Certified and Innovative

Enhance your understanding and skills in the strategic field of public relations with a master’s degree from Ball State University. Ours was the first program in the nation certified by the Public Relations Society of America (PRSA). Also, Ball State is one of the few universities in the nation to offer a master’s degree specifically in public relations with concentrations in leadership and media analytics.

Here are just a few benefits of the program:

- **Courses in media analytics**, which measure the success of websites, and social, mobile, and traditional media, are our newest addition to the public relations program and prepare you for the demands of the marketplace
- **Practitioner-professors** who have worked in public relations, journalism, advertising, and marketing and can connect you with internships and jobs in their industries
- **Online graduate certificates** in corporate and education communications - great ways to start graduate education
- **No GRE required** to apply for and enroll in this degree program
