Welcome to Ball State University. The health and safety of everyone at Ball State is very important, and you play a key role in the University’s efforts to maintain a safe and healthy campus. To help protect the entire community, all students are required to complete and submit the Ball State University Student Health Form. If you are under 18 years of age when signing the form, it must also be signed by a parent or guardian.

This form is divided into two sections. You should provide all the information in Section One and sign where indicated. The immunization information in Section Two is required by state law and must be provided by your health care provider or by attaching a copy of your immunization record from your high school, college, or health department. The information on this form is strictly for the use of Ball State University Health Services and will not be released to anyone without your knowledge and consent.

There are three easy ways to submit the completed form. After you make a copy for your records, you can:

1. Bring the completed form with you to Orientation.
2. Mail to Ball State University Amelia T. Wood Health Center, 1500 W. Neely Avenue, Muncie, IN 47306.
3. Fax to 765-285-1103.

Approval and consent for treatment:

I have reviewed the above information and believe it to be accurate. I, the undersigned, authorize and consent to treatment. I understand that I may withdraw my consent at any time by notifying the Ball State University Student Health Center in writing. Should I be under 18 years of age, my parent’s (or guardian’s) signature below indicates approval and consent for medical treatment at the Ball State University Student Health Center.

IMPORTANT INFORMATION

Campus Health Care
To meet the health care needs of students, a clinic is conveniently located in the Amelia T. Wood Health Center at 1500 W. Neely Avenue. Available services include the main Health Center clinic, Women’s Center and Physical Therapy. Any student who pays the Health Fee each semester is eligible for services. The fee covers basic professional services at the Health Center, including evaluation by a doctor or nurse practitioner, diagnosis, and plan of care. The Health Fee does not cover the cost of prescriptions and lab tests. For additional information on the services and fees, visit bsu.edu/healthcenter. Copies of this form may also be downloaded from the site.

Health Insurance
It is highly recommended that all Ball State students have adequate health insurance, should services beyond those covered by the student Health Fee be required. It is also important to review your insurance plan for any requirements or restrictions that may impact the student’s care. For example, the requirements may designate which location or facility a student must use. They may be required to obtain approval from a designated primary care physician before the service is provided. Understanding the benefits and requirements of your insurance plan in advance will make it much easier if you need services outside of the Health Center.

If a student has health insurance coverage, it is important he or she has a current and updated card along with a prescription benefit card. It is a good idea to include a copy of the front and back of the insurance card and prescription benefit card when submitting this Student Health Form. It will be beneficial to have the documents available, as it is easy to overlook such details when sick or in need of care.

Special Needs
If you have a special health need, please contact the Ball State University Student Health Center at 765-285-8431 before your arrival.

section two on back
College Immunization Requirements for Enrollment

(You must fulfill these requirements prior to the first day of classes)
