PROGRAM MISSION, GOALS, STUDENT LEARNING OUTCOMES AND PHILOSOPHY

Mission
The mission of the Ball State University Radiography Program is to prepare students with educational experiences and environments to become successful entry-level radiographers who demonstrate the highest level of professionalism and academic, technical and clinical competence in serving their patients, customers, community and the profession.

Goal: Students will demonstrate clinical competence.
Student Learning Outcomes:
- Students will apply appropriate positioning skills.
- Students will practice/apply appropriate radiation protection.

Goal: Students will demonstrate effective communication skills.
Student Learning Outcomes:
- Students will demonstrate effective written communication skills.
- Students will demonstrate effective verbal communication skills.

Goal: Students will utilize critical thinking.
Student Learning Outcomes:
- Students will demonstrate digital technical factor and exposure knowledge.
- Students will vary procedure protocols/positioning in non-routine situations.

Philosophy
The philosophy of the program is to encourage students to strive for quality in their work and in the care they provide for patients, as well as instill professional values and work ethic. The program emphasizes that the responsibility of learning is placed on the student. Students are challenged to strive and maintain high quality in all aspects of the program and to not accept mediocrity. Students are encouraged to take advantage of the opportunity to learn from others including scientific, professional, technical, intellectual and spiritual knowledge.

Accreditation information:
The Ball State University Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT) and has a full 8-year accreditation. Ball State University is accredited by the Higher Learning Commission with regional accreditation through The North Central Association of Colleges and Schools. Program effectiveness data is available on the JRCERT website at www.jrcert.org, and the Ball State University website at www.bsu.edu/radiography.
