The labor distribution should already be populated; and if you have selected the correct position number, the salary assignment should be charged to the correct department Fund, Organization, Account and Program (FOAP). However, it doesn't hurt to spot check the information to ensure that it is correct. Also, you can change the FOAP information to pay from another department FOAP, but only do this if you have been instructed to do so. For more information, contact your College Budget Director.

To end the job assignment, follow the highlighted instructions.

One of the following approval queues is mandatory for the MTH107 based on the type of employee and assignment:  
If it is a temporary teaching assignment, you must add 700 – Provost  
For temporary employees (non-teaching), you must add 730 – University Compliance  
**NOTE: If the total contract amount is less than \$5,000 DO NOT add the 780 – President approval level. Only if the total contract amount exceeds \$5,000 (Example: \$5,000.01 or higher) would you then add 780 – President.**  
For more information on other required approval queues in your area please contact your college budget director or department head.
