Summer Session 2 - June 15-July 17 - Course Offering: NREM 490/590
Sustainable Food Systems 2020

17% of adults and 20% of children in Muncie are food insecure.
Area farmers grow a lot of produce, but struggle to sell it.
The Muncie Food Hub and Mobile Market works to connect regionally grown produce to residents in need.

Come help us this summer! And get academic credit!

Since we are still dealing with COVID-19 - we will be taking all the necessary precautions to protect ourselves and others during the course. Toward this, the first portion of this course may be online (June 15-30) and the final portion of class (July) will be prepping and running the mobile market while taking extreme precautions to comply with food and general safety regulations.

Do you want to be a part of making positive change in Muncie and Delaware County? Come be a part of this amazing opportunity to work with the community and receive course credit.
