Here is the updated list of links to internships I’ve been able to compile via my sources. These listings could be for any semester. I’ll update the list as I get additional information.

As always you would need to do the legwork to make this or any internship happen. A great resource to start your search here in the state of Indiana is IndianaIntern: https://indianaintern.net. If you’re thinking Washington, DC or elsewhere, check out http://www.internships.com. Otherwise, search on Google for national, state and local government agencies, politicians, or non-profit organizations and they should have listings on their webpages as they become available.

Remember to contact me (Dr. Hildebrand) at shildebrand@bsu.edu if you have any questions, or at least before interviewing just to make sure the internship falls under the parameters needed in the department for your degree (topic, job description, time requirements, etc.).

Thanks!

SH
