Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

Number of students in supervised clinical experience during this academic year

Please provide any additional information about or descriptions of the supervised clinical experiences:

Candidates in the Transition to Teaching Program complete a 10-week student teaching (traditional program completers complete a 16-week student teaching experience). The 10-week duration still meets the minimum length per Indiana Administrative Code. Supervision is done in a combination of "in-person" visits and virtual visits by using WebEx or GoReact Conferences, due to the distance from campus of many of the students in the program. Candidates are spread out all over the U.S. although many still reside in Indiana. Candidates in the program are also allowed to be on an Indiana Emergency Permit or Indiana Transition to Teaching Permit. (The candidate has to be approved for the permit by the school district and the Indiana Department of Education issues the permit.) When applicable, Candidates who complete post-bac initial licenses that are not in the Transition to Teaching program complete the same requirements as traditional program completers (i.e., 16-week student teaching, same courses, etc.)

Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Woodrow Wilson program has been discontinued due to funding. However, the EPP has added a Transition to Teaching program for secondary education areas. Ball State has a Transition to Teaching Program for Elementary Education.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

 No

2. Describe your goal.

1

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

The Woodrow Wilson program was discontinued. There was a drop-off in the recruitment of candidates in this program as the EPP transitioned to a Secondary Transition to Teaching program.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

A faculty member oversees the Secondary Transition to Teaching program.

6. Provide any additional comments, exceptions and explanations below:

Woodrow Wilson program has been discontinued due to funding. A Transition to Teaching program began in 2019, but the first group of program completers will not complete the program until 2019-2020.

Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in mathematics in 2019-20? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

1--Most post-bac initial completers will be recruited through the Secondary Transition to Teaching program.

Set Next Year's Goal (2020-21)

9. Will your program prepare teachers in mathematics in 2020-21? If no, leave the next question blank.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The accreditation and assessment coordinator worked with all programs in 2020 to align courses required by all candidates in their program to InTASC Standards related to technology. Use of technology is embedded in methods and field experience courses throughout the preparation program. During the student teaching experience, edTPA is required. The program provides significant technology support to the candidates to facilitate this learning.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Students in Transition to Teaching (Elementary) learn about the needs of students with disabilities in a variety of ways. In their courses they learn about the process of teaching and learning, how to differentiate their lessons for a variety of students, and how to use resources to locate assistance with students who have disabilities. They also complete edTPA portfolios during student teaching which focus on students with IEPs and other educational needs.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Students in Transition to Teaching (Elementary) work in diverse classrooms, with many children who have IEPs. They are encouraged to participate in all IEP conferences, assist with differentiated planning and assessment, and communicate with families (when appropriate).

c. Effectively teach students who are limited English proficient.

Students in Transition to Teaching (Elementary) learn a variety of methods and strategies to assist students with Limited English Proficiencies - especially in their two reading courses. They also complete an edTPA portfolio in student teaching, in which they focus on differentiation for this population of students.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

Evidence-based practices in the graduate and undergraduate methods courses include Direct Instruction, explicit instruction and remedial strategies in literacy instruction, supporting student learning using graphic organizers, learning strategies and organizational skills. Opportunities for application occurs in the advanced practicum, taken concurrently with the undergraduate methods course. Writing lesson plans and unit plans with specific learning needs in mind is a major focus at the undergraduate level.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

A 5-week IEP unit in SPCE 376, Methods in Mild Interventions K-6, focuses on all components of IEPs as well as the IEP process/case conference committee and eligibility determination. The emphasis is on writing Present Level of Academic Achievement and Functional Performance, annual

goals, and accommodations. Using a case study, students write an IEP in groups of four. In the graduate mild interventions methods course, SPCE 688, a book on writing IEPs is one of two required textbooks. Based on a case study, candidates write components of an IEP and respond to in-depth focus questions targeting IEP procedures and components.

c. Effectively teach students who are limited English proficient.

Culturally Responsive Teaching and Sheltered Instruction (IRIS Module) are included in the course material. Candidates in SPCE 376 have to complete an assignment based on the IRIS Module, Teaching English Language Learners: Effective Instructional Practices, as well as a differentiated instruction lesson that includes EL learners. At the graduate level, SPCE 686 (Introduction to Mild Disabilities) includes assigned readings and reflections on student differences, including cultural and language differences. Candidates in the methods course, SPCE 688, develop and teach a differentiated instruction lesson. After teaching the lesson, they have to reflect on the process, including the impact of student differences (cultural and EL students where appropriate) on learning. EL learners are not specifically targeted since many of the teachers who are taking this course do not have EL students in their classrooms.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

At the March 11, 2015, meeting of the Professional Education Committee (PEC), members passed a motion to change the policy that candidates successfully pass the Indiana CORE Assessment (licensing exams) in order to complete BSU's teacher preparation program. Under previous Title II, the institution's pass rate was always 98% or higher, because passage of the test (Praxis II prior to Pearson's Indiana CORE Assessment) was a requirement for program completion (a small handful of candidates were given waivers by the state; otherwise, the passage rate would have been 100%). Because of this new policy, our passage rate will be lower than 100% because a person can complete a program now without successful completion of the test. The EPP has added a transition to teaching program in Secondary. In addition, the Elementary transition to teaching program, which was dormant for a number of years, has been resurrected.
