

Tenure Track Assistant Professor of Nutrition and Dietetics

COLLEGE OF HEALTH

Now, more than ever, is a time of transformation in health care education. The COVID pandemic and the unfolding realities of health disparities and racial injustice have challenged health care systems and universities to seek a new normal. At the Ball State University College of Health, we are rising to that opportunity. We graduate health professionals who are clinically knowledgeable, committed to advancing inclusive excellence, and ready to collaborate on interprofessional teams. We invite applications for **Assistant Professor in Nutrition and Dietetics** to join us in preparing today's public health and health services workforce.

POSITION DESCRIPTION & QUALIFICATIONS We seek candidates with a doctorate in nutrition sciences or other nutrition discipline with good interpersonal communication skills and the ability to work cooperatively and congenially. Research areas of interest include but are not limited to nutrition in chronic diseases, obesity, nutrition and precision nutrition, and genetics. Candidates should be skilled in teaching nutrition science based courses to students with a range of aptitude. Online teaching experience is desirable. Responsibilities will include developing curriculum, developing courses, teaching graduate and undergraduate students, developing and maintaining a research program, mentoring students in research, and service to the university and profession. Faculty will contribute to a graduate Dietetics and Nutrition program. Research experience in laboratory or clinical environments is desirable.

Lifelong learning at Ball State University extends educational engagement beyond the classroom and includes learning for professional development, personal enrichment, or other goals throughout one's lifetime. Faculty will be expected to participate in the department's, college's, and university's lifelong learning opportunities when available and may be assigned teaching responsibility in this area as part of their overall responsibilities.

Candidates should have an earned doctorate or be ABD with all degree requirements to be completed by the time of appointment. Candidates should also have teaching or teaching assistant experience and a beginning track record in scholarship with potential for funding. We seek candidates able to contribute to interdisciplinary team science. Faculty are expected to work on campus to engage with students, colleagues, and community.

We seek candidates who will excite and motivate students of diverse backgrounds and contribute to a campus climate that supports equity, diversity, and inclusion. At Ball State University, inclusiveness is an enduring value and informs all efforts. Applicants should familiarize themselves with our [Inclusive Excellence Plan](#) to identify how you might contribute to these efforts. Salary and benefits are commensurate with credentials and experience. Position begins August 18, 2023.

THE DEPARTMENT OF NUTRITION AND HEALTH SCIENCES The Department houses accredited undergraduate majors in dietetics, health education and promotion, respiratory therapy and radiography, a minor in public health, graduate programs in Nutrition and Dietetics, Health Science, and an accredited Dietetic Internship. Our programs serve 280 degree-seeking students and are supported by 35 faculty. Faculty and student mentees have access to research laboratories in the Interprofessional Community Clinics with space devoted to assessment, sample collection, processing, storage and analytics. The Welcome Home suite is equipped with food preparation facilities, and feeding, resting and

sample collection spaces.

The Department offers general education courses with for students from other majors. Faculty facilitate interprofessional education with students from other programs.

THE COLLEGE OF HEALTH A vital health resource for Indiana in preparing health professionals, the [College of Health](#) is moving boldly forward in making interprofessional education, practice and research its paradigm across its disciplines. The College offers 32 academic programs in 7 units: Departments of Counseling Psychology, Social Psychology, and Counseling; Military Science; Nutrition and Health Science; Speech Pathology and Audiology; and Social Work plus the Schools of Nursing and Kinesiology. Our 224 faculty and staff serve nearly 3,000 students. We partner with regional communities for immersive learning and research. Our Health Professions Building was opened in 2019 with 165,000 square feet and is LEED Gold certified. Our [Interprofessional Community Clinics](#) offers a range of health and mental health services by students supervised by faculty as well as community health education and prevention services through the [Healthy Lifestyle Center](#). Other facilities include the Health and Physical Activity (HP) complex, Ball Gymnasium, and Lewellen Aquatic Center. Our faculty and students contribute to the evidence base for their respective disciplines. Our research footprint features research institutes, including the [Center for Peace and Conflict Studies](#) and [Human Performance Lab](#). We are committed to inclusive excellence in all we do and intend to contribute to an increasingly - diverse health professional workforce to help decrease health care disparities.

ABOUT BALL STATE UNIVERSITY Ball State University is located in Muncie, Indiana, on an attractive campus 45 miles northeast of Indianapolis.
