Executive Summary

It is a pleasure to share with the Ball State University community the Fiscal Year 2012-13 records pertaining to sponsored programs activities at BSU. Figures include grant awards, service contracts awarded to University Centers and Institutes, and sponsored programs awarded to the Ball State University Foundation.

FY 12-13 brought \$20,237,307 in external dollars to BSU, representing a 43% increase over the previous FY. 532 proposals were submitted during the fiscal year and 267 funded awards were recorded.

As always, we extend our deep appreciation for all those who put in the hard work required in preparing grant proposals – awarded or not – and recognize the additional productivity and commitment proposal preparation requires. In addition, we recognize the skill and dedication by the entire research enterprise at Ball State: the Sponsored Programs Office, Contracts and Grants Office, Office of Research Integrity, and the Ball State Innovation Corporation.

Highlights of the previous year, which are detailed within this report include:

- the creation of the Advance Proposal Development program, which combined a number of existing SPO programs with the goal of increasing proposal quantity and quality;
- the second annual Grants Information Session, featuring keynote speaker Richard Dunfee of the Grants Resource Center; and
- two sessions of the SPO Fellows program to provide an educational opportunity for new faculty to develop grant-writing skills and knowledge.

Finally, FY 13 saw a number of personnel changes in SPO, with Justin Miller completing his first year as SPO Director, former Research Information Coordinator Augusta Wray assuming Justin's former Proposal Manager position, and new addition Jessie Roark beginning the RIC position.

External Funding Overview

Historically, the Sponsored Programs Office (SPO) Annual Report has reflected only those awards received by and processed through the Contracts and Grants Office. Now, however, the SPO external funding totals include Ball State University Foundation funds that play out as externally sponsored projects, as well as funding self-administered by University Service Centers. The chart below, "External Dollars Received FY 2008-2013," reflects totals for all sources of external funding for Ball State projects, including Foundation support and Centers.

Research Recognition

Student Symposium. The 2013 Symposium continue as an important public forum for students to display and communicate their research and create projects. 185 individual student participants presented 127 projects, which drew an estimated 422 total attendees.

- 4 awards for *Content (Some projects presented by multiple students)*: **Jaime Owens**, Architecture; **Zachary Kendall**, Architecture; **Scott Kollwitz**, Department of Technology; **Katie Reed**, Biology; **Bingwei Ye**, Physiology and Health Science; **Aaron Cross**, Biology;
- 2 awards for *Display*: **Jared Merriman**, Biology; **Brendon Newell**, Information Systems and Operations Management; **Adam Hamman**, Information Systems and Operations Management; **Erika Hess**, Information Systems and Operations Management; **Jay Reyes**, Information Systems and Operations Management

BeneFacta Day. The 22nd annual BeneFacta Day, the event for recognizing faculty and professional personnel active in submitting proposals and carrying out sponsored projects was celebrated December 5, 2013 at 4:00 p.m. on the 3rd floor balcony of Emens Auditorium. A festive occasion with hors d'oeuvres, wine, and cheese over 100 participants heard remarks by the President, Provost, Associate Provost for Research, and SPO Director.

Researcher and Outstanding Creative Endeavor of the Year. The annual lecture and reception featuring the Researcher of the Year and Outstanding Creative Awardee took place on April 15, 2013 in Bracken Library. The 2012 Research recipient, as nominated by his peers and chosen by the University Research Committee, Holmes Finch, professor of educational psychology, spoke on "Lessons I've learned in 20 Years of Statistical Practice". The Outstanding Creative Endeavor award is likewise nominated by peers and selected by the Creative Arts Committee. The 2012 awardee, Beth Turcotte, associate professor of theatre, presented on "Ball State to Broadway".

Staff Changes

- Director, Justin Miller, took over upon the retirement of Kristi Koriath
- Augusta Wray, previously SPO's Research Information Coordinator, replaced Justin as a Proposal Manager
- Jessie Roark was then hired as the new Research Information Coordinator

Ongoing Campus Initiatives

- Migration of databases and processes to Cayuse424, which went live July 1, 2013
- Targeted Faculty Outreach & Training (Grantmanship Information Session, Boot Camp, etc.)
- Continued movement from Quantity to "Quantity with Quality" regards proposal submissions, as highlighted in the new Strategic Plan

Continued Program Offerings

Grant Essentials Workshop series – Offered semesterly. Series returned to 4 sessions, with individual sessions presented this fiscal year through both open enrollment (via Training & Development) and targeted audiences within a specific college (CAST during Fall 2012). Approximately 50 faculty members participated in the workshops.

Grantmanship Information Session (G.I.S.) – February 25, 2013. Collaborative outreach event designed to provide both new and experienced grant writers with tools to chart a course to grant success. Event comprises: keynote speaker Richard Dunfee of the Grants Resource Center on the federal funding outlook; presentations on Grant Writing 101 (by Dr. Dunfee), Fulbright opportunities, and opportunities for PUI institutions; and info stations by a number of University Knowledge Units and service centers. There were 75 participants in attendance at this even.

Spring SPO Fellows – 2013. A keystone program for new faculty developed by Program Manager, Stan Geidel, continued in Spring 2013 with a hand-selected group of six faculty members chosen by the Provost and APR to participate in a semester-long intensive educational program. Knowledge base and grant-writing skills will be developed in order to obtain external grants in support of fundable endeavors more successfully. A second session was offered during the first summer semester with eight faculty members participating.

Focus on the Search – 2012-2013. Focus on the Search was started in Spring 2012 as an additional offering to help faculty and students become acquainted with the electronic funding resources SPO has to offer. Specifically, this 1-hour intensive session allows 6-8 participants get hands-on, one-on-one time with the Research Information Coordinator to get signed up for COS Pivot, learn how to use this powerful tool, and develop a search, all with the help of a Pivot expert. There were 36 participants this year.

Faculty and Professional Personnel Support Programs

Indirect Cost Recovery Distribution – Transferred recovered IDC accordingly: 5% to Principal Investigator(s), 10% to Department or Unit, and 3% to College (when the previous 4-year IDC average is matched; 20% on amounts above the 4-year average). During the past year, the following amounts were transferred: \$45,180 to PIs, \$175,927 to departments/units/centers, and \$41,536 to colleges, for a total of \$262,643 in indirect cost distributed. This was an increase of 12.7% (or \$29,696) over the previous year's distributions.

Supplemental Compensation – Further implementations and education on the Supplemental Compensation Policy took place in FY 13, beginning with the appointment of Jackie Davis as Supplemental Compensation Coordinator in December 2012. In addition, a group of representatives from Sponsored Programs, Contracts and Grants, Payroll and Employee Benefits, Human Resources, University Budget Office, Provost Office and Online and Distance Education met regularly to review application and regulation of the policy. Activity and fiscal approvers were appointed in each Vice-Presidential Area to assist with consistent application and approval of payments under the policy. Four public forums and six training sessions were held throughout the year to answer questions and to promote understanding of the policy. FY 14 will focus on additional trainings and workflow approval mechanisms.

SUBMIT Program – SUBMIT placed funds into an account for PI extramural-related expenses according to a graduated scale based on the level of a sponsor request. In FY 2012-13, 431 proposals were eligible for these funds resulting in \$104280.12 being distributed among 243 faculty PI and Co-PIs.

ADVANCE Program – The Sponsored Programs Office was pleased to announce the advent of the Advance Proposal Development Program in AY 12-13. In 2011, SPO Faculty Fellows conducted a needs assessment from the department perspective to identify ways to further enhance the research culture at BSU through targeted infrastructure support. The information gathered from the Departmental Funding Plan Survey revealed several new avenues for incentivizing and supporting departments related to projected external grant production. Based on these findings, the Sponsored Programs Office proposed the Advance Proposal Development Program. The goal of Advance is to increase both the quantity and quality of competitive external grant proposals submitted by BSU faculty members and professional personnel. As such, the ADVANCE award serves to support proposal development costs through dedicated summer time, academic year release time, travel and/or supplies that will directly impact the development and submission of a competitive external grant proposal

Policies

External Proposal Submission Policy (revised). In an effort to better focus on the *quality* of externally submitted proposals and to allow for more time for their administrative review, the External Proposal Submission Policy was revised, moving the deadline for all proposal materials from one day to three days.

Time Buyout Policy (revised). The procedure on how time could be bought out on external proposal was revised, acknowledging the inclusion of course releases and labor recharge, as well as the allocation and purpose of unused buyout funds.

Procedural Improvements

SUBMIT funding distribution / Research Incentive Account (RIA) management, has been revised to encourage larger sponsor requests by raising the minimum request amount, while also increasing the amount of incentive available at each level. In addition, funds deposited into RIAs must be substantially utilized each fiscal year or those funds will be taken back by the program.

Communication and Information

SPO continues to share information through a number of social media outlets including the **SPO Research Newsletter Blog**, **Facebook** page, and **Twitter** account. In addition to funding opportunities, SPO events, and news related to external funding, these mechanisms have also allowed for the ability to share funding successes quickly with the campus community (called **SPOTlights**).

Ball State Research. SPO's annual online research magazine added video to this year's volume, highlighting recipients of the Researcher of the Year and Outstanding Creative Endeavor awards.

Webinars. SPO hosted approximately 20 webinars over the course of the year. These included webinars from the Grants Resource Center and the Institute of Education Sciences.

SPO Professional Development

SPO Staff attended and/or presented at the following conferences and professional meetings:

- Association of University Technology Managers (AUTM) Essentials – Jackie Davis
- Grants Resource Center (GRC) Fall 2012 Conference (Online) – Sarah Lee
- Grantsmanship Information Sessions (GIS) – Jackie Davis and Justin Miller presented
- Indiana Forum for Research Administration (IFRA) – Jackie Davis, Augusta Wray, Heather Miller, Sarah Lee
- Midwest Research and Graduate Administrators Forum (MRGAF)–Robert Morris and Justin Miller
- National Council of University Research Administrators (NCURA) Fundamentals Class – Sarah Lee
- National Council of University Research Administrators Pre Award National Conference – Jackie Davis, Augusta Wray, Sarah Lee
- National Council of University Research Administrators Post Award National Conference – Jackie Davis
- National Science Foundation Day (NSF) at IUPUI – Jackie Davis, Augusta Wray, Sara Lee
- Provost and Deans Retreat, Indiana State University – Robert Morris

ASPiRE Internal Grants Program Overview

Ball State University's Internal Grants Program was created in 1965 to provide funding to faculty and students and to support and develop projects in the areas of research and creative endeavors. ASPiRE Internal grants are intended to supplement and strengthen the support for research and creative endeavors that comes both from departmental and college resources along with other university programs.

Ball State Internal Grants program offerings consisted of the following competitions this fiscal year: General Faculty Research, Junior Faculty Research, General Faculty Creative Arts, Junior Faculty Creative Arts, Ad Hoc, New Faculty Start-Up, Reprint/Publication Support, Travel Support for External Funding for faculty, International Travel Support, Junior Faculty Workshop Incentive as well as Graduate Creative Arts, Graduate Research, Undergraduate Creative Arts, Undergraduate Research, and Travel Support for Professional Meetings for students.

2012-13 Program Participation

The ASPiRE Internal Grants program processed 254 proposals and awarded \$278,865 to support 215 projects. The total number of proposals submitted in 2012-13 increased 4% from 2011-12, and proposals funded in 2012-13 increased 4% from those funded in 2011-12. Details of the 2012-13 ASPiRE Internal Grants program are summarized in the table, "Internal Grants Program 2012-13." In addition, descriptions of individual internal awards can be found under their respective College and Department headings.

Intellectual Property

Intellectual property development continues to be an important component to the academic life of the University. Stephanie Sisco receives and advises on matters pertaining to intellectual property disclosures to the Office of Technology Transfer (within the Sponsored Programs Office). Wil Davis, Interim President of the Ball State Innovation Corporation, directs commercialization and licensing activity related to Ball State's works of intellectual property.

Disclosures were made for 9 copyrighted works on the part of 25 authors and for 2 patentable inventions by 3 inventors. Intellectual property income increased from last fiscal year's \$270,404 to this year's \$397,481 total (please see chart below).

Notable was the filing of a U.S. Provisional Patent application by Sue McDowell of Biology and Rob Sammelson of Chemistry for RSM Series as Inhibitory Compounds for Staphylococcus Aureus in Endothelial Cells. Noteworthy was the filing of two U.S. Non-Provisional Patent applications: Efficacy in Treating Bacterial Infection by Sue McDowell and Rob Sammelson along with Electrocatalytic Alkenes and Alkynes Dimerizations and Trimerizations by Jesse Tye of Chemistry.

FUNDING PROFILES

Projects with multiple investigators are listed in the departments of the Principal Investigator (PI), as well as in the department of each Co-Investigator (Co-PI).

In cases where the PIs are from different departments within the same college, an asterisk (*) will appear after the name of the Co-PI.

When the PIs are from different colleges, a double asterisk (**) will appear after the name of the Co-PI.

NOTE ON COLLEGE TOTALS: Funded awards, for which there is Co-PI participation, are referenced in both PI and Co-PI departments. However, official college and departmental totals include only that of the lead investigator.
