrich learning opportunities for University students. This includes the clear obligation of the University to its students to bring speakers who can and will present varying and perhaps conflicting viewpoints covering a vast array of subjects.
2. The selection and presentation of speakers or other programs on campus shall be guided and directed by regularly constituted University agencies operating within the framework of the University's administration. These University agencies will seek presentations appropriate to academic programs and activities of the University and its departments.
3. In all campus affairs the University will insist that the basic freedoms of speech assured in the constitutions of Indiana and the United States not be abridged and that the opportunities of students at Ball State University to know and evaluate conflicting opinions not be diluted under any circumstance. The University also stands ready to defend this freedom for any members of the community regardless of their political or social beliefs.
4. Although individuals or groups on campus or elsewhere may object to the views of a speaker or even to the person's appearance on campus, such objections cannot be allowed to interfere with the University's viewpoints. Individuals or groups outside the framework of the University's administration have the right to select their own sources of information in judging the competence of a speaker or writer. The University reserves the right, however, to be its own judge of the relevance and accuracy of such information.

5. Any lesser practice than is indicated in these policy statements would constitute an abdication of the intellectual assignments Indiana has given Ball State University. Indeed, these policies assure students, faculty members, and interested citizens the finest possible contributions to mutual intellectual needs as well as to local, state, and national citizenship responsibilities.
6. Although we might not always agree with what is said we would be among the first to defend the right of the author to write, the editor to editorialize, the citizen to speak or write letters to the editor, and the preacher to preach.
7. These statements are made so that interested individuals may appreciate the position which an accredited institution of higher education of status, character, and integrity must take if we are to preserve and enhance the American way of life so eloquently stated in our Constitution, the Bill of Rights, the Declaration of Independence, and other documents cherished by all of us.

### **THE STUDENT IN THE UNIVERSITY<sup>35</sup>**

1. The University is a special kind of community--a community marked by a high degree of diversity and mobility, but at the same time, by a constancy and shared purposes among its members. This community's constituency includes students, faculty, and staff in a broad range of age groups and from diverse backgrounds, fulfilling a variety of converging functions, and holding membership in the community for varying periods of time--in most cases for four years or less. Commitment to the pursuit of common goals in an atmosphere of free inquiry and expression is jointly exercised by all members of the University community, the members of the University community having varying functions reflecting their particular competencies. Residents of the state, alumni, parents, and other benefactors also have a stake in the future of the University.
2. Although it is a part of the larger society and as such is subject to many operative forces therein, the University community is and must be dedicated to: the definition and transmission of our cultural heritage; the discovery, application, and advancement of knowledge; service to the best interests of society; and, above all, the development of its students.
3. As a citizen in the University community, the student is both subject and object of community life. The student, while a member of the community, shares with others responsibility for progress toward the attainment of cooperatively developed University goals, and the impact of the student culture is that of a dominant factor in effecting a potent educational environment. Concurrently, the student is the beneficiary of the content as well as the process of higher education. The role of the student is, then, contributor and recipient; and the relationship between the student and other members of the University community--singly and collectively--is basically an educational one, with education broadly conceived. Mutual respect and reciprocal fairness should characterize the relationships among members of the University community.
4. In the academic sphere of University life, the student is entitled to expect the following: competent teaching; courses which are adequately described and relevant, so choices may be made; fair, well-defined, and equitable evaluation practices; an effective voice in the evaluation of class content, structure, and instruction; adequate facilities; respect from teachers and other students; protection from exploitation and capricious actions by faculty and other students; and opportunity for appeal of decisions made regarding the student's academic achievement and/or progress, which are deemed unfair or unreasonable. Also, every desirable and practical measure should be taken to humanize educational programs and procedures, as well as to facilitate personalized student-faculty relationships. The student is expected to take full advantage of available opportunities and to be an active participant in the teaching-learning process. The student should keep in mind that the professors have previously demonstrated a degree of competency in a field of specialty. Respect for this position must at all times be in evidence if the student wishes to command similar consideration for the student's academic rights. While not official University policy, expectations by particular professors are well within the professor's academic freedom and must be respected as such. The professor, on the other hand, should clearly delineate to students the criteria by which they will be evaluated.

5. In the extra class sphere of University life, as in the classroom and laboratory, the University operates on the basis of its own responsibility and authority derived from various sources, not as a parent surrogate.
6. The University community has responsibility for determining and enunciating its own standards, and students, as full members of the community, should participate in all levels of policy formulation relevant to them. Policies and procedures of the University applicable to student life are based on their justification for, and contribution to, the education of students and the well-being of the University community as a whole, with respect to genuine and legitimate educational concerns. In order to effect consistency in the formation and implementation of policies affecting students, communication should be facilitated among and within policy-making bodies, as well as between policy-making bodies and those who implement the policies. Policies and procedures must be applied in ways consistent with the principle of due process, the hallmark of which is fair play for all students regardless of race, sex, religion, or creed.
7. The student is both a member of the University community and a citizen. The student retains basic rights as a citizen when entering the University, while recognizing the assumption of certain additional obligations as a member of that special community. Thus, basic rights as a citizen--freedom of expression, freedom of association, freedom of inquiry, peaceful assembly, and right to petition--will be protected on the campus, with any limitations clearly substantiated as being necessary for upholding applicable laws and/or valid educational considerations. The student is responsible to civil authorities for obeying the laws of the community, just as to the University for adherence to University regulations. The University will not accept remand of a student charged or convicted of violations of local or state laws for the purpose of imposing discipline. Only when a genuine university educational concern or purpose is contravened will the University take action against a student's behavior. And, a student has the right and should have the means to appeal any University action which seems unjustified or capricious.
8. It is expected that all members of the University community will have tolerance for the opinions and respect for rights of others. Therefore, it is essential for the student, as well as for other members of the community, to be fully aware of his or her rights and responsibilities.

### **PET POLICY**

1. General  
The pet is any domesticated or tamed animal that would normally be expected to belong to someone whether or not there is any acknowledged ownership.<sup>36</sup>
2. University Buildings (Except Residence Halls and Student Family Housing) Written authorization is to be obtained from the appropriate Department Chairperson, Dean or Administrative Head involved before a pet may be brought into University buildings. Such authorization is to state the purpose and duration of the activity involving the pet. The authorization is to be in the possession of the owner or person in control of the pet during the time the pet is in a University building.
3. Residence Halls  
Pets are not permitted in Residence Halls with the exception of marine life in fresh water aquariums.
4. University Grounds  
Pets are not permitted on University grounds unless they are appropriately leashed or caged and under the control of and accompanied by their owners or others designated by their owners as having responsibility for the control and care of the pet.
5. Student Family Housing Apartments  
Pets are not permitted in Student Family Housing Apartments with the exception of marine life in fresh water aquariums and small caged birds.
6. Enforcement  
Violations of the University Pet Policy will be dealt with in accordance with University rules governing the conduct of faculty, staff, and students. In addition, violations in the Residence Halls and Student Family Housing Apartments, will have action taken in

accordance with "Conditions of Occupancy" for Student Family Housing, and "Policies of University Residence Halls" for the Residence Halls.

7. Provisions of this policy do not apply to seeing eye or guide dogs or to police or K9 dogs while such animals are performing their duties under supervision.
8. This Pet Policy is in addition to applicable ordinances of the City of Muncie and statutes of the state of Indiana.

## TESTING OF MATRICULANTS

1. Undergraduate matriculating students take a group of entrance tests. These test results are then interpreted to the students during the Freshman Orientation Program. Other tests and inventories are administered at the request of either faculty members or students. For ease in interpretation, all scores are transposed to percentile ranks, both local and national. These percentile ranks are recorded on the students' permanent record cards which, with the students' personnel folders containing the test results, are available to faculty members for examination.
2. Following the administering of the speech and hearing tests, faculty members receive a list of students with hearing losses, marked to indicate whether the student should be seated in or near the front of the room. The Speech and Hearing Clinic provides instruction time for those who need clinical assistance.

## OFFICE OF ACADEMIC ADVISING

Academic Advising at Ball State University is a service provided to assist students in meeting their educational goals. Recognizing that the needs of freshmen are substantially different from those of upperclassmen, the University offers a more comprehensive and personal advising program during the first year. For those students above the freshman level who have declared a program of study, faculty advisors in their discipline are assigned to aid in interpretation of major requirements. Although every effort is made to familiarize students with University requirements, academic progress is ultimately the responsibility of each individual student.

1. The Academic Advising Center
  - 1.1 The Academic Advising Center, located on the third floor of North Quadrangle, is the center for the advising of all freshmen and certain other classifications of students. All students having between 0 and 30 hours are assigned to a professional academic advisor. If the student is a transfer student and has fewer than 30 semester hours completed, he or she is also advised through the Academic Advising Center.
  - 1.2 The Academic Advising Center consists of Freshman Advising, Athletic Advising, Freshman Distinction/Honors Advising, and University College Advising.
2. Advising Center Coordinators
  - 2.1 Advising Resource Centers are located in the Arts and Communications Building, Burkhardt Building, Cooper Physical Science Building, North Quadrangle, Robert Bell Building, Teachers College, and the Whiting Building.
  - 2.2 Each center is staffed by a professional advisor who acts as a center coordinator and is responsible primarily for the administration of the advising program and for data entry and file maintenance. The coordinator also serves as a resource person for faculty advisors regarding advising information, procedures, and techniques.
3. Faculty Advising
  - 3.1 When students complete 30 or more hours or transfer 30 semester hours or more from another institution, they are assigned to a faculty advisor in their major area. If they are undecided on their major, they will remain with advisors in University College until a major is declared. Students who are athletes and/or distinction/honors have, in effect, two advisors: a faculty advisor in their major area and the Athletics Advisor and/or Distinction/Honors Advisor. For upperclassmen, faculty advising is the primary source of academic advising.

## FINANCIAL ASSISTANCE TO STUDENTS

The Office of Scholarships and Financial Aid, in the Student Affairs area, administers the scholarship, grant, loan, and veteran's programs for the University. Faculty members aware of students in financial need should contact this office.

## VETERANS' SERVICES

1. The University Veterans' Advisor is located in Lucina Hall. All veterans' administration forms used in making application for educational benefits must be filed in this office. Questions about veterans' affairs should be directed to this office.
2. In addition, children of disabled or deceased World War, Korean Conflict, and Vietnam veterans are eligible for the exemption from the contingent portion of the general fees each semester as provided by the Indiana General Assembly. Application for this exemption should be made in the Office of Scholarships and Financial Aid.

## INTERNATIONAL PROGRAMS<sup>37</sup>

1. **The Center for International Programs** is responsible for overseeing, encouraging, and evaluating all international programs and activities on campus. These programs and activities fall under five major headings: 1) international admissions programs, 2) international educational services, 3) faculty exchanges and similar international experiences, 4) foreign studies on campus, and 5) joint University/ community international activities.
2. **The International Admissions Office** is responsible for recruiting students from abroad and for handling all related admissions correspondence as well as for evaluating credentials and making admissions recommendations. This office sends students final letters of admission as well as the proper forms for obtaining visas. It also coordinates arrangements for living accommodations and financial support with the relevant offices, cooperates with the English Department in identifying those students needing remedial help with the language, and provides orientation services as well as developing other activities, such as the host family program, for fully integrating the foreign students into the University and larger communities. The office is always available to help foreign students with their problems or for consultation with individual instructors concerning specific problems that may arise regarding foreign students.
3. **The International Educational Services Office** compiles and makes available to students information on the widest possible range of study abroad opportunities, whether those involve the various "Ball State Abroad" programs (such as the London Centre), programs offered by various consortia to which we belong, exchange and fellowship opportunities, or programs offered by other universities. It also offers students assistance in applying for these programs and issues international student identification cards.
4. The Center for International Programs provides guidelines for establishment of international academic exchanges and oversees selection of participants. Official coordinators for each existing exchange agreement are appointed by the director of the Center, and these individuals are available for consultation by those interested. Information is available on other opportunities for faculty to obtain experience abroad as well.
5. The Center is interested in encouraging a very broad range of opportunities for foreign studies on campus, including, for example, the development of new courses for the global studies component of university core curriculum. The Associate Director for International Admissions and Sponsored Programs also acts as coordinator of the regional studies programs on campus--currently Asian Studies and Latin American Studies.

6. In all the areas for which the Center is responsible, the staff stands ready to help interested parties in any way possible, whether it be with advice, information, or assistance in identifying possible sources of funding for the development or support of international programs and activities.

### **CAREER CENTER**

1. The University conducts a career center for students and alumni. The flow of employing officials through this office and the hundreds of requests for personnel received daily are some indication of the extensive activity within the area.
2. During the year students and alumni will ask faculty members to submit references to Career Center to be used by Career Center in recommending for teaching and other positions. An honest appraisal of the individual for whom a reference is given is essential, for employing officials rely heavily on the references, and their confidence in the evaluations is strengthened when they find in subsequent associations with the University graduates that their capabilities and weaknesses had been identified in the references.
3. Individual faculty members may learn of vacancies in the field and may be asked about candidates. All such requests should be referred to Career Center so that an efficient, central placement system can be maintained. This will also provide an accurate supply demand figure for state and national reports.

### **HEALTH CENTER<sup>38</sup>**

The Health Center is staffed with licensed doctors and nurses to care for the health needs of most enrolled students. Each new student is required to submit a completed student health form to the Health Center and to comply with disease prevention measures as required. It is essential that each student fulfill health requirements. Failure to comply can result in cancellation of enrollment.

### **COUNSELING STUDENTS**

Students in need of academic, vocational, or personal counseling should be referred to the Counseling Center, which is organized under the Vice President for Marketing, Communication and Enrollment Management. A faculty member who wishes to refer a student for some other type of personal assistance should contact the Office of the Vice President for Marketing, Communication and Enrollment Management.

### **REHABILITATION ASSISTANCE FOR STUDENTS**

Students with physical defects may receive assistance from the State of Indiana Vocational Rehabilitation Division. A representative of that agency has an office at 201 E. Charles Street, Suite #130.

### **BURRIS SCHOOL**

1. The laboratory school of the University, Burris School, is an area of particular significance in this University. The academic staff of the University should be familiar with its program and should utilize its resources in the University academic program. It is an area of demonstration of teaching of public school students from kindergarten through high school levels. For the teacher and prospective teacher it is of inestimable value in learning through observation and participation.
2. Student teaching is done in other public schools of Muncie and Delaware County and in other urban and rural schools of the state of Indiana.

## **MUSEUM OF ART<sup>39</sup>**

The Museum of Art, located in the Fine Arts Building, houses an excellent collection of eighteenth, nineteenth, and twentieth Century art works and select examples from many diverse eras and cultures which are on permanent display. The temporary galleries are used for traveling shows, as well as special exhibits from the gallery collections. The gallery is open free to the public and its staff offers guided tours by appointment.

## **OUTDOOR LABORATORIES IN SCIENCE**

1. Christy Woods, on the west campus, and Sixteen Acres, a wooded area crossed by a stream southwest of the campus, are maintained by the University as laboratories for students of plant and animal life. Both areas are open to students and staff during daytime hours. A faculty member who wishes to make special use of either laboratory should make arrangements through the Office of the Chairperson of the Department of Biology.
2. The Esther L. Cooper and Robert H. Cooper Woodland Area on Bethel Pike is a 31.48 acre gift to the University for use by the Department of Biology as a wild life and research study area. Located two miles northwest of the campus, the Cooper Woodland Area includes open fields and a forested area for the use of undergraduate and graduate students in the fields of biology, taxonomy, and ecology. This outdoor laboratory provides the Department of Biology with an ideal site for the study and collection of upland type vegetation.
3. Ginn's Woods, an outdoor laboratory-classroom located approximately 10 miles from the campus, is a beech-maple forest of approximately 111 acres, which has never been grazed nor burned, nor has it had significant logging in the past half century. This rich natural area is used extensively by science students for field trips and research.

## **STUDENT ORGANIZATIONS<sup>40</sup>**

1. All student organizations are required to have faculty advisors. The faculty advisor, as an official representative of the University, assumes responsibility for working on a continuing basis with the student organization in accordance with the policies of the institution.
2. Recognition of new student organizations is granted by the Student Government Association and the Student Activities Committee.
3. Policies related to student organizations are implemented through the Office of Student Life in coordination with the Student Government Association, the Student Activities Committee, and appropriate coordinating councils.

## **CONVOCATIONS, ARTIST SERIES, CONCERT SERIES**

1. The University arranges a convocation series, the Artist Series, the Concert Series, and the Focus on Culture Series for the enlightenment, education, and entertainment of students and staff. These are scheduled primarily in the evening.
2. Students are encouraged to attend; however, students with class conflicts should arrange with the individual faculty member regarding the feasibility of class absence.

## **SPECIAL EVENTS ON CAMPUS**

1. The University and its various areas sponsor many conferences, meetings, and other programs on campus-some educational, some cultural, and some for other purposes; and

many outside organizations hold meetings and other special events at the University. Faculty and students are encouraged to attend most of the open meetings.

2. All special events must be scheduled and arranged for, because often many facilities of the University are involved. Therefore, arrangements for physical facilities for conferences should be made with the Director of Conferences and Special Events.
3. Any group or organization wishing help in planning a program for a special conference or workshop should consult the Dean of the School of Extended Education.
4. Faculty members have been elected on the basis that they have something to contribute as a person as well as a teacher. They are expected to attend many of the special events on campus and often to participate. Many University functions cannot be a success unless faculty members are there by choice.

### **EXAMINATION, SCANNING, AND EVALUATIONS SERVICES**

1. The Examination, Scanning, and Evaluations Services is intended to provide individuals with information and with assistance which will contribute to the improvement of academic management at Ball State University. The Examination, Scanning, and Evaluations Services will be operated to achieve positive goals and will be concerned with the enhancement of those aspects of teaching and academic management which appear to contribute to an individual's effectiveness in his or her specific job.
2. Ball State University's Examination, Scanning, and Evaluations Services is designed as a service program for academic and administrative personnel of the University. The goals of the program are (1) to provide individuals with data which may enable them to assess more efficiently the effectiveness of their roles, and (2) to initiate activities which will assist individuals who wish to enhance certain of their professional competencies. The evaluation service is voluntary, and the results of evaluations will be released only to the individuals evaluated.
3. All faculty, graduate assistants, doctoral fellows, and other individuals involved in teaching University classes are invited to participate in student evaluation of instruction. All persons having administrative responsibilities may also avail themselves of the Examination, Scanning, and Evaluations Services in a manner appropriate to their assigned responsibilities.

### **COMMENCEMENT<sup>41</sup>**

1. Commencement is an occasion marked by tradition and ceremony for the purpose of recognizing academic achievement and excellence. To ensure that a large number of faculty join with the students in this recognition, each department of the University will assign at least 50 percent of its faculty to attend each Commencement. For the summer commencement, the faculty in attendance will be the summer session faculty.
2. Information concerning rental of caps, gowns, and hoods is available at the Ball State Bookstore.

### **BALL STATE UNIVERSITY INTERCOLLEGIATE ATHLETICS<sup>42</sup>**

**STATEMENT OF PRINCIPLES FOR INTERCOLLEGIATE ATHLETICS AT BALL STATE UNIVERSITY<sup>43</sup>**

**I Intercollegiate Varsity Athletics**

For a sport to be admitted to varsity status, it must meet the following criteria.

1. Student Interest in Sport. Interest in the sport must have been aroused in the students to the extent that they want it as an intercollegiate activity.
2. Available Competition. Sufficient competition in the sport with other institutions must be available for the scheduling of at least the minimum number of contestants required by the Mid-American Conference and the NCAA.
3. Financing the Sport. Determination must be made as to the feasibility of financing the sport.
4. Facilities. Adequate facilities must be available for use.
5. The Athletics Committee may recommend addition to or deletion of a sport from current varsity sport offerings.

6. The intercollegiate varsity athletic program for men consists of competition in seven sports: baseball, basketball, football, golf, swimming and diving, tennis, and volleyball. The intercollegiate varsity program for women consists of competition in twelve sports: basketball, cross-country, field hockey, golf, gymnastics, indoor track, outdoor track, soccer, softball, swimming and diving, tennis, and volleyball. Intercollegiate varsity athletics for men are administered by the Director of Intercollegiate Athletics for Men and intercollegiate varsity athletics for women are administered by the Director of Intercollegiate Athletics for Women.
7. Coaches and staff members of Ball State University's athletics department shall comply with the National Collegiate Athletic Association (NCAA) and Mid-American Conference (MAC) rules and regulations. It is important that this compliance commitment be determined as early as possible in a search process, and the NCAA is to be contacted before an initial contract offer is made by an athletic director to a prospective head coach. A contract offer will ordinarily not be made to a prospective head coach who is currently under official sanction by the NCAA.

Coaches of varsity sports are appointed by the President of the University upon the recommendation of the respective Athletic Directors and Executive Assistant to the President.

## **II Financing of the Athletic Program**

1. The financial aspects of the intercollegiate athletic program are administered in accordance with policies and practices required by the chief financial officer of the University. Income is derived from 1) designated funds, such as student fees, 2) gate receipts, 3) guarantees from competing colleges, 4) gifts, and 5) miscellaneous. (The parking fee is representative of the miscellaneous type of income.) The particular portion of designated funds used for the support of the intercollegiate athletic program is set annually by the Board of Trustees and President of the University. Currently, admission is charged in football and men's basketball; in the future, admission may be charged for other sports. All students receive admission without charge to all regular home varsity athletic events upon the presentation of the student identification card. Admission charges may, however, be required for all attending National Collegiate Athletic Association Championships, conferences, and other special athletic events.
2. The collection and disposition of revenue as well as payments for all supplies, services, equipment, scholarships, and grants-in-aid are processed through the regular business channels of the University. Expenditures are approved by the Assistant to the President on the recommendation of Athletic Directors. Sound fiscal policies must be maintained by all persons who have been delegated such responsibilities.

## **III Athletic Associations, Affiliations, and Representation**

The nature and governance of the national athletic associations and conference affiliations for both men's and women's intercollegiate athletics are contained in this portion of the policies controlling intercollegiate athletics at Ball State University.

1. Ball State University is a member of the National Collegiate Athletic Association, the major regulatory association for intercollegiate athletic competition; as a member institution, Ball State University must administer the intercollegiate athletic program in conformity with the rules and regulations of the NCAA.
2. Ball State University is a member of the Mid-American Conference and as such must conform to and administer the intercollegiate athletic program within the limits of the Constitution, Bylaws, and Operating Code adopted by the Conference.
3. Ball State University is a member of the Midwest Intercollegiate Volleyball Association, a voluntary organization of institutions that sponsor volleyball teams; the purpose of the association is to provide standards and regulate the play of volleyball.
4. Ball State University shall be represented in the Mid-American Conference and the National Collegiate Athletic Association by the same University representative. The University representative is elected by the University Senate. The nominations for the University representative shall be the responsibility of the Governance and Elections

Committee of the University Senate upon the recommendation of the Athletics Committee. The initial term of office for any representative is for five years. Subsequent terms are for three year periods. The candidate(s) nominated need not be a member(s) of the Athletics Committee or the University Senate. The representative shall be prepared to make regular reports to both groups. The University representative will be an ex officio member of the Athletics Committee.

## **GUIDELINES ON FUND-RAISING ACTIVITIES<sup>44</sup>**

### **I Policy**

1. Solicitation of funds, grants, contracts, or property may be made for the benefit of the University, or any agency thereof, with approval of the President or his or her designated representative and within the general guidelines and specific programs outlined henceforth.
2. Any dean, director, faculty, or staff member who wishes to undertake any type of fund raising program or solicitation of contributions in the name of the University from alumni, business, industry, foundations, or friends, or who seeks to establish a fund-raising program, such as "Associates," "Friends," or similar groups, should follow the guidelines established for this purpose.

### **II General Guideline**

Before undertaking informal discussions with any potential donor or sponsor for the support of a new program, of the construction or modification of a building, there should be conversations with the appropriate Vice President or his or her designated representative. If and when it appears to be timely to submit a formal request in writing, this should be reviewed by the same Vice President, who before authorizing its submission, may take it to Senior Staff, the President, and/or Board of Trustees for approval, or utilize other usual channels for its approval.

### **III Specific Programs**

1. Any written request involving the planning, construction, or expansion of a University building, regardless of the source of funding, should be submitted to the Master Planning and Facilities Committee. Detailed instructions on the nature and method of presentation will be furnished.
2. Any major academic program request for funding to be made to a foundation, should first be submitted to the appropriate College Dean, for approval and forwarding to the Provost and Vice President for Academic Affairs or his or her designated representative for review and presentation to the President. This excludes those proposals which are channeled normally through the Office of Academic Research and Sponsored Programs.
3. The Office of University Development is responsible for planning, directing, and coordinating the University's gift-seeking activities.
4. The Ball State University Foundation shall deposit all gifts promptly and issue receipts for use in the acknowledgement process. The Foundation will also record all gifts for data processing purposes.

This responsibility encompasses private gifts of cash, securities, property, equipment, etc., received by any unit of the University for any purpose except programs already recognized and approved.

5. To insure that all the University's fund-raising efforts are properly coordinated and to protect alumni and friends of the University from an excessive number of University solicitations, any written request to undertake a fund raising program or solicitation of contributions from alumni, friends, business, industry, or the local community, should first be submitted to the Executive Director of University Development for review and presentation to appropriate administrative directors.
  - 5.1 Included in this category are the following:
    - 5.11 Plans to raise funds from alumni on an annual, recurring basis, similar to or as a part of the Alumni Fund solicitations. This does not pertain to fund-raising programs already recognized and approved;
    - 5.12 Establishment of an "Associates" or "Friends" program designated to solicit financial support;

- 5.13 Special fund-raising efforts appealing to the University's constituencies in behalf of scholarships, memorial funds, fellowships, aid programs, professorships, endowed chairs, etc.;
- 5.14 Plans to add or reassign faculty or staff members, or to retain outside professional counsel to conduct fund raising activities in the University's name.
- 5.2 Upon approval of the fund-raising activity, the Executive Director of University Development will assist in the preparation of final plans for implementation and will coordinate the leadership and solicitation(s).
- 5.3 Since the Ball State University Foundation has been established to serve as the fund-raising organization for the University, all donors should be encouraged to make their gifts to the Foundation. Checks should be made payable to Ball State University Foundation.

**IV Acceptance and Handling of Gifts**

- 1. The Vice President for University Advancement, in consultation with other University faculty and administrators, will be responsible for the determination of acceptability of a proposed private gift to the University for which the donor desires a tax deduction. If a gift is unacceptable because of restrictions a donor has placed on its use, the donor will be counseled to remove or modify the restrictions. If the conditions of the gift are still unacceptable to the University, the gift will be returned to the donor.
- 2. When real estate, equipment, books, manuscripts, or other gifts-in-kind are given to the University with the intent of a tax deduction, they will be appraised by at least two knowledgeable appraisers furnished by the donor; and an average of the two appraisals will be used as the value at date of gift. Appraisals and a report concerning the department receiving the gift should be submitted to the Executive Director of University Development.
- 3. The Vice President for University Advancement will forward this report to the Ball State University Foundation for receipting and acknowledging the gift and to the Director of Purchasing in order that the gift can be inventoried. It is recommended that a University employee not be used for an appraisal unless that person is considered to be the most qualified to make an appraisal. The Director of Purchasing or Vice President for University Advancement may be consulted as to available appraisers if a department has questions concerning the appraisal procedure.
- 4. Gifts-in-kind to the University and acknowledged by the Ball State University Foundation will be inventoried by Ball State University.

**V Acknowledgement of Gifts**

- 1. All Gifts will be acknowledged by the President of the University or his or her designee and University and officially receipted by the Ball State University Foundation. Department chairpersons, administrators, or faculty members involved with the program benefited also may write a letter of appreciation.
- 2. Gifts-in-kind will be officially acknowledged by the President of the University and receipted by the Ball State University Foundation. Department chairpersons, administrators, or faculty members involved with the program benefited also may write a letter of appreciation.

**VI Unsolicited Gifts**

Gifts proffered to the University, or to one of its agencies, may be accepted by the agency involved which will report such a gift promptly to the Office of University Development in order that the gift may be officially reviewed and accepted as indicated in the foregoing provisions.

**VII Unusual Circumstances**

If a faculty member or an administrator finds an unusual opportunity to suggest a gift to the University that can fit within the above indicated procedures, he or she may do so, indicating to the prospective donor that University agencies are required to review the gift before its final official acceptance.

## SECTION V

### CODE OF STUDENT RIGHTS AND RESPONSIBILITIES

#### INTRODUCTION

The vision of Ball State University is, in part, to be “a learner-centered and socially responsible academic community.” Therefore, Ball State University expects and requires all of its students and their guests to cooperate in developing and maintaining high standards of scholarship and conduct. Upon entrance into the University, students are not only presented with many rights, privileges, and opportunities, they are also faced with attendant responsibilities. In order for students to live and learn in harmony with others in the University community, they must assume responsibility for their actions and respect the rights and beliefs of others.

The University community is not a sanctuary from the law and all students of the University are subject to local, state and federal laws. In addition each individual is obligated to protect the University as a forum for the free expression of ideas.

*The Code of Student Rights and Responsibilities* outlines behaviors expected of students at Ball State University and methods used to judge student behavior fairly according to these standards. The standards of conduct apply to students while on the campus, when attending University-sponsored events, or when such conduct involves the security or integrity of the University community.

The resolution of complaints for violation of *The Code of Student Rights and Responsibilities* may vary according to the location of the alleged violation, the complexity of the circumstances of the complaint, or the relative seriousness of the complaint. Offices and departments will routinely consult to determine the most appropriate venue for adjudication. Regardless of where a complaint is resolved, the purpose of this code is, in part, to provide an educational framework for students so that they may make responsible choices regarding their behavior in this academic community.

#### **I. Bill of Rights and Responsibilities**

##### **1.1 Preamble**

Students of the University have an obligation to fulfill the responsibilities incumbent upon all citizens, as well as the responsibilities of their particular roles within the academic community. All students share the obligation to respect:

- The fundamental rights of others as citizens;
- The rights of others based upon the nature of the educational process;
- The rights of the institution; and
- The rights of students to fair and equitable procedures determining when and upon whom penalties for violation of campus regulations should be imposed.

##### **1.2 Student's Relation to Civil Law**

As citizens, students of Ball State University enjoy the same basic rights and are bound by the same responsibilities to respect the rights of others as all other citizens.

Among the basic rights are freedom of speech, freedom of press, freedom of peaceful assembly and association, freedom of political beliefs, and freedom from personal force and violence, threats of violence, and personal abuse.

Freedom of the press guarantees there will be no censorship of students or of any other individuals in the Ball State community. Professional journalistic standards encourage the public's right to know, accepted ethical practices, accuracy, objectivity, and fair play; students and other individuals in the University community are encouraged to follow these standards.

It should be made clear in writings and broadcasts that editorial opinions are not necessarily those of Ball State University or its students.

The campus is not a sanctuary from local, state, and federal law.

The University does not stand *in loco parentis* for its students.

Admission to and employment by the University shall be in accord with the provisions against discrimination in local, state, and federal law.

### **1.3 Student's Relation to Community**

- 1.3.1** Students attending the University take on responsibilities not only of campus citizenship but also community citizenship. When community standards are not respected and upheld by students, unpleasant and undesirable conflicts between students and other community residents result. Such conflicts are destructive to human relationships in the community and detrimental to the image of the University, as well as to the reputation of the student body. Students are also subject to legal sanctions when they violate local, state, and federal laws or otherwise infringe upon the rights of others.
- 1.3.2** Students shall conduct themselves responsibly in the community, respecting the personal and property rights of all residents. It is to the advantage of the student body, as well as in the best interest of the University and the community, for everyone to work together to maintain community standards and to build good relations among the citizenry.

### **1.4 Student's Relation to University**

Ball State University as an institution of higher education and any division or agency which exercises direct or delegated authority for the institution has rights and responsibilities of its own, including:

- 1.4.1** Obligation to provide opportunities for students of the University to present and debate public issues.
- 1.4.2** Obligation not to take a position as an institution in electoral politics.
- 1.4.3** Right to require that persons on the campus be willing to identify themselves by name and address and state what connection, if any, they have with the University.
- 1.4.4** Right to establish reasonable standards of conduct for all persons on the campus in order to safeguard the educational process and to provide for the safety and welfare of its students, visitors, and University property.
- 1.4.5** Right to prohibit individuals and groups who are not students of the University from using its name, its finances, and its physical and operating facilities for political activities, or for commercial activities, except as specifically agreed to in writing by the proper authorities of the University.
- 1.4.6** Right to prohibit students of the University from using its name, its finances, or its physical and operating facilities for commercial activities, except in cases involving recognized student and faculty groups as provided for in policies governing use of the campus facilities and fund-raising activities.
- 1.4.7** Right and obligation to provide, for recognized student groups of the University, the use of campus facilities under the rules of the campus, including use for political purposes such as meeting of political clubs; to prohibit use of its facilities by individual students or student groups on a regular or prolonged basis as free headquarters for political campaigns; and to prohibit use of its name and its finances for any political purpose at any time. Use of other resources for political purposes must comply with existing local, state and federal laws.

## **1.5 Academic Freedom**

- 1.5.1** Academic freedom is a foundation of any University community. The affirmation of academic freedom of students should be accepted as a reciprocal understanding among the individual student or groups of students and the faculty and administration. The student is not only privileged to think independently but, in the tradition of a University, is responsible for developing independent thinking. The University seeks to provide and maintain an academic climate which is conducive to learning.
- 1.5.2** Ball State University, as an institution of higher education, reaffirms the following policies, insuring the academic freedom of students:
- a. That students have the right to the best education possible;
  - b. That students have the rights and responsibilities for participation in policy and decision making and implementation in areas affecting student welfare;
  - c. That students have inherent rights to the establishment and practice of representative self-government as set forth in the Constitution of the Student Government Association of Ball State University;
  - d. That students have rights to and means whereby they may communicate their ideas and concerns to responsible authorities in the University;
  - e. That students have the right to ready access to the spoken and printed word;
  - f. That students have the right to express their thoughts and judgments concerning the professional competency of the faculty and professional personnel.
- 1.5.3** *If a student is concerned about any issue in the classroom, including a perceived academic freedom issue, the student may*
- a. Consult with the assistant to the dean of student affairs/ombudsperson in the Office of Vice President for Student Affairs and Dean of Students to explore options available to the student.
  - b. Options available to the student include:
    - 1) The student may meet with the faculty or staff person to discuss the student's concerns and to come to an understanding about the situation.
    - 2) If resolution is not satisfactory, the student may request a meeting with the individual's department chair or supervisor to discuss the concern further.
    - 3) The chairperson or school director, will meet with all parties involved and will determine an appropriate resolution, conclusion or recommendations about the issue. The chairperson or school director will keep a written record of the issue and the conclusions and recommendations.
    - 4) If the student's concern involves a grade appeal issue, the student may be referred to the grade appeal process outlined in the Student Code 6.5.

## **1.6 Additional Rights and Responsibilities**

All students of Ball State University have other responsibilities based upon the nature of the educational process and the requirements of the search for truth and its free presentation. These rights and responsibilities include the following:

- 1.6.1** Obligation to respect the freedom to teach, learn, and to conduct research and publish findings in the spirit of free inquiry (i.e., without detriment to or denigration of other, especially untried, methods and/or subjects of inquiry).
- a. Institutional censorship and individual or group intolerance of the opinions of others are inconsistent with this freedom, it being understood that assigning priorities or ranking to investigative programs may be an administrative necessity.
  - b. Freedom to teach and learn implies that students, faculty, and administrators have the responsibility to respect and consider suggestions without detriment to grade or positions of the persons submitting them.
  - c. Free inquiry implies that faculty and/or faculty-directed student research-the results of which are predestined for classification under the National Security Act - may be conducted only under the conditions imposed by the statements in the *Faculty and Professional Personnel Handbook*, "On preventing conflicts of interest in government sponsored research at universities" and with prior knowledge of the intended restrictions to be placed on the distribution of the results.

- 1.6.2** Obligation not to infringe upon the right of any of the members of the University community to privacy in office, laboratories, and residence and in the keeping of personal papers, confidential records and effects, subject only to the local, state and federal law and to conditions voluntarily entered into. Permanent records will not contain information concerning religion, political or social beliefs, and membership in any organization other than honorary and professional organizations directly related to the academic processes, except upon expressed written request of the student in question.
- 1.6.3** Obligation not to interfere with the freedom of members of the University community to pursue normal academic and administrative activities, including freedom of movement.
- 1.6.4** Obligation not to interfere with the freedom of any member of the University community to hear and to study unpopular and controversial views on intellectual and public issues.
- 1.6.5** Right to identify oneself as a student of the University and a concurrent obligation not to speak or act on behalf of the institution, or any group of students therein, without authorization.
- 1.6.6** Right to hold public meetings in which students participate, to post notices, and to engage in peaceful, orderly demonstrations. Reasonable and impartially applied rules, designed to reflect the academic purposes of the institution and to protect the safety of the campus, shall be established regulating time, place, and manner of such activities and allocating the use of facilities in accordance with (1) Policy Concerning Distribution, Solicitation, Fund Raising, Sales, and Commercial Activity on University Property - Office of the Vice President for Business Affairs; (2) Policy on Selection and Presentation of Lecturers or Speakers by Student Organizations - *Faculty and Professional Personnel Handbook*; (3) Policy on Special Events on Campus - *Faculty and Professional Personnel Handbook*.

- 1.6.8** Obligation to maintain an environment conducive to respect for the rights of others and fulfillment of academic responsibilities.
- 1.6.9** *Right to Funeral and Bereavement Leave*
- a.** Students will be excused from class for funeral leave in the event of the death of a member of the student's immediate family or household, including: father, mother, husband, wife, son, daughter, grandfather, grandmother, grandchild, brother, sister, father-in-law, mother-in-law, daughter-in-law, son-in-law, stepfather, stepmother, stepson and stepdaughter. The number of excused absences allowed is determined by the distance of funeral services from Muncie, Indiana, as follows:
- Three work days** - Within 150 mile radius of Muncie  
**Four work days** - Between 150-300 mile radius of Muncie  
**Five work days** - Beyond 300 mile radius of Muncie  
**Seven work days** - Outside of North America
- If the student is unable to attend the funeral services, the student will be allowed three work days for bereavement.
- b.** In the event of the death of a student's stepmother-in-law, stepfather-in-law, brother-in-law, sister-in-law, uncle, aunt, nephew, and niece, students will be allowed one work day.
- c.** A student may contact the Office of the Dean of Students to request that an informational notice (without verification) be sent to the student's instructor(s). The student will provide documentation to each instructor. Given proper documentation, the instructor will excuse the student from class and provide the opportunity to earn equivalent credit for assignments missed. If the student is not satisfied with the outcome, he or she may appeal as outlined in the Ball State University's Procedure for Student Bereavement Appeals.

The accused student organization or the complainant may challenge a Hearing Board member on the grounds of conflict of interest or personal bias. The decision whether to disqualify a challenged member shall be made by a majority vote of the remaining members present. If a challenge is upheld, the chairperson may, at his/her discretion, either appoint another person to fill the vacancy or direct that the vacancy not be filled. In the latter case, a quorum shall thereafter consist of the remaining members of the Hearing Board.
- h. **Conduct of the Hearing.** The hearing shall be conducted in an informal manner and without reference to rules applicable to a court of law concerning the examination of witnesses and admissibility of evidence, but with a view toward providing the Hearing Board with a complete understanding of the facts involved. Irrelevant, immaterial, and unduly repetitious evidence may be excluded. The hearing and the deliberations of the Hearing Board shall be private. The Office of the Director of Student Organizations and Activities shall make a record of the hearing which may be reviewed in that office by a designated representative of the accused student organization upon request. Decisions of the Hearing Board shall be made by majority vote.

#### 6.5 GRADE APPEALS - Introduction

This process includes any appeal of a final grade (pass-fail or letter grade) for a classroom course, field experience, clinical, student teaching, practicum, internship or externship. *Appeal of removal from a course in the middle of a term (involuntary withdrawal) would be subject to departmental procedures, not the grade appeal process, unless a failing grade was issued.* Students considering an appeal of a final grade are encouraged to meet informally with their instructor before submitting a written appeal.

**NOTE: Time deadlines in the following procedures are intended to provide a framework for the grade appeal process and may be extended, as circumstances warrant, by the Director of Student Rights and Community Standards or by the Associate Provost.**

##### 6.5.1 Department Grade Appeal Process.

- a. **Meeting with instructor.** A student wishing to appeal a final grade must inform the instructor or, in his or her absence, the department chairperson, within ten (10) business days after the final grade is posted by the Registrar's Office. The student's request for review of the grade must be submitted in writing (via letter or email) to the faculty member. The faculty member or, in his or her absence, the department chairperson, must respond via letter or email with a decision regarding the student's grade within five (5) business days after receipt of the request.
- b. **Resolution by department chair:** If the matter cannot be resolved with the faculty member, the student may notify the department chairperson within five (5) business days after the date of the instructor's response. This notification shall be made via letter or email to the department chair and should outline the nature of the dispute. The department chairperson will then attempt to resolve the dispute. If resolution is successful, the department chair shall inform the student and the faculty member of the nature of the resolution in writing. If the matter cannot be resolved, the department chairperson shall notify the student via letter or email. Either notification must

be made within five (5) business days of the student's contact with the department chair. The student may then choose to proceed with a university appeal.

#### 6.5.2 University Grade Appeal Process

- a. **Notification of intent to appeal:** If the matter cannot be resolved satisfactorily at the departmental level, the student may request consideration of a grade appeal hearing. To do so, the student must submit a formal appeal of the grade in writing to the Office of Student Rights and Community Standards within five (5) business days after notification from the department chairperson, clearly stating the basis for appeal and providing supporting argument. The Director of Student Rights and Community Standards or his/her designee shall solicit a written response from the instructor. Within five (5) business days after receipt of the written appeal in the Office of Student Rights and Community Standards, the director or designee, in collaboration with the associate provost or designee and the vice president of the Student Government Association, will make a decision on whether to refer the appeal to the University Grade Appeal Committee for a hearing. The decision to refer or not to refer shall be based upon the student's compliance with grade appeal procedures, the written request for appeal and the criteria cited within the written appeal. If the decision is not to forward the appeal to a hearing, the matter is concluded.
- b. **Basis for Grade Appeals.** The University Grade Appeal Committee will only address those appeals for which a procedural or fairness issue is in question. The criteria for a grade appeal are:
  - 1) An obvious error in the calculation of the grade.
  - 2) The assignment of a grade to a particular student by application of more exacting or demanding standards than were applied to other students in the course.
  - 3) The assignment of a grade to a particular student on some basis other than performance in the course.
  - 4) The assignment of a grade by a substantial departure from the instructor's previously announced standards.

**NOTE:** This appeal procedure is not to be used for a review of the judgment of an instructor in assessing the quality of a student's work.

#### 6.5.3 University Grade Appeal Committee

The University Grade Appeal Committee hears grade appeals referred to it by the Office of Student Rights and Community Standards. It is composed of fourteen (14) members; seven (7) shall be students and seven (7) shall be University faculty members.

- a. **Student Membership.** The student membership will include one undergraduate or graduate student appointed by each of the seven college deans for a one year appointment to assume their committee responsibility at the start of the fall semester and serving for one academic year. A student member may serve an unlimited number of terms.

- b. **Hearing Board Moderator and Advisor.** The hearing shall be moderated by the associate provost or designee. The Director of Student Rights and Community Standards or designee will be present at all hearings as a non-voting procedural consultant to the Hearing Panel and will make a record of the proceedings.
- c. **Notice of Hearing.** If a hearing is to be held, the student and the faculty member who assigned the grade being appealed will be notified in writing of the date, time, and place of the hearing at least five (5) business days in advance. In case of an absent instructor, the department chairperson, with consent of the absent instructor, shall appoint a faculty member from the department or himself or herself to represent the instructor at the hearing. The Panel may delay judgment if neither the faculty member nor a representative is available for the hearing, if such a presence, in the opinion of the Hearing Panel, is necessary to the decision.
- d. **Presentation of Case.** The presentation of the case is the responsibility of the student and the burden

- of proof is on the student. The instructor shall be provided an opportunity to respond to the student's claim and to present evidence in support of his or her original grade decision. Each presentation is not to exceed 15 minutes in length. Both sides will also have an opportunity to call witnesses with information pertaining to the appeal criteria cited by the student.
- e. **Access to Information.** The hearing Panel will have access to pertinent information in the case and may request additional information from either party or call additional witnesses as needed to render a decision.
  - f. **Multiple Appeals.** If two (2) or more members of a class appeal their grades, the Panel may elect to hear the appeals individually or collectively.
  - g. **Disqualifications; Challenges.** Any panel member shall disqualify himself or herself if he or she has a conflict of interest with the case or with the student or believes he/she may have a personal bias. The student or instructor may challenge a panel member on the grounds of conflict of interest or personal bias. The burden of proof is on the challenger. The decision regarding disqualifying a challenged member shall be made by a majority vote of the remaining members present. If a challenge is upheld, the associate provost or designee has the discretion to either appoint another person to fill the vacancy or direct that the vacancy not be filled. In the latter case, a quorum shall thereafter consist of three-fourths (3/4) of all remaining members of the panel.
  - h. **Conduct of Hearing.** The hearing shall be conducted in an informal manner and without reference to rules applicable to a court of law concerning the examination of witnesses and admissibility of evidence, but with a view toward providing the Panel with a complete understanding of the facts involved. Irrelevant, immaterial, and unduly repetitious evidence may be excluded. The hearing and deliberations of the committee shall be private.
  - i. **Advisors.** The student and the faculty member shall each have the right to have one person of his or her choice present as an advisor in the hearing. That person must be a student, faculty or staff person of the University or (in the case of the student) his or her parent. The advisor may not participate directly in the hearing and is only present to consult with or support the student or faculty member involved.
  - j. **Continuances.** The Panel, by majority vote, may continue the hearing to a later time or times.
  - k. **Additional Rules.** Procedural rules not inconsistent with these procedures may be established by the Panel from time to time to insure that the hearing is conducted in a fair and orderly manner.
  - l. **Confidentiality of Appeal Hearing.** Panel members shall not retain in their possession any personal files, materials received during the appeal procedure, or notes taken during the meetings of the University Grade Appeal Committee. No party, panel member, or other participant or observer in the appeal procedure shall reveal any facts, documents, or testimony gained through participating in or observing the hearing to any other person, unless required by a court of law to do so or upon the advice of the University's legal counsel.
  - m. **Hearings During Summer Session and Breaks.** To insure the functioning of the University Grade Appeal Committee during Summer Session and at other times when regular classes are not in session, the Associate Provost or his/her designee may convene a hearing with a minimum of three persons chosen from the pool of the committee membership who are available. Should a minimum of three be unavailable from the pool, the Associate Provost or designee may select additional faculty, or student members to participate in the hearing process.

**6.5.5 Findings.** Decisions of the Hearing Panel shall be made by majority vote. Upon completion of the hearing, the Associate Provost will communicate the panel's decision via letter to the student, the instructor, the Provost and Vice President for Academic Affairs, and the instructor's department chairperson within two (2) business days of completion of the hearing.

- a. **Findings of the Panel.** The Panel may render one of two decisions:
  - 1) That a grade which has been appealed be changed with specific designation of the new grade;
  - 2) That a grade which has been appealed remain the same.

If the decision of the panel is that the grade be changed, the instructor shall have five (5) business days in which to file a grade change with the Office of the Registrar or request a review by the Provost (see 6.5.5b). In the event the instructor takes no action, the Provost shall process a change of grade form.

- b. **Provost's Determination.** If either party believes that there have been procedural errors or that they did not receive a fair hearing, they may request a review by the Provost that shall be limited to an examination of the process and procedures followed. The Provost shall communicate the final

decision to all parties in writing.

The review may be resolved in one of the following ways:

- 1) The Provost will determine that there were no procedural errors, in which case the original decision is upheld. If that original decision was to change the grade, the Provost shall notify the faculty member that a change of grade form is to be submitted to the Office of the Registrar. The instructor shall have five (5) business days in which to file a grade change with the Office of the Registrar or inform the Provost of intent not to do so. In the event the instructor takes no action or chooses not to change a grade, the Provost shall process a change of grade form.
  - 2) The Provost will determine that there were procedural errors, in which case the grade appeal may be remanded back to the original Panel for further consideration.
- c. **Transcript notation.** If a grade has been changed by the Provost, the transcript shall reflect the following:  
*Original grade of \_\_\_\_\_ was overruled by the Provost upon recommendation of the University Grade Appeal Panel.*

### 7.3 Implementation Procedures

- 7.3.1 **Informal Accusation.** If a faculty member accuses a student of academic dishonesty, the faculty member must inform the student of the alleged violation. The faculty member and student will discuss the alleged violation in a private conference within five (5) days after the faculty member becomes aware of the circumstances giving rise to the accusation. If, as a result of this initial conference, an appropriate solution is found which satisfies the faculty member and the student, the matter will be closed. The solution may include the assignment of the student to the Multimedia Integrity Teaching Tool program. If no solution is found, the faculty member may bring formal charges against the student.
- 7.3.2 **Formal Accusation.** A faculty member who is formally accusing a student of academic dishonesty shall notify the student of the accusation within fifteen (15) school days after the faculty member becomes aware of the circumstances giving rise to the accusation. The faculty member's notice to the student shall be given in writing and shall include a brief description of the circumstances giving rise to the accusation. A copy of the written notice shall be given to the faculty member's department chairperson.
- 7.3.3 **Student Response.** The student shall respond in writing to the accusation within fifteen (15) school days after the date on which the faculty member gave written notice to the student of the accusation. The written referral shall include a brief description of the nature of the accusation and a copy of the student's written admission.

The faculty member's referral must be in writing and received by the Office of the Associate Provost within fifteen (15) school days after the date the student denied the

accusation or was deemed to have denied the accusation, whichever is later. If the faculty member does not refer the matter to the University Academic Ethics Committee, the student shall be deemed to be innocent of the accusation of academic dishonesty.

**7.3.6 Student's Grade.** If the student's grade in the course has not been assigned at the time the student is accused of academic dishonesty, the student shall be assigned an "Incomplete" in the course until the student's guilt or innocence is determined pursuant to this policy, at which time a grade shall be assigned. If the student has already been assigned a grade in the course at the time the student is accused of academic dishonesty, the assigned grade shall not be changed unless and until the student is determined to be guilty of academic dishonesty pursuant to this policy. For purposes of this policy a grade is considered to have been assigned at the time that final grades are due or when an incomplete removal is filed by the faculty member.

If a challenge is upheld, the Associate Provost may, at his or her discretion, either appoint another person to fill the vacancy or direct that the vacancy not be filled. In the latter case, a quorum shall thereafter consist of all remaining voting members of the Hearing Committee.

Each party shall be responsible for insuring the presence of his or her witnesses at the hearing and shall be prohibited from submitting a written statement in lieu of personal testimony of a witness unless the chairperson of the Hearing Committee determines that the witness is unavailable to testify. The student and the faculty member must provide the names of all witnesses who may testify at least twenty-four (24) hours before the scheduled time of the hearing to the Office of the Associate Provost. The Hearing Committee shall meet in one or more private sessions after the conclusion of the hearing for the following purposes and procedures:
- a. Unless the student admitted guilt in writing or unless the only issue before the Hearing committee is the punishment to be imposed, to determine the guilt or innocence of the student; and

  - c. To prepare the Hearing Committee's written summary of the evidence presented, findings, and recommendation for punishment for delivery to the Provost and Vice President for Academic Affairs.
- 7.6.2 Determination of Innocence.** If the Hearing Committee determines that the student is innocent of the accusation, the accusation shall be dismissed and the Hearing Committee shall request the faculty member involved to assign a grade to the student based upon the student's academic performance. If the student thereafter disagrees with the grade assigned, the student may appeal the grade through the University's grade appeal procedure.
- 7.6.3 Determination of Guilt: Findings and Recommendation to Provost and Vice President for Academic Affairs.** If the Hearing Committee determines that the student is guilty of the accusation, if the student has admitted guilt in writing, or if the only issue before the Hearing Committee is the punishment to be imposed, the Hearing Committee shall give its written summary of the evidence presented, its written findings, and its recommendation for punishment to the Provost and Vice President for Academic Affairs.

The Multimedia Integrity Teaching Tool Program may be assigned as part of the sanction. A copy of the summary, findings, and recommendation shall at the same time be given to the student, the faculty member, the faculty member's department chairperson, and the faculty member's dean.

## **7.8 Records of Academic Dishonesty**

**7.8.2** *Innocent Student.* If a student is determined or deemed to be innocent of an accusation of academic dishonesty:

- a. All materials concerning the accusation which are in the possession of the faculty member, the faculty member's department chairperson, or the faculty member's dean shall be promptly destroyed.
- b. All materials concerning the accusation which are in the University Academic Ethics File shall be destroyed ten (10) school years after the date the student is determined or deemed to be innocent of the accusation; however, if at the conclusion of the ten (10) school year period, the materials are relevant to pending or threatened litigation, the Provost and Vice President for Academic Affairs may direct that destruction of the materials be delayed until such litigation is concluded. During the ten (10) school years period and any extension of it, access to or release of the materials shall occur only with the prior written consent of the student or upon the express, written direction of the Provost and Vice President for Academic Affairs.

**7.8.3** *Transcripts.* Other than the grade finally assigned in a course, a student's academic dishonesty shall not be recorded on the student's transcript unless the student is suspended or expelled from the University or a previously awarded degree is revoked.

## **7.9 Miscellaneous**

**7.9.1** *Action by Designee.* Whenever an action may be or is required to be taken under this policy by the Provost and Vice President for Academic Affairs, the Associate Provost, or the Director of Student Rights and Community Standards, the action may be taken by that person's designee.

**7.9.2** If the student believes the accusation of academic dishonesty was in whole or in part due to unlawful discrimination relating to race, color, religion, sex, national origin, age, Vietnam veteran status, or physical or mental disability, the student must inform the Office of the Associate Provost in writing of this belief before the date of the hearing. The Associate Provost shall then select a member from the University's Discrimination Appeals Board Panelists to serve as an additional voting member of the Hearing Committee for the referral or appeal. The allegation of discrimination shall then be considered and disposed of under this policy rather than under any other University policy.

## **SECTION VI: APPENDIX**

### **DRUG-FREE WORKPLACE OF 1988**

The Drug-Free Workplace Act of 1988 requires the University to establish and maintain a drug-free workplace. To accomplish this objective, the University established a policy, approved by the Board of Trustees on 3/31/89, that outlines the methods and philosophy of the University in relation to this new federal regulation. This policy is consistent with previously approved programs supporting the health and productivity of Ball State University employees.

As set forth in the above referenced statute, Ball State University must certify that it will or will continue to provide a drug-free workplace by:

Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the University workplace and specifying the actions that will be taken against employees for violation of such prohibition.

Establishing an ongoing drug-free awareness program to inform employees about the dangers of drug abuse in the workplace, the University's policy of maintaining a drug-free workplace; any available drug counseling, rehabilitation, and employee assistance programs; and the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

Making it a requirement that each employee to be engaged in the performance of a grant be given a copy of the statement required in the above paragraph.

Notifying the employer in writing of his/her conviction for a violation of a criminal drug statute occurring in the workplace no later than five (5) calendar days after such conviction.

NOTE: The Employee Assistance Program (EAP) Coordinator is the contact person for drug and alcohol information. The Coordinator is located in University Human Resource Services.

An Alcohol/Drug Education Coordinator is available to students and is located in the office of Health Education.

### **MEDIATION/CONCILIATION SERVICE: A CONFLICT RESOLUTION ALTERNATIVE**

The Mediation/Conciliation Service is a conflict resolution alternative available to any employee or student at Ball State University. Participation is totally voluntary, and all procedures are confidential. A panel of mediators help to identify the issues in the dispute and choose the best solution from several options that are identified. All mediators have had extensive training in conflict mediation and conciliation.

The Service is operated as part of the Center for Peace and Conflict Studies. For information, call that office.

### **FUNERAL LEAVE BENEFITS FOR SAME-SEX DOMESTIC PARTNERS**

(Notification of Action by the Ball State University Board of Trustees, July 18, 2003 – Item No. 14)

Vice President Kinghorn reported, Ball State University's Funeral Leave Policies are currently identical for Service Personnel, Staff Personnel, Faculty and Professional Personnel. For all of these Funeral Leave Policies, it is proposed that funeral leave be extended to qualified same-sex domestic partners if they meet certain requirements. The requirements for same-sex domestic partners to be deemed qualified under each of Ball State University's Funeral Leave Policies would be as follows:

- . The employee and the domestic partner have shared the same residence and have been in an exclusive relationship for at least six month.
- . Neither the employee nor the domestic partner is married or in a domestic partnership with anyone else.
- . Both the employee and the domestic partner are at least 18 years of age and mentally able to contract.

- . The employee and the domestic partner are not related by blood closer than would bar marriage in the State of Indiana by reason of blood relationship.
- . The employee and the domestic partner have agreed to be jointly responsible for each other's necessities, including without limitation food, clothing, housing and medical care.
- . The employee and the domestic partner must provide documentation of significant financial interrelationships, such as joint ownership or lease of a home, as well as other documentation such as establishing joint bank accounts, designating each other as beneficiary of life insurance, retirement benefits, will, and any other binding contractual financial relationships.

Ball State University would require that the employee and the domestic partner sign a confidential affidavit attesting to compliance with the above requirements, and would reserve the right to request other evidence verifying compliance. If the employee and the same-sex domestic partner have already met these requirements for the purpose of securing university health care benefits and have signed a confidential affidavit, the employee may present the same affidavit as evidence of qualification for funeral leave benefits.

In the administration of these Funeral Leave Policies, the same-sex domestic partner of an employee is to be afforded the same status as the spouse of an employee.

The following action was recommended:

**THAT THIS AMENDMENT TO THE FUNERAL LEAVE POLICIES FOR SERVICE PERSONNEL, STAFF PERSONNEL, AND FACULTY AND PROFESSIONAL PERSONNEL BE APPROVED FOR THE PURPOSE OF INCLUDING QUALIFIED SAME-SEX DOMESTIC PARTNERS. SAME-SEX DOMESTIC PARTNERS WILL BE DEEMED TO BE QUALIFIED IF THEY MEET THE REQUIREMENTS LISTED ABOVE.**

After motion, the recommendation was approved.

## **APPENDIX A - Alcohol Policy**

When students choose to consume alcoholic beverages, Ball State University encourages responsible practices and behavior in accordance with campus policies, the laws of the State of Indiana and the City of Muncie. Violation of University policy and local and state laws related to alcohol on or off campus will result in disciplinary action.

### **A. General Guidelines**

1. *University Sponsored Events* - Illegal purchase, service, consumption, or possession of alcoholic beverages at any University-sponsored event on or off campus is prohibited. Upholding applicable local, state, and federal laws in connection with this policy is the joint responsibility of the persons in attendance at the activity, the sponsoring organization, and the management of the establishment in which the activity is held.
  2. Illegal purchase, consumption, or possession of alcoholic beverages by any student under 21 years of age is prohibited wherever it may occur.
  3. Providing alcoholic beverages at any time to an individual who is under 21 years of age is strictly prohibited.
  4. Adverse behavior as a result of alcohol consumption, including disruption, disorderly conduct, and public intoxication shall be a violation of the Student Code.
  5. The sale of alcoholic beverages by any person without a license is strictly prohibited.
  6. Students found responsible for providing alcohol to minors and selling or distributing alcohol in violation of state law shall be in violation of the student code.
- *Students hosting parties where alcohol is provided to minors, provided in excess to others, or otherwise distributed in violation of the law shall be subject to possible suspension or expulsion from the University.*

### **B. On Campus** - With respect to the service, possession or consumption of alcoholic beverages on the Ball State University campus, state statutes and city ordinances will be enforced in addition to the following regulations:

1. Residents who are of legal age to possess or consume alcoholic beverages and who reside in University-operated employee or University Apartment units may possess and consume such alcoholic beverages in the privacy of their residences.
2. Consumption and possession of alcohol may be permitted on some residence hall floors where all residents are of legal age to possess or consume alcoholic beverages. Such use of alcoholic beverages will not be permitted in the public lounges, study lounges, recreation areas, dining rooms, or any area other than the student rooms.

## **APPENDIX B - Computer Users Policies**

*Abbreviated Version (For complete Users' Policy, log on to ( [www.bsu.edu/web/ucs/policy](http://www.bsu.edu/web/ucs/policy) )*

### **A. Institutional Purposes**

Use of BSU computing-related resources is for purposes related to the University's mission of education, research, and public service.

1. **Security**  
The user is responsible for correct and sufficient use of the tools each computer system provides for maintaining the security and confidentiality of stored information. For example:
  - Computer accounts, passwords, and other types of authorization are assigned to individual users and must not be shared with others. Each user is responsible for making authorized use of resources only for intended purposes, and is responsible for all transactions made under the assigned account number.
  - The user must select an obscure account password and change it frequently.
  - The user must understand the level of protection each computer system automatically applies to files and supplement it, if necessary, for sensitive information.

- The microcomputer user must be aware of computer viruses and other destructive computer programs and take steps to avoid being their victim.

2. **Restriction on Usage**

- Computing resources may be used to further the mission of the University in any way associated with teaching, learning, research, administrative or public services. Users must comply with all federal, Indiana, and other applicable laws; all generally applicable University rules and policies; and all applicable contracts and licenses. Such laws, rules, policies, and licenses include, for example, the laws of libel, privacy, copyright, trademark, obscenity, and child pornography; the Electronic Communications Privacy Act and the Computer Fraud and Abuse Act, which prohibit “hacking,” “cracking,” and similar activities; the University’s Code of Student Rights and Responsibilities; the University’s Anti-Harassment and Sexual Harassment Policies; and all applicable software licenses. Users who engage in electronic communications with persons in other states or countries or on other systems or networks should be aware that they may also be subject to the laws of those other states and countries and the rules and policies of those other systems and networks. Users are responsible for ascertaining, understanding, and complying with the laws, rules, policies, contracts, and licenses applicable to their particular uses. Examples of usage which would violate these restrictions include:
- Obtaining unauthorized access to computers or network resources, or using improperly obtained computer accounts, access codes, or network identification numbers;
  - Intentionally destroying or damaging facilities, equipment, software, or data belonging to the University or other users;
  - Intentionally disrupting or unauthorized monitoring of electronic communications; committing fraud or engaging in forgery; or
  - Unauthorized copying of copyrighted material. Computer software protected by copyright is not to be copied from, into, or by using campus computing facilities except as permitted by law or by the copyright contract. This means that such computer software may be copied only in order to make backup copies if permitted by the copyright owner. The number of copies and distribution of copies may not be done in such a way that the number of simultaneous users in a department, college, or the University exceeds the number of original copies purchased by the department, college, or the University.
  - Computing resources should be used in accordance with the high ethical standards of the University community. Examples of unethical use follow, some of which would also violate the restrictions contained in the preceding paragraph:
    - Violations of computer system security. This includes all software, files, passwords and accounts.
    - Intentional use of computer networking facilities in ways that necessarily impede the computing activities of others (randomly initiating interactive electronic communications or e-mail exchanges, overuse of interactive network utilities, initiating or perpetuating chain letters, and so forth).
    - Use of computing facilities for commercial or personal advertisements, solicitations, promotions, political material or other purposes unrelated to the mission of the University or University life.
    - Academic dishonesty (plagiarism, cheating).
    - Disruptive conduct within lab facilities.
    - Violation of campus or internet network or host usage policies and regulations.
    - Violation of another user’s privacy. A user must obtain written permission from the owner of a file to alter or copy a file. The ability to read, alter, or copy a file does not imply permission to read, alter, or copy that file.
    - Waste of computing facilities and resources. Failing to honor departmental or unit laboratory and system procedures, policies, and/or protocol.
    - Allowing access to computing resources by unauthorized users.
    - Student and employee Internet pages are the responsibility of the individual maintaining them. The individual, not the University, is liable for all claims or actions resulting from a violation of any of the

above Restrictions on Usage.

3. **Facilitative Usage**

Computing resource users can facilitate computing in the BSU environment in many ways. Collegiality demands the practice of facilitative computing. It includes:

- Regular deletion of unneeded files from one's accounts on central machines.
- Refraining from overuse of connect time, log in sessions, information storage space, CPU cycles, software licenses or printing facilities.
- Refraining from overuse of interactive network utilities (such as high bandwidth audio or video applications).

4. **Reporting Violations**

Violations of this policy should be reported immediately to the systems administrator or department chair of a departmental system, or the office of the Director of University Computing Services for a central or shared computer resource. The University will make every effort to maintain confidentiality to the extent consistent with legal, ethical and other policy obligations. It must be remembered that in the event that the University has reason to believe that the user is using University resources in an illegal or unethical manner, or in some way inconsistent with the institution's purposes or mission, the user has no right to confidentiality and such information may be subject to sanctions as described in the next paragraph.

**APPENDIX C - Harassment Policy – University Anti-Harassment Policy**

- A. Harassment of students or employees at Ball State University on the basis of race, color, national origin, ancestry, religion, creed, gender\*, sexual orientation, age, or physical or mental disability is unacceptable and will not be tolerated. Such conduct is inconsistent with the University's commitments to excellence and to respect for all individuals. This policy is intended to complement the University's Equal Opportunity and Affirmative Action Policy.  
**NOTE:** Students accused of violating the University's Anti-harassment policy may, depending on the seriousness of the allegation, be referred to the University Review Board for adjudication and consideration of possible suspension or expulsion.
- B. The University is also committed to protecting the academic freedom and freedom of expression of all members of the University community. This policy will be construed and applied in a manner that protects the Academic freedom and freedom of expression of all parties to a complaint. Academic freedom and freedom of expression include but are not limited to the expression of ideas, philosophies, or religious beliefs, however controversial, in classroom or other academic settings.
- C. The term "harassment," as used in Paragraph 1 of the policy refers to verbal, physical, graphic, or written conduct that has the purpose or effect of creating a hostile or intimidating environment; i.e., conduct which is sufficiently severe, persuasive, or persistent that it interferes significantly with an individual's employment, education, or living conditions. The conduct alleged to constitute harassment under this policy will be evaluated from the perspective of a reasonable person similarly situated to the complainant and considering all of the facts and circumstances. Harassment must be distinguished from behavior which, even though unpleasant or disconcerting, is appropriate to the carrying out of instructional, advisory, or supervisory responsibilities. Instructional responsibilities in particular, require appropriate latitude for pedagogical decisions concerning the topics discussed and methods used to draw students into discussion and full participation.
- D. Members of the University community and others who believe they have been harassed in violations of the policy by University employees or students, or by contractors or vendors serving the University, may contact the Office of University Compliance. Formal complaints must be filed in the Office of University Compliance within 45 calendar days following the occurrence of the act, incident, conduct, or pattern of conduct constituting the alleged violation. Such complaints will be processed under the "Ball State

University Equal Opportunity and Affirmative Action Complaint Investigation Procedure and Appeal Process.” A copy of this document may be obtained by contacting the Office of University Compliance. Complaints involving students may instead be filed in the Office of the Vice President for Marketing, Communication and Enrollment Management, for handling under the procedures set forth in the Student Code.

- E. Any University employee who becomes aware of conduct by another University employee, student, vendor, or contractor which the employee reasonably believes constitutes harassment under this Policy shall report the conduct immediately to the Office of University Compliance; or, if the harassment involves students, the conduct may instead be reported to the Office of the Vice President for Marketing, Communication and Enrollment Management. To knowingly file a false or malicious complaint or report of harassment is a violation of the policy.

\*This policy covers gender-based harassment that is non-sexual in nature. Sexual harassment is covered by a separate “Statement on Sexual Harassment.”

#### **APPENDIX D - Hazing Policy**

- A. Hazing by student organizations and groups of Ball State University is prohibited. Hazing is defined as follows: Any mental or physical requirement, request, or obligation placed upon any person (e.g., a pledge, associate member, affiliate, prospective member, guest, or initiate) which could be harmful to the health and/or welfare of the person, or which is personally degrading to the individual involved, or which has an adverse effect on the academic progress of the person, or which violates any federal, state, or local laws or University policy. Individual acceptance of or acquiescence to any activity covered by the foregoing definition in no way validates or excuses the activity. Student groups may be required to certify in writing that they are in compliance with this policy.
- B. Individual members of organizations or groups who violate this policy are subject to disciplinary action as provided in Section V, above. Any organization which violates this policy is subject to sanctions which may be imposed by the coordinating body of which the organization is a constituent member, the Vice President for Marketing, Communication and Enrollment Management or a designee, and/or the Student Activities Committee.

#### **APPENDIX E - Involuntary Withdrawal Policy**

- A. **Introduction**

The procedure for involuntary administrative withdrawal of a student from the University are to be used only after reasonable attempts to secure voluntary cooperation for psychological evaluation or withdrawal have been exhausted, and will be used only after thoughtful consideration by members of the Marketing, Communication and Enrollment Management staff. As described below under Section IX.C., “Procedures,” a student will be subject to involuntary administrative withdrawal from the University when, in the judgment of the Dean of Students, the Director of the Counseling Center, and the Director of the University Health Center, there is a substantial possibility that the student, as a result of a physical or psychological condition;

  1. Will harm himself or herself or others, or
  2. Will cause significant property damage, or
  3. Will be substantially unable, even with the help of auxiliary aids, to meet his or her responsibilities as a student, or
  4. Will be unable to care for his or her daily physical needs without assistance and has failed to secure such assistance.

The Dean of Students will initiate a review through either this process or the University's student disciplinary process. If the student has engaged in an activity which subjects him or her to University disciplinary action, the matter will be handled through the University's student disciplinary process unless the Dean of Students determines that the student, as a result of psychological conditions:

1. Lacks the capacity to respond to pending disciplinary charges against him or her, or
2. Did not know the nature or wrongfulness of the conduct at the time of the offense.

**B. Interim Withdrawal**

An Interim Withdrawal may be implemented immediately by the Dean of Students if the Dean of Students determines, based upon a qualified medical or psychological opinion, that the student may be suffering from a mental or psychological disorder and that the student's behavior poses an imminent danger of causing physical harm to the student or to others, of causing significant property damage, or of substantially impeding the lawful activities of others. A student withdrawn on an interim basis shall be given an opportunity to appear personally before the Dean of Students within two (2) school days from the effective date of the interim withdrawal in order to review the following issues only:

1. The reliability of the information concerning the student's behavior and
2. Whether or not the student's behavior poses a danger of causing imminent physical harm to the student or to others, causing significant property damage, or substantially impeding the lawful activities of others. Unless the Dean of Students determines otherwise, the student will remain withdrawn on an interim basis pending completion of the procedures described below.

**C. Procedures**

**1. Meeting with the Dean of Students.** A student may be requested in writing and/or orally (depending on the urgency of the situation) to attend an informal meeting with the Dean of Students for the purpose of determining whether the student, as a result of a physical or psychological condition, falls within one of the four categories described in Section IX. A., "Introduction," above, and, if so, the necessity for withdrawal. Such a request will include a statement of the reasons for the University's concern. The director of the Counseling Center and the director of the University's Health Center will attend the meeting. Other appropriate personnel may be present and/or consulted. Parents, spouse, or any person who would be of support to the student may, with the consent of the Dean of Students, and of the student, participate in the informal meeting. At the meeting the reasons for the University's concern regarding the student will be stated and the student will be given an opportunity to respond to these concerns. If, after the meeting, the student is found not to fall within one of the four categories described in the "Introduction" above, he or she will be so informed in writing by the Dean of Students and allowed to continue as a student.

**2. Dean's Withdrawal Decision.** If, after the informal meeting, the Dean of Students, the director of the University Health Center, and the director of the Counseling Center decide that the student should withdraw from the University and be permitted to re-enter the University only with their approval, the student shall be informed in writing of such decision and the basis for the decision within five (5) school days of the informal meeting.

**3. Voluntary Withdrawal.** If the student agrees to withdraw voluntarily from the University, regular withdrawal procedures will be followed. The student may be permitted to withdraw voluntarily without grades if, in the judgment of the Dean of Students (after consultation with the approval by the student's instructors), the circumstances warrant such action.

**4. Notice of Refusal to Withdraw Voluntarily.** If the student fails to accept the decision of the withdrawal and refuses to withdraw from the University voluntarily, the student shall notify the Dean of Students of such refusal within five (5) school days of receipt of the written decision. If the student fails to notify the Dean of Students of such refusal within five (5) school days of receipt of the written decision, the student will be deemed to have waived his or her right to appeal the withdrawal decision.

**5. Appeal.** The student may appeal the withdrawal decision to the Vice President for Marketing, Communication and Enrollment Management within five (5) school days of receipt of the written decision. The Vice President for Marketing, Communication and Enrollment Management shall hear the matter after notice to the student, the Dean of Students, the Director of the Counseling Center and the Director of the University Health Center. The student may be accompanied and assisted at the hearing by an advisor of

the student's choice, provided the advisor is an employee or student of the University or a member of the student's immediate family and the advisor agrees to act as the student's advisor. The student, the student's advisor, the Dean of Students, the Director of the Counseling Center and the Director of the University Health Center may attend the hearing and present evidence. In addition, the Vice President for Marketing, Communication and Enrollment Management may require the student, at his or her expense, to obtain a psychiatric/medical evaluation from sources external to the University to be entered as evidence. The hearing shall be conversational and non-adversarial. Formal rules of evidence will not apply. The issues or concerns to be resolved by the Vice President for Marketing, Communication and Enrollment Management shall be as follows:

- a) Whether the student, as a result of a physical or psychological condition, falls within one of the four categories described in Section IX.A., Introduction, above; and
- b) If so, whether the student should be involuntarily withdrawn from the University.

6. **Findings; Decisions.** The Vice President for Marketing, Communication and Enrollment Management shall prepare a written decision containing findings and conclusions. Copies of the decision shall be furnished to the student, the Dean of Students, the student's advisor, the Director of the Counseling Center, and the Director of the University Health Center. The decision of the Vice President for Marketing, Communication and Enrollment Management shall be final and conclusive and not subject to appeal.

7. **Action by Designee.** Whenever an action may be or is required to be taken under this policy by the Vice President for Marketing, Communication and Enrollment Management, the Dean of Students, the Director of the Counseling Center, or the Director of the University Health Center, the action may be taken by the person's designee.

8. **Deviations from Established Procedures.** Reasonable deviations from these procedures will not invalidate a decision or proceeding unless significant prejudice to a student may result.

#### **APPENDIX F - Pet Policy**

1. **General** - The pet is any domesticated or tamed animal that would normally be expected to belong to someone whether or not there is any acknowledged ownership.<sup>36</sup>
2. **University Buildings** - (Except Residence Halls and Student Family Housing) Written authorization is to be obtained from the appropriate Department Chairperson, Dean or Administrative Head involved before a pet may be brought into University buildings. Such authorization is to state the purpose and duration of the activity involving the pet. The authorization is to be in the possession of the owner or person in control of the pet during the time the pet is in a University building.
3. **Residence Halls** - Pets are not permitted in the residence halls except for marine life in fresh water aquariums.
4. **University Grounds** - Pets are not permitted on University grounds unless they are appropriately leashed or caged and under the control of and accompanied by their owners or others designated by their owners as having responsibility for the control and care of the pet.
5. **Student Family Housing Apartments** - Pets are not permitted in Student Family Housing Apartments with the exception of marine life in fresh water aquariums and small caged birds.
6. **Enforcement** - Violations of the University Pet Policy will be dealt with in accordance with University rules governing the conduct of faculty, staff, and students. In addition, violations in the Residence Halls and Student Family Housing Apartments, will have action taken in accordance with "Conditions of Occupancy" for Student Family Housing, and "Policies of University Residence Halls" for the Residence Halls.
7. **Limitations** - Provisions of this policy do not apply to seeing eye or guide dogs or to police or K9 dogs while such animals are performing their duties under supervision.
8. **Additional Laws** - This Pet Policy is in addition to applicable ordinances of the City of Muncie and statutes of the state of Indiana.

#### **APPENDIX G - Records Policy**

- A. The University policies related to educational information are based upon the Family Educational Rights

and Privacy Act of 1974. This act provides the student the opportunity to review his or her records and also limits disclosure of his or her student information to others. If the student wants to review his or her educational records and he or she is or has been enrolled as a student at Ball State, the student may simply contact the area within the University that stores the records in which he or she is interested.

- B.** Educational records are defined to be all the records maintained by the University about the student with the following exceptions:
1. Personal notes of faculty and staff that are not shared with anyone else;
  2. Financial records of parents filed in connection with financial aid applications for the student;
  3. Confidential letters and statements of recommendation that were placed in the student's file before January 1, 1975;
  4. Confidential recommendations related to admission to the University, an application for employment, or the receipt of an honor, if the student has signed a waiver of his or her right to future access to this information (under no conditions will the student be required to waive his or her rights to future access to information before receiving University services or benefits);
  5. Investigatory information within the Department of Public Safety; and
  6. Information maintained by the Health Center or the Counseling Center.
- C.** In the event that the student believes his or her records to be inaccurate, misleading, or otherwise in violation of his or her rights of privacy, he or she may challenge the information that is contained in his or her educational records by contacting the University official responsible for the particular educational record in question. The student may then provide for informal meetings and discussions to resolve his or her concerns. The University official may decide that the student has sufficiently demonstrated that the challenged material should be deleted or modified, and the change will subsequently be made. Otherwise, the student may insert a statement into his or her record to explain any such material from his or her point of view, or a formal hearing may be requested in writing through the Office of the Vice President for Marketing, Communication and Enrollment Management. This right to challenge information contained in the student's educational records does not extend to grades unless a grade assigned by a professor was inaccurately recorded. Individuals, agencies, or organizations shall not have access to the student's personally identifiable educational record without his or her written consent except for the following:
- 1) University personnel who require access on an internal need-to-know basis;
  - 2) Officials of other schools in which the student may seek or intend to enroll provided that the student has the opportunity to receive a copy of such records if he or she desires;
  - 3) Authorized representatives of the government when release of such data is necessary in connection with the audit and evaluation of federal- or state-supported educational programs, or in connection with the enforcement of legal requirements that relate to such programs;
  - 4) In connection with the student's application for, or receipt of, financial aid;
  - 5) State and local officials or authorities to which such information is specifically required to be reported or disclosed according to Indiana statute adopted before November 19, 1974;
  - 6) Organizations conducting studies for, or on behalf of, the University for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction;
  - 7) His or her parents, if he or she is dependent student as defined by the Internal Revenue Service Code, which means that he or she receives more than one-half of his or her financial support from his or her natural or adoptive parents;
  - 8) In connection with emergency, if the knowledge of the student's information is necessary to protect his or her health or safety or that of other persons; and
  - 9) In compliance with a judicial order or pursuant to any lawfully issued subpoena provided that the student is notified of any such order or subpoena before his or her information is released. A log is maintained for student's inspection of those individuals, agencies, or organizations listed above (other than University personnel) who have had access to or been provided personally identifiable information from the student's file.

- D. Unless the student has requested that the Office of the Vice President for Student Affairs and Enrollment Management withhold all or a portion of his or her public information from normal disclosure and printing in the student directory, the following information may be released in response to inquiries from the public; name; address (local, home); sex, telephone listing (local, home), date and place of birth; major field of study; class or years of study; class schedule; participation in officially recognized activities and sports; weight and height if a member of an athletic team; dates of attendance; degrees and awards received; and the most recent previous educational institution attended. Portions of this information will be printed in the annual *Ball State University Directory*, and any of this information will be routinely released to any inquirer unless the student requests that all or part of this list be withheld. A form for this purpose may be obtained in the Registration and Academic Progress Office in Lucina Hall.
- E. The student should consider very carefully the consequences of any decision to remove any of these items from the list of directory information. The University receives many inquiries for directory information from a variety of sources, including friends, parents, relatives, prospective employers, graduate schools, honor societies, licensing agencies, government agencies, and news media. Should the student decide to request that the University not release any or all of this information, any future requests from others for such information will be refused. For example, the University could not release the student's address or telephone number to a friend or family member wishing to notify him or her of a serious illness or crisis in his or her family. A prospective employer would also be denied access to such items.
- F. If the student has any questions or desires additional information regarding provisions of the Family Educational Rights and Privacy Act or of University Records Policy, he or she may contact the Office of the Vice President for Marketing, Communication and Enrollment Management.

#### **APPENDIX H - Sexual Harassment Policy**

- A. Harassment on the basis of sex is a form of illegal sex discrimination. Sexual harassment in employment violates Title VII of Civil Rights Act of 1964, as well as, state law. Student-on-student sexual harassment and sexual harassment directed toward a student by a University employee violates Title IX of the Education Amendments of 1972.
- B. Ball State University will not tolerate sexual harassment of students or employees by members of its faculty or staff, its students or by other agents of the University and will respond in a suitable manner to every complaint.
- C. The University has adapted the Equal Employment Opportunity Commission (EEOC) definition of sexual harassment for our academic community: Sexual harassment is defined as any unwelcome sexual advance, request for sexual favor or other unwelcome verbal or physical conduct of a sexual nature, whether committed on or off campus, when:
  1. Submission to such conduct is made, either explicitly or implicitly, a term or condition of an individual's employment or participation in a University-sponsored education program or activity;
  2. Submission to or rejection of such conduct by an individual is used as the basis or threatened to be used as the basis for employment decisions or academic decisions or assessments effecting an individual; or
  3. Such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile or offensive working or educational environment. Such conduct will typically be directed against a particular individual or individuals and will either be abusive or severely humiliating or will persist despite the objection of the person targeted by the speech or conduct.

Sexual harassment includes but is not limited to situations where one person has authority over another. In such situations, sexual harassment is particularly serious because it may unfairly exploit the power inherent in a faculty member's or supervisor's position.
- D. Sexual harassment can be verbal, visual, physical, or communicated in writing or electronically. Some conduct obviously constitutes sexual harassment - such as a threat that a grade or promotion will depend on submission to sexual advance. But whether particular conduct constitutes sexual harassment will often depend upon the specific context of the situation, including the participants' reasonable understanding of the situation, their past dealings with each other, the nature of their professional relationship (e.g., supervisor-subordinate, colleague, etc.) and the specific setting. The inquiry can be particularly complex in an academic community, where the free and open exchange of ideas and viewpoints preserved by the concept of academic freedom may sometimes prove distasteful, disturbing or offensive to some. Sexual harassment must be distinguished from behavior which, even

though unpleasant or disconcerting, is appropriate to the carrying out of instructional, advisory, or supervisory responsibilities. Instructional responsibilities, in particular, require appropriate latitude for pedagogical decisions concerning the topics discussed and methods used to draw students into discussion and full participation.

- E.** Examples of conduct which may constitute sexual harassment include but are not limited to:
1. requests for sexual favors;
  2. unwelcome physical contact such as hugging, rubbing, touching, patting, pinching, or brushing another's body;
  3. veiled suggestions of sexual activities;
  4. requests for private meetings outside of class or business hours for other than legitimate academic or business-related purposes;
  5. use in the classroom of sexual jokes, stories, or images in no way germane to the subject of the class;
  6. use in the workplace of sexual jokes, stories, or images in no way germane to the subject of the work environment;
  7. remarks about a person's body or sexual relationships, activities, or experience that are in no way germane to the subject of the work or academic environment;
  8. use of inappropriate body images to advertise events.
- F.** Members of the University community can expect to be free from sexual harassment and thus all members of the University community should guard against it. The fact that someone did not intend to sexually harass an individual is generally not considered a sufficient defense to a complaint of sexual harassment, although the reasonableness of the accused person's perceptions may be considered. In most cases, it is the effect and characteristics of the behavior on the complaint and whether a reasonable person similarly situated would find the conduct offensive that determine whether the behavior constitutes sexual harassment.
- G.** The University will not tolerate retaliation or discrimination against persons who report or charge sexual harassment or against those who testify, assist, or participate in any investigation, proceeding or hearing involving a complaint of sexual harassment. In this context, retaliation means speech or conduct that adversely affects another's terms or conditions of employment or education and is motivated by an intent to harm the targeted person because of his or her participation in the filing or investigation of an allegation of sexual harassment. Any such retaliation - or any encouragement of another to retaliate - is a serious violation of University policy and law, independent of whether the particular claim of sexual harassment is substantiated. Anyone who believes he or she has been subjected to retaliation in violation of this rule may use the procedures described in this policy to complain and seek redress.
- H.** Any member of the University community who believes he or she is being sexually harassed or is being retaliated against is encouraged to contact the Office of University Compliance and make a complaint. The complaint will be investigated in accordance with the "Equal Opportunity and Affirmative Action Complaint Investigation Procedure and Appeal Process". A copy of this document may be obtained by contacting the Office of University Compliance.
- I.** The University can respond to specific instances and allegations of harassment only if it is aware of them. The University therefore encourages anyone who believes that he or she has experienced sexual harassment to come promptly forward (typically within 45 calendar days) with inquiries, reports or complaints and to seek assistance from the Office of University Compliance. In addition, any University employee who becomes aware of instances or allegations of sexual harassment by or against a person under his or her supervisory authority must report them to the Office of University Compliance. It shall be the responsibility of the Office of University Compliance to respond to allegations and reports of sexual harassment or refer them to other University officials for appropriate response.
- J.** Any dean, chairperson, director or department head or other similar administrator who becomes aware of information indicating a significant likelihood of sexual harassment must report such information to the Office of University Compliance. These administrators must respond not only when they receive a specific complaint or report alleging improper activity, but also when such matters come to their attention informally. Unconfirmed or disputed allegations should be clearly labeled as such and reports should indicate any steps already taken to respond. Administrators should consult the Office of University Compliance prior to responding to any situation involving alleged harassment.
- K.** Possible sanctions for a person found engaging in behavior which is in violation of this policy include but are not limited to the following:
1. oral written reprimand, placed in the personnel file;
  2. required attendance at a sexual harassment sensitivity program;
  3. an apology to the victim;

4. loss of salary or benefit, such as sabbatical or research or travel funding;
5. transfer or change of job, class or residential assignment or location (i.e., removing the person from being in a position to retaliate or further harass the victim);
6. demotion;
7. suspension, probation, termination, dismissal, or expulsion.

While counseling is not considered a sanction, it may be offered or required in combination with sanctions. Where alcohol/drugs are involved in the sexual harassment, such counseling may include a substance abuse program. If students or student groups are guilty of sexual harassment, any of the sanctions set forth in the "Code of Students Rights and Responsibilities" may also be invoked.

- L. The University seeks to protect the rights of all persons, accusers and accused, to fair procedures. Accusations of sexual harassment frequently have injurious, far-reaching effects on the careers and lives of accused individuals. Allegations of sexual harassment must be made in good faith and not out of malice. Knowingly making a false or frivolous allegation of sexual harassment will be considered a serious violation of University Policy.

### **APPENDIX I - Sexual Misconduct Policy**

Ball State University defines sexual misconduct as sexual intercourse (anal, oral, or vaginal) or sexual touching (including disrobing or exposure), however slight, with any object, by a man or woman upon a man or a woman, without effective consent.

Effective Consent is informed, freely and actively given, mutually understandable words or actions which indicate a willingness to participate in mutually agreed upon sexual activity. Consent is not effective if it results from the use of force, threats, intimidation, or coercion.

In addition, to have sex with someone who you know to be, or should know to be incapable of making a rational, reasonable decision about a sexual situation is a violation of this policy (e.g. an intoxicated person or someone with a mental or emotional impairment).

Ball State University respects and fully endorses the Sexual Assault Victims Bill of Rights ([www.bsu.edu/sa/dean/sexassault](http://www.bsu.edu/sa/dean/sexassault)) which provides protection, guidance, and options for complainants of sexual misconduct. This includes such principles as:

Every complainant will be treated with dignity and respect.

Every complaint will be taken seriously and thoroughly investigated regardless of the complainant's gender or the gender of the accused.

The University will assist the complainant in obtaining necessary medical attention and counseling.

The prior sexual histories of any party in a sexual misconduct complaint are inadmissible in University judicial proceedings. The only exception to this rule will be when a party can demonstrate the relevance of past sexual relations between the parties and the issue of consent and/or when the accused wishes to demonstrate physical evidence in the complaint which can be attributed to another party. The University Review Board retains the right to consider these exceptions and their admissibility in closed session.

### **APPENDIX J - Smoking Policy**

Ball State University has demonstrated a continuing commitment to the health and wellness of its students, faculty, and staff as evidenced by the John and Janice Fisher Institute for Wellness and Gerontology, various wellness programs, and a curriculum devoted to developing wellness leaders. Documented research has substantiated the health problems caused by both smoking and passive smoke. Demonstrating a similar concern for the health and wellness of all Indiana government employees, the General Assembly of the State of Indiana adopted the Indiana Clean Indoor Air Law which is applicable to all state entities. The law sets forth the minimum guidelines but allows state entities to adopt a more stringent policy for all facilities and vehicles

in which University functions or services are carried out or offered. All contractors, visitors and guests are subject to these regulations as well.

- A. As used herein, "smoking" means the carrying or holding of a lighted cigarette, cigar, pipe, or any other lighted smoking equipment or the inhalation or exhalation of smoke from any lighted smoking instrument.
- B. Smoking is prohibited in all buildings containing classrooms, offices (private), and other indoor work areas except as indicated in Section G..
- C. Smoking is prohibited within 30 feet of any university building entrance, air intake, or operable window.
- D. Smoking is prohibited in all areas where any food products are sold and/or consumed, or delivered.
- E. Smoking is prohibited in all University vehicles, including maintenance vehicles, automobiles, and public carriers.
- F. Smoking is prohibited in all student housing areas and in all dining areas, including snack bars, except smoking will be permitted within designated individual University apartments. The Office of Housing and Residence Life will make every effort to maintain separate smoking areas in the apartment complex, consistent with the need to provide housing for students.
- G. Smoking is not permitted in any spectator or practice areas, including all athletic facilities (both indoors and outdoors), the Worthen Arena, the Pittenger Student Center, Pruis Hall, University Theatre, Strother Theater, and Emens Auditorium with the exception of:
  - 1. Certain rooms in the Pittenger Student Center Hotel may be designated smoking rooms. If smoking is permitted in a room, the official in charge will request a "Smoking Permitted in this Room" sign from the Physical Plant to be placed in a visible position at the entrance to the room.
  - 2. Smoking is permitted in the Worthen Arena, University Theatre, Strother Theater, AC007, and Emens Auditorium when it is called for by the director of a production. Smoking may only be done by specific characters during rehearsals and performances. The appropriate department in charge of the production shall include notification that there will be smoking in the show. Smoking in the Green Room is prohibited.
  - 3. Smoking is permitted in outdoor spectator or practice facilities when events/practices are not scheduled. During an event, smoking is permitted in designated areas within the confines of the outdoor venue but out of the spectator area.
- H. Conspicuous signs will be posted in all buildings, vehicles, and areas where smoking is prohibited that read: "Smoking is Prohibited in this Building (Vehicle) (Area)" or "Smoking is Prohibited in this Building (Area) Except in Designated Smoking Areas" or "Smoking is Prohibited within 30 feet of the Entrance to this Building."
- I. Enforcement of this smoking policy will be the responsibility of those persons who head individual units, departments, buildings, student housing units, and other public facilities and venues. Existing disciplinary procedures created to address rule infractions and violations shall be applicable should a person be found smoking in violation of this policy. Under Indiana Code 16-41-37-4, a person who smokes in a University building, vehicle, or area where smoking is prohibited commits a Class B infraction, which is punishable by a fine of up to \$1,000 plus costs.

#### **APPENDIX K – Student Funeral and Bereavement Appeals**

- A. To initiate a Funeral and Bereavement Appeal, the student must request a review of funeral and bereavement conflict by contacting (in person, by phone, or by letter) the faculty member, or in his or her absence the department chairperson. Students are strongly encouraged to request the review as soon as the funeral and bereavement conflict becomes apparent, but must request the review no later than ten (10) school days after the start of the next academic (fall, spring, or summer) semester following the semester or summer session in which the funeral and bereavement conflict occurred. The faculty member, or in his or her absence the department chairperson, must respond to the student's request within ten (10) school days after receipt of the request.
- B. If the matter cannot be resolved with the faculty member, the student must inform the department chairperson of the disagreement with the faculty member and present the student's side of the dispute. The department chairperson will then attempt to resolve the dispute by consulting all affected parties.
- C. If the department chairperson cannot resolve the dispute to the student's satisfaction, the student may continue with the appeals process by contacting the Dean of the College in which the department resides. The Dean will then attempt to resolve the dispute by consulting all affected parties. If the Dean of the College cannot resolve the dispute to the student's satisfaction, the student may appeal to the Provost and Vice President for Academic Affairs, who will consult all affected parties. The decision of the Provost and Vice President for Academic Affairs is final.
- D. In the case that the faculty member involved in the appeal is the administrator next in the line of the appeal

process, then the appeal will move directly to the next level.

#### **APPENDIX L - Use of Property for Expressive Activities Policy**

##### **Distribution, Demonstrations, Fund Raising, Marches, Sales, Solicitation, Structures**

*(Abbreviated Version. For complete, document go to <http://publish.bsu.edu/soa/downloads.htm>)*

#### **IV. Out-of-Doors Activities.**

##### **A. Distribution.**

1. By Anyone. Any person may distribute printed material by hand directly to other persons, at any time, in an out-of-doors area of BSU if such distribution is done without tables, booths, or other similar apparatus. Because of litter concerns, printed material may not be placed on motor vehicles on BSU property. Except as permitted by this Policy, printed material may not be posted or otherwise attached to BSU property.

2. By Non-profit organizations. In addition to distribution permitted in IV (A)(1), non-profit organizations may distribute materials using a table, booth or other apparatus in designated out-of-doors areas of BSU property. Such use must be scheduled with the Office of Space Studies and Utilization (OSSU) in accordance with then-existing BSU policies. A non-profit organization may post printed material on out-of-doors bulletin boards, kiosks or other areas designated for this purpose by the OSSU. Such posting may be limited to a particular place or manner, or to particular types of organizations, in a content-neutral manner.

##### **B. Fund Raising.**

1. Non-profit organizations. A non-profit organization may engage in fund raising in an out-of-doors area if the activity is either: (1) for the benefit of the non-profit organization conducting the fund raising and the funds raised will be used for the activities of the organization or (2) the non-profit organization is raising the funds for the benefit of another, clearly identifiable non-profit organization. If the fund raising will use a table, booth or similar apparatus, the organization is required to schedule the activity with the OSSU, and such use is limited to the area designated for such purposes by the OSSU. Such use may be limited to a particular place or manner, or to particular types of organizations, in a content-neutral manner.

2. Recognized student organizations as agents of commercial firms. A recognized student organization may function as an agent or representative of a commercial firm only if: (1) the commercial activity involved is merely incidental to a larger scheduled event of a recognized student organization and is provided under contract with the recognized student organization merely for the convenience of those attending the event, e.g., the Watermelon Bust food sales. AND (2) the sale by the recognized student organization of goods or services of the commercial firm is conducted in the name of the recognized student organization without promotion of the name of the commercial firm or the trade names of the commercial firm's goods or services. Such fund raising shall not be used to evade the restrictions of this Policy which would otherwise be applicable to a commercial firm.

##### **C. Distribution, Solicitation, Fund Raising, Sales or Commercial Activity During Limited Period.**

Non-profit organizations, commercial firms, and other persons may engage in distribution, solicitation, fund raising, sales or commercial activity, including the use of tables, booths or other apparatus between 7:00 a.m. and 11:00 p.m. in a designated area during the three (3) calendar days preceding the fall semester and first summer session, as well as the first day of the fall semester and first summer session. The space is available on a first-come, first-served, basis, by registering with the OSSU at any time during the eight (8) week period preceding the desired use. The OSSU may impose restrictions on the use of such designated space in a content-neutral manner. Visitors may be subject to a rental fee. No goods or services may be made available for sale if similar goods or services are available for sale on BSU property by BSU or persons under contract with BSU. Amplification devices are prohibited in the designated area.

##### **D. Demonstrations.**

1. Demonstrations are permitted out-of-doors on BSU property.
2. Demonstrations may not take place within sixty (60) feet of any window of any classroom or office, or any door of any classroom building, office building, or residence hall.
3. Demonstrators may not block access to or exit from BSU buildings or residence halls.
4. Demonstrators may not disrupt instruction, research, administration or other University activity.
5. Demonstrations which are not expected to involve fifty (50) or more people are not required to be scheduled; however, in the event more than one demonstration is planned for the same area,

the demonstration sponsored by students, employees, or recognized student organizations shall have priority. Otherwise, the demonstration that is scheduled first will be held in the approved location. An attempt will be made to identify an alternate location for the second group.

6. If a demonstration is expected to involve fifty (50) or more people:
  - a) The demonstration must be scheduled with the Student Center Reservation Office (SCRO) at least three (3) business days prior to the demonstration, and approved by the Associate Vice President for Student Life. Approval or disapproval of a demonstration shall be based upon consultation with Public Safety and other events scheduled for the area, in a content-neutral manner. Events sponsored by students by students, employees or other events. Otherwise, the demonstration that is scheduled first will be held in the approved location.
  - b) The demonstration must be held in either the Quad area or LaFollette Field. The Quad is the outdoor area of campus bounded on the North by the Arts Terrace, on the South by the Beneficence monument, on the East by the Burkhardt Building, and on the West by the Ball Gymnasium. LaFollette Field is the field across McKinley Avenue from the LaFollette complex.

#### **E. Marches**

1. Students, employees, and recognized student organizations may be permitted to construct temporary structures out-of-doors in a designated area, where the structure is designed to express the students' views or to raise public consciousness and awareness of an issue. Structures must be scheduled with the SCRO and approved by the Associate Vice President of Student Life at least three (3) business days prior to the construction of the structure. Approval or disapproval of a structure shall be based upon consultation with Public Safety and other events already scheduled for the area, in a content-neutral manner.
2. The designated areas for structures are: the Quad and LaFollette field. The Office of Student Life shall determine the specific location of the structure within the designated area.
3. Structures are permitted for a period of ten (10) days, which includes all time used to set up and tear down the structure.
4. In addition to other restrictions on BSU property use in this Policy, approval for a structure may be denied or revoked where the weather conditions are such as to pose a substantial threat to the health, safety or welfare of the students residing in or sheltered by the structure or where the conditions of the structure become unsanitary for any reason, and where such unsanitary conditions pose a threat to students residing or sheltered by the structure or to the BSU community.
5. Any structure not in compliance with this Policy shall be subject to immediate removal by BSU and the students or recognized student organizations which sponsored, constructed or participated in the use of the unauthorized structure may be subject to disciplinary action up to and including dismissal from BSU and will be responsible for the costs associated with the structure removal.

#### **V. Activities Inside BSU Buildings.**

##### **A. Distribution/Solicitation/Fund Raising/Sales/Commercial Activity**

1. Door to Door Distribution/Solicitation/Fund Raising/Sales/Commercial Activity
  - a) This activity is prohibited within BSU offices or residence halls, but is permitted within BSU family housing. Activity related to voter registration is not prohibited by this Policy.
  - b) Occupants of offices and/or residence hall rooms may invite an individual or organization to the occupant's office or residence hall room for distribution, solicitation, fund raising, sales or other commercial activity within the privacy of the occupant's office or residence hall room.
2. Other Buildings. Non-profit organizations may engage in distribution in designated areas of BSU buildings, if such use is scheduled with the OSSU in accordance with then-existing BSU policies. Such use may be limited to a particular time, place or manner, or to particular types of organizations in a content-neutral manner.
3. Fund raising, sales and other commercial activity is prohibited in residence halls during the three (3) calendar days preceding the Fall semester and the first Summer Session, and during the first day of the Fall Semester and first Summer Session.

4. Residence Hall Lobbies

- a) Bulletin boards may be used by residents and the hall government only.
- b) Printed material may be distributed only on specific tables designated for that purpose by BSU.
- c) Commercial activity in the lobby area is permitted only if it is a (1) demonstration of goods or services sponsored by the hall government that does not involve sales or (2) fund raising activity of the hall government and otherwise complies with this Policy.

**B. Demonstrations.**

- 1. Students, employees, and recognized student organizations may be granted permission to hold a demonstration within a specified area of the following buildings: Student Center, Emens Auditorium, or Pruis Hall, subject to availability and any fees uniformly required.
- 2. Demonstrations inside designated BSU buildings shall be scheduled at least three (3) business days prior to the demonstration, and must be approved by the Associate Vice President of Student Life. Approval or disapproval of a demonstration shall be based upon consultation with Public Safety and other events already scheduled for the area, in a content-neutral manner.

**VII. Obscenity.**

**A.** Obscene speech is not protected by the federal or state constitution, and is prohibited by BSU policy.

Obscene materials share the following elements:

- 1. The average person, applying contemporary community standards, finds that the dominant theme of the matter or performance, taken as a whole, appeals to the prurient interest in sex;
- 2. The matter depicts or describes, in a patently offensive way, sexual conduct; and
- 3. The matter or performance, taken as a whole, lacks serious literary, artistic, political, or scientific value.

**B.** Under Indiana law (I.C. 35-49-3-1) a person who knowingly or intentionally exhibits or distributes obscene material commits a Class A misdemeanor. However, the offense is a Class D felony if the matter depicts or describes sexual conduct involving a person who is or appears to be under sixteen years of age.

**APPENDIX M - Weapons Policy**

Ball State University recognizes the importance of providing a climate which is conducive to the safety of all members of the University community. To aid in the accomplishment of this objective:

- A.** Faculty, Professional Personnel, and Staff employees of Ball State University, students, visitors, guests, and all other individuals are prohibited from possessing or carrying weapons of any kind while on University property, regardless of whether they are licensed to carry the weapon or not. Such prohibition extends to such individuals having such weapons in briefcases, purses, tool boxes, personal vehicles or other personal property or effects.

The items described in clause (c) include, but are not limited to, knives (except small personal pocket knives with folding blades that are less than three (3) inches long.), tear gas, chemical substances,

brass knuckles, clubs or chains.
