Department of Political Science
Internship Packet
2021
Department of Political Science Undergraduate Requirements
for Student Internships
Dr. Sean Hildebrand – Internship Coordinator
269 North Quad or shildebrand@bsu.edu

You have the opportunity to gain real-world experience for credit towards your degree in Political Science! This can occur during the Spring, Summer, or Fall semester, but the legwork needs to occur far in advance to make it happen.

To receive credit for an internship you must meet the prerequisite requirements for the internship course. This includes the following that is dependent upon when you began the degree program at Ball State:

For those who started their Political Science degree at Ball State before the Fall 2019 Semester: Successful completion of POLS 130, 237, and one of the following courses: POLS 342, 350, 431, or 473. It is suggested that students also complete 5 “Career Ready” competencies via the Career Center – including the topics of Career Management, Professionalism/Work Ethic, Oral/Written Communication and two other topics of your choice.

For those who started their Political Science degree at Ball State during/after the Fall 2019 Semester: Successful completion of 15 Political Science credit hours. Verified completion of the 5 “Career Ready” competencies via the Career Center – including the topics of Career Management, Professionalism/Work Ethic, Oral/Written Communication and two other topics of your choice.

Students can apply to work during the spring semester as part of the legislative intern program at State Legislature in Indianapolis, get paid, and take additional degree courses in Indianapolis. Otherwise you need to find an internship on your own. Any internships the department hears about will be posted on our department’s Facebook page: https://www.facebook.com/ballstatepolisci/ and on the department webpage: https://www.bsu.edu/academics/collegesanddepartments/political-science/activities-opportunities/internships. The Ball State Career Center also offers information about internships as well as resume and cover letter development assistance, and they host the “Career Ready” competencies: http://cms.bsu.edu/about/administrativeoffices/careercenter. If you are considering staying in the state of Indiana to work, https://www.indianaintern.net is another strong resource for internship information.

Internships need to be related to the public sector in some way. This includes government, non-profit, policy, political, or lobbying organizations. You will need to start making phone calls and connecting with these organizations as soon as possible to get the internship established. In many
cases this will include an interview process, so have a good resume and cover letter developed before applying.

Once you get things set up for an interview, you should meet with Dr. Sean Hildebrand (if you have not already) to express your interest in doing an internship. He will help you get ready for any interview you may have, and help you establish what will be necessary for you to register for course credit once the internship is offered and accepted. Note: you must secure the internship, clear it with Dr. Hildebrand, and register for the course prior to the University’s Drop/Add deadline for the semester in which you complete the internship work to earn course credit. No late adds will be processed for internship credit.

During the internship, you will be required to work for a minimum of 200 hours during the semester (12-13 hours per week in the fall/spring, 20 hours per week in the summer) at the organization. Dr. Hildebrand will ask for contact information of your supervisor and will be in touch with them to make sure things are going as they should. Furthermore, you will keep a journal of your daily activities at the internship, and write a few short papers about your experience as it relates to what you’ve learned in class. All assignments are submitted and scored via Canvas.

The internship is one choice of capstone courses needed by Political Science majors to graduate. The other choice is a thesis (404). Students must successfully complete one or the other and declare your intention to pursue one or the other by the time you have completed 75 hours of course work towards your degree.

If you have any questions please contact Dr. Hildebrand via e-mail at shildebrand@bsu.edu, or stop by his office – 269 North Quad – during his open office hours.

Please note this flyer is for Political Science majors only – Legal Studies majors have their own requirements and should speak to Professor Brad Gideon (bmgideon@bsu.edu) directly about what is necessary for that program.

COVID-19 Addendum: Once you secure an internship please provide Dr. Hildebrand the contact information for your place of potential employment. The university is including additional requirements for internship hosts to comply with during the pandemic, and these details must be worked out prior to approving any internship. When on-site you must wear a face mask and comply with any other university and workplace requirements for the pandemic.
