Course Description

This course provides graduate-level chamber music instruction, emphasizing collaboration, artistic development, and professional musicianship. Students will participate in coached ensemble sessions, perform in formal recitals, and develop skills essential to professional ensemble playing.

Professional Musicianship

Professional musicianship is **fundamental** to effective communication, time management, and the overall level of performance. Students are expected to:

- Demonstrate responsibility, punctuality, and preparedness for all rehearsals, lessons, and performances.
- Engage in respectful and constructive communication with ensemble members and the instructor.
- Maintain a high standard of individual and ensemble performance.

Modality

- Weekly coaching sessions with the instructor will be arranged at a mutually agreed-upon time.
- Students are expected to rehearse independently with their chamber group prior to each coaching session to ensure productive instruction.

Performance Opportunities

Students are encouraged to participate in additional performance opportunities beyond class rehearsals, including:

- General or Area Recital Hour Performances – a valuable way to gain performance experience and share repertoire with the broader School of Music community.

- Woodwind Area Chamber Music Recital – scheduled for April 13 at 5:30 PM in Sursa Hall, offering an opportunity to showcase chamber music projects in a formal recital setting.

Other performance opportunities may also be pursued with the instructor’s permission. Please notify the instructor in advance to ensure scheduling and repertoire considerations are managed appropriately.

Expectations for Rehearsals and Preparation

- Arrive on time and fully prepared with all assigned music.
- Individual practice and ensemble rehearsals outside of coaching sessions are critical for ensemble success.
- Active participation and constructive contribution to rehearsals are required.

Student Academic Ethics Policy

Honesty, trust, and personal responsibility are fundamental attributes of the university community. Academic dishonesty and other forms of academic misconduct threaten the foundation of an institution dedicated to the pursuit of knowledge and will not be tolerated. To maintain its credibility and reputation, and to equitably assign evaluations of scholastic and creative performance, Ball State University is committed to maintaining a climate that upholds and values the highest standards of academic integrity. Visit the VPAA's [academic integrity website](#) (Students tab) for resources on understanding academic integrity, citing sources properly, and avoiding inadvertent academic dishonesty. To learn about BSU's academic integrity expectations and students' rights, please read the University [Student Academic Ethics Policy](#).

Generative AI Statement

[It is up to the faculty and/or their academic unit to determine if, when, and how generative AI use is permitted. It is strongly recommended that faculty clearly communicate their expectations about students' use of AI in their course and/or on specific assignments. Note that many applications (e.g. Grammarly, Microsoft Word, Canva, OneNote, and Evernote) have AI built-in features such as text predictions and AutoComplete as well as organizing and summarizing information. Below are potential statements, based on Perkins et al. (2024) [AI Assessment Scale](#) and the [GAI Use Scale](#), that faculty may copy verbatim or modify to fit their needs for the entire course or for specific assignments. Faculty are encouraged to engage in dialogue with their students throughout the course about the ethical use of generative AI. For generative AI and academic integrity resources, see the [VPAA's website](#); for AI information, tools, resources, and courses, see [AI Initiatives at BSU](#).]

No Generative AI Use

All work conducted and/or submitted in this course should reflect your own ideas and demonstrate your current knowledge, abilities, and skills. Therefore, generative AI should not be used to complete any portion of the assignment(s). Doing so constitutes a violation of Ball State University's [Student Academic Ethics Policy](#).

Some Use of Generative AI Permitted Under Some Circumstances or With Explicit Permission

You may use generative AI applications for some work submitted in this course. You will be informed as to when, where, and how these tools are permitted to be used, along with guidance for attribution. Any use outside of this permission constitutes a violation of Ball State University's [Student Academic Ethics Policy](#).

Full Use of Generative AI Permitted/Encouraged Within Specified Guidelines

You are encouraged to use generative AI applications for all work submitted in this course. However, you must cite any AI-generated material that informed your work. In this class, software may be used to record live class discussions. As a student in this class, your participation in live class discussions may be recorded. These recordings typically will be made available only to students enrolled in the class, to assist those who cannot attend the live session or to serve as a resource for those who would like to review content that was presented. Students who prefer to participate via audio only will be allowed to disable their video camera so only audio will be captured. Students who prefer to listen only must disable their audio capability and visual camera. If you have concerns, please discuss these options with me.
