Section I.c Enrollment

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and not an enrolled student.

Total number of students enrolled in 2014-15:	772
Unduplicated number of males enrolled in 2014-15:	181
Unduplicated number of females enrolled in 2014-15:	591

Section IV Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?

Yes

If yes, please specify the organization(s) that approved or accredited your program:

State
NCATE

No

Section V Use of Technology

Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction
Yes
- use technology effectively to collect data to improve teaching and learning
Yes
- use technology effectively to manage data to improve teaching and learning
Yes
- use technology effectively to analyze data to improve teaching and learning
Yes

Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All pre-service teachers are required to purchase a laptop computer upon enrollment in the program. Students establish their digital portfolio in their introductory class and have required artifacts that are posted throughout their preparation program, which culminates in a summative presentation prior to the conclusion of their student teaching experience. Use of technology is embedded in methods and field experience courses throughout the preparation program. During the student teaching experience, the required assessment of student learning unit plan is designed to include required components of data collection, analysis and interpretation. The program provides significant technology support to the candidates to facilitate this learning.

Section VI Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.

Does your program prepare general education teachers to:

- teach students with disabilities effectively
No
- participate as a member of individualized education program teams
No
- teach students who are limited English proficient effectively
No

Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Students enrolled in the Elementary Education Department's initial licensure program develop and engage in teaching activities with children from diverse backgrounds during practicum experiences that occur in community schools as well as in other locations such as Texas, England and Germany, where the teaching candidates enter schools with a high degree of language diversity. As part of student teaching, teaching candidates are required to assess students and develop an individualized learning plan based on assessment. This project provides candidates with information and experiences consistent with what occurs in the formulation of an individualized education plan. In addition, the department provides opportunities for student teaching to occur in international settings and in other states, giving candidates cross-cultural experiences teaching learners whose primary language may not be English.

In EDRD 430, BSU preservice teachers teach an elementary child who is struggling in reading in a one-on-one situation. The BSU preservice teachers administer a variety of literacy assessments to the child, analyze and interpret the test results, plan and implement an appropriate instructional program based on their child's needs. BSU preservice teachers will "present" their child cases to their classmates and discuss instructional options. This is similar to an aspect of an IEP meeting. In both EDRD 400 and 430, teaching literacy to diverse learners is a topic of the course.

Students in the dual major program have specific courses in special education that encompass strategies for ELLs. The general curriculum has been revised and beginning in the fall of 2010, all elementary education majors are required to take a specific courses (EDEL 244) which addresses diverse learners and multicultural education.

Students in secondary education programs have diverse field experiences beginning with their introduction to education class in their freshman year. The junior level practicum courses have been revised to include modules in special education.

Does your program prepare special education teachers to:

- teach students with disabilities effectively
Yes
- participate as a member of individualized education program teams
Yes
- teach students who are limited English proficient effectively
No

including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

A 3-week IEP unit in the required SPCE 376 course focuses on all components of IEPs as well as the IEP process/case conference committee. The emphasis is on writing Present Level of Academic Achievement and Functional Performance, annual goals, and accommodations. Using a case study, students write an IEP in groups of four.

SPCE 688 course objectives include an IEP assignment; the Gibb and Dyches book on writing IEPs is a required text.

Students in SPCE 688 develop a differentiated instruction lesson for their classroom. After teaching the lesson, students have to reflect on the process, including the impact of student differences (cultural and ELL students where appropriate) on learning. ELL learners are not specifically targeted since many of the teachers who are taking this course do not have ELL students in their classrooms. Culturally Responsive Teaching and Sheltered Instruction (IRIS Module) are included in the course material.

Students in SPCE 376 have to complete an assignment based on the IRIS Module, Teaching English Language Learners: Effective Instructional Practices.

Section VII Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

In 2013-2014, the Indiana State Board of Education and the Indiana Department of Education made a transition from Praxis II (ETS) to the Indiana CORE Assessment (Pearson). During this transition, data from previous cohorts for 2011-2012 and 2012-2013 listed in this year's report do not match what was listed in last year's report. We have reported this to the Indiana Department of Education. They responded by indicating the following: "ETS sent Praxis I (5710, 5720, 5730, 0710, 0720, 0730) scores to be included in Title II. They should not have been included because they were not licensure requirements but entrance requirements. When ETS sent the information regarding Praxis I they did not share composite passes, so anyone with a composite score of a pass showed as a fail. Therefore, the pass rates for 2011-2012 and 2012-2013 were impacted. Pearson is writing logic code to eliminate Praxis I (5710, 5720, 5730, 0710, 0720, 0730) and once those have been removed, the reports will be run again and the pass rates should correct themselves." While the subsequent runs did come closer to matching what had been displayed in previous reports, it did not perfectly match what was submitted in previous years. The correct data for Ball State University for 2011-2012 and 2012-2013, as it appeared in last year's report is attached as a PDF. At the March 11, 2015, meeting of the Professional Education Committee (PEC), members passed a motion to change the policy that candidates successfully pass the Indiana CORE Assessment (licensing exams) in order to complete BSU's teacher preparation program. The previous policy indicated that candidates could not complete the teacher education program or earn a degree in an education related field unless they passed all exams--they could request a BA in General Studies. The new policy indicates that candidates may complete a teacher preparation program and earn a degree in an education related field without either taking or passing the Indiana CORE Assessments--they just can't apply for Indiana licensure until they pass all licensing exams. In addition, the recommended policy change called for candidates who had failed licensure exams as far as three years prior to petition to receive an education degree. As a result, we had 19 additional program completers who included in our count that did not take a test within this testing window. Under previous Title II, the institution's pass rate was always 98% or higher, because passage of the test (Praxis II prior to Pearson's Indiana CORE Assessment) was a requirement for program completion (a small handful of candidates were given waivers by the state; otherwise, the passage rate would have been 100%). Because of this new policy, our passage rate will be lower than 100% because a person can complete a program now without successful completion of the test. In addition, the 2014-2015 report will be an anomaly because it includes a small number of retroactive candidates who were counted in this year's report, as required by our IDOE and by Title II.
