Student Academic Ethics Policy

Honesty, trust, and personal responsibility are fundamental attributes of the university community. Academic dishonesty and other forms of academic misconduct threaten the foundation of an institution dedicated to the pursuit of knowledge and will not be tolerated. To maintain its credibility and reputation, and to equitably assign evaluations of scholastic and creative performance, Ball State University is committed to maintaining a climate that upholds and values the highest standards of academic integrity. Visit the VPAA's ***academic integrity website*** (Students tab) for resources on understanding academic integrity, citing sources properly, and avoiding inadvertent academic dishonesty. To learn about BSU's academic integrity expectations and students' rights, please read the University ***Student Academic Ethics Policy***.

Academic integrity violations include giving or receiving an unfair academic advantage (cheating), presenting someone else's ideas or work as your own (plagiarism), and falsifying

academic records. Unless otherwise indicated, you must work independently by yourself. Check with me if you are unsure whether something constitutes academic dishonesty. Examples of academic integrity violations include but are not limited to:

- Using resources not authorized by the faculty member (including devices, AI tools, hidden notes, and open books)
- Using a generative AI system or a person to complete academic assignments such as response papers, discussion posts, essays, or any other assignment when such use is not explicitly permitted by the assignment instructions or the instructor.
- Utilizing another person or a generative AI system to take a quiz, examination, or similar evaluation in place of oneself.
- Using a generative AI system for research, creative work, theses/dissertations, grant proposals, IRB-regulated work, or publication-bound work in violation of university AI policies, funder/publisher rules, IRB requirements, or discipline-specific standards.
- Presenting as one's own work the ideas, representations or words of another person or of a GenAI system without customary and proper acknowledgment of sources or of the AI tool(s) used.
- Using generative AI systems to analyze data, conduct research, or generate content that is included in an assignment (images, graphs, charts, tables, etc.) without proper documentation, citation, and attribution of this AI use.
- Using commercial study websites to find answers to graded assignments (Chegg, Course Hero, StudyPool, OneClass, etc.).
- Without the instructor's written permission, giving away, buying, or selling graded assignments class notes, exams, study guides, or other course materials to other students or to third-party vendors (Course Hero, Chegg, 24HourAnswers, etc.).
- Working with another person on any assignment other than authorized group projects.
- Sharing or allowing others to access your files, whether done with permission or not.
- Reusing your own work from another semester, course, or section.
- Sharing answers with others during exams (passing notes, texting, whispering, gesturing)
- Discussing exam questions and answers with students who have not taken the exam.
- Soliciting others to complete work for you.

The Writing Center

All writers improve with practice and feedback, so as a student in this course, you are encouraged to use the Writing Center to get additional feedback on your writing. The Writing Center can help you at any stage of the writing process, whether you're just getting started and need help brainstorming or when you're wrapping up a project and just want a second set of eyes. We work with writers from all disciplines and with all kinds of writing, including essays, reports, reflections, research projects, web content, lesson plans, slideshows, poster presentations, resumes, and other digital or print texts.

You can choose from three appointment types: getting started on a new project (Planning appointment), discussing an existing draft (Feedback appointment), or scheduling time to work, with a tutor on hand to keep you motivated (Accountability appointment). To schedule a free appointment, go to ***bsu.edu/writingcenter***. We offer online appointments any time we're open, or you can meet a tutor face-to-face in Robert Bell 295 during weekdays and Bracken Library First Floor West in the evenings. Canvas Accessibility

Canvas provides a user experience that is easy, simple, and intuitive. Special attention has been paid to making Canvas screen-readable. The Rich Content Editor encourages users to create accessible content pages (i.e. text formatting is accomplished using styles). Canvas is designed to allow limited customization of colors and schemes to be accessible for all users. The National Federation of the Blind granted Canvas the Gold Level Web Certification in 2010. Find more information by visiting the **Canvas Voluntary Product Accessibility Template (VPAT)**.

FERPA and Privacy

As a student, your educational records are considered confidential. Under FERPA (Family Educational Rights and Privacy Act), your records are confidential and protected. Under most circumstances, your records will not be released without your written and signed consent. However, some directory information may be released to third parties without your prior consent unless a written request to restrict this is on file. You can learn more about student rights to privacy by reading **Ball State's FERPA and Privacy and Protection**.

Plagiarism Detection

The campus subscribes to Turnitin, a plagiarism prevention service, through Canvas. You may need to submit written assignments to Turnitin. Student work will be used for plagiarism detection and for no other purpose. The student may indicate in writing to the instructor that he/she refuses to participate in the plagiarism detection process, in which case the instructor can use other electronic means to verify the originality of their work.

Course Expectations and Policies

Participation Policy

This course is designed with weekly activities, discussion, and other forms of regular collaboration and communication.
It is recommended that you log into your course 3 to 4 times a week and check your official Ball State email account daily to view announcements and prepare for class.
Complete all assignments, quizzes, tests, and any other activities by the stated due dates.

Please pay attention to upcoming assignments and readings and ask any questions at least 24 hours prior to when the assignment is due.

Feedback Policy

I will respond to emails from your official Ball State email address within 24 hours during weekdays (Monday-Friday) and within 48 hours on the weekend.
I will read every discussion post, but I will not always personally comment on posts.
I will grade your quizzes, assignments, and discussions within one week of submission.
Contact me directly if you have questions or concerns about your performance in class.

Late Assignment Policy

All assignments are due by midnight (EST) on the due dates indicated in Canvas.
In an effort to provide some flexibility for the curveballs we all experience in life, there is a 24-hour "no questions asked" grace period. If you are submitting an assignment late, but within this grace period, you do not need to notify me.
If you have extenuating circumstances that prevent submitting an assignment on time or within the grace period, please contact your instructor directly to discuss an extension.
Priority concerns are: you not falling behind (stressful!) and doing quality work.
Canvas will not accept assignments for grading after 11:59 pm on the final day of class.

Policy on Grammar and Writing Conventions in Assignments

This course and instructor recognize and celebrate the cultural and linguistic diversity of the students enrolled, including the many ways that we develop expressive language and our own unique linguistic repertoires. This policy seeks to provide the language resources and supports in order to empower teacher candidates to recognize and flexibly use appropriate language for various purposes and audiences.

The courses in this degree program are designed to prepare you to become an effective and successful teacher. As current/future TODs, it is imperative that you are able to show proficiency in the use of formal writing (and signing, as appropriate). Teachers collaborate and communicate with various professionals and parents on a daily basis. Clear and appropriate communication is a fundamental skill for effective teaching and professional credibility. Proper grammar will be a component of the grading rubric for assignments in which formal writing or signing would be appropriate. Informal assignments such as discussion boards will not have grammar-specific grading criteria.
See the information on accessing the Writing Center above. Your instructor is also available to assist with writing needs related to this course!
Tip: AI can help you effortlessly maintain formal English conventions (when appropriate) by downloading the Grammarly extension for **free**. LINK

Generative AI Statement

Within this class, you are welcome to use foundation models (e.g., ChatGPT, Copilot, etc.) as a tool to help you be more productive and resourceful in a shorter amount of time (This constitutes the explicit permission referenced in the Academic Ethics Policy above). Teacher burnout is very real, and I believe that these tools are our future (and our helpers!) However, keep in mind that all large language models still have a tendency to produce incorrect facts, fake citations, and lifeless language. This technology is still very new and it's up to you to recognize inaccuracies and add **your unique voice**. Image generation models can occasionally generate highly offensive products. You will be responsible for any inaccurate, biased, offensive, or otherwise unethical content you submit regardless of

whether it originally comes from you or a foundation model. If you use a foundation model, its contribution must be acknowledged in the assignment submission; you will be penalized for using a foundation model without acknowledgement. Having said all these disclaimers, the use of foundation models *is encouraged*, as it may make it possible for you to submit assignments with higher quality, in less time! Bottom line – don't be afraid to use (and then cite) AI models like ChatGPT. But! Also keep in mind that AI can only take your work so far. It's up to you to revise, add, and *humanize* your work for the sake of your own identities as a future teacher and professional, and the sake of your future students.
